ORGANISATION FOR ECONOMIC  
CO-OPERATION AND DEVELOPMENT

# Directory of Bodies of the OECD

JUNE 2011

## INTRODUCTION

Article 9 of the Convention of 14th December 1960 on the OECD states that "The Council may establish an Executive Committee and such subsidiary bodies as may be required for the achievement of the aims of the Organisation".

This directory presents the bodies established by the Council which are currently operative. It includes the sub-committees, working parties, groups of experts, *ad hoc* groups, etc. which those bodies have in their turn set up to assist them in their work. For ease of reference, the titles of the principal bodies are framed; those of their working parties are underlined; and those of third-level sub-groups are in italics.

For each body listed, information is given concerning the chairmanship and vice-chairmanship(s), membership (in cases where the body does not include all OECD Members or where non-Members of the Organisation are full participants in its work), observers, date of creation, duration and mandate.

It should be noted that some bodies have been in continuous existence for a lengthy period and that their functions have evolved. Moreover, certain bodies have a precisely defined field of action and/or a sizeable sub-structure, while the definition of the competence of others has remained very broad. The present functions of some bodies, or the relative importance of their activities, may not, therefore, always be clearly and completely reflected by the texts of the mandates alone.

This compilation is updated and published annually. The information in this edition applies to the situation as of March 2011. An electronic version is also available on the OECD Internet Site (<http://www.oecd.org>).

### Extract of Summary Record [C/M(2005)4]

"38. PROPOSAL FOR IN-DEPTH EVALUATION AT THE OECD

THE COUNCIL

...

b) noted document C(2004)190 and its CORR1;

...

d) recalled the ten principles agreed in April 2004 to guide the development of in-depth evaluations [C(2004)91];

e) agreed:

i) that the overarching goal of in-depth evaluation at the OECD is to provide a mechanism through which Council can assess whether Committees are conducting processes, delivering outputs and achieving impacts that are in line with Members policy expectations and priorities and with the comparative advantage of the OECD.

...

viii) that a sub-group of the Council, comprising five of its members proposed by the Chair of the Executive Committee and designated by Council for one year, would be

---

\* The Evaluation Committee has succeeded the sub-group created in 2005 [see C/M(2007)17, item 237b)]

established before the end of February to agree the terms of reference and methodology for evaluation; review the evaluations themselves and present the Evaluation Report to Council; and monitor the follow-up of eventual recommendations arising from the evaluations;

- ix) that in-depth evaluations conducted by the Evaluation Sub-group would follow the steps described in "Section VI, How In-depth Evaluations would be conducted" of document C(2004)190 as amended by this decision

..."

Extract of Summary Record [C/M(2006)16]

"210. IN DEPTH EVALUATION: FOLLOW-UP REPORT TO THE REVIEW OF THE INITIAL EXPERIENCE

THE COUNCIL

...

b) welcomed the measures proposed for broadening and deepening the evaluation work, and for refining its presentation and review as set out in Section I of document C(2006)124/REV1;

...

d) approved the recommendations for associating evaluations of Part II programmes with the in-depth evaluation mechanism as proposed in Section III of document C(2006)124/REV1, and requested the Secretariat to take the appropriate actions for their implementation;"

Extract of Summary Record [C/M(2008)4]

"50. IN-DEPTH EVALUATION: THE WAY FORWARD

THE COUNCIL

...

d) agreed to use evaluation results with the aim of identifying and promoting the dissemination of good practices across the Organisation, and noted that future in-depth evaluations will further take into account salient issues pertaining to the functioning of committees, including the implementation of the Rules of Procedure;"

#### “STATUTE OF THE PENSION BUDGET AND RESERVE FUND

...

#### Part II – Fund Management and Governance

##### Article 3

##### General Principles

1. The Fund shall be managed by a Management Board composed of members named by Council on the proposal of the Member countries, the Secretary-General and the Staff Association.
2. The basic mission of the Management Board, which operates subject to control of the Council, is to propose to the Council for approval the general policies, goals and guidelines for investment of the assets of the Fund, to give external service providers the mandates necessary for the management of the Fund, and to assure that the Council approved policies are respected.
3. The operating budget of the Fund will be approved by Council.
4. The Fund will be administered and audited in accordance with the Financial Rules and Regulations of the Organisation.
5. The Management Board has no responsibility for the operation of the Pension Scheme and the payment of benefits to individuals other than the release of funds as required under Article 2, paragraph 4.
6. The Management Board is assisted by a Fund Secretariat designated by the Secretary-General on recommendation of the Management Board.
7. The Management Board will report at least twice annually to Council on the status of the Fund.

...

## Article 5

### Functions of the Management Board

1. Subject to any decisions of the Council, the Management Board shall:
  - a) submit to Council, for approval, a code of conduct;
  - b) submit to Council, for approval, proposals for the general policies, goals and guidelines for investment of the assets of the Fund;
  - c) select, in accordance with the Financial Regulations, Rules and Instructions of the Organisation, the external service providers necessary for the management of the Fund (e.g., investment advisers, investment managers, actuaries and custodian banks.);
  - d) review the operations of the Fund and verify their conformity with the policies, goals, and guidelines approved by the Council;
  - e) as necessary, bring to Council's attention any issue concerning the operation of the Fund;
  - f) approve, on the proposal of the Fund Secretariat, the Fund's operating budget and annual financial statements and submit them to Council for final approval; and
  - g) carry out other tasks as assigned by Council.
2. The Management Board shall report at least twice annually to Council on the status of the Fund. Every five years, the Management Board will carry out a thorough review of the Fund's investment policies, goals, guidelines and performance, its actuarial assumptions, rate of contribution and its capitalisation target and report its findings, decisions and recommendations to Council.

## Article 6

### Meetings and Decisions of the Management Board

1. The Management Board will establish its governing rules of procedure.
2. The Management Board shall meet as needed to carry out its functions but no less than quarterly, or at the request of its Chair or the majority of its members.
3. Decisions are taken by a majority of the Management Board members, with the Chair or, in his or her absence, the Vice-Chair having the casting vote."

<sup>2</sup> In accordance with the provisions of Article 13 of the Convention and Supplementary Protocol No.1 to the Convention, the European Commission takes part in the work of the Governing Board.

## THE COUNCIL,

Having regard to the Convention on the Organisation for Economic Co-operation and Development of 14th December 1960, (hereinafter called the "Convention"), and, in particular, Articles 1 b), 2 e), 3, 5 a), 12 and 20 of the Convention;

Having regard to the Resolution of the Council adopted at the Meeting of Ministers on 17th November 1961, on Terms of Reference for a Development Centre of the Organisation [Documents OECD/C(61)54, paragraph 11; OECD/C/M(61)7, Item 52];

Having regard to the Financial Regulations of the Organisation and, in particular, to Articles 5 and 15 b) thereof;

Having regard to the Staff Rules and Regulations and to the Rules and Regulations on Experts and Consultants of the Organisation and, in particular, to Regulation 2 b) thereof;

Recognising that there exists in participating countries a great amount of knowledge and experience on the problems of economic development and on the formulation of general economic policies which could be adapted to countries or regions in the process of economic development, and that this would contribute to achieving the objectives of the Organisation set out in the Convention by the placing of such knowledge and experience at the disposal of the countries concerned;

### DECIDES:

#### Article 1

There is hereby established, within the framework of the Organisation, a Development Centre (hereinafter referred to as the "Centre").

#### Article 2

The purpose of the Centre shall be to bring together the knowledge and experience available in participating countries of both economic development and of the formulation and execution of general economic policies; to adapt such knowledge and experience to the actual needs of countries or regions in the process of economic development and to place the results by appropriate means at the disposal of the countries concerned. In accomplishing this purpose, the Centre shall in particular take into account the interdependence of the political, economic, and cultural conditions existing in the countries in the process of economic development.

#### Article 3

The Centre shall undertake the activities appropriate to achieve its purpose as defined in Article 2 in the context of any directives issued by the Council. It may, in particular, engage in training and research, and organise conferences, symposia and other meetings. It may also help meet the needs for advisory services for institutions engaged in teaching, training, or research, or for less-developed countries at their request, subject to Council approval when such services are rendered to Governments of non-participating countries.

#### Article 4

The Centre should establish with other international organisations and with national institutions concerned with economic development such working relations as may be appropriate to facilitate the accomplishment of its tasks. Such working relations should in particular allow the Centre to take full advantage of the work of these organisations and institutions. In order to accomplish its purposes the Centre may also encourage, promote and assist the activities of other institutions or organisations.

#### Article 5

The Centre shall report each year to the Council on its activities. It shall submit, either on request by the Council or on its own initiative, other communications to the Council.

#### Article 6

*Article 6 deleted by Decision of the Council of 22 September 2002 [C/M(2002)18, Item 258 c)].*

#### Article 7

The Secretary-General, on the proposal of the President<sup>3</sup> and with the approval of the Council, may name advisers who shall be consulted by the President as appropriate in the exercise of his duties. The Advisers shall be selected on the basis of their expert knowledge of problems of economic development or on the basis of the functions they may hold with other institutions or in countries in the process of economic development.

#### Article 8

- a) The staff of the Centre shall form part of the Secretariat of the Organisation.
- b) Notwithstanding the provisions of Regulation 2(b) of the Rules and Regulations on the Experts and Consultants of the Organisation, the appointment of individuals as consultants to the Centre may be made for periods of up to three years.

#### Article 9

The expenditure of the Centre shall be defrayed from assets earmarked for it in Part II of the Budget of the Organisation.

#### Article 10

Notwithstanding the provisions of the Financial Regulations, the Council may authorise the Secretary-General to seek and accept voluntary contributions, other resources, and payment for services rendered by the Centre. The Council may also authorise the Secretary-General to commit and expend such funds for periods of more than one year.

#### Article 11

Participating countries shall be the Member countries which have accepted this Decision and any other country which has been invited by the Organisation to participate and which has addressed a written acceptance to the Secretary-General, including acceptance to contribute to the expenditure of the Centre. Any participating country may withdraw by giving written notice to the Secretary-General. Such a withdrawal shall take effect on 31 December of the year following the date of receipt of such notice. The Organisation may suspend or terminate participation of a non-Member country by giving one month's written notice of suspension or twelve months' written notice of termination."

<sup>3</sup> As of the Decision of the Council of 22 September 2002, the Development Centre is headed by an A7-level official [C/M(2002)18, item 258].

## GLOBAL FORUM ON DEVELOPMENT<sup>1</sup>

**Chair:** No formally-appointed Chair

**Date of creation:** 1st January 2009

**Duration:**<sup>2</sup> Unspecified

**Mandate:**

- Council Decision regarding a Global Forum on Development adopted at its 1130th session held on 23 February 2006 [C/M(2006)4, item 53 and C(2005)196/REV1]
- Revision of the mission statement discussed by the DAC on 23 October 2008 and approved by written procedure [COM/DCD/DEV(2008)4/FINAL]

### Extract from document COM/DCD/DEV(2008)4/FINAL

#### "Mission Statement

1. The OECD Global Forums were created in 2001 as one of the main pillars of the OECD's global relations programme [C/PWB(2000)01/02/FINAL]. The Forums are designed to cover "transboundary" themes, of concern to OECD members and non-members, and to provide a basis for building core networks of high-level policy makers, policy analysts and other stakeholders. The Forums help build consensus on more effective policy towards achieving stated government objectives.

2. The Global Forum on Development, which is jointly led by the OECD Development Centre and OECD Development Co-operation Directorate, addresses priority issues in the field of development policy through multi-year thematic cycles [C(2005)196]. It is structured around an annual meeting and a limited number of informal preparatory or follow-up events [COM/DCD/DEV/RD(2007)1; COM/DEV/DCD(2008)2].

3. The Forum operates around multi-annual themes, proposed by an Informal Steering Group and approved by the DAC and Development Centre Governing Board. Themes are designed to align closely with the Development Centre and DAC programmes of work and may be adjusted if and as necessary following the DAC's reflection exercise [DCD/DAC(2008)28/REV1].

4. The Global Forum on Development will help:

- advance understanding of global development issues and improve the quality and development impact of OECD products. The Forum will encourage dialogue with a wide range of stakeholders outside the OECD, supporting the organisation's strong and visible role on key global development issues;

---

<sup>1</sup> Information on this Global Forum is provided for the sake of completeness. However, please note that in accordance with Council decision C(2008)208/FINAL, Global Forums are not official OECD bodies.

<sup>2</sup> The duration of Global Forums is a function of the duration of their parent Committee(s). By default, it would coincide with the duration of the Committee whose mandate expires first and be automatically renewed together with this Committee's mandate. Earlier expiration dates would be possible.

- enable a core network of participants to follow key policy issues of current and emerging global relevance on a multi-annual basis, and contribute to policy progress and consensus with non-members through OECD methods of work;
- enhance OECD-wide coherence on development related work, promoting horizontal and multidisciplinary approaches within the organisation and in partnership with other international organisations.”

#### “MANDATE FOR THE ANNUAL MEETING OF SUSTAINABLE DEVELOPMENT EXPERTS (AMSDE)

1. The Annual Meeting of Sustainable Development Experts (AMSDE) shall:
  1. Advise the Organisation on how to mainstream sustainable development across the work programme of the OECD, focusing on policy coherence, the integration of economic, social and environmental concerns, and the adoption of long-term orientations. Specifically, the AMSDE will:
    - Review an annual survey of ongoing, OECD-wide work on sustainable development and identify major gaps from the sustainable development perspective;
    - Identify obstacles to policy reform and recommend topical sustainable development issues for discussion at a higher level;
    - Maintain close contacts among OECD Committees and Directorates, including through joint sessions with Committee Chairs/Bureaus, on specific sustainable development topics; and
    - Encourage the inclusion of sustainable development perspectives in the development of analytical approaches, statistics and methodologies in the work of OECD Committees for use by Member countries.
  2. Share best practices for sustainable development strategies in OECD Member countries, and engage also with non-Member countries, particularly the Accession countries and the Enhanced Engagement countries.
  3. Co-operate with other international and regional organisations, including contributions to the United Nations Commission on Sustainable Development

(UNCSD), to promote synergies and avoid duplication in promoting sustainable development.

2. The Annual Meeting of Sustainable Development Experts will be composed of representatives of all Member Countries and will designate its Chair.
3. The Annual Meeting of Sustainable Development Experts will report annually to the Council, including recommendations on priority cross-cutting areas for future work from the sustainable development perspective.
4. The mandate of the Annual Meeting of Sustainable Development Experts will remain in force until 31 December 2010, when the Council will decide in what form, if any, the work on sustainable development should continue.”

## LIAISON COMMITTEE WITH INTERNATIONAL NON-GOVERNMENTAL ORGANISATIONS

---

<b>Chair:</b>	Mr. Angel Gurría Secretary-General	(OECD)
<b>Members:</b>	Open to all Member countries	
<b>Date of creation:</b>	13th March 1962	
<b>Duration:</b>	Unspecified	
<b>Mandate:</b>	Decision of the Council [C(62)45] on Relations with International non-Governmental Organisations, as amended by [C(64)181, C(66)144(Final) and C(89)15(Final)]	

### Decision of the Council [C(62)45], as amended

“THE COUNCIL,

Having regard to Article 12 of the Convention on the Organisation for Economic Co-operation and Development of 14th December 1960;

Having regard to the Rules of Procedure of the Organisation and in particular Rule 10 thereof [OECD/C(61)21];

Considering it desirable to specify the fundamental rules governing the procedure for liaison and consultation between the Organisation and international non-Governmental organisations interested in its activities;

Recognising in particular the importance emphasized in paragraph 132 of the Preparatory Committee's Report of maintaining and developing consultations between the Organisation and representatives of labour and management of Member countries;

DECIDES:

1. The Secretary-General shall be generally responsible for maintaining liaison with international non-Governmental organisations and for preparing and arranging consultations with those most representative of the different sectors of economic life.
2. Any international non-Governmental organisation may be consulted by the Organisation provided that it satisfies the following three conditions:
  - a) It has wide responsibilities in general economic matters or in a specific economic sector.
  - b) It has affiliated bodies belonging to all or most of the Member countries in the organisation.
  - c) It substantially represents the non-Governmental interests in the field or sector in question.
3. The Secretary-General shall prepare a list of the organisations specified in paragraph 2 above and shall submit it for the approval of the Council.
4. Each organisation so designated may:

- a) Hold exchanges of views with the Organisation at meetings convened either at its own request or on the initiative of the Secretary-General dealing with subjects of common interest or subjects determined beforehand which have a bearing on the work of the Organisation;
  - b) Receive general information on the work of the Organisation and certain of the Organisation's documents or summaries thereof, whenever the Secretary-General considers such documents or summaries useful for the study of a particular subject.
5. At the meetings specified in paragraph 4 a) above, the organisation in question may be invited either to express its views orally on questions on the Agenda or to submit a memorandum stating its position.
6. Such meetings shall be convened and organised by a Liaison Committee of which the Chairman shall be the Secretary-General and which shall be open to all members of the Council.
7. All Member countries may designate to attend these meetings representatives of their Governments and/or if they so desire, representatives of national organisations in the field concerned.
8. Where appropriate and in order to make allowance in arranging such consultations, for any difference which may exist between the interests of such organisations, the Secretary-General may make with any of the organisations specified in paragraph 2 above or, if necessary, with any other international non-Governmental organisation, such arrangements as may be appropriate and as shall be previously approved by the Council.
9.
  - a) International non-Governmental organisations, whether or not specified in the list in paragraph 3 above and which are active in a sector covered by the aims or falling within the province of the Organisation, may be kept informed of such part of the Organisation's work as is likely to be of interest to them and may, in certain cases, be consulted for the study of a given question.
  - b) Such consultations shall be held either in application of Rule 10 b) of the Rules of Procedure of the Organisation or at special meetings arranged between the representatives of such organisations and the officers of such subsidiary bodies of the Organisation as are interested, the Secretary-General, in each case, first ascertaining the opinion of the Chairman of the subsidiary body in question.
  - c) The provisions of paragraph 7 shall also apply to the cases provided for in sub-paragraph b) above.
  - d) The Secretary-General shall periodically inform the Council of the names of the Organisations not specified in the list referred to in paragraph 3 above, to which this paragraph applies."

## LIAISON COMMITTEE BETWEEN THE RUSSIAN FEDERATION AND THE OECD

---

<b>Chair:</b>	Mr. Angel Gurría Secretary-General	(OECD)
<b>Members:</b>	Open to all Member countries  Russian Federation	
<b>Date of creation:</b>	27th May 1997	
<b>Duration:</b>	Unspecified	
<b>Mandate:</b>	Protocol on the Establishment of the Liaison Committee between the Russian Federation and the OECD approved by Council at its 901st session held on 22 and 23 May 1997 [C/M(97)12, item 165 and C(97)116/Final] and signed on 27 May 1997	

PROTOCOL BETWEEN THE RUSSIAN FEDERATION AND THE ORGANISATION FOR  
ECONOMIC CO-OPERATION AND DEVELOPMENT (OECD) ON THE ESTABLISHMENT OF THE  
LIAISON COMMITTEE BETWEEN THE RUSSIAN FEDERATION AND THE OECD  
[C(97)116/FINAL]

“THE RUSSIAN FEDERATION AND THE ORGANISATION FOR ECONOMIC CO-OPERATION AND DEVELOPMENT, HEREAFTER ‘THE PARTIES’,

Having regard to the Declaration on Co-operation between the Russian Federation and the OECD (hereafter ‘the Declaration’), signed in Paris on June 8, 1994, and in particular paragraph 5 thereof,

Having regard to the letter from the Prime Minister of the Russian Federation to the Secretary-General of the OECD, dated 20 May 1996, and to the reply by the Secretary-General, dated 6th February 1997,

Determined to intensify the co-operation between them in accordance with the Declaration in order to assist the Russian Federation in its progress towards establishing a fully-fledged market economy within a framework of democratic institutions,

Mindful that this co-operation should help the Russian Federation to meet and sustain all the conditions for its membership in the OECD, an ultimate goal shared by both Parties, and that it should therefore focus on the areas that are relevant to this end,

Have agreed on the following:

### Article 1

The Parties establish a Liaison Committee (hereafter ‘the Liaison Committee’) in order to monitor and review the implementation of the annual work programmes provided for in paragraph 3 of the Declaration and assess their results as well as to discuss progress in the economic reform process in the Russian Federation, the co-operation between the Parties and other issues of mutual interest.

### Article 2

The Liaison Committee consists, on the one hand, of Delegations from all OECD Member countries and of members of the OECD Secretariat and, on the other hand, of representatives of the Governmental bodies of the Russian Federation, supported by appropriate experts.

### Article 3

The Liaison Committee will meet periodically, as necessary and agreed, both at the level of Permanent Representatives to the OECD and senior officials representing the Russian Governmental bodies, and at the level of Ministers from both Parties, including on the occasion of OECD Council Ministerial sessions.

The Liaison Committee will adopt its agenda and any rules of procedure that might be necessary for the efficient conduct of its work.”

<b>Chair:</b>	Mr. Bernd Pfaffenbach	(Germany)
<b>Members:</b>	Open to all Member countries	
<b>Date of creation:</b>	10th October 1972	
<b>Duration:</b>	Unspecified	
<b>Mandate:</b>	Minutes of the 293rd and 305th sessions of the Council [C/M(72)15 (Final) Annex and C/M(72)27(Final) Part I]	

### Extract from document C/M(72)15(Final) Annex

#### "THE COUNCIL

(128) noting the intentions of Member Governments to work for reform of the international monetary system and, at the same time, to achieve further progress towards trade liberalisation;

considering that negotiations in these fields will take place in world-wide organisations;

considering that the present situation required more information, active co-operation and consultation among Member Governments;

1. agreed that the OECD has an important role to play in analysing and consulting on international monetary, trade, investment and related economic issues, including particularly their interrelationships;
2. instructed the competent bodies of the OECD to continue their work on international monetary and trade questions, recognising that negotiations are due to take place in other organisations;
3. agreed that, to this end, meetings of the Council at Ministerial level may be desirable, and that the competent bodies of the Organisation, particularly the Executive Committee, the Economic Policy Committee and its appropriate Working Parties, and the Trade Committee, should discuss these questions;
4. agreed that Member countries will be represented at an appropriately high level in the meetings referred to above;
5. instructed the Secretary-General to propose to the Council such adaptation and improvement of existing structures and procedures of the Organisation as may appear appropriate to discharge adequately and in the most effective manner the role agreed above.

The Council, in adopting the foregoing text, noted that, in making proposals pursuant to paragraph 5 of the text, the Secretary-General would take into account the statements made during the discussion of this agenda item."

"THE COUNCIL

- (242)
- a) recalled the guidance given at Ministerial level at its 293rd Meeting, following the examination of international monetary and trade issues, on the way in which the Organisation should contribute to discussion in these fields;
  - b) recalled that Ministers agreed, to this end, that meetings of the Council at Ministerial level may be desirable, and that the competent bodies of the Organisation, particularly the Executive Committee, the Economic Policy Committee and its appropriate Working Parties, and the Trade Committee, should discuss these questions;
  - c) regarded the report by the High-level Group on Trade and Related Problems [C(72)175], which contains a series of considerations corresponding to the preoccupations of Ministers on the interrelationships between the various issues discussed, as a useful contribution to the discussions on international monetary, trade, investment and related economic issues in the above-mentioned Committees;
  - d) invited the Executive Committee to carry forward, on the basis of the Ministerial guidance referred to above, and in the light of the considerations contained in the Report by the High-level Group, the discussions on international monetary and trade issues initiated by Ministers;
  - e) agreed that for the discussions foreseen in d) above, the Executive Committee will meet at the high level appropriate and that the provisions for taking part in such discussions by Member countries not members of that Committee are satisfied;
  - f) invited the Executive Committee to meet as soon as possible, at the high level appropriate, to organise its work under the present instruction;
  - g) requested the Secretary-General to keep the Council informed on the progress of the work under the present instruction and agreed to discuss on the basis of such reports questions concerned with holding a meeting at Ministerial level."

"11. The Committee agreed upon arrangements to enable the Secretariat to prepare, for its next meeting, forecasts of the broad movements of the supply and use of resources in 1964. The Secretariat will be communicating with Delegations to this end.

The Economic Policy Committee has subsequently confirmed that its Working Group on Short-term Economic Prospects should meet shortly before meetings of the Committee."

## **WORKING PARTY NO. 1 ON MACRO-ECONOMIC AND STRUCTURAL POLICY ANALYSIS**

<b>Chair:</b>	Mr. Joe Grice	(United Kingdom)
<b>Vice-Chair:</b>	Mr. Lorenzo Codogno	(Italy)
<b>Members:</b>	Open to all Member countries	
<b>Observers (International Organisations):</b>	Bank for International Settlements (BIS) European Free Trade Association (EFTA) International Monetary Fund (IMF) World Bank	
<b>Date of creation:</b>	20th May 1980	
<b>Duration:</b>	31st December 2013	
<b>Mandate:</b>	New Working Party on Macro-Economic and Structural Policy Analysis [CPE(80)7]	

### Annex to document CPE(80)7

“1. This Working Party is charged with the policy analytic aspects of macro-economic and structural problems. With a view to highlighting the analytic aspects of policy issues and proposals and with special emphasis on the medium term, it will report regularly to the Economic Policy Committee its findings with respect to the means of achieving the main objectives of economic policy, notably growth, high employment, welfare and price stability, using, where appropriate, quantitative assessment. The Working Party will in particular consider:

- i) Control of demand and inflation, including the role of fiscal policy, monetary policy and prices and incomes policy;
- ii) Supply side policies, including policies affecting labour supply, investment, factor mobility and energy;
- iii) Allocation and distribution of resources, including public expenditure and revenue decisions, financing and analysis of major expenditure programmes.

2. The Working Party will call as necessary on subgroups to prepare the technical aspects of its work. Subgroups will, in general, be *ad hoc*, temporary, and tailored to a specific technical question.

3. In executing its mandate, the Working Party will bear in mind the special problems of the less-industrialised Member countries as well as relations with non-Member countries. In its activities it will take into account related work being done in other Working Parties and Committees of the OECD and in other international fora.”

**WORKING PARTY NO. 3 ON POLICIES FOR THE PROMOTION OF BETTER INTERNATIONAL  
PAYMENTS EQUILIBRIUM\***

<b>Chair:</b>	Charles Bean	(United Kingdom)
<b>Members:</b>	Canada France Germany Italy Japan Netherlands	Sweden Switzerland United Kingdom United States European Commission
<b>Observers (International Organisations):</b>	Bank for International Settlements (BIS) International Monetary Fund (IMF)	
<b>Date of creation:</b>	30th September 1961	
<b>Duration:</b>	31st December 2013	
<b>Mandate:</b>	- Sixth Meeting of the Economic Policy Committee Report to the Council by the Chairman [C(61)66] - Agreed Minutes by the Economic Policy Committee 19th April 1961 [CPE(61)4]	

Extract from the Report to the Council by the Chairman [C(61)66]

"1. The Economic Policy Committee held its Sixth Meeting on 18th and 19th April. This was the first meeting since the ratification of the OECD Convention by the United States and Canada and, in anticipation of their full membership of the OECD, both countries were strongly represented.

2 At the beginning of the meeting, the Head of the United States Delegation, Mr. Heller, said that he could give every assurance that the United States would be an active, interested and flexible member of the new Organisation. His Government attached particular importance to this meeting of the Committee and they looked forward to close and continuous working partnership within the Committee to deal with economic problems as they unfolded.

3. In pursuit of this aim, the United States Delegation made proposals for extending and intensifying the Committee's work. These were warmly welcomed by the other members of the Committee. Following discussion of these proposals, it was decided to establish two working groups to study and consult upon problems of policy in two areas where such action seemed likely to produce the most valuable results. The first group would deal with the problem of economic growth. The second group would deal with the balance of payments and with monetary, fiscal and other related policies. The Committee hoped to consider reports from these two groups with a view to making further proposals for action to the Ministerial Council of OECD."

Extract from document CPE(61)4

---

\* To help prepare the technical background for its meetings and assist the Secretariat in its assessment of monetary policy issues, the Working Party asked the Secretariat to convene a small informal group of monetary experts, drawn from Member countries of the Working Party on a personal basis. The Secretariat has taken the initiative to seek consultation from such a group about once a year, starting in the late 1960s.

"The Economic Policy Committee has considered the proposals made by the United States Delegation at its meeting on 18th-19th April 1961, for a programme of closer co-ordination of economic policy [CPE(61)2]. The Committee agrees to set up two Working Parties to deal with the problems outlined below, and to submit their findings and recommendations to the full Committee as soon as possible:

- i) Policies for the promotion of economic growth .....
- ii) Policies for the promotion of better international payments equilibrium

The Working Party will analyse the effect on international payments of monetary, fiscal and other policy measures and will consult together on policy measures, both national and international, as they relate to international payments equilibrium."

<b>Date of creation:</b>	22nd July 1970	
<b>Duration:</b>	31st December 2013	
<b>Mandate:</b>	Resolution of the Council revising the Mandate of the Environment Policy Committee [C(2009)47/CORR1] approved by the Council on 14 May 2009 at its 1195th session [C/M(2009)9, item 111]	

Resolution of the Council [C(2009)47/CORR1 and C/M(2009)9, item 111]

“THE COUNCIL,

Having regard to Articles 1, 2, 5(a) and 12 of the Convention on the Organisation for Economic Co-operation and Development of 14 December 1960;

Having regard to the Rules of Procedure of the Organisation, and in particular Rules 1 and 21 c);

Having regard to the mandate of the Environment Committee [C(85)47/FINAL], as extended and amended by the Resolutions of the Council of 23 February 1990 [C/M(90)4/FINAL, Item 48], 12 March 1992 [C(92)25/FINAL], 27 February 1997 [C(97)9/FINAL], 24 June 1999 [C(99)76/FINAL] and 9 June 2004 [C(2004)99/REV1];

Having regard to the proposed revision of the mandate of the Environment Policy Committee C(2009)47;

Recognising that the quest of societies for economic well being and improved living standards often places undesirable and sometimes unanticipated pressures on the natural environment and on finite natural resources;

Mindful also of the potential risk to human health and well-being from certain socio-economic activities;

Aware that sustainable development requires that economic, environmental and social policies be pursued by governments in an integrated and reinforcing manner;

Believing that the effective and efficient implementation of environmentally-related policies is dependent on sound economic analysis, technological innovation and diffusion, and strong legal, institutional and administrative arrangements;

Aware also that close co-operation among governments, industry, labour and non-governmental organisations, as well as public participation and access to environmental information, are critical to building and maintaining public support for environmental investments and policies;

Conscious that OECD Members have a responsibility to safeguard their own environments, and have expressed a commitment to assist other nations in addressing their environmental challenges at the national level as well as to engage them in co-operative efforts to confront regional and global-scale environmental threats;

Taking into consideration the Strategic Vision adopted by EPOC to help guide work over the medium term and assist with the biennial Programme of Work and Budget cycle;

Recalling that OECD Environment Ministers, adopted in May 2001, the "OECD Environmental Strategy for the First Decade of the 21<sup>st</sup> Century", to provide clear directions for environmentally sustainable policies in OECD Member countries, and to guide the future work of the OECD in the field of environment. The Strategy identifies five inter-linked objectives for enhancing cost-effective and operational environmental policies in the context of sustainable development:

- Maintaining the integrity of ecosystems through the efficient management of natural resources.
- De-coupling environmental pressures from economic growth.
- Improving information for decision making: Measuring progress through indicators.
- The social and environmental interface: Enhancing the quality of life.
- Global environmental interdependence: Improving governance and co-operation.

Recalling that OECD Environment Ministers reviewed the implementation of the OECD Environmental Strategy in April 2004 and April 2008 and then also requested that EPOC start to work on updating the OECD Environmental Strategy as we move into the second decade of the 21<sup>st</sup> Century;

#### DECIDES:

1. The Environment Policy Committee will have the following responsibilities:
  - a) Provide a senior-level forum for Members to share views on, and consider policy responses to, major environmental issues and threats.
  - b) Encourage co-operation among Members in the pursuit of shared environmental objectives, including, *inter alia*, co-ordinated consultation on policies, approaches and major actions taken or proposed; work to identify the costs of inaction; data sharing; and joint research and analysis.
  - c) Promote, in support of sustainable development, the integration of environmental, economic and social policies, technological innovation and diffusion, and protection of unique environmental values and natural ecosystems.
  - d) Assess on a systematic basis the environmental performances of Members and selected non-Members in relation to their national and international policies and commitments.
  - e) Update, assess and report on the implementation of the "OECD Environmental Strategy for the First Decade of the 21<sup>st</sup> Century".

- f) Develop and promulgate environmental and decoupling indicators, and standardised, comparable sets of data and statistics, as a basis for identifying environmental trends, progress and deficiencies in individual Members and the OECD as a whole.
- g) In conjunction with the Chemicals Committee, develop guidance, methodologies and outreach documents related to the safety of chemical substances and products of modern biotechnology, and the release of chemicals to the environment.
- h) Conduct the examination of candidate countries in view of their accession to the OECD.
- i) Promote the sharing with non-Members, and in particular with Enhanced Engagement countries, of the environmental management expertise, information and experience which reside in Members and the OECD.
- j) Ensure that the views and expertise of non-government institutions are drawn upon in the conduct of OECD's environmental work, utilising, *inter alia*, the Business and Industry Advisory Committee to the OECD (BIAC), the Trade Union Advisory Committee to the OECD (TUAC) and relevant non-governmental organisations.

2. In the pursuit of these objectives, the Environment Policy Committee shall maintain close working relationships with other relevant bodies of the Organisation, seeking to ensure that environmental considerations are fully addressed in the overall work of the OECD, in particular work on sustainable development, in a well co-ordinated and horizontal manner.

3. The Environment Policy Committee shall also maintain, as appropriate, and in conformity with the OECD Convention and Rules of Procedure, relations with other international organisations, seeking to achieve co-ordinated and complementary work programmes in areas of shared interest and mutual benefit, and ensuring that the experience and expertise of other bodies is appropriately incorporated into OECD environmental work.

4. The mandate of the Environment Policy Committee shall remain in force until 31 December 2013.

## JOINT WORKING PARTY ON AGRICULTURE AND THE ENVIRONMENT

### **“Objectives**

The Joint Working Party on Agriculture and the Environment will provide a forum to exchange information, identify and analyse the implications for achieving environmentally sustainable agriculture of policies and market approaches in the context of technological change, agricultural policy reform and multilateral trade and environmental agreements, and communicate the results to the wider public.”

### **Terms of reference**

The Joint Working Party will:

Identify and analyse policy relevant domestic and trans-boundary issues at the interface between agriculture and the environment in both OECD and, where relevant, non-OECD countries; quantify the relationships between agriculture and the environment, including in a forward-looking perspective; monitor and evaluate policy measures and actions addressing environmental issues in agriculture; and provide guidance on an integrated and coherent approach for agricultural and environmental policies to help achieve sustainable agriculture.

Undertake the analysis of agricultural and environmental issues of relevance to policy makers; in particular to: co ordinate, undertake and review relevant work mandated by the two parent Committees; co-ordinate, receive reports and review relevant on going and proposed work carried out elsewhere in the OECD; advise and report to the parent Committees on new and emerging problems and major issues with respect to agri-environment relationships; identify successful policies and courses of action at national and international levels; and identify new initiatives for consideration by the appropriate bodies of the Organisation.

Co operate and liaise with other competent bodies in the OECD, and ensure appropriate co ordination with other relevant international organisations, in particular the Food and Agricultural Organisation of the United Nations, the United Nations

Environment Programme and the Commission on Sustainable Development and the Convention on Biological Diversity, and with relevant non-governmental organisations, representing the farming, agro-food industry, and environmental interests; strengthen efforts to present and communicate the work to relevant organisations, the media and wider public.

### **JOINT MEETINGS OF TAX AND ENVIRONMENT EXPERTS**

"1. The Committee on Fiscal Affairs (CFA) and the Environment Policy Committee (EPOC) agree to continue the Joint Meetings of Tax and Environment Experts, from the Working Party No2 on Tax Policy Analysis and Tax Statistics of the CFA, and the Working Party on Integrating Environmental and Economic Policies of EPOC.

2. Taking into account the OECD Green Growth Strategy, and the specific economic, fiscal and environmental conditions of OECD countries, the joint meeting of experts shall:

- a) monitor and analyse existing environmentally related taxes, fees and charges, including collecting and analysing data within a common statistical framework;
- b) assess the economic efficiency and environmental effectiveness of relevant taxes and tax reliefs as well as, where appropriate, related economic support measures, fees, charges and emission trading systems;
- c) examine further issues arising from the integration of environmental concerns into the design of tax systems and review practical implementation issues, drawing on country experience.

3. The joint meeting of experts will provide input into the OECD Green Growth Strategy and to follow-up work to this strategy involving consideration of tax and environment issues.

4. The joint meeting of experts will also monitor developments and contribute, where appropriate, to tax aspects of the follow-up to international climate change negotiations, including issues of achieving an effective and fair implementation.

5. The joint meeting of experts will report, on a regular basis, the findings of the Joint Meetings, including discussions of policy options and transmit these to the CFA and the EPOC.

6. The mandate shall remain in force until 31 December 2013, unless the CFA and the EPOC decide otherwise."

**“I. Objective**

1. The objective of the Working Group of National Co-ordinators of the Test Guidelines Programme is to direct and oversee the work on: (i) OECD Guidelines for the Testing of Chemicals, including, as appropriate, Test Guideline development and the facilitation and harmonisation of test method validation; (ii) Guidance Documents on testing issues; and (iii) Detailed Review Papers on the state-of science of defined hazard areas. This work is undertaken to meet the regulatory needs, animal welfare and cost considerations regarding test methods in member countries and interested non-member economies.

**II. Tasks**

2. The Working Group of National Co-ordinators of the Test Guidelines Programme, under the supervision of the Joint Meeting of the Chemicals Committee and the Working Party on Chemicals, Pesticides and Biotechnology, shall

- i. oversee the work of the Test Guidelines Programme which consists of:
  - the development of new and the updating of existing Test Guidelines to cover regulatory data requirements for the assessment of chemicals relating to the protection of man and the environment in member countries. Chemicals include but are not limited to pesticides and industrial chemicals,
  - the involvement in the validation of new and updated test methods, as appropriate;
  - the development of Guidance Documents providing: (i) further guidance on the use of Test Guidelines, (ii) testing strategies, or (iii) information on specific issues associated with the Test Guidelines Programme;

---

\* Provisional adherent to the Council Decisions Related to Mutual Acceptance of Data.

- the development of Detailed Review Papers, providing the current state-of-science in a particular test or hazard area; and
  - facilitating the active involvement of member countries and non-member economies and other stakeholders in projects in the development of Test Guidelines, Guidance Documents and Detailed Review Papers; and
  - the engagement in international co-operation, as appropriate, for the harmonisation of hazard and risk assessment of chemical substances to benefit both member countries and non-members.
- ii. direct and oversee the work of its subsidiary expert bodies, including:
- those for Endocrine Disrupters Testing and Assessment (EDTA) and Validation Management;
  - all *ad hoc* Expert Groups, established to assist in the development of specific Test Guidelines, Guidance Documents, Detailed Review Papers, and/or other Test Guideline-related documents;
- iii. review the progress made in the conduct of this work, identify new projects and update annually the workplan of the Test Guidelines Programme, taking into account other work under the Joint Meeting and work undertaken elsewhere, as appropriate;
- iv. maintain close working relations with other international organisations active in the area of method development for chemical hazard and risk assessment; and
- v. report on its activities to the Joint Meeting of the Chemicals Committee and the Working Party on Chemicals, Pesticides and Biotechnology.

3. Further details of tasks and responsibilities are provided in Guidance Document No.1 in the Series on Testing and Assessment, as amended in 2006 [ENV/JM/MONO(2006)20].

4. The Working Group of National Co-ordinators of the Test Guidelines Programme should meet when required by the needs of the Programme, but normally once per year.

### **III. Participation**

5. The Working Group of National Co-ordinators of the Test Guidelines Programme is comprised of National Co-ordinators (from member countries and non-member economies that adhere to the Council Decision on the Mutual Acceptance of Data) appointed by member countries or non-member governments, representatives of the European Commission, invited experts and, as appropriate, observers from other international organisations and other non-member economies. National Co-ordinators should be able to provide a co-ordinated national view with respect to all areas of the Test Guidelines Programme.

6. The Chair and Vice-Chair(s) should be National Co-ordinators and are elected by the Working Group of National Co-ordinators of the Test Guidelines Programme. The Chair and Vice-Chair(s) together should provide expertise on both human health and the environment, and will function as the main consultative body (the Bureau) for the Secretariat between meetings of the Working Group.”

#### **“I. Objectives**

1. The objectives of the Working Group on Good Laboratory Practice (GLP) are to facilitate and support the implementation by Member countries and interested non-members of the Council Acts (i) concerning Mutual Acceptance of Data in the Assessment of Chemicals [C(81)30(Final)], (ii) on Compliance with Principles of Good Laboratory Practice [C(89)87(Final)], and (iii) concerning the Adherence by Non-Member Countries to the OECD Council Acts related to the Mutual Acceptance of Data [C(97)114/Final]. This should be done by promoting a common understanding of, and harmonised approaches to, technical and administrative matters related to Good Laboratory Practice and monitoring of compliance with the GLP Principles.

---

\* Provisional adherent to the Council Decisions Related to Mutual Acceptance of Data.

## **II. Tasks**

2. The Working Group on GLP, under the supervision of the Joint Meeting of the Chemicals Committee and the Working Party on Chemicals, Pesticides and Biotechnology shall: a) foster direct exchange of information and sharing of experiences, in particular among GLP compliance inspectors; b) discuss and, to the extent possible, resolve issues of common concern, particularly those issues relevant to international recognition of GLP compliance monitoring using on-site evaluation visits as appropriate; c) foster the harmonisation and development of specific guidance on technical and administrative matters pertaining to GLP Principles and monitoring of compliance therewith, including training of GLP inspectors; d) assist non-members in establishing and implementing procedures consistent with those of OECD; and e) advise the Joint Meeting regarding major policy issues related to GLP and compliance monitoring.

3. The Working Group on GLP shall take into account relevant activities related to international standard setting and assessment of compliance as well as other international activities in the areas of interest to its work. It shall meet regularly, at least once a year, and report thereafter to the Joint Meeting.

## **III. Participation**

4. The Working Group on GLP should include persons nominated by governments who are responsible for GLP compliance monitoring in member countries and in those non-members which are members of that part of the Chemicals Programme related to the mutual acceptance of data, as well as from the European Commission. Participation should be limited to one person per authority. Observers from other non-members may take part in the framework of the 1997 Council Decision. A Chairman and a Vice-Chairman shall be elected by the Members of the Working Group for two-year periods.

## **IV. Term**

5. The Joint Meeting will assess the need for the continuation of the Working Group on GLP at the end of the next four-year phase of the Special Programme on the Control of Chemicals (31st December 2012)."

### Extract of document ENV/JM/M(2008)2, Annex IV

#### **I. Objective**

4. The objective of the Working Group on Pesticides (WGP) is to direct and oversee the work of the Pesticide Programme. The Working Group on Pesticides is a subsidiary body to the Joint Meeting of the Chemicals Committee and Working Party on Chemicals, Pesticides and Biotechnology. The term "pesticides" includes both chemical and biological pesticides.

#### **II. Tasks**

2. The Working Group on Pesticides shall:

- (i) oversee the work on pesticides which aims to (a) help member countries harmonise and improve the efficiency of pesticide assessment and control procedures, (b) minimise non-tariff trade barriers, and (c) reduce risks to human health and the environment from the use of pesticides. These goals will be pursued through activities including, but not limited to:
  - **Work sharing\* and harmonisation:** to facilitate and promote work sharing among OECD countries for pesticide evaluation (to support registration, re-registration and risk management) such that work sharing ultimately will become the routine way of working;
  - **Risk Reduction:** to exchange ideas and to facilitate and promote the development and implementation of risk reduction policies and practices in OECD countries;
  - **Communication and Co-operation:** to promote communication, collaboration and co-operation on work sharing and risk management among member countries and also with other stakeholders including industry, other interest groups and international organisations;

---

\* Work sharing is meant to include all types of sharing of work in pesticide review, from the ad-hoc exchange of information, to well structured divisions of work such as parallel reviews and joint reviews.

- (ii) review the progress made in the conduct of this work, identify new projects and update the work plan, taking into account other work under the Environment Policy Committee, the Joint Meeting of the Chemicals Committee and Working Party on Chemicals, Pesticides and Biotechnology, the Agriculture Committee and other relevant OECD Committees and Groups, and work undertaken elsewhere, as appropriate;
- (iii) maintain close working relations and co-ordinate activities related to agricultural pesticides and biocides with other international organisations and selected non-members;
- (iv) report on its activities to the Joint Meeting of the Chemicals Committee and Working Party on Chemicals, Pesticides and Biotechnology, and shall liaise with the Joint Working Party of the Committee for Agriculture and the Environment Policy Committee.

### **III. Participation**

3. The Working Group on Pesticides shall be comprised of the OECD member countries, the European Commission and observers (e.g. from IPCS, UNEP Chemicals, FAO). As appropriate, experts from non-member economies, environmental citizen organisations, PAN, EPPO, industry and grower associations can be invited. The Chair of the Working Group on Pesticides and a Vice-Chair shall be elected by the members for a term of three years. The Chair, Vice-Chair and chairs of the WGP steering groups, will function as the main consultative body for the Secretariat between meetings of the Working Group.

4. The Working Group shall meet when required by programme need, but no less than once per year."

#### **“I. Objectives**

1. The objective of the Working Group on Harmonization of Regulatory Oversight in Biotechnology (HROB) is to ensure that the information used in environmental risk/ safety assessment of transgenic organisms, as well as the methods used to collect such information, is as similar as possible among countries. This is to improve mutual understanding, increase the efficiency of environment risk/safety assessment and avoid duplication of effort. It also reduces barriers to trade.

#### **II. Tasks**

2. The Working Group on HROB, under the supervision of the Joint Meeting of the Chemicals Committee and the Working Party on Chemicals, Pesticides and Biotechnology, shall:

- i. oversee the implementation of its projects, which have been established with the aim of ensuring environmental safety of transgenic organisms. These projects are grouped in three areas:
  - identifying and addressing emerging issues that facilitate biosafety harmonization;
  - publishing science based consensus documents; and, participating in information dissemination.
- ii. advise the Joint Meeting on matters related to environmental aspects of products of modern biotechnology and recommend appropriate policies and actions aimed at promoting the safety of such products. It will ensure co-ordination with the work of the Task Force for the Safety of Novel Foods and Feeds, in particular, with respect

to the drafting of Consensus Documents. It will report, as necessary, to the Environment Policy Committee through the Joint Meeting. At the same time, the Working Group will co-ordinate its efforts with the relevant work of other OECD Committees such as the Committee for Scientific and Technological Policy and the Committee for Agriculture. It will inform them on the progress of work relevant to their interests and refer issues to them, when necessary. This co-ordination will be facilitated by the secretariat through OECD's Internal Co-ordination Group for Biotechnology (ICGB); and.

- iii. maintain close working relationships with other relevant intergovernmental organisations.

3. The Working Group on HROB shall meet approximately once in eight/ nine months and report thereafter to the Joint Meeting.

### **III. Participation**

4. The Working Group on HROB will include persons nominated by governments who are responsible for the environmental risk/ safety assessment of transgenic organisms in member countries as well as from the European Commission. Where appropriate, it will seek input from non-member countries especially those involved in its activities under the auspices of the OECD Global Forum on Biotechnology\*. In addition, it will include (as necessary) observers from other intergovernmental organisations, for example, the Secretariat of the Convention on Biological Diversity, UNEP, UNIDO and FAO. A Chair and vice-Chairs shall be elected by the members of the Working Group for a period of one year.

### **“ I. Objectives**

1. The objective of the Task Force is to promote international harmonisation in the safety assessment and regulation of novel foods and feeds especially products of modern biotechnology. Its programme of work is organised into three areas: a) publishing science based consensus documents which contain information for use in risk/ safety assessment; b) assessing emerging issues that will facilitate future harmonisation; and c) disseminating information especially in respect of co-operation with non-member economies.

### **II. Tasks**

2. The Task Force I, under the supervision of the Joint Meeting of the Chemicals Committee and the Working Party on Chemicals, Pesticides and Biotechnology, shall:

- recommend the most appropriate means of undertaking its projects, for example, through a lead country approach, and/ or small steering groups or workshops;
- develop proposals for future work taking into account the priorities established by the Joint Meeting;
- co-ordinate its activities with those of the Working Group for the Harmonisation of Regulatory Oversight in Biotechnology, especially in the drafting of consensus documents and the development of BioTrack Online;
- advise the Joint Meeting on matters related to the safety and regulation of novel foods and feeds; and
- recommend appropriate policies and actions aimed at harmonisation, while promoting the safe use of novel foods and feeds.

#### **“I. Objectives**

1. The objective of the Working Group on Chemical Accidents (WGCA) is to recommend appropriate policy options, including ways and means for national and international action, for enhancing the prevention of, preparedness for, and response to, chemical accidents. This involves development of common principles, procedures and policy guidance; analysis of issues of concern and recommendations for best practices; and information/experience sharing and communication.

#### **II. Tasks**

2. The Working Group on Chemical Accidents under the supervision of the Joint Meeting of the Chemicals Committee and the Working Party on Chemicals, Pesticides and Biotechnology, shall:

- i. oversee the work and foster the implementation of the projects and activities which are included in the Programme of Work on Chemical Accidents for 2009 – 2012 as approved by the 43rd Joint Meeting in November 2008 using, in particular, the lead country approach;
- ii. recommend appropriate policy options, including ways and means for national and international action, for enhancing the prevention of, preparedness for, and response to, chemical accidents;
- iii. improve, primarily through the efforts of member country experts, the awareness, knowledge, and capabilities in member and non-member countries, with respect to relevant technology, practices and policies for chemical accident prevention, emergency preparedness and response, and in particular by:

- furthering the implementation of the OECD Guiding Principles for Chemical Accident Prevention, Preparedness and Response in and beyond OECD and ensuring that the Guiding Principles remain up-to-date and incorporates experience in member countries and international organisations;
- furthering the implementation of the Guidance on Developing Safety Performance Indicators in and beyond OECD and ensuring that Guidance on SPI remains up-to-date and incorporates experience in member countries and international organisations;
- analysing issues in selected areas of mutual interest, including those aimed at facilitating the use of the Guiding Principles and the Guidance on SPI;
- promoting efforts to ensure that appropriate safety measures are in place at potentially hazardous installations, including measures to prevent accidents and mitigate effects of accidents which might occur;
- continuing to promote the exchange of information and experience among stakeholders (e.g., public authorities, industry, workers and their representatives and the public);
- facilitating the collection and analysis of data on chemical accidents, including economic data, in order to enhance the integration of economic considerations into selected policies and procedures for chemical accident prevention, preparedness and response;
- promoting OECD work in this area in order to benefit both member and non-member countries and, to this end, engage in international co-operation as appropriate; and
- maintaining close working relationships with other relevant OECD groups and with UNEP, UNECE, EEB, IMO, WHO, IPCS, ILO, OCHA and other appropriate international organisations in order to co-ordinate the planned and ongoing work and to ensure close liaison with other stakeholders including industry and trade unions.

3. The WGCA shall meet normally once a year.

### **III. Participation**

4. The WGCA shall be comprised of representatives nominated by member countries and representatives of the European Commission, observers from non-member countries and international organisations that carry out work in the field of chemical accidents. Experts from BIAC, TUAC and relevant environmental organisations can be invited to participate. Members of the WGCA should be able to represent various issues related to chemical accidents, including prevention, preparedness, response and clean-up.

5. The Chair and Vice-Chairs (i.e. the Bureau) of the Working Group shall be elected by the members at the annual meeting. The Bureau will function as the main consultative body for the Secretariat between meetings of the Working Group.

#### **I. Objectives**

1. The objectives of the Task Force on Pollutant Release and Transfer Registers (PRTRs) are to assist OECD member countries to establish PRTRs for the implementation of the public's "right to know" by developing tools and providing guidance on areas that would promote the establishment of PRTRs, advancing and improving the uses of PRTR data, facilitating the sharing of PRTR data between countries and continuing to improve and make widely available release estimation techniques.

#### **II. Tasks**

2. The Task Force on Pollutant Release and Transfer Registers, under the supervision of the Joint Meeting of the Chemicals Committee and the Working Party on Chemicals, Pesticides and Biotechnology, shall:

- advise the Joint Meeting of the Chemicals Committee and the Working Party on Chemicals, Pesticides and Biotechnology on specific opportunities and challenges for the implementation of PRTRs, and propose appropriate measures to meet the challenges, including ways and means for national and international actions;
- promote communication and close working relationship between the Task Force on PRTRs and relevant organisations on the various aspects of the PRTR work; and
- analyse developments in the field of PRTRs and bring to the attention of the member countries the implications of such developments.

#### **III. Participation**

3. The Task Force on Pollutant Release and Transfer Registers (PRTRs) is comprised of policy and technical experts nominated by member governments who are responsible for PRTRs and related issues in their country, observers from relevant intergovernmental organisations, including CEC, EC, UNEP, UNECE and UNITAR, invited experts, such as the Business and Industry Advisory Committee to the OECD (BIAC), Trade Union Advisory Committee to the OECD (TUAC) and European Environment Bureau (EEB) and, as appropriate, observers from non-

#### **I. Objectives**

1. The objectives of the Task Force on Biocides are to facilitate and support the work of the OECD Programme on biocides. The term “biocides” essentially means non-agricultural pesticides.

#### **II. Tasks**

2. The Task Force on Biocides, under the supervision of the Joint Meeting of the Chemicals Committee and the Working Party on Chemicals, Pesticides and Biotechnology, shall:

- i. foster the harmonisation and development of test guidelines and guidance on environmental and human exposure assessment and efficacy;
- ii. facilitate information exchange and work sharing\* of government reviews of biocidal active substances through harmonisation of data requirements, dossiers and monograph formats;
- iii. exchange ideas as well as facilitate and promote the development and implementation of risk reduction policies and practices in OECD countries;
- iv. monitor emerging scientific and policy areas; and
- v. advise the Joint Meeting regarding policy issues related to the work on biocides.

3. The Task Force on Biocides shall take into account relevant work related to biocides at the national, regional and international level. It shall meet when required by the needs of the Programme, but no less than once per year, and report thereafter to the Joint Meeting.

#### **III. Participation**

2. The Task Force on Biocides should comprise members nominated by governments who are responsible for the assessment of biocides in member countries, representatives of the European Commission, invited experts and, as appropriate, observers from other international

## **GLOBAL FORUM ON ENVIRONMENT (GFENV)**

**Date of creation:** 18th May 2009

**Duration:\*** Unspecified

**Approved by:** - Environment Policy Committee (EPOC); discussed at its meeting on 11-12 June 2008; a written procedure was launched in November 2008 to approve this proposal, the last reservation was lifted on 18 May 2009.

### **Mission Statement:**

The Global Forum on Environment's mission is to assist the Environment Policy Committee to realise its strategic vision of promoting global economic growth that is environmentally sustainable. One or two events every year on "front burner issues" on the global environment agenda will be organised under the auspices of this Global Forum. OECD members, selected non-members and stakeholders will be invited to participate in the Global Forum's events.

**Designated Participants:** In addition to Accession and Enhanced Engagement countries (Russian Federation; and Brazil, China, India, Indonesia and South Africa):

Bulgaria; Croatia; Romania; Ukraine;

For events on climate change: Belarus; Latvia; Lithuania;

For other events: Argentina; Columbia; Costa Rica; Hong Kong, China; Malaysia; Philippines; Singapore; Thailand; Uruguay.+

---

\* The duration of Global Forums is a function of the duration of their parent Committee(s). By default, it would coincide with the duration of the Committee whose mandate expires first and be automatically renewed together with this Committee's mandate. Earlier expiration dates would be possible.

“The Environmental Policy Committee (EPOC) agrees that the Working Party on Biodiversity, Water and Ecosystems shall have the following mandate:

1. To define, oversee and coordinate EPOC’s work programme on biodiversity, water and ecosystems and other natural resources.
2. To give special attention to:
  - a) the economic valuation of biodiversity, water and ecosystem services;
  - b) the economic efficiency, environmental effectiveness, and distributional implications of biodiversity, water, and ecosystem services management policies, such as incentive measures and the creation of markets;
  - c) the interactions between international, structural and sectoral policies and policies governing biodiversity, water and ecosystem services management;
  - d) the linkages between biodiversity, water, and ecosystem services management policies and other ‘cross-cutting’ environmental problems (e.g. climate change)
  - e) the promotion and exchange of information on good practice in its areas of responsibility.
3. To report regularly to EPOC, on major new and emerging issues and on actions that governments could take to address issues in its area of responsibility.
4. To maintain close working relationships with EPOC’s other Working Parties and other relevant OECD bodies; to establish short-term task forces or joint task forces with other Working Parties when needed.
5. To engage non-members in its work when there is a mutual interest, with priority attention to enhanced engagement countries (EE5 countries), in conformity with the EPOC’s Global Relations Strategy and Programme of Work and Budget, and with the OECD Rules.
6. To maintain, as appropriate and in conformity with the OECD Convention and Rules of Procedure, close working relationships with other relevant international organisations to avoid duplication of effort and to achieve an efficient division of labour in areas of mutual interest.

7. To consult and engage when appropriate with non-governmental institutions, particularly BIAC, TUAC and environmental NGOs.
8. To ensure that outputs are prepared in a manner that responds to the overall objectives of the OECD Environment Programme.
9. To ensure that policy analysis and recommendations arising out of the work of the Working Party are transmitted to the EPOC, and communicated effectively to Member country governments and interested outside parties, including relevant mass media.”

“THE COUNCIL,

Having regard to the Convention on the Organisation for Economic Co-operation and Development of 14th December 1960, and, in particular, Articles 2 a) and b), 3, 5 a) and 20 thereof;

Having regard to the Rules of Procedure of the Organisation;

Having regard to the Financial Regulations of the Organisation and, in particular, Articles 5 and 10 thereof;

Having regard to the Resolution of the Council of 25th March 1975, amending the Mandate of the Environment Committee [C(75)17(Final)];

Having regard to the Recommendation of the Council of 7th July 1977, establishing guidelines in respect of procedure and requirements for anticipating the effects of chemicals on man and in the environment [C(77)97(Final)];

Considering that at its meeting on 24th-26th April 1978 the Environment Committee agreed to certain working arrangements for its Programme on Chemicals in the Environment and endorsed the suggestion that within the framework of the Chemicals Group's programme, Member countries wishing jointly to carry out supplementary work which is urgently needed by them should agree to form a Special Programme on the Control of Chemicals financed within the framework of Part II of the Budget;

Considering that Australia, Austria, Belgium, Canada, Denmark, France, Germany, the Netherlands, Norway, Sweden, Switzerland, the United Kingdom, the United States and the Commission of the European Communities (hereinafter referred to as 'the Participants') have stated their intention to participate in a Special Programme on the Control of Chemicals (hereinafter called the 'Programme').

DECIDES:

Part I

RESPONSIBILITIES OF THE ENVIRONMENT COMMITTEE  
CONCERNING THE CONTROL OF CHEMICAL SUBSTANCES

a) The Chemicals Group of the Environment Committee shall be responsible for the work in the field of control of chemical substance to protect the environment and man's health while avoiding negative effects for the economy and trade.

b) The Chemicals Group should from time to time hold special meetings, as required, in order to give general orientation to the work on chemicals. On such occasions, it should be composed of high-level representatives responsible for the administration of national chemical regulation. Conclusions then reached as well as specific directives indicated in respect of priority tasks will be reported to the Environment Committee.

Part II

PROGRAMME

Article 1

PURPOSE

Within the framework of the chemicals' activities of the Organisation, a Programme with a view to providing a forum for co-operation between those Member countries wishing jointly to carry out supplementary work which is urgently needed by them to develop and harmonize practices in order to improve the control of chemicals, is hereby established. The results of the work are intended to contribute to the protection of man and his environment from chemicals' hazards, and to prevent the creation of non-tariff barriers to trade. The Definition of the Programme is set out in the Appendix to this Decision of which it is an integral part. It may be adapted as necessary on subsequent proposals of the Management Committee referred to in Article 2 below.

## Article 2

### MANAGEMENT COMMITTEE OF THE PROGRAMME

- a) A Management Committee of the Programme (hereinafter referred to as the 'Management Committee') shall be established and shall be composed of one representative appointed by each Participant.
- b) Each Participant may appoint an alternate to its representative on the Management Committee.
- c) The Management Committee shall designate each year among its Members, a bureau composed of a Chairman and an appropriate number of Vice-Chairmen.
- d) Taking due account of the overall activities of the Organisation in the field of chemicals, the Management Committee shall submit each year to the Council proposals with respect to the annual programme of work and budget.

## Article 3

### FUNCTIONS OF THE MANAGEMENT COMMITTEE

- a) The Management Committee shall be responsible for ensuring the carrying out of the Programme and may consider all questions related thereto. It shall exercise the functions defined in this Decision in accordance with the Decisions and Resolutions of the Council.
- b) The Management Committee may set up working groups as required to carry out specific tasks.
- c) The Management Committee shall submit each year to the Council a report on the work under the Programme which might include proposals for appropriate action resulting from this work. Such reports and proposals shall be reported to the Environment Committee in order to ensure co-ordination between activities financed under Part I and those financed under Part II of the Budget.
- d) The Management Committee shall receive regular reports on the implementation of the Programme.

## Article 4

### EXPENDITURE

- a) The expenditure arising from the implementation of the Programme shall be defrayed from the appropriations authorised for it under Part II of the Budget of the Organisation.
- b) The Programme may include activities to be financed in whole or in part from grants by public or private institutions.
- c) Notwithstanding the provisions of Article 14 b) of the Financial Regulations, the Secretary-General may accept grants not exceeding FF 200 000 each in respect of activities which have been included in the annual programme as adopted by the Council.
- d) Notwithstanding the provisions of Article 16 b) of the Financial Regulations, appropriations in respect of the Programme for which no commitment has been entered into before 31st December 1978, shall be automatically carried forward to the Financial year 1979.

## Article 5

### PARTICIPANTS

- a) The Participants shall be the Member countries as listed in the Preamble and the Commission of the European Communities.
- b) Any other Member country of the Organisation may participate at a later stage in the Programme.

## Article 6

#### DURATION

- a) The Programme is established for the period 1st October 1978, to 31st December 1981.
- b) The Council shall review the provisions of this Decision before the end of this period, taking into account the experience acquired in carrying out the Programme.”

#### Extract from Summary Record [C/M(2008)8, item 102]

(70)

“THE COUNCIL,

[...]

- a) Noted document C(2008)48 and it's CORR1;
- b) Agreed to extend the duration of the Special Programme on the Control of Chemicals to 31st December 2012, unless Council decides otherwise;
- c) Agreed to review the provisions of the Decision concerning a Special Programme on the Control of Chemicals [C(78)127(Final)], including the need for the continuation of a Special Programme, prior to 31st December 2012.”

## WORKING PARTY ON MANUFACTURED NANOMATERIALS

<b>Chair:</b>	Mr. Bjorn Hansen	(European Commission)
<b>Vice-Chairs:</b>	Ms. Roshini Jayewardene Mr. Greg Carreau Mr. Klaus-G Steinhaeuser Ms. Chie Hamaguchi Mr. Ian Dalton Mr. Jim Willis	(Australia) (Canada) (Germany) (Japan) (United Kingdom) (United States)
<b>Members:</b>	Open to all Member countries	
<b>Regular Observer (Non-Member):</b>	South Africa	
<b>Date of creation:</b>	14th September 2006	
<b>Duration:</b>	31st December 2012	
<b>Mandate :</b>	Renewed at the 43rd Joint Meeting of the Chemicals Committee and the Working Party on Chemicals, Pesticides and Biotechnology [ENV/JM/M(2008)2, Annex IV]	

### Extract of document ENV/JM/M(2008)2, Annex IV

#### **“I. Objective**

1. The objective of the Working Party on Manufactured Nanomaterials is to promote international co-operation in human health and environmental safety aspects of manufactured nanomaterials among member countries and certain non-member economies (in accordance with the outreach policy of the Chemicals Committee).

#### **II. Tasks**

2. The Working Party on Manufactured Nanomaterials, under the supervision of the Chemicals Committee, shall:

- i. implement a programme of work for 2009-2012, which will involve the exchange of information on regulatory and risk management frameworks (limited mainly to the industrial chemicals sector). It will also exchange information on environmental benefits. The main projects included in the programme of work include:
  - development of a Database on Human Health and Environmental Safety Research;
  - research Strategies on Manufactured Nanomaterials;
  - safety Testing of a Representative Set of Manufactured Nanomaterials;
  - manufactured Nanomaterials and Test Guidelines;
  - co-operation on Voluntary Schemes and Regulatory Programmes;
  - co-operation on Risk Assessment;
  - the role of Alternative Methods in Nanotoxicology; and
  - exposure Measurement and Exposure Mitigation.

- ii. advise the Chemicals Committee on priorities amongst the above projects which need to be addressed in the short, medium and longer-term within the context of the Chemicals Programme;
- iii. take a proactive approach in regard to co-operation on the health and environmental safety related aspects of manufactured nanomaterials by advising the Chemicals Committee on issues related to human health (e.g., from both public and occupational exposures) and environmental impacts resulting from manufactured nanomaterials;
- iv. recommend the best means of undertaking the various projects, for example, through a lead country approach, small task groups or workshops;
- v. promote an understanding of the health, environmental and exposure implications of manufactured nanomaterials by:
  - tracking relevant scientific research efforts;
  - identifying relevant research needs; and
  - developing and promoting a strategy to meet identified needs.
- vi. co-ordinate with other subsidiary bodies of the Chemicals Committee and refer issues to them as appropriate, through the Chemicals Committee;
- vii. co-ordinate with other relevant groups within the OECD, especially the Working Party on Nanotechnology, a subsidiary body of the Committee for Scientific and Technological Policy; and
- viii. co-ordinate with other relevant intergovernmental organisations, especially those of the Inter-Organisation Programme for the Sound Management of Chemicals (i.e., UNEP, ILO, OECD, FAO, WHO, UNIDO and UNITAR); the Intergovernmental Forum on Chemical Safety (IFCS) and possibly NATO and UNESCO; standardisation organisations (e.g., ISO and IUPAC); and nomenclature organisations (e.g., CAS), so avoiding duplication and ensuring complementarity with other international activities;

### **III. Participation**

3. The Working Party will be open and transparent in its activities. Accordingly the participation of stakeholders will be agreed by the Working Party, in line with the outreach policy of the Chemicals Committee;
4. The Working Party will elect a Chair and Vice-Chairs for a period of one year.

### **IV. Term**

5. The Terms of Reference are established until 31 December 2012.”

## TASK FORCE ON HAZARD ASSESSMENT<sup>1</sup>

### **“MANDATE FOR THE TASK FORCE ON HAZARD ASSESSMENT**

#### **I. Objectives**

2. The objectives of the Task Force on Hazard Assessment are to facilitate and support the work of OECD on the hazard assessment of new and existing industrial chemicals, with special emphasis on increasing the output of the Cooperative Chemicals Assessment Programme\* while maintaining the quality of the assessments produced and improving the visibility and accessibility of the assessments and the data behind them.

#### **II. Tasks**

3. The Task Force on Hazard Assessment, under the supervision of the Joint Meeting of the Chemicals Committee and the Working Party on Chemicals, Pesticides and Biotechnology, shall:

- oversee the evolution of the Cooperative Chemicals Assessment Programme\*;
- oversee the development and implementation of improved methodologies, procedures and guidance for the SIDS Initial Assessment Meetings;
- oversee the further development and implementation of the Global Portal to Information on Chemical Substances (eChemPortal);
- oversee the work on (Quantitative) Structure Activity Relationships [(Q)SARs] and facilitate the regulatory acceptance of (Q)SARs, in particular, the further development of the (Q)SAR Application Toolbox;
- oversee the continuous improvement and harmonisation of hazard assessment methodologies, in collaboration with other bodies under the Joint Meeting (such as the Advisory Group on Toxicogenomics) and relevant IOMC organisations as appropriate;

---

<sup>1</sup> Replaces the Task Force on Existing Chemicals created in 2005 and broadens scope of its mandate.

\* The names of some projects have been updated since the 43rd Joint Meeting.

- promote and oversee activities on integrated approaches to testing and assessment in cooperation with other bodies under the Joint Meeting, as appropriate; and
- advise the Joint Meeting regarding policy issues related to the work on hazard assessment of industrial chemicals, including those related to outreach to non-members.

4. The Task Force on Hazard Assessment shall take into account relevant work related to industrial chemicals at the national, regional and international level. It shall meet when required by the needs of the Programme, and report thereafter to the Joint Meeting.

### **III. Participation**

5. The Task Force on Hazard Assessment is comprised of members nominated by governments who are responsible for the assessment of industrial chemicals in member countries, representatives of the European Commission, invited experts and, as appropriate, observers from other international organisations and non-member economies. A Chairperson and two Vice-Chairpersons shall be elected by the members of the Task Force.

### **IV. Term**

5. The Terms of Reference are established until 31 December 2012.”

### **“MANDATE FOR THE TASK FORCE ON HARMONISATION OF CLASSIFICATION AND LABELLING**

#### **I. Objectives**

1 The main objective of the Task Force on Harmonisation of Classification and Labelling (HCL) is to contribute to the development and update of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS). The OECD was invited to be the focal point of the UN Sub-Committee of experts on the GHS regarding health and the environmental hazards. A detailed work programme for OECD work on HCL is requested every two years by the Sub-Committee. The Task Force may also contribute to the facilitation of GHS implementation.

#### **II. Tasks**

2 The Task Force on Harmonisation of Classification and Labelling, under the supervision of the Joint Meeting of the Chemicals Committee and the Working Party on Chemicals, Pesticides and Biotechnology, shall:

- oversee the development of proposals for new or updated GHS classification criteria or guidance;
- oversee the development of reports related to specific hazards, application of GHS criteria or implementation of the GHS; and
- advise the Joint Meeting regarding policy issues related to the work on harmonisation of classification and labelling.

3. The Task Force on Harmonisation of Classification and Labelling shall meet once a year, or as required by the needs of the Programme, and report thereafter to the Joint Meeting.

#### **III. Participation**

4. The Task Force on Harmonisation of Classification and Labelling should comprise members nominated by governments who are responsible for the classification and labelling of chemicals in member countries, representatives of the European Commission, observers from other international organisations, invited experts and participants in the Sub-Committees of Experts on

the GHS and on the Transport of Dangerous Goods, including from non-member economies. A Chairperson and three Vice-Chairpersons shall be elected by the members of the Task Force.

**IV. Term**

5. The Terms of Reference are established until 31 December 2012.”

#### **“MANDATE FOR THE TASK FORCE ON EXPOSURE ASSESSMENT**

##### **I. Objective**

1. The objective of the Task Force on Exposure Assessment is to facilitate and support the work of OECD on the exposure assessment of chemicals and chemical products with special emphasis on release estimation, exposure models and use of monitoring data.

##### **II. Tasks**

2. The Task Force on Exposure Assessment, under the supervision of the Joint Meeting of the Chemicals Committee and the Working Party on Chemicals, Pesticides and Biotechnology, shall:

- develop and update OECD Emission Scenario Documents (ESDs) for estimating the release of chemicals from production and use of chemicals, and to elaborate guidance for developing ESDs;
- develop guidance for using monitoring data for exposure assessment;
- develop exposure models and facilitate further improvement of models by compiling relevant information regarding existing models;
- advise the Joint Meeting regarding policy issues related to the work on exposure assessment, including those related to outreach to non-members;
- collaborate with other bodies under the Joint Meeting (such as the Task Force on Biocides, the Working Group on Pesticides and the Working Party on Manufactured Nanomaterials) in the elaboration of ESDs for biocides, pesticides and manufactured nanomaterials, and with, relevant IOMC organisations, as appropriate; and
- exchange information with the Task Force on Pollutant Release and Transfer Registers (PRTRs) regarding tools for estimating the release of chemicals.

---

\* Replaces the Task Force on Environmental Exposure Assessment created in 2005 and broadens scope of it's mandate.

### **III. Participation**

3. The Task Force on Exposure Assessment is comprised of members nominated by governments who are responsible for the exposure assessment of chemicals and chemical products in member countries, representatives of the European Commission, invited experts and, as appropriate, observers from other international organisations and non-member economies. A Chairperson shall be elected by the members of the Task Force.

4. The Task Force shall ensure that appropriate expertise on environmental exposure and on human exposure is available when work on the latter is undertaken, by establishing sub-groups on consumer exposure, occupational exposure or human exposure via the environment, as appropriate).

## **II. Tasks**

2. The Working Group on GLP, under the supervision of the Joint Meeting of the Chemicals Committee and the Working Party on Chemicals, Pesticides and Biotechnology shall: a) foster direct exchange of information and sharing of experiences, in particular among GLP compliance inspectors; b) discuss and, to the extent possible, resolve issues of common concern, particularly those issues relevant to international recognition of GLP compliance monitoring using on-site evaluation visits as appropriate; c) foster the harmonisation and development of specific guidance on technical and administrative matters pertaining to GLP Principles and monitoring of compliance therewith, including training of GLP inspectors; d) assist non-members in establishing and implementing procedures consistent with those of OECD; and e) advise the Joint Meeting regarding major policy issues related to GLP and compliance monitoring.

3. The Working Group on GLP shall take into account relevant activities related to international standard setting and assessment of compliance as well as other international activities in the areas of interest to its work. It shall meet regularly, at least once a year, and report thereafter to the Joint Meeting.

## **III. Participation**

4. The Working Group on GLP should include persons nominated by governments who are responsible for GLP compliance monitoring in member countries and in those non-members which are members of that part of the Chemicals Programme related to the mutual acceptance of data, as well as from the European Commission. Participation should be limited to one person per authority. Observers from other non-members may take part in the framework of the 1997 Council Decision. A Chairman and a Vice-Chairman shall be elected by the Members of the Working Group for two-year periods.

## **IV. Term**

5. The Joint Meeting will assess the need for the continuation of the Working Group on GLP at the end of the next four-year phase of the Special Programme on the Control of Chemicals (31st December 2012)."

Extract of document ENV/JM/M(2008)2, Annex IV

**“I. Objective**

1. The objective of the Working Group of National Co-ordinators of the Test Guidelines Programme is to direct and oversee the work on: (i) OECD Guidelines for the Testing of Chemicals, including, as appropriate, Test Guideline development and the facilitation and harmonisation of test method validation; (ii) Guidance Documents on testing issues; and (iii) Detailed Review Papers on the state-of science of defined hazard areas. This work is undertaken to meet the regulatory needs, animal welfare and cost considerations regarding test methods in member countries and interested non-member economies.

**II. Tasks**

2. The Working Group of National Co-ordinators of the Test Guidelines Programme, under the supervision of the Joint Meeting of the Chemicals Committee and the Working Party on Chemicals, Pesticides and Biotechnology, shall

- i. oversee the work of the Test Guidelines Programme which consists of:
  - the development of new and the updating of existing Test Guidelines to cover regulatory data requirements for the assessment of chemicals relating to the protection of man and the environment in member countries. Chemicals include but are not limited to pesticides and industrial chemicals,
  - the involvement in the validation of new and updated test methods, as appropriate;
  - the development of Guidance Documents providing: (i) further guidance on the use of Test Guidelines, (ii) testing strategies, or (iii) information on specific issues associated with the Test Guidelines Programme;

---

\* Provisional adherent to the Council Decisions Related to Mutual Acceptance of Data.

- the development of Detailed Review Papers, providing the current state-of-science in a particular test or hazard area; and
  - facilitating the active involvement of member countries and non-member economies and other stakeholders in projects in the development of Test Guidelines, Guidance Documents and Detailed Review Papers; and
  - the engagement in international co-operation, as appropriate, for the harmonisation of hazard and risk assessment of chemical substances to benefit both member countries and non-members.
- ii. direct and oversee the work of its subsidiary expert bodies, including:
    - those for Endocrine Disruptors Testing and Assessment (EDTA) and Validation Management;
    - all *ad hoc* Expert Groups, established to assist in the development of specific Test Guidelines, Guidance Documents, Detailed Review Papers, and/or other Test Guideline-related documents;
  - iii. review the progress made in the conduct of this work, identify new projects and update annually the workplan of the Test Guidelines Programme, taking into account other work under the Joint Meeting and work undertaken elsewhere, as appropriate;
  - iv. maintain close working relations with other international organisations active in the area of method development for chemical hazard and risk assessment; and
  - v. report on its activities to the Joint Meeting of the Chemicals Committee and the Working Party on Chemicals, Pesticides and Biotechnology.

3. Further details of tasks and responsibilities are provided in Guidance Document No.1 in the Series on Testing and Assessment, as amended in 2006 [ENV/JM/MONO(2006)20].

4. The Working Group of National Co-ordinators of the Test Guidelines Programme should meet when required by the needs of the Programme, but normally once per year.

### **III. Participation**

5. The Working Group of National Co-ordinators of the Test Guidelines Programme is comprised of National Co-ordinators (from member countries and non-member economies that adhere to the Council Decision on the Mutual Acceptance of Data) appointed by member countries or non-member governments, representatives of the European Commission, invited experts and, as appropriate, observers from other international organisations and other non-member economies. National Co-ordinators should be able to provide a co-ordinated national view with respect to all areas of the Test Guidelines Programme.

6. The Chair and Vice-Chair(s) should be National Co-ordinators and are elected by the Working Group of National Co-ordinators of the Test Guidelines Programme. The Chair and Vice-Chair(s) together should provide expertise on both human health and the environment, and will function as the main consultative body (the Bureau) for the Secretariat between meetings of the Working Group.”

## **OECD GLOBAL FORUM ON BIOTECHNOLOGY**

**Chair:** No formally-appointed Chair

**Date of creation:** 6th December 2010

**Duration:\*** 31st December 2012

**Approved by:** 43<sup>rd</sup> Joint Meeting of the Chemicals Committee and the Working Party on Chemicals, Pesticides and Biotechnology (JMCC-WPCPB) held on 5-7 November 2008 [ENV/JM/M(2008)2, Session B, item 10d]

Committee for Scientific and Technological Policy (CSTP), 97<sup>th</sup> session held on 26 October 2010 (Chairman's summary)

### **Mission Statement:**

The OECD Global Forum on Biotechnology (GFB) will mainly support the activities and networks developed by

1) two subsidiary bodies of the JMCC-WPCPB: the Working Group on the Harmonisation of Regulatory Oversight in Biotechnology, the Task Force for the Safety of Novel Foods and Feeds; and

2) the CTSP's Working Party on Biotechnology and its subsidiary body the Task Force on Industrial Biotechnology.

The GFB mission includes the harmonisation of principles and practices regarding the safety of products derived from modern biotechnology and their risk assessment vis-à-vis human health and environment, the innovation in and applications of biosciences to industry, the environment and the health sectors, as well as the governance and technological areas for biosciences and biotechnology metrics.

The GFB will involve co-ordination with other OECD bodies, organised through the Internal Co-ordination Group for Biotechnology (ICGB).

### **Designated Participants:**

Regular Observers to the above-mentioned bodies: Argentina, Brazil, China, Russian Federation, South Africa.

Other Enhanced Engagement countries: India, Indonesia.

Other non member economies: Cameroon, Egypt, Latvia, Paraguay, Philippines, Romania, Singapore, Thailand.

International Organisations: FAO, WHO, UNEP/SCBD (Secretariat to the Convention on Biodiversity), UNESCO, UNCTAD.

---

\* The duration of Global Forums is a function of the duration of their parent Committee(s). By default, it would coincide with the duration of the Committee whose mandate expires first and be automatically renewed together with this Committee's mandate. Earlier expiration dates would be possible.

### Council Resolution C(2010)123 and CORR1

"THE COUNCIL,

Having regard to the Convention on the Organisation for Economic Co-operation and Development of 14 December 1960;

Having regard to the Rules of Procedure of the Organisation;

Having regard to Paragraph 14 of the Report by the Preparatory Committee establishing the mandate of the Development Assistance Committee (DAC) [CM(60)2(Final)];

---

<sup>1</sup> The predecessor to the Development Assistance Committee, the Development Assistance Group (DAG) was set up on 13 January 1960 by the Special Economic Committee and approved by Council on 14 January 1960 [CM(60)2(Final) Item 14C].

<sup>2</sup> OECD countries that are not members of the DAC are entitled to participate in all meetings of the DAC and its Subsidiary Bodies in areas of mutual interest.

Having regard to Council Decision regarding a Sunset Clause for all Committees [C/M(2004)5, Item 75] entered into force on 22 April 2004 [C/M(2004)10, Item 143, IV, c)];

Having regard to the recommendations of the In-depth Evaluation of the DAC [C(2007)99 & CORR2 and C/M(2007)17, Item 226 c)];

Having regard to the proposed revision of the mandate of the Development Assistance Committee [C(2010)123 & CORR1];

Committed to supporting developing countries in their efforts to improve the lives of their peoples in a sustainable manner, including by attaining the Millennium Development Goals;

Recognising that members of the DAC continue their common efforts to increase resources for development and to improve their effectiveness;

Convinced of the need to align development co-operation to the specific context and challenges of each developing country and region;

Aware that poorer countries are constrained in their engagement with the global economy and are at risk of increasing marginalisation;

Aware that the policy choices of OECD countries and emerging economies as well as policy challenges relating to global public goods affect development results;

Recognising the need for the DAC to work with other policy communities and development stakeholders beyond its membership with a view to enhancing development results;

Convinced that sustainable and broad-based development of developing countries—including fragile and conflict affected states—is essential for global stability and inclusive growth;

Recognising that, while developing countries' ability to mobilise domestic resources as well as to access private and public finance extended on commercial terms should be supported given the contributions they make to economic development, many developing countries will continue to require official development assistance (ODA), at least throughout the period of this mandate;

DECIDES:

A. The Development Assistance Committee has the following mandate:

I. Objectives

The overarching objective of the DAC is to promote development co-operation and other policies so as to contribute to sustainable development, including pro-poor economic growth, poverty reduction, improvement of living standards in developing countries, and to a future in which no country will depend on aid.

In order to achieve this overarching objective, the Committee shall:

a) monitor, assess, report, and promote the provision of resources that support sustainable development, as specified above, by collecting and analysing data and information on ODA and other official and private flows;

b) review development co-operation policies and practices, particularly in relation to national and internationally agreed objectives and targets, and promote mutual learning;

c) provide analysis, guidance and good practice to assist its Members and the expanded donor community to enhance the quality and effectiveness of development assistance, particularly regarding pro-poor economic growth and poverty reduction;

d) analyse and help shape the rapidly evolving global development architecture to optimise development results.

e) promote perspectives on global public goods and policy coherence for development in co-ordination with other policy communities in OECD;

f) engage or invite non-Member countries - in particular those with major development co-operation programmes - international organisations, private sector organisations, and civil society representatives, so as to assure the relevance and inclusiveness of DAC's work.<sup>3</sup>

## II. Special Delegated Power

The Committee shall continue to make recommendations to Members of the Committee, as well as to the Council, within its competence on matters related to development.

B. The mandate of the Development Assistance Committee shall remain in force until 31 December 2015.”

---

<sup>3</sup> OECD countries that are not Members of the DAC are entitled to participate in all meetings of the DAC and its Subsidiary Bodies in areas of mutual interest.

<b>Date of creation:</b>	19th July 1968	
<b>Duration:</b>	31st December 2011	

- Mandate:**
- Terms of reference for the DAC Working Parties approved on 13<sup>th</sup>-14<sup>th</sup> March 1975 [DAC(75)18]
  - Change of name, 5 February 1998 [DCD/DAC/M(98)3]
  - New mandate approved by the DAC on 17 September 2003 [DCD/DAC/M(2003)6/FINAL]
  - Renewal of the mandate approved by the DAC on 10 May 2007 [DCD/DAC/M(2007)6/FINAL, item IX, para. 22 and DCD/DAC(2007)25/REV2]
  - Revision of the DAC subsidiary body mandates approved by the DAC on 23 October 2008 [DCD/DAC/M(2008)9, para. 7]
  - Decision to extend the mandate to 31 December 2011 [DCD/DIR(2010)18]

1. The Development Assistance Committee (DAC) is the principal forum through which bilateral donors deal with issues related to the volume and effectiveness of development co-operation. It aims to impact donor policies and practices in ways that promote aid effectiveness, capacity development, and inclusive globalisation, in order to support poverty reduction and sustainable development in developing countries.

2. Subsidiary Bodies of the DAC will function as communities of practice and sources of expertise that promote collective learning and produce deliverables in accordance with the DAC mandate. The deliverables of Subsidiary Bodies are to be based on the Programme of Work and Budget (PWB) and on additional guidance from the DAC, as communicated by its Chair. They could include leading edge thinking, policy recommendations, good practices, and tools, which are to be relevant, practical, timely, and user-friendly. These deliverables should be accompanied by communication and dissemination strategies designed to ensure impact on behaviour change. Subsidiary Bodies will also promote synergies among other Subsidiary Bodies in contributing to the DAC's PWB.

3. The operations of Subsidiary Bodies, as part of the Organisation for Economic Co-operation and Development (OECD), will be in line with the rules, regulations, and guidance of the Organisation. Together with the Secretariat, they will carry out horizontal work with other parts of the OECD where appropriate to particularly contribute to policy coherence for development. Furthermore, Subsidiary Bodies will develop substantive interactions with international organisations and non-DAC donors –including in support of the Organisation’s efforts toward enlargement and enhanced engagement– as well as reach out on a case by case basis to partner countries and other relevant actors.

“VII. Working Party on Statistics (WP-STAT)

A. Individualised Mandate

1. The Working Party on Statistics keeps under review and proposes improvements in the statistical system and in the reporting of resource flows to developing countries and multilateral agencies by DAC and non-DAC donors, as well as flows from multilateral agencies and private sources of aid. It makes recommendations to the DAC about: ODA eligibility; guidelines and definitions for reporting; data comparability; and the use of DAC statistics. It proposes, for decision by the DAC, significant amendments to the statistical reporting directives, making minor adjustments on its own authority; deals with related subjects referred to it by the DAC; continuously improves the quality, comparability, accessibility and user-friendliness of aid data; and reports to the DAC as appropriate.

B. Information Notes

a) Contribution to the Coherent Framework on the OECD’s Work on Development, Relations with the Development Cluster, and Horizontal Work within OECD Beyond the Cluster

2. WP-STAT members compile and submit aid statistics that are processed by the Secretariat and contribute to the Development Co-operation Report and other core activities of DAC. The WP-STAT is making major efforts to harmonise and streamline its reporting systems, converging reporting in its aggregate (DAC) and activity-level (CRS) databases as much as possible. In June 2008 it agreed on a new classification of aid to start to apply to both databases from 2011.

3. The WP-STAT collaborates with the other subsidiary bodies of the DAC to introduce new coding and to elaborate guidance documents on applying the Reporting Directives. For example it works with GOVNET on the governance codes and with ENVIRONET and GENDERNET on application of the policy objective markers. It is envisaged that the WP-STAT will support efforts to capture future aid flows, and assist with monitoring the implementation of the Paris Declaration.

4. The WP-STAT and the Secretariat pursue dialogue with statistical users outside the OECD community in order to broaden the coverage of the systems and improve their consistency and user-friendliness.

b) Reference Guidelines Being Actively Used or Promoted

DAC and CRS Reporting Directives;

CRS++ Reporting Guidelines;

Handbook on Reporting Debt Reorganisation on the DAC Questionnaire;

Casebook on ODA Reporting of Conflict Peace and Development Expenditures.

c) Output Results and Means of Delivery, Such as Task Teams and Frequency of Meetings

5. The WP-STAT is working on the transfer from CRS to CRS++ format which will introduce substantial improvements in the statistical systems. Members recently agreed rules for introducing new purpose codes, which will enable their systematic improvement, rather than ad hoc modification.

6. Task Teams are formed when specific requirements arise, while major preparatory work is conducted by the Secretariat.

d) Strategies on Communication and Dissemination

7. The Secretariat is finalising work on a much more user-friendly portal that will draw on OECD.STAT data, increasing its use of the CRS to produce sector and thematic studies, and publishing fact sheets and information notes.

e) Calendar of Meetings, Workshops and Outreach Activities

8. The WP-STAT usually has a formal meeting in June, and often holds an informal meeting in February or March.”

"a) Overall Objectives and Comparative Advantage

The Working Party on Aid Effectiveness (WP-EFF) was established in 2003 as an international partnership of donors and developing countries hosted by the OECD-DAC. Building on the 2005 Paris Declaration on Aid Effectiveness (PD), the Accra Agenda for Action (AAA) endorsed in 2008 aims to accelerate and deepen PD implementation. It sets out the aid effectiveness agenda for the next two years. In this context the main responsibilities of the Working Party will include: (i) facilitating all development actors' efforts to implement their PD/AAA commitments on aid effectiveness; (ii) monitoring PD/AAA implementation at country level and preparing for the 4th High Level Forum on Aid Effectiveness in 2011 (HLF-4); (iii) disseminating the PD/AAA messages and supporting implementation at country level including through support for regional platforms and

thematic events; and (iv) promoting relevant applied research, analysis and dialogue on outstanding and emerging issues. The overall objectives of the WP-EFF work programme are to ensure that: (i) donors and partner countries meet their Paris and Accra commitments by 2010 and (ii) in doing so they deliver and account for development results at country level. These responsibilities require the Working Party to promote continued high-level political commitment and leadership.

#### b) Areas of Focus and Types of Deliverables

The areas of focus are combined into clusters of operationally-oriented tasks or in workstreams. These include clusters on Ownership and Accountability, Country Systems, Transparent and Responsible Aid, Assessing Progress, Managing for Development Results, and workstreams on South-South Co-operation, Sectoral Approaches to Aid Effectiveness, Capacity Development, and Private sector support for development. In most cases a significant body of work already exists and priority will be given to implementing existing tools and guidelines in a diversity of situations - including fragile states and middle-income countries. All work must be strongly country focused, results-based, with monitorable outcomes. Clusters will also contribute to the achievement of "cross-cutting" objectives, such as those relating to gender equality, human rights, disability and environmental sustainability.

#### c) Modalities including Members, Observers, Outreach and Stakeholders

WP-EFF membership has been broadened to include representatives from five categories of international aid actors: (i) developing countries receiving ODA; (ii) recipient/donor countries which both receive and provide development assistance; (iii) bilateral donors from OECD/DAC and non-OECD donor countries; (iv) multilateral institutions including World Bank, UNDP, IMF, regional development banks and global programmes and (v) Civil institutions and organisations. The Working Party plenary will be kept to a maximum of around 80 members.

The Working Party may appoint one Chair or two Co-Chairs as well as additional Vice-Chairs. An Executive Committee comprising around 25 members will manage the work plan, coordinate the clusters/work streams, ensure synergies, take operational decisions, and prepare plenary meetings. All policy and strategy decisions must be put to the full Working Party membership. The Executive Committee must ensure that its decision making is transparent and accountable to all members of the Working Party.

#### d) Synergies with other DAC Subsidiary Bodies

In implementing its mandate, the Working Party will engage with other organisations and networks, on the basis of division of labour and/or joint work, to bring together a full international effort on aid effectiveness. In doing so, it will maintain strong links with DAC Networks and other relevant OECD bodies."

“II. Network on Development Evaluation

A. Individualised Mandate

a) Overall Objective and Comparative Advantage

1. The DAC Evaluation Network is a unique body in the international evaluation architecture bringing together evaluation managers and specialists from development agencies and ministries of member countries, with representation also from multilateral development institutions. Its overall purpose is to increase the development effectiveness of aid policies and programmes through high quality, independent evaluation. Evaluation supports evidence-based decision-making and is a means to influence donor and partner behaviour through lesson learning and by providing accountability for results of development programmes. The usefulness to a range of development partners is also an important dimension for the Evaluation Network.

b) Areas of Focus and Types of Deliverables

2. The main areas of focus are: strengthen individual members' evaluation systems, improve the quality of evaluations, harmonise evaluation processes, facilitate joint evaluations, support partner country evaluation capacities, and improve knowledge sharing in evaluation. It serves as a platform for mutual learning and co-ordination among members. The Network produces evaluation guidance for practical application and joint evaluation studies, as well as providing a web-based evaluation resource centre as a service to its members and the broader public.

c) Modalities, including Members, Observers, Outreach and Stakeholders

3. Participants are evaluation heads from DAC member countries, OECD countries not yet DAC members, the independent evaluation offices of the World Bank, IMF, UNDP, ADB, AfDB, IDB, and the EBRD. Other development agencies are invited on an ad hoc basis based on the requirements of the work programme. Workshops, in particular, provide an opportunity for outreach to non-OECD members and to developing countries and professional evaluation associations.

d) Synergies with other Subsidiary Bodies and OECD Bodies

4. The Evaluation Network works with other subsidiary bodies of the DAC in the areas of their specific competence. The Network has a long record of active collaboration with different subsidiary bodies whenever an evaluation has addressed a specific topical area and will continue to seek such collaboration. It also collaborates informally with other parts of OECD involved in evaluation activities.

B. Information notes

a) Contributions to the Coherent Framework on the OECD's Work on Development, Relations with the Development Cluster, and Horizontal Work within OECD Beyond the Cluster

5. The main coherence area in the current work programme relates to the security and conflict dimension of policy coherence for development (see work on evaluation guidance below). Collaboration with aid for trade is ongoing on an informal basis. The Evaluation Network welcomes collaboration with other parts of the Development Cluster and further opportunities will be sought to strengthen links. Exchange and knowledge sharing with other parts of the OECD involved in evaluation matters takes place from time to time.

b) Reference Guidelines Being Actively Used or Promoted

6. The Network has produced a number of standards and norms that are actively used in practical evaluation work:

- Guidance on Evaluating Conflict Prevention and Peacebuilding (working draft issued in 2008)

- Glossary of Terms in Evaluation and Results Based Management (published in 13 languages over the period 2002-2008)

- Draft DAC Evaluation Quality Standards (approved for a test phase during 2006-2009)

- Guidance on Managing Joint Evaluations (2006)

- The DAC Principles on the Evaluation of Development Assistance (1991, reviewed in 1998), which continue to be the key benchmark used for assessing evaluation systems in the peer review process. The Principles contain the DAC criteria for evaluation of development assistance which have been widely adopted and used in development evaluation by both members and other development agencies.

c) Output Results and Means of Delivery, Such as Task Teams and Frequency of Meetings

7. The Programme of work and budget contains the following outputs: i) joint evaluation – developing new approaches in a changing aid context and ii) improving evaluation quality. The evaluation of the implementation of the Paris Declaration is a Network initiative conducted by an independent reference group composed of members of the Network and with representatives of partner countries and civil society. The synthesis report and other outputs of the first phase were presented at the Accra HLF. Reflections on the phase I process and outcomes fed into preparations for the second phase, which aims to provide further insights on the effects and impacts of the Paris Declaration. The reference group is in the process of discussing next steps for phase II at a kick-off meeting currently underway in Auckland (11-13 February 2009). Work is ongoing with the Network of Networks on Impact Evaluation (NONIE) on methods for impact evaluation. Development partners' evaluation capacity is a critical aspect for joint work and mutual accountability and concrete experiences acquired by network members and others are being shared. A study on the programming of evaluations is underway and will clarify the opportunities and challenges for more joint evaluations and lead to recommendations for members. The Evaluation Network meets in official session three times over the work programme cycle (approximately every eight months) with task team meetings held in between to advance the work programme. The task teams are composed of variable groups of members who are willing and interested in contributing. Current task teams include: the Task Team on New Context for Development Evaluation; an informal Task Team on Evaluation Quality Standards; the Joint Task Team on Evaluating Conflict Prevention and Peacebuilding Activities; and the joint DAC/UNEG Task Team for Professional Peer Reviews. Informal networking and information sharing among members is an important feature, and facilitates joint work both under the Network umbrella and among individual members.

d) Strategies on Communication and Dissemination

8. All final outputs produced are widely disseminated at meetings, workshops, via the internet and in send outs to members and other stakeholders. The Network's websites are important

tools when communicating information about upcoming and ongoing work, examples include the sharing of drafts and notes on the Paris Declaration evaluation and making the results of the general budget support evaluation widely available. The DAC Evaluation Resource Centre (DEReC) is particularly useful for sharing evaluation reports and publications among Network members and to the broader public. Email is used to send frequent updates to members of the Network. Members are in turn actively encouraged to further disseminate material internally and to in-country stakeholders. Opportunities for collaboration on evaluation will be explored with the countries participating in OECD wide initiatives for enhanced engagement. The work and the products of the Network will also be promoted in a selective manner at major international evaluation conferences, particularly those which will bring together a broad group of developing countries and civil society actors.

#### e) Calendar of Meetings, Workshops, and Outreach Activities

9. The Network meets every eight to ten months (tentative dates for next programme cycle are June 2009, March and November 2010). Task team meetings and workshops are organised as needed for delivering the work programme. The Network will continue to seek opportunities to involve non-OECD members, developing countries and civil society organisations interested in evaluation in official meetings and workshops.”

<b>Mandate:</b>	<ul style="list-style-type: none"><li>- Approved by the DAC on 17 September 2003 [DCD/DAC/M(2003)6/FINAL]</li><li>- Renewal of the mandate approved by the DAC on 10 May 2007 [DCD/DAC/M(2007)6/FINAL, item IX, para. 22 and DCD/DAC(2007)25/REV2]</li><li>- Revision of the DAC subsidiary body mandates approved by the DAC on 23 October 2008 [DCD/DAC/M(2008)9, para. 7]</li><li>- Decision to extend the mandate to 31 December 2011 [DCD/DIR(2010)18]</li></ul>	

1. The Development Assistance Committee (DAC) is the principal forum through which bilateral donors deal with issues related to the volume and effectiveness of development co-operation. It aims to impact donor policies and practices in ways that promote aid effectiveness, capacity development, and inclusive globalisation, in order to support poverty reduction and sustainable development in developing countries.

2. Subsidiary Bodies of the DAC will function as communities of practice and sources of expertise that promote collective learning and produce deliverables in accordance with the DAC mandate. The deliverables of Subsidiary Bodies are to be based on the Programme of Work and Budget (PWB) and on additional guidance from the DAC, as communicated by its Chair. They could include leading edge thinking, policy recommendations, good practices, and tools, which are to be relevant, practical, timely, and user-friendly. These deliverables should be accompanied by

communication and dissemination strategies designed to ensure impact on behaviour change. Subsidiary Bodies will also promote synergies among other Subsidiary Bodies in contributing to the DAC's PWB.

3. The operations of Subsidiary Bodies, as part of the Organisation for Economic Co-operation and Development (OECD), will be in line with the rules, regulations, and guidance of the Organisation. Together with the Secretariat, they will carry out horizontal work with other parts of the OECD where appropriate to particularly contribute to policy coherence for development. Furthermore, Subsidiary Bodies will develop substantive interactions with international organisations and non-DAC donors –including in support of the Organisation's efforts toward enlargement and enhanced engagement– as well as reach out on a case by case basis to partner countries and other relevant actors.

“IV. Network on Gender Equality (GENDERNET)

A. Individualised Mandate

a) Overall Objectives and Comparative Advantage

1. The DAC Network on Gender Equality:

- Contributes to improving the quality and effectiveness of development co-operation. The GENDERNET works to ensure that practice and implementation match global and national commitments to gender equality and women's empowerment in advancing economic, social and political development in partner countries. It is responsive to changing contexts and development priorities.

- Provides strategic support to the policy priorities of the DAC. The GENDERNET plays a catalytic role, provides professional expertise for integrating gender equality perspectives into the DAC's work, reinforces this priority in members' programmes, and supports partner countries' development efforts. It collaborates with the other DAC subsidiary bodies.

- Provides members with a unique forum for sharing experiences and disseminating good practice and innovative approaches for integrating gender perspectives and women's empowerment into key aspects of development co-operation in support of partners' own efforts.

b) Areas of Focus and Types of Deliverables

2. Building on lessons learned during the 2005-06 biennium, the Network's priorities are sharply focussed on the “core” work of the DAC, namely aid effectiveness, statistics and peer reviews. The Network aims to improve donor policy and practice by stimulating fresh thinking designed to:

- Close the policy to implementation gap in donor agencies

- Improve donor performance and change behaviour both within individual agencies and collectively through increased collaborative work in partner countries, and

- Intensify investments in achieving gender equality and women's empowerment (MDG3).

3. The Network's deliverables have included the development of Issues briefs and guiding principles; case study based workshops; contributions to DAC policy guidance; and policy and practice consultations with other development actors.

c) Modalities, including Members, Observers, Outreach and Stakeholders

4. The core membership of the GENDERNET is drawn from the DAC and its permanent observers (the World Bank and UNDP). Several other relevant UN agencies, notably UNIFEM, the UN's Division for the Advancement of Women and UNESCO participate on a regular basis, along with the Commonwealth Secretariat, the regional development banks and TUAC. Research and civil society organisations are also invited to contribute to specific workshops and agenda topics. The case study approach to meetings has been a valuable way of actively engaging with both partner country governments and CSOs.

5. Every two years the Network holds a joint workshop with the UN's Inter-Agency Network on Women and Gender Equality (IANWGE) to exchange ideas and share information on issues of mutual relevance and interest.

#### d) Synergies with other DAC Bodies

6. The GENDERNET works collaboratively with other DAC subsidiary bodies. This can be through partnerships such as the joint work with the Working Party on Statistics to improve the DAC gender equality policy marker or with the GOVNET, WP-EFF and ENVIRONET on the Dublin workshop in April 2007. More often, it is through contributions to and review of draft DAC guidance. GENDERNET is an ex officio member of the POVNET.

#### B. Information Notes

a) Contributions to the Coherent Framework on the OECD's Work on Development, Relations with the Development Cluster, and Horizontal Work within the OECD Beyond the Cluster

7. The GENDERNET works collaboratively with both the Development Centre and the Africa Partnership Forum to ensure that our efforts are complementary.

#### b) Reference Guidelines Being Actively Used or Promoted

- The twin-track approach (mainstreaming and targeted interventions) of the DAC Guidelines for Gender Equality and Women's Empowerment in Development Co-operation (1999) remain valid.

- In the 2007-08 biennium the Network has developed a draft set of Guiding Principles on Gender Equality, Women's Empowerment and Aid Effectiveness (DCD/DAC/GEN(2008)1) to complement the DAC guidelines. These are due to be endorsed at the 2008 Senior Level Meeting.

#### c) Output Results and Means of Delivery, Such as Task Teams and Frequency of Meetings

8. The GENDERNET's expected output result in 2009-10 is policy and practice guidance on gender equality and women's empowerment to strengthen the development impact of the Paris Declaration and achieve the MDGs (the focus will be on supporting partners' efforts to broaden democratic ownership, achieve gender equality results and strengthen mutual accountability). The planned intermediate outputs are: identification and sharing of good practice in integrating gender equality and women's empowerment into development co-operation programmes to strengthen development impacts and achieve the MDGs; reporting on the lessons learned in applying the Paris Declaration to advance gender equality and women's empowerment and engagement with partner countries to disseminate these lessons; and, practical tools designed to support donor and partner country efforts to empower women in order to broaden democratic ownership, strengthen mutual accountability and achieve improved development results.

9. The GENDERNET will continue to focus on aid effectiveness (specifically the implementation of the Paris Declaration and the Accra Agenda for Action) in the 2009-10 biennium, building on its achievements in 2007-08. Members have emphasised the importance of having a tightly focused work programme which is achievable and at the same time sufficiently flexible to respond to changing needs. Decisions on the specific outputs and activities will be based on what would be most useful to a "critical mass" of Network members and their agency colleagues.

10. In late 2008 members agreed on a draft work programme for the 2009-10 biennium, taking into account the outcomes of the HLF-3 in Accra and the UN High Level MDG meeting in September 2008.

11. In 2009-10 short-term working groups of members will be formed with responsibility for specific outputs. They will be coordinated by the Bureau and Secretariat. These groups consult primarily through e-mail exchanges, telephone conferences or face-to-face meetings. For activities where there is no working group, individual Bureau members and the Secretariat are responsible for liaising with interested members and with other DAC subsidiary bodies.

d) Strategies on Communication and Dissemination

12. GENDERNET members have agreed that increased attention should be given to communicating and disseminating GENDERNET products. A variety of dissemination strategies are being used to ensure that the suite of Issues Briefs on gender equality, women's empowerment and aid effectiveness reach appropriate audiences in both donor and partner countries. These will be published in Spanish as well as in French and English.

e) Calendar of Meetings, Workshops and Outreach Activities

13. The GENDERNET usually meets in June or July of each year. The next biennial workshop with IANWGE is likely to be held in early 2009. Workshops and outreach activities are organised as appropriate for delivering the work programme."

“III. Network on Environment and Development Co-operation (ENVIRONET)

A. Individualised Mandate

a) Overall Objectives and Comparative Advantage

1. The DAC Network on Environment and Development Co-operation contributes to the formulation of coherent approaches to sustainable development in the context of the OECD cross-sectoral approach to sustainable development. It formulates specific guidance for development co-operation efforts in support of environment and sustainable development. It also provides its members with a policy forum for sharing experience and disseminating good practice with regard to the integration of environmental concerns in development co-operation.

b) Areas of Focus and Types of Deliverables

2. ENVIRONET aims to influence donor policy and approaches to sustainable development and to make these more coherent across donors by producing consensus-based policy guidance. During 2009-10 ENVIRONET will pursue this agenda by: (i) disseminating its policy guidance for donors on integrating climate change adaptation into development co-operation; and (ii) preparing sector specific climate change guidance; and (iii) updating the 1995 Guidelines on Capacity Development for Environment. Deliverables include policy guidance publications, policy briefs, seminars for headquarters staff, workshops in developing countries, and policy consultations.

c) Modalities, including Members, Observers, Outreach and Stakeholders

3. ENVIRONET's core membership is drawn from the DAC and its permanent observers (World Bank, UNDP). Representatives of non-DAC OECD countries, other United Nations agencies, researchers and civil society organizations contribute to ENVIRONET's work as appropriate, particularly through participation in its task teams. ENVIRONET consults with other stakeholders (including developing country officials as well as with civil society and the private sector in developed and developing countries) when formulating and testing its policy guidance.

d) Synergies with other DAC Subsidiary Bodies

4. ENVIRONET has collaborative working relationships with a number of DAC subsidiary bodies. It is working with GENDERNET in ensuring the Guidance on Integrating Climate Change Adaptation into Development Co-operation is gender sensitive. ENVIRONET are also working with EFF on integrating environmental considerations in country systems and post-Accra capacity development. In addition, the ENVIRONET co-chairs are ex officio members of POVNET. ENVIRONET and WP-STAT have also agreed to form a Joint Task Team to improve statistical tracking of donor support to environmental objectives including climate change.

B. Information Notes

a) Contributions to the Coherent Framework on the OECD's Work on Development, Relations with the Development Cluster, and Horizontal Work within the OECD Beyond the Cluster

5. ENVIRONET concentrates on issues at the interface of environment and development. Accordingly, it collaborates extensively with the Working Party on Global and Structural Policies of the OECD Environment Policy Committee (EPOC-WPGSP). In April 2006, a Joint Development-Environment Ministerial Meeting was held to examine the relationship between poverty reduction and environmental degradation. The Meeting emphasised the need for greater policy coherence between OECD Members' policies in the areas of development co-operation and environment. At that Meeting, Ministers endorsed a Framework for Common Action around Shared Goals, and a Declaration on Integrating Climate Change Adaptation into Development Co-operation. These landmark documents have provided crucial impulse for current efforts by the two OECD subsidiary bodies to identify ways to better integrate environmental factors into development co-operation policies and associated capacity development priorities. ENVIRONET also contributes to OECD-wide work on Policy Coherence for Development.

b) Reference Guidelines Being Actively Used or Promoted

- Applying Strategic Environmental Assessment (SEA): Good Practice Guidance for Development Co-operation, endorsed by the DAC in 2006.

- Pro-Poor Growth and Natural Resources: the Economics and Politics, published under the DAC Guidelines and Reference Series in 2008.

- Strategic Financial Planning for Water Supply and Sanitation, OECD internal document, forthcoming in 2009, [www.oecd.org/water](http://www.oecd.org/water).

c) Output Results and Means of Delivery, Such as Task Teams and Frequency of Meetings

6. Within the PWB output result of Policy and Operational Guidance on Integrating Climate Change into Development Co-operation as called for by Environment and Development Ministers in their joint meeting in 2006, three intermediate outputs will be delivered:

1.1. Guidance on integrating climate change adaptation into development co-operation supported by active dissemination.

The key output result will be policy guidance.

1.2. Analysis and policy guidance for implementing climate change responses in selected sectors.

The key outputs will be supplementary guidance documents for sectors sensitive to climate change identified in the policy guidance, including fisheries, forestry, nature conservation, water, human health, agriculture, energy, industry and infrastructure.

1.3. Analysis and policy guidance notes on harnessing development co-operation instruments to address global environmental challenges linked to combating climate change.

The key outputs will be guidance notes on the links between climate change and other environmental issues; updating the 1995 DAC Guidelines on Capacity Development for Environment; and an information note on policy coherence and climate change.

7. ENVIRONET is engaged with four task teams and three of them are managed with the EPOC-WPGSP.

- Task Team on Strategic Environmental Assessment

- Joint Development –Environment Task Team on Mainstreaming Climate Change Adaptation into Development Co-operation

- Joint Development –Environment Task Team on Governance and Capacity Development for Natural Resource and Environmental Management
- Joint Development –Environment Task Team on Financing of Water Supply and Sanitation

In addition, ENVIRONET and WP-STAT will establish new joint task team, which will begin its work in May 2009:

- Joint ENVIRONET - WP-STAT Task Team

d) Strategies on Communication and Dissemination

8. To ensure that the products reach their intended audience and have maximum impact on the work of policy makers in donor and partner countries, ENVIRONET uses a variety of promotion strategies including the development of short policy briefs, fact sheets and advisory notes; the development and implementation of training courses (notably on SEA); side events and poster displays at major international meetings and forums; workshops in partner countries; tracking of country-level donor activities on environment and development integration; use of websites and new media.

9. The Joint Development –Environment Task Team on Governance and Capacity Development for Natural Resource and Environmental Management is working to prepare documents and guidance notes. The documents will be presented and disseminated at side events to major international meetings such as the Conferences of the Parties to the UN Framework Convention on Climate Change.

e) Calendar of Meetings, Workshops, and Outreach Activities

10. ENVIRONET will support the joint DAC/EPOC High Level Meeting which is scheduled in May 28th and 29th, 2009. ENVIRONET and World Bank are jointly organising a Country Environmental Analysis in June 19th 2009 back to back ENVIRONET meeting in June 18th 2009. The Joint Development –Environment Task Team on Governance and Capacity Development for Natural Resource and Environmental Management is planned in September 2009.

11. At a side event during either the UNFCCC COP 15 (7 to 18 December) or the extended UN Climate Conference (30 November to 11 December 2009) in Copenhagen, a presentation of the Guidance on Integrating Climate Change Adaptation into Development Co-operation is planned. Other Task Team meetings, workshops and outreach activities will be organised as appropriate in relation to delivering the work programme.”

“VI. Network on Poverty Reduction (POVNET)

A. Individualised Mandate

a) Overall Objectives and Comparative Advantage

1. The DAC Network on Poverty Reduction is a community of practice and a source of expertise on understanding and tackling poverty. It takes a holistic approach, sees poverty as multidimensional and recognises that progress in one dimension of poverty both depends on and supports progress in other dimensions. POVNET builds on the diversity and experience of its members to serve as a forum for dissemination, mutual learning and seeking common understandings on how donors can best contribute to poverty reduction. POVNET takes the poverty reduction targets in the MDGs as its point of reference and supports the implementation of the Paris Declaration on Aid Effectiveness in matters related to poverty reduction through its work on the design and delivery of poverty reduction initiatives.

b) Areas of Focus and Types of Deliverables

2. It presently focuses on the relationships between poverty, inequality and growth, seeking to increase the poverty reduction impact of economic growth. Working mostly on the basis of existing analysis, POVNET seeks to draw out and test policy advice on how to promote pro-poor growth, which it sees as rapid and sustained economic growth in which the poor participate as both agents and beneficiaries. POVNET identifies, harmonises and disseminates good practices among aid agencies in implementing effective pro-poor growth policies. Empowering poor people so that they can participate more effectively in the economic, social and political processes that influence their livelihoods is a central component of this agenda, as are gender equity and environmental sustainability.

c) Modalities, Including Members, Observers, Outreach and Stakeholders

3. POVNET influences donor policy and approaches through the design, delivery, harmonisation and co-ordination of donors' pro-poor growth and poverty reduction activities at the field level. It does this by informing choices and policies on poverty reduction and by preparing products (e.g. policy papers, good practices notes, workshops in developing countries, seminars and operational staff training for donors) that take account of and are based on country specific analysis and by supporting donor engagement in country level policy and development processes. In these ways, POVNET promotes the alignment of donor initiatives with locally owned development plans and poverty reduction strategies and by supporting country based approaches.

4. POVNET's core membership is drawn from the DAC and its permanent observers (World Bank, IMF, UNDP). Representatives of non-DAC OECD countries as well as BIAC and TUAC often participate in POVNET meetings. Various other United Nations agencies, as well as researchers and civil society organisations contribute to POVNET work as appropriate, particularly through involvement in its Task Teams. POVNET consults widely with these other stakeholders

when formulating and testing its policy guidance and other products for donors. POVNET has recently established a working relationship with China and will support and contribute to the work of the DAC-China Study Group.

d) Synergies with other DAC Subsidiary Bodies

5. As issues related to gender and environmental sustainability cut across all dimensions of poverty, the Chairs of the DAC Networks on Gender Equality and on Environment and Development Co-operation have been ex officio members of POVNET from its inception, and they participate in its meetings as appropriate. POVNET's multidimensional approach to poverty requires its activities to be undertaken in collaboration with other DAC subsidiary bodies as well as to provide its perspectives on the work of other subsidiary bodies. Present discussion partners beyond ENVIRONET and GENDERNET include GOVNET, CPDC and the WP-EFF's JV-MfDR.

B. Information Notes Concerning the 2009-10 Biennium

a) Contributions to the Coherent Framework on the OECD's Work on Development, Relations with the Development Cluster, and Horizontal Work within OECD Beyond the Cluster

6. POVNET's work helps to promote more inclusive globalisation, a key objective for the OECD. POVNET actively pursues synergies with other members of the Development Cluster, notably the OECD Development Centre and the Sahel and West Africa Club, which participate in and contribute to POVNET work. POVNET also contributes, as appropriate, to OECD horizontal projects through collaboration with other committees, such as with the Agriculture Committee for the project on food prices.

b) Reference Guidelines Being Actively Used or Promoted

- DAC Guidelines: Poverty Reduction (2001)

- DAC Guidelines: Poverty and Health (2003)

- Promoting Pro-Poor Growth: Key Policy Messages (2006), and specific reports on Private Sector Development (2006), Agriculture (2006), Infrastructure (2006) and ex ante Poverty Impact Assessment (2007)

- Promoting Pro-Poor Growth: Social Protection and Empowerment (Forthcoming)

- Promoting Pro-Poor Growth: Employment and Labour Markets (Forthcoming)

c) Output Results and Means of Delivery, Such as Task Teams and Frequency of Meetings

7. POVNET will deliver two output results in the 2009-10 biennium:

- Implementing and validating POVNET policy guidance in promoting pro-poor growth (see list above);

- Empowering poor women and men to participate in and benefit from growth.

8. A Task Team on Implementing and Validating the Policy Guidance on Promoting Pro-Poor Growth and a Task Team on Empowerment have been formed to advance the work under each output result. These task teams, which are constituted for the period of the 2009-10 biennium, will prepare Terms of Reference for approval by POVNET. The Task Teams will consult regularly (e.g. via e-mail exchanges, face-to-face meetings or video conferencing) and report on progress at the semi-annual POVNET meetings.

d) Strategies on Communication and Dissemination

9. POVNET will develop and implement communication strategies for these outputs in order to more effectively disseminate its messages and influence donor behaviour, both at headquarter and field levels.

e) Calendar of Meetings, Workshops, and Outreach Activities

10. POVNET meets in the spring and autumn of each year. Workshops and outreach activities are organised as appropriate and in relation to delivering the work.”

<sup>1</sup> A number of developing country experts are invited at each meeting in relation to items for discussion.

- Revision of the DAC subsidiary body mandates approved by the DAC on 23 October 2008 [DCD/DAC/M(2008)9, para. 7]
- Decision to extend the mandate to 31 December 2011 [DCD/DIR(2010)18]

1. The Development Assistance Committee (DAC) is the principal forum through which bilateral donors deal with issues related to the volume and effectiveness of development co-operation. It aims to impact donor policies and practices in ways that promote aid effectiveness, capacity development, and inclusive globalisation, in order to support poverty reduction and sustainable development in developing countries.

2. Subsidiary Bodies of the DAC will function as communities of practice and sources of expertise that promote collective learning and produce deliverables in accordance with the DAC mandate. The deliverables of Subsidiary Bodies are to be based on the Programme of Work and Budget (PWB) and on additional guidance from the DAC, as communicated by its Chair. They could include leading edge thinking, policy recommendations, good practices, and tools, which are to be relevant, practical, timely, and user-friendly. These deliverables should be accompanied by communication and dissemination strategies designed to ensure impact on behaviour change. Subsidiary Bodies will also promote synergies among other Subsidiary Bodies in contributing to the DAC's PWB.

3. The operations of Subsidiary Bodies, as part of the Organisation for Economic Co-operation and Development (OECD), will be in line with the rules, regulations, and guidance of the Organisation. Together with the Secretariat, they will carry out horizontal work with other parts of the OECD where appropriate to particularly contribute to policy coherence for development. Furthermore, Subsidiary Bodies will develop substantive interactions with international organisations and non-DAC donors –including in support of the Organisation's efforts toward enlargement and enhanced engagement– as well as reach out on a case by case basis to partner countries and other relevant actors.

## "V. Network on Governance (GOVNET)

### A. Individualised Mandate

#### a) Overall Objective and Comparative Advantage

1. The DAC Network on Governance aims to improve the effectiveness of donor assistance in support of democratic governance<sup>2</sup> in developing countries. It provides members with a forum to exchange experiences and lessons, identify and disseminate good practice, and develop policy and analytical tools relating to the reform of institutions, the dynamics of change and the interplay of checks and balances, and issues surrounding domestic accountability and respect for human rights. Consistent with the Paris Declaration on Aid Effectiveness (2005), the GOVNET promotes partner country ownership, aligned and co-ordinated donor approaches, results and mutual accountability.

#### b) Areas of Focus and Types of Deliverables

2. The GOVNET's work on governance spans a range of issues, including human rights, transparency, accountability, participation and equality, anti-corruption and capacity development in support of these elements of democratic governance. The GOVNET is a resource for DAC member states, and the DAC and its subsidiary bodies, providing a perspective on the interface between states and societies and the challenges of state-building in developing countries. Deliverables

<sup>2</sup> Democratic governance is taken to encompass the broad principles of supporting human rights, transparency, accountability, legitimacy, participation and equality, without being narrowly prescriptive about formal or procedural forms of democratic government.

include policy guidance publications, policy briefs, seminars for headquarters staff, workshops, and policy consultations.

#### c) Modalities, Membership and Outreach

3. The membership of the GOVNET is composed of representatives from responsible Ministries of DAC members and observers.<sup>3</sup> Engagement and dialogue with partner countries are essential in undertaking the GOVNET's work on governance and are encouraged at both GOVNET and task team level. The GOVNET may invite experts from developing countries, international organisations, academia and international non-governmental organisations (NGOs) to participate to enhance the implementation of the work programme.

4. The work of the GOVNET is steered by a Chair and a Bureau consisting of 2-4 interested members. Plenary meetings are usually held every nine months in Paris. Groups of interested members may be formed to ensure the implementation of individual work programme components, meeting as necessary either in Paris or other locations, or via other communication means. Linkages between these groups are encouraged, so as to promote intra-network learning.

#### d) Synergies with Other Subsidiary Bodies and OECD Bodies

5. To enhance policy coherence and synergies across the DAC and the wider OECD, the GOVNET seeks to interact and establish effective links with other DAC subsidiary bodies and OECD groups more widely regarding governance issues. Members are encouraged to liaise with other parts of their governments where this will enhance collaboration and coherence.

### B. Information Notes

a) Contributions to the Coherent Framework on the OECD's Work on Development, Relations with the Development Cluster, and Horizontal Work within OECD beyond the Cluster

6. The GOVNET's goal to improve the effectiveness of donor assistance in support of democratic governance in developing countries allows the network to actively seek to establish partnerships with other members of the Development Cluster and the OECD, particularly with the OECD Development Centre and the OECD Centre for Tax Policy and Administration. GOVNET also contributes to OECD horizontal activities and collaborates with other OECD committees and bodies in initiatives such as the OECD work on anti-corruption (e.g. Working Group on Bribery).

#### b) Reference Material Being Actively Used or Promoted

- Integrating Human Rights into Development: Donor Approaches, Experiences and Challenges, Paris: OECD 2006 (The Development Dimension).

- DAC Policy Paper and Principles on Anti-Corruption: Setting an Agenda for Collective Action (2007).

- DAC Action-Oriented Policy Paper on Human Rights and Development (2007).

- Human Rights and Aid Effectiveness (2007).

- Governance, Taxation and Accountability: Issues and Practice (2008).

- Human Rights and Aid Effectiveness: Key Actions to Improve Inter-Linkages (2008).

---

<sup>3</sup> In its work on governance and anti-corruption, including interactions with other partners, the World Bank, an Observer to the Network, must act within the framework of its Articles of Agreement which include a limitation on interference in its members' political affairs and prohibit decisions being influenced by its members' political character (see the IBRD Articles of Agreement, Article IV, Section 10).

- Voluntary Code of Conduct for Donor Joint Responses to Corruption (forthcoming).
- Guiding Principles for Enhanced Impact, Usage, and Harmonisation of Governance Assessments (forthcoming).

c) Output Results and Means of Delivery, Such as Task Teams and Frequency of Meetings

7. The GOVNET contributes to achieving the DAC's work programme in the output area of "Effective States, Empowered Societies and Policy Coherence" by targeted activities in the areas of human rights, anti-corruption and aid for democratically accountable institutions. This includes, but is not limited to, intermediate output results such as reports and analysis of how human rights are being integrated in aid delivery mechanisms at the country level; Guidance to promote the implementation of the UN Convention against Corruption (UNCAC); lessons learned on how improved donor practices can help to promote domestic accountability.

8. To produce policy guidance and support dissemination activities, implementation is delegated to GOVNET Task Teams (on Human Rights, Anti-Corruption, Governance and Taxation, and Aid and Accountability). They consult regularly (e.g. via e-mail exchanges, telephone or video conferencing and face-to-face meetings) and report on progress to the GOVNET meeting.

d) Strategies on Communication and Dissemination

9. The GOVNET will develop, in implementing the 2009-10 work programme, communication strategies for its outputs in order to more effectively disseminate its messages and influence donor behaviour, both at headquarter and field levels.

e) Calendar of Meetings, Workshops, and Outreach Activities

10. The Network meets every eight to ten months. Task team meetings, workshops and outreach activities are organised as appropriate and in relation to delivering the work."

"I. International Network on Conflict and Fragility (INCAF)

A. Individualised Mandate

a) Overall Objectives and Comparative Advantage

1. The objective of the International Network on Conflict and Fragility is to facilitate the improvement of development co-operation and coherent international action in situations where the Millennium Development Goals are undermined, or may in future be undermined, by the threats of violent conflict, human insecurity, fragility, weak governance and instability. The Network's comparative advantage is as a unique donor forum to address collective action problems arising from conflict and fragility, increasingly with the involvement of partner countries. Through lesson learning and promoting best practice among its members, the Network will work to achieve policy commitments and behaviour change among international actors in headquarters and at the field level to address these threats in order to provide the foundations for growth and poverty reduction. Tracking progress and measuring results will be an important ongoing area of work.

b) Areas of Focus and Types of Deliverables

2. The Network will be organised around two complementary pillars: (i) state building, peace building, security and development, including supporting the DAC in considering security related aspects of ODA eligibility; and (ii) aid and development effectiveness in situations of conflict and fragility. The deliverables of the Network will build on existing principles and guidelines developed by the FSG and CPDC including the Principles for Good International Engagement in Fragile States and Situations and the Preventing Violent Conflict guidelines. The Network will aim to build whole-of-government ownership for deliverables by involving actors from a range of agencies in discussions. The Network will ensure that the DAC's overarching priority concern with capacity development is addressed, for example institutional development work as part of state building and peace building.

c) Modalities, including Members, Observers, Outreach and Stakeholders

3. Ways of working will be characterised by a comprehensive approach to examine and improve international practice, including organisational issues such as staffing and the speed with which international actors respond to situations of fragility and conflict, policy frameworks, resource allocations and the development of international instruments and tools.

4. The core of the Network's membership will be staff working on conflict and fragility in donor agencies. To maximise coherent international action in situations of conflict and fragility, a whole-of-government approach will be built into delivering the work of the Network, with engagement and outreach with other policy communities, for example security and diplomatic communities, where appropriate. The Network will engage with partner countries in the development of its outputs on a case by case basis. The Network will reach out to non-DAC and non-OECD donors in order to bring together the full international effort aimed at addressing situations of conflict and fragility.

#### d) Synergies with other DAC Subsidiary Bodies

5. The Network will maintain strong links with all other DAC Networks and selectively with other OECD bodies.

#### B. Information Notes

a) Contributions to the Coherent Framework on the OECD's Work on Development, Relations with the Development Cluster, and Horizontal Work within OECD Beyond the Cluster

6. The Network helps to promote improved aid and development effectiveness in situations of conflict and fragility, a key objective for the OECD. To achieve this agenda, the Network will actively pursue synergies with other members of the Development Cluster, notably the Africa Partnership Forum, the Development Centre and the Sahel and West Africa Club. The new Network will also contribute, as appropriate, to OECD horizontal projects through collaboration with other committees, such as continued joint work with the OECD Directorate for Financial and Enterprise Affairs on the Risk Awareness Tool for Multinational Enterprises in Weak Governance Zones.

#### b) Reference Guidelines Being Actively Used or Promoted

- DAC Guidelines on Helping Prevent Violent Conflict (2001)
- Preventing Conflict and Building Peace: A Manual of Issues and Entry Points (2006)
- DAC Handbook on Security System Reform: Supporting Security and Justice (2007 and 2009)
- Principles for Good Engagement in Fragile States and Situations (2007)
- Whole-of-Government Approaches to Fragile States (2007)
- Draft DAC Guidance on Evaluating Conflict Prevention and Peacebuilding Activities (2008)
- Concepts and Dilemmas of State Building in Fragile Situations: From Fragility to Resilience (2008)
- Armed Violence Reduction Policy Paper (2008)

#### c) Output Results and Means of Delivery, Such as Task Teams and Frequency of Meetings

7. The INCAF contributes to achieving the DAC's work programme in the area of aid and development effectiveness by promoting greater alignment of member policies, strategies and modalities for engaging in peacebuilding and state building activities to DAC guidance for such engagement.

8. To produce policy and practical guidance and implement dissemination and behavioural change activities, detailed Terms of Reference will be prepared for each output result and implementation delegated to the Network's two task teams on Financing and Aid Architecture and Peacebuilding, State Building and Security. The Task Teams will consult regularly (e.g. via e-mail exchanges, face-to-face meetings or video conferencing) and report on progress to the bi-annual Network meeting.

d) Strategies on Communication and Dissemination

9. Modalities and strategies for communication and dissemination of Network products will be agreed on a case by case basis.

e) Calendar of Meetings, Workshops, and Outreach Activities

10. The Network will meet twice each year. Task Team meetings, workshops and outreach activities are organised as appropriate and in relation to delivering the work."

“THE COUNCIL,

Having regard to Articles 1 and 2 of the Convention on the Organisation for Economic Co-operation and Development of 14th December 1960;

Having regard to the Resolution of the Council amending the name and the Mandate of the Technical Co-operation Committee of 23 June 1989 [C(89)92(Final)], the mandate renewal resolutions of 23 June 1994 [C(94)125/Final], 9 December 1999 [C(99)175/Final], and 6 July 2004 [C(2004)116], and the Resolution of the Council amending the name of the Public Management Committee of 15 January 2004 [document C(2003)206 and C/M(2004)1];

Having regard to the Rules of Procedure of the Organisation;

Having regard to the recommendations of the In-depth Evaluation of the Public Governance Committee [C(2009)35 and CORR2];

Having regard to the proposed revision of the mandate of the Public Governance Committee [C(2009)170];

Recognising that globalisation and global challenges such as climate change and societal change are strengthening the need for improved governance at supranational, national and sub-national level;

Recognising the importance of good public governance for creating a stronger, cleaner and fairer economy, and as an essential element in strengthening pluralistic democracy, promoting sustainable development, maintaining confidence in public administration;

Recognising the importance of good public management, including budgetary and regulatory management, in ensuring policy effectiveness, economic efficiency and sound fiscal balances, and in maximising the quality of, and programme results achieved with, government expenditure;

Recognising that public governance reforms and innovations are and must be context-dependent and country-specific, dealing with different situations but aiming at the same long-term goals;

Recognising the interest of non-Members in sharing OECD values and experience in enhancing public governance;

Considering the central role of public governance as both an agent for achieving structural adjustment and international competitiveness, and a subject for innovation itself;

Considering the statement of the Public Governance Committee on the PGC Mandate [GOV/PGC(2009)5/REV2] which sets out how PGC will contribute to the economic and social policy objectives of Member countries;

#### DECIDES:

A. The Public Governance Committee has the following mandate:

##### I. Objectives

- a) The objective of the Public Governance Committee is to assist countries in building and strengthening future capacity for designing, implementing and assessing adaptive, innovative, anticipatory and citizen-focussed public policies, institutions and services.
- b) The intermediary objectives of the Committee include:
  - i) identifying the current and emerging strategic public governance challenges that governments face, including in a context of global crisis;
  - ii) assisting countries in developing and delivering public policies based on a whole-of-government approach and grounded in the core values of the public sector;
  - iii) assisting countries in designing and implementing coherent and effective public sector reform policies, including building future capability;
  - iv) building and maintaining a body of robust quantitative and qualitative data and indicators on public sector inputs, processes, outputs, outcomes and performance, for carrying out comparative evidence-based analysis;
  - v) assessing the performance of countries' public sectors through peer reviews;
  - vi) contributing a public governance and public management perspective on critical public policy issues;
  - vii) promoting and providing a forum for policy dialogue, co-operation and exchange of experience among those responsible for the public sector, as well as with other relevant stakeholders, including international organisations and institutions, and the private sector.

II. Co-operation arrangements

- a) The Committee shall co-operate with other OECD committees on matters related to public governance and participate in horizontal activities.
- b) The Committee will in particular seek close co-operation with the Regulatory Policy Committee and the Territorial Development Policy Committee, served by the same Directorate.
- c) The Committee shall keep itself informed of the activities related to public governance and management carried out in other international organisations. It will promote and develop, as practicable, partnerships with these organisations and seek to ensure effective complementarities while avoiding undue duplication with other international organisations as appropriate.
- d) The Committee shall consider the views and input of BIAC, TUAC and other major stakeholders in the field of public governance.
- e) The Committee shall encourage participation by non-Members in the Committee's work (including undertaking country reviews and contributing to Government at a Glance and thematic work) and their implementation of the Committee's recommendations and good practices.

B. The mandate of the Public Governance Committee shall remain in force until 31 December 2014.”

## GLOBAL FORUM ON PUBLIC GOVERNANCE<sup>1</sup>

<b>Chair:</b>	No formally-appointed Chair
<b>Date of creation:</b>	1st January 2009
<b>Duration:</b> <sup>2</sup>	31st December 2014
<b>Approved by:</b>	Public Governance Committee, 23 October 2008 [GOV/PGC/M(2008)2]

### **Mission Statement:**

The OECD Global Forum on Public Governance aims to contribute to the PGC's Programme of Work outputs by fostering dialogue and network development within the thematic framework of its mandate, through a venue where member and non-member economies, and other stakeholders can:

- Identify and address the strategic challenges faced in modernising public governance, particularly when aiming to strengthen trust in public institutions and their capacity to adapt to new challenges;
- Generate dialogue and enhanced learning in order to achieve more coherent and effective policies, and to raise the integrity, quality and performance of public institutions and services;
- Discuss and promote key elements of a good governance framework, thereby contributing to the effectiveness, efficiency, transparency, responsiveness and accountability of public institutions.

The Global Forum on Public Governance would contribute to build consensus on such proposed cross-cutting public governance themes such as innovative policies for designing and delivering public services, citizen engagement and participation in the policy process and the governance of reforms, cutting red tape, integrity/anti-corruption, budget transparency, human resource management, etc.

<b>Members:</b>	Open to all Member countries
<b>Designated Participants:</b>	Regular PGC observers: Brazil, Egypt, Morocco, Ukraine; Accession countries other than observers: Russia  Enhanced Engagement partners other than observers : China, India, Indonesia, South Africa  South East Asian countries: Malaysia, Thailand, Singapore, Vietnam  Participants in the OECD MENA Initiative: Algeria, Bahrain, Dubai UAE, Egypt, Iraq, Jordan, Kuwait, Lebanon, Libya, Morocco, Palestinian National Authority, Qatar, Syria, Tunisia, United Arab Emirates, Yemen

---

<sup>1</sup> Information on this Global Forum is provided for the sake of completeness. However, please note that in accordance with Council decision C(2008)208/FINAL, Global Forums are not official OECD bodies.

<sup>2</sup> The duration of Global Forums is a function of the duration of their parent Committee(s). By default, it would coincide with the duration of the Committee whose mandate expires first and be automatically renewed together with this Committee's mandate. Earlier expiration dates would be possible.

**Date of creation:** 1980

**Duration:** 31st December 2014

### **Mandate:**

#### WORKING PARTY OF SENIOR BUDGET OFFICIALS

1. The Working Party of Senior Budget Officials (SBO) aims to improve the effectiveness and efficiency of resource allocation and management in the public sector.
2. The Working Party addresses the entire budget cycle, including budget formulation, budget approval (role of the legislature), budget implementation (management, organisational structure), and audit.
3. The SBO provides a collaborative forum for policy makers and senior officials to address major budgeting concerns, including information exchange on emerging issues, trends and challenge, as well as identifying and disseminating good practice and developing policy and analytical tools. The SBO establishes separate networks for specific components of the budget cycle\*.
4. In support of its mission, the SBO carries out analysis and research on the full range of budgeting issues. It conducts “peer review” examinations of the budgeting systems of individual Member countries and analyses individual aspects of the budgeting system across Member countries. The SBO also maintains a comprehensive database of national budgeting practices in Member countries.
5. The Working Party recognises that the institutions for allocating, managing and accounting for public resources are fundamental to good governance, and it therefore co-operates with non-Members in order to share the results of its work, including through the maintenance of regional networks.
6. The duration of the Working Party’s mandate is concurrent with that of the Public Governance Committee.

### **Mandate:**

#### NETWORK ON FINANCIAL MANAGEMENT TERMS OF REFERENCE

1. The Network supports the mandate of the Working Party of Senior Budget Officials “to improve the effectiveness and efficiency of resource allocation and management in the public sector” by assisting Member countries to design and implement financial management and accountability reforms.
2. More specifically, the Network will assist Member countries and Outreach partners in:
  - The implementation of accrual-based financial reporting and budgeting systems;
  - Fostering convergence in the accrual treatment of specific transactions, and liaison with the appropriate standard-setting bodies in this regard;
  - Enhancing the structure and format of government financial statements;
  - Establishing incentive-based cash and asset management practices;
  - Adopting effective internal and external control and audit practices; and
  - Other related activities.
3. The Network provides a forum for senior officials, and conducts research and analysis addressing the above issues in line with the operating methods specified in the Mandate of the Working Party of Senior Budget Officials. The Network shall provide an annual report on its activities to the Working Party.
4. The duration of the Network’s mandate is concurrent with that of the Working Party of Senior Budget Officials.

#### NETWORK OF PARLIAMENTARY BUDGET COMMITTEE CHAIRPERSONS TERMS OF REFERENCE

1. The Network supports the mandate of the Working Party of Senior Budget Officials “to improve the effectiveness and efficiency of resource allocation and management in the public sector” by assisting the legislatures of Member countries to effectively play their role in the budget process.
2. More specifically, the Network will assist the legislatures of Members and Outreach partners in:
  - Improving the working methods for scrutinising the government’s budget proposals;
  - Designing the appropriate rules and restrictions, if any, for amending the government’s budget proposal;
  - Building capacity in the design of budgeting and management reforms in Member countries;
  - Improving the working methods for holding the government to account for budget implementation; and
  - Other related activities.
3. The Network provides a forum for parliamentarians and their staff, and conducts research and analysis addressing the above issues in line with the operating methods specified in the Mandate of the Working Party of Senior Budget Officials. The Network shall provide an annual report on its activities to the Working Party.
4. The duration of the Network’s mandate is concurrent with that of the Working Party of Senior Budget Officials.

#### NETWORK ON PERFORMANCE AND RESULTS

##### TERMS OF REFERENCE

1. The Network supports the mandate of the Working Party of Senior Budget Officials “to improve the effectiveness and efficiency of resource allocation and management in the public sector” by assisting Member countries to design and implement performance- and results-based budgeting and management reforms.
2. More specifically, the Network will assist Member countries and Outreach partners in:
  - Establishing mechanisms to ensure the reliability and consistency of performance and results information;
  - Developing evaluation policies and processes
  - Designing systems for linking performance and results information and the resource allocation process;
  - Establishing accountability regimes based on performance and results information; and
  - The definition of appropriate performance and results outcomes and/or outputs for the range of government activities;
  - The measurement of defined outcomes and/or outputs;
  - Other related activities.
3. The Network provides a forum for senior officials and conducts research and analysis addressing the above issues in line with the operating methods specified in the Mandate of the Working Party of Senior Budget Officials. The Network shall provide an annual report on its activities to the Working Party.
4. The duration of the Network’s mandate is concurrent with that of the Working Party of Senior Budget Officials.

#### NETWORK OF SENIOR OFFICIALS FROM CENTRES OF GOVERNMENT

The Network of Senior Officials from Centres of Government aims:

- to review issues of making the centre of national government work effectively;
- to understand decision- and policy-making systems;
- to strengthen the relations among peers in order to encourage them to exchange experiences and priorities;
- to work on broad governance issues; and
- to provide the Public Governance Committee with insight and guidance on ongoing activities and future work.

**Date of creation:** 1985

**Duration:** 31st December 2012

**Mandate:**

### NETWORK ON PUBLIC EMPLOYMENT AND MANAGEMENT

1. The Network on Public Employment and Management contributes to the improvement of public sector governance and in turn to economic development in member countries by providing policy advice and tools to address challenges on the management of the public workforce. The goal is to contribute to a more agile public sector, as civil service systems are central to government effectiveness. For that reason, the theme "The public sector on the move" is one of the key priorities for the 2011-12 Programme of Work and Budget of the Committee.

2. The Network addresses these issues through a strategic focus on human resource management in government. This includes issues such as workforce planning, employment conditions, policies to acquire and retain capacity, the management of senior civil servants, compensation of public servants, performance management, core values, the organisation of the HR function, and HR reform implementation strategies.

3. The Network provides a collaborative forum of exchange for senior officials of central government bodies in charge of general government management or more human resource-focused bodies to address major challenges to foster cultural change and build a more flexible, dynamic, adaptive and forward looking workforce. This includes strategies to adjust the size of the public workforce, workforce reallocation, enhancing diversity in the public sector, acquiring the right competencies for the public service, ensuring capacity for service delivery in the context of fiscal pressures, and ensuring a fair and sustainable compensation system.

4. The network facilitates the exchange of information on emerging issues, identification of trends and challenges on human resource management, and dissemination of best practices, as well as developing policy and analytical tools. Specific ad hoc meetings of experts may be organized to discuss particular topics related to outputs in the programme of work (e.g. compensation and performance-related pay).

5. The Network also builds and regularly updates a comprehensive database on strategic human resource management and on public sector pay which is a key component of Government at a Glance, a flagship publication and the first priority of the Public Governance Committee.

#### NETWORK ON PUBLIC SECTOR INTEGRITY TERMS OF REFERENCE

1. The Network contributes to improving public sector governance through safeguarding integrity and preventing corruption. This is a key area in the Committee's programme of work, contributing to the OECD strategies for stronger fairer and cleaner economies through Strategic and Open Government. The crisis has showed an urgent need to reassess how core public sector values, such as integrity, transparency, accountability, can be rethought and strengthened to prevent future deficiencies in the interface between the public and the private sector. Fighting corruption also helps to restore trust in government, an overarching goal for public policies.
2. More specifically, the Network supports the implementation of the Programme of Work and Budget of the Public governance Committee in relation to the activities on promoting integrity and preventing corruption.
3. The Network provides a unique forum for Peer reviews and exchanging first-hand experiences on emerging issues and best practices in the area, for reviewing trends and developing best practice guidelines and for building and enriching a set of comparative data, as well as for disseminating lessons and supporting a global policy dialogue with multiple stakeholders, at a time when these issues are high on the G20 agenda.
4. More specifically, the Network reviews issues related to risk areas at the interface between the public and private sector, including public procurement, lobbying, post-employment

conflict of interest. It supports the Public Governance Committee in implementing and reviewing progress made in relation to the following OECD instruments:

- C(1998)70 Recommendation of the Council on Improving Ethical Conduct in the Public Service Including Principles for Managing Ethics in the Public Service.
- C(2003)107 Recommendation of the Council on OECD Guidelines for Managing Conflict of Interest in the Public Service
- C(2008)105 Recommendation of the Council on Enhancing Integrity in Public Procurement
- C(2010)16 Recommendation of the Council on Principles for Transparency and Integrity in Lobbying

5. The Network has also developed strong methodological tool for building a database on comparative practices in terms of safeguarding integrity and preventing corruption. These also contribute to Government at a Glance, a flagship publication and the first priority of the Public governance Committee.

### NETWORK ON E-GOVERNMENT TERMS OF REFERENCE

1. The Network on E-Government contributes to the improvement of public sector governance in member countries by fostering the effective and efficient use of cutting-edge technologies to promote a culture of openness, transparency and citizens' engagement in the public sector. The goal is to foster a culture of openness and facilitate better exchange of information with citizens, increasing responsiveness to societal needs and contributing to strategic and open government, to facilitate reorganization and adaptation to increase public sector agility, and to contribute to more efficient service delivery, using the dividends of modern technologies at times of fiscal consolidation. This cuts across the three priority areas of the Committee for the 2011-12 Programme of Work Biennium.

2. The Network seeks to ensure that e-government is better integrated into the broader public sector modernization agenda. The Network recognizes ICT use as a contributing element to good governance and facilitates global policy dialogue and knowledge dissemination across a wide range of countries. For this purposes, it offers a collaborative forum for policy-makers and senior officials to address major e-government concerns, including identification of and information exchange on emerging issues, trends and challenges, as well as identifying and disseminating good practices and developing policy and analytical tools. In support of its mission, the Network on E-Government carries out analysis and research on the full range of e-government issues.

3. In terms of its working methods, the Network favours a virtual approach to information exchange, relying on electronic dissemination and web-based tools. Meetings are organized only when needed either on specific cutting edge issues, or to conduct "peer review" examinations of national e-government initiatives and to analyze individual aspects of e-government across member countries.

---

\* Formerly known as the Network of Senior E-Government Officials. Change of name approved by the Public Governance Committee on 21 August 2010.

4. The network has also developed through electronic means a database of national e-government practices in member countries, which provides key contributions to *Government at a Glance*, a flagship publication and the first priority of the Public governance Committee.

Resolution of the Council concerning the Renewal of the Mandate of the Territorial Development Policy Committee set out in annex I to document [C(2004)114] adopted by the Council on 8th July 2004 at its 1091st session [C(2004)114/CORR1 and C/M(2004)17, item 216].  
Resolution of the Council concerning the Renewal of the Mandate of the Territorial Development Policy Committee set out in annex I to document [C(2009)126] adopted by the Council on 22 October at its 1027<sup>th</sup> Session [C/M(2009)21, item 242].

Resolution of the Council [C(2009)126 and C/M(2009)21, item 242]

### “THE COUNCIL,

Having regard to Articles 5 a) and 9 of the Convention on the Organisation for Economic Co-operation and Development.

Having regard to the Rules of Procedure.

Having regard to the report “*The OECD Committee Structure - A review*” [CE(98)3].

Having regard to the Resolution of the Council concerning the Creation of a Territorial Development Policy Committee [C(98)198/FINAL].

Having regard to the Resolutions of the Council concerning the Renewal of the Mandate of the Territorial Development Policy Committee [C/M(2001)26], Item 426 and [C(2001)257/REV1], [C/M(2004)114, and CORR1, and C/M(2004)17, Item 216].

Having regard to the emerging synergies with the work in the directorate on Public Governance and Territorial Development.

Having regard to the principal conclusions of the meeting of the Territorial Development Policy Committee (TDPC) at Ministerial Level in March 2009.

Having regard to the proposed revision of the mandate of the Territorial Development Policy Committee [C(2009)126].

Seizing the enormous opportunity Ministers see for regional policy to promote long-term economic development while addressing major national and global policy challenges, such as fostering innovation and entrepreneurship, confronting climate change, moving towards sustainable development, investing in human capital formation, dealing with demographic issues (such as ageing and migration), and enhancing the effectiveness of public investment and the quality of public services in both urban and rural areas.

Recognising that Ministers reaffirmed the need to shift from subsidy-based single sector policies to integrated multi-sector and place-based policies that exploit each region's competitive advantage and core economic strengths.

Considering the central role of regional development policies as both an agent for achieving structural adjustment, international competitiveness, and innovation, thus contributing to broader national and global objectives.

Acknowledging the importance of regional policy in the context of global economic crisis, and the role it plays in the implementation of effective fiscal packages in response to the crisis.

Acknowledging that the Committee provides a unique forum for Members, non-Members and other relevant stakeholders (international organisations, NGOs, and the private sector) to share views on regional development policy design and implementation and to improve the understanding of economic, social, environmental and institutional trends relevant to regional policy making.

Recognising that the Territorial Development Policy Committee contributes a territorial perspective on major national and global policy concerns and priorities, notably innovation and entrepreneurship, climate change, sustainable resource use and demographic issues, including ageing and migration.

## **DECIDES:**

1. The Territorial Development Policy Committee has the following mandate:

### **Objectives:**

- a) The Territorial Development Policy Committee (TDPC) seeks to improve the performance of policies to enhance well-being and living standards in all types of regions by influencing the main factors that: sustain regional competitive advantages; generate stronger, fairer and liveable regional economies; and promote effective and innovative governance.
- b) TDPC should serve as a premier international forum for senior-level government policy makers to identify, discuss, and disseminate a vision of development policy that is place-based, multi-level, innovative and geared towards different types of regions. This policy approach focuses on economic growth and competitiveness while integrating environmental and social concerns.
- c) The intermediary objectives of the Committee include:
  - i) Diagnosing policy challenges in different types of regions; comparing cross-territory trends in regional performance, in local finances, and in regional policies; promoting understanding of the linkages between rural and urban areas; and

developing and maintaining high-quality and relevant statistical indicators to support policy making.

- ii) Identifying and addressing the current and emerging regional policy challenges that governments face, particularly with the consequences of the global economic crisis and the responses to critical issues, such as climate change, ageing, and migration.
- iii) Seizing new regional policy opportunities in key areas such as innovation, green growth, and key national strategies.
- iv) Undertaking policy analysis of regional competitiveness strategies, with a view to promoting the best use of under-utilised potential for growth, and better incorporate into regional policy making the inter-linkage between economic development, social and regional cohesion and environmental and sustainability concerns.
- v) Assisting, through the exchange of best practices and peer reviews, Members and non-Members in designing and implementing coherent regional development policies that are based on a whole of government approach, effective targeting of public investments, and efficient delivery of public services to best support development and other major national objectives.
- vi) Examining how the appropriate governance mechanisms can be identified and put in place to improve policy making.

### **Co-operation arrangements**

I. TDPC's three Working Parties --Working Party on Territorial Policy in Rural Areas; Working Party on Territorial Policy in Urban Areas; and Working Party on Territorial Indicators-- will play a key role in supporting the work of the Committee and assisting in the implementation of its programme of work. The Chairs of the Working Parties will report directly to the TDPC.

II. Building on its work on multi-level governance, the TDPC should look at how to ensure policy coherence and effective co-ordination between supra-national (when applicable), central and regional and/or local actors, drawing on the work of, and in close co-operation with, the Public Governance Committee.

III. The TDPC and its Working Parties shall co-operate with other OECD committees on matters related to regional development policies, including participation in horizontal activities.

### **Relations with non-Members, inter-governmental bodies and international organisations**

I. Recognizing the global importance of regional policy, the Committee will continue to work closely with non-Members to discuss issues of common interest and identify and disseminate best practices. The Committee may invite non-Members to participate in its work in accordance with Council Resolution C(2004)132/FINAL.

II. In addition, the Committee will continue its working relationships with other inter-governmental bodies and international organisations, as is the case for the: Council of Europe (CoE), Economic Commission for Latin America and the Caribbean (ECLAC), European Investment Bank (EIB), Inter-American Development Bank (IADB), United Nations Development Programme (UNDP), and the World Bank (WB).

III. The Committee shall consider the views and input of BIAC, TUAC and other major stakeholders in the field of regional policy.

### **Duration of the Mandate**

2. The mandate of the TDPC shall remain in force from 1 January 2010 until 31 December 2014.”

<b>Mandate :</b>	Decision of the Territorial Development Policy Committee [DT/TDPC(99)23]. Renewal of the Working Party's Mandate by the Territorial Development Policy Committee during the TDPC Enlarged Bureau meeting on 23 September 2009 [GOV/TDPC/URB(2009)1/FINAL and C(2009)126].	

### Working Party on Territorial Policy in Urban Areas [DT/TDPC(99)23]

"The Territorial Development Policy Committee,

Having regard to Articles 1, 2, 5a) and 12 of the Convention on the Organisation for Economic Co-operation and Development of 14th December 1960.

Having regard to the Rules of Procedure of the Organisation.

Having regard to the resolution of the Council creating the Territorial Development Policy Committee and granting it the responsibility to "make ... special arrangements, including the establishment of Working Parties, as may be necessary to capitalise on and further develop work on specific, priority aspects of territorial development, such as urban affairs, ..." [C(98)198/FIN].

Taking account of the importance of urban issues in territorial development policies.

Noting that since 1979, the OECD programme of work on urban affairs has provided analysis and policy guidance on issues of pressing concern to Member countries such as distressed urban areas, urban governance and finance, urban environmental policy and urban economic development.

Recognising that policies to improve the quality of life, social cohesion, and economic opportunities in cities are an important element in national strategies for regional development, that the benefits and costs associated with urban growth have regional and national consequences, and that an urban policy is an effective means to pursue an integrated strategy that simultaneously addresses environmental, social and economic policy considerations to achieve integrated, coherent, multi-level public policy objectives of national consequence.

Taking into account that better urban policies are a response to the medium-term objective of the OECD, to advise “Member governments on ways to maximise the benefits of economic development, whether local, national or global, and at the same time, to ensure that economic growth is consistent with sustainability as a global objective”.

Noting that new challenges for cities are emerging in relation to economic activity and investment, social change, public finance and services, environmental conditions and technological innovation for which existing policies may be inadequate, and that institutional changes are often needed to enhance the capacity of urban governments, in partnership with civil society and the private sector, to respond more effectively to urban problems.

Observing that there is a growing trend for countries to consult with each other on urban trends and on policies at the national, regional and local level to guide urban development; that Member countries are working toward similar objectives for urban policy; and that successful urban policies in Member countries may provide best practices elsewhere in the world, where urbanisation remains a potent force for change and development.

## **DECIDES:**

1. The Working Party on Territorial Policy in Urban Areas (WPURB) has the following mandate:

### **Objectives**

- a) The WPURB will aim to serve as a premier international forum for senior-level government policy makers of urban policy to identify, discuss and disseminate a vision of urban development that is place-based, multi-level, innovative and to target simultaneously economic, social and environmental objectives.
- b) Provide analysis on urban trends and policy to contribute to the work of the Territorial Development Policy Committee (TDPC) and its Working Parties.
- c) The intermediary objectives of the Working Party include:
  - i) Diagnosing the nature, scale and complexity of economic, social and environmental challenges, which urban regions in OECD countries face, as well as new sources of long-term growth to achieve sustainable urban development through a cross-sectoral, integrated approach.
  - ii) Analysing the governance challenges related to effective and efficient coordination among municipalities within urban regions, among different levels of governments, as well as cross-border cooperation between urban areas.
  - iii) Assessing the potential of economic and political urban/rural linkages to achieve effective delivery of public services and improve the quality of life of rural and urban citizens within regions.
  - iv) Assessing the contribution of urban areas to global challenges and OECD cross-cutting activities such as innovation and clusters, climate change and green growth, ageing and demographic issues.
  - v) Accomplishing the results of national and regional territorial reviews with a focus on urban regions, in particular by using international comparable indicators and identifying best practices among OECD Member countries.
  - vi) Identifying effective policy instruments and strategies to foster sustainable urban competitiveness including innovation and clusters, green economic development,

employment and human capital, infrastructure and capital formation, as well as integration of marginalized populations. Particular attention should continue to be given to land use and spatial planning.

### **Co-operation arrangements**

2. In pursuit of these objectives, the Working Party on Territorial Policy in Urban Areas will report to the Territorial Development Policy Committee (TDPC), and work with the other TDPC working parties and other relevant bodies in the Organisation. This will enable the OECD to harness all its capabilities for the comprehensive study of high priority urban development issues, in line with the Organisation's overall work programme on territorial development. The Chair of the WPURB will report directly to the TDPC.

3. The Working Party will maintain, as appropriate, and in conformity with the priorities of its parent Committee and of the OECD Convention and Rules of Procedure, relations with non-Members and other international organizations. It will carry out its tasks, taking fully into account the work of these organisations.

### **Duration of the mandate**

4. The duration of the Working Party's mandate is concurrent with that of the Territorial Development Policy Committee."

### **The Working Party on Territorial Policy in Rural Areas [DT/TDPC(99)22]**

"The Territorial Development Policy Committee,

Having regard to Articles 1, 2, 5a) and 12 of the Convention on the Organisation for Economic Co-operation and Development of 14 December 1960.

Having regard to the resolution of the Council creating the Territorial Development Policy Committee and granting it the responsibility to "Make such special arrangements, including the establishment of Working Parties, as may be necessary to capitalise on and further develop work on specific, priority aspects of territorial development, such as ... rural development, ..." [C(98)198/FINAL].

Having regard to the Rules of Procedure of the Organisation.

Taking account of the importance of rural issues in territorial development policies;

Noting that since 1991, the OECD Rural Development Programme has provided analysis and policy guidance on important issues such as rural amenities, partnerships for rural development, employment creation and services in rural areas, rural governance and the generation of appropriate data and internationally comparable statistics

Recognising that dynamic rural development policies improve national and rural well-being by facilitating structural reform in the various sectors and by diversifying the economic base of rural areas and that rural policies are an effective means of achieving integrated solutions to economic, social and environmental problems, e.g., through appropriate valorisation of resources in rural areas and promotion of their recreational, ecological and cultural heritage.

Noting that new challenges for rural areas are emerging in relation to agriculture restructuring, development of services and new activities, social change, environmental conditions

and technological innovations for which existing policies may be inadequate and that institutional changes are often needed to facilitate co-ordination between several ministries at the national level, as well as the participation of both local and regional authorities and the private sector.

Observing that there is a growing trend for countries to consult with each other on rural trends and on policies at national, regional and local level to guide rural development and that the OECD Member countries will greatly benefit from analysis of rural conditions and changes in the economic and social structure of rural areas, carried out in a multinational framework and based on comparable information, both quantitative and qualitative.

Recognising that the activities carried out within this framework are horizontal in nature and involve close co-operation with different committees within the Organisation.

And in light of the priorities of the TDPC for national and regional reviews, which may focus on rural policy and rural regions, and for horizontal studies of territorial policies and prospects, which can benefit from analyses with a rural dimension.

#### **DECIDES:**

1. The Working Party on Rural Development Policy (WPRUR) has the following mandate:

#### **Objectives**

- a) The WPRUR will aim to serve as a premier international forum on rural policy for senior-level government policy makers, helping countries to assess their approach to rural policy and identify such place-based strategies.
- b) Identify, define, assess and communicate best practice in national and sub-national place-based strategies that improve the competitive position of rural areas based on their inherent potential, encourage sustainable development and enhance the quality of life of all citizens who can benefit from rural products and services.
- c) Provide analysis on rural trends and policy to contribute to the work of the TDPC and its other working parties.
- d) The intermediary objectives of the Working Party include:
  - i) Examining how rural areas can contribute to global and national policy objectives on issues such as climate change, natural resource management, renewable energy and other green growth.
  - ii) Assessing the potential of economic and political urban-rural linkages to achieve effective delivery of public services and improve the quality of life of rural and urban citizens.
  - iii) Analysing the particular service needs and development opportunities of more remote rural communities and identify innovative responses.
  - iv) Investigating the implications of an ageing demographic structure and migration on rural society and the rural economy.
  - v) Further evaluating the benefits of shifting from sector-based subsidy programmes to an integrated, investment-based, multi-sector rural development policies.
  - vi) Undertake rural policy assessments that are based on agreed-upon principles of sound rural development policy, and promote coherence between relevant sectoral policy approaches.

- vii) Improve communication between countries on rural policies and governance, for example through round tables and improved use of modern media.

### **Co-operation arrangements**

2. In the pursuit of these objectives, the Working Party on Rural Development Policy shall work with its parent Committee, the other TDPC working parties and other competent bodies in the Organisation. The Chair of the WPRUR will report directly to the TDPC.

3. The Working Party on Rural Development Policy shall maintain, as needed and in accordance with the priorities of its parent Committee and with the OECD Conventions and Rules of Procedure, relations with non-Members and with other international organisations.

### **Duration of the mandate**

4. The duration of the Working Party's mandate is concurrent with that of the Territorial Development Policy Committee."

### The Working Party on Territorial Indicators [DT/TDPC(99)24]

“The Territorial Development Policy Committee,

Having regard to Articles 1, 2, 5a) and 12 of the Convention on the Organisation for Economic Co-operation and Development of 14 December 1960.

Having regard to the Rules of Procedure of the Organisation.

Having regard to the Resolution of the Council creating the Territorial Development Policy Committee and granting it the responsibility to “make ... special arrangements, including the establishment of Working Parties, as may be necessary to capitalise on and further develop work on specific, priority aspects of territorial development, such as ...territorial indicators and data bases; ...” [C(98)198/FINAL].

Considering that quantitative information on regional trends across OECD Member countries is indispensable for understanding national and sub-national patterns and dynamics of structural change and for facilitating international comparison and co-operation with respect to sustainable development issues.

Recognising that comparative economic analysis across sub-national territorial units will reveal the contribution of integrated, cross-sectoral, place-based development policies that balance economic, social and environmental concerns and have the potential to reduce disparities.

Acknowledging that the Working Party on Territorial Indicators (WPTI) contributes to support the mission of the Territorial Development Policy Committee (TDPC) in improving the performance of policies to enhance well-being and living standard in all types of regions.

## **DECIDES**

1. The Working Party on Territorial Indicators has the following mandate:

### **Objectives**

- a) The WPTI will aim to serve as a premier international forum to define and discuss the statistical tools to measure regional development policy and to disseminate innovative approaches to analysis of regional growth for facilitating exchange of experiences, as well as international comparison and co-operation.
- b) The objective of the Working Party on Territorial Indicators (WPTI) is to contribute an evidence based analysis of the regional characteristics, resources and potential for development and to improve the understanding of sub-national patterns and dynamics of structural change in all types of regions.
- c) The intermediary objectives of the Working Party include:
  - i) Providing quantitative analysis of regional economic development and regional competitive advantages, as well as refining the understanding and definitions of rural and urban areas.
  - ii) Deepening the analysis at regional level of innovation and human capital as key factors that underpin development and lasting economic strength, taking account of demographic challenges such as migration and ageing.
  - iii) Updating, improving, and broadening the OECD regional data base. Explore the use of additional relevant information for analysis, and when possible consider qualitative analytical techniques.
  - iv) Surveying Member countries' use of information to define regional policy strategies, and prioritise investments and service delivery.
  - v) Engaging in promoting and sharing innovative tools to disseminate the knowledge about the potential roles of regions to contribute to national and global growth and well-being, namely supported by geographical information tools.
  - vi) Contributing to the statistical work across the OECD, as well as to task forces by other international organisations as well as national, regional and local initiatives in OECD Member countries and non-member countries.
  - vii) Improving the awareness and the access to WPTI outputs for all levels of administrations and the public.

### **Co-operation arrangements**

2. In pursuit of these objectives, the WPTI shall work with parent Committee and the other TDPC working parties. The Chair of the WPTI will report directly to the TDPC.

3. The WPTI shall maintain close working relationships with other relevant bodies of the Organisation.

4. The Working Party on Territorial Indicators shall maintain, as needed and in accordance with the OECD Conventions and Rules of Procedure, relations with other international organisations and perform its task with all due regard to the work of these organisations. The WPTI shall develop relations with non-Members, as defined by the outreach strategy of its parent Committee.

## **Duration of the Mandate**

5. The duration of the Working Party's mandate is concurrent with that of the Territorial Development Policy Committee."

“THE COUNCIL,

Having regard to Articles 1 and 2 of the Convention of the Organisation for Economic Co-operation and Development of 14 December 1960;

Having regard to the Rules of Procedure of the Organisation;

Having regard to the Resolution of the Council establishing a new committee on regulatory policy [C/M(2009)21/PROV, Item 240], following the recommendations of the In-Depth Evaluation Committee in its assessment of the Group on Regulatory Policy [C(2009)36 and CORR2/REV1], proposing the creation of a new Committee, replacing both the Group on Regulatory Policy and the Working Party on Regulatory Management and Reform;

Having regard to the draft Resolution of the Council concerning the mandate of the Regulatory Policy Committee [C(2009)171];

Recognising that regulatory policy is a key component of economic and social policy and of good governance and that regulatory instruments are one of the key levers by which governments act to promote economic prosperity, enhance welfare and pursue the public interest;

Recognising the role of the OECD in developing work on regulatory policy, tools and institutions to assure regulatory quality;

Recognising that regulatory reform is a long term, dynamic process and a whole-of-government responsibility supported at high political level to enhance the performance, efficiency and competitiveness of national economies and their ability to adapt to change;

Recognising that public policy design and implementation will benefit from greater reliance on regulatory quality;

Recognising that expectations of what should be regulated by the state and how, continue to evolve in response to economic conditions, technological innovation, and changing priorities, and that governments need to apply better regulation principles, policy and practice to new and more complex policy agendas such as climate change, ageing and green growth;

Recognising that governments need to improve evidence-based decision-making, apply alternatives to regulation when appropriate, anticipate risks and emergencies, and guard against unnecessarily prescriptive and excessive regulation, both for the development of national policy and, increasingly, in global and multilevel contexts;

Recognising that governments need to assess the effects of new and existing regulations in order to increase benefits and reduce burdens on business, public administrations and citizens, and assure that the stock of regulations is up to date;

Recognising the mutual interest of engaging non-Members in OECD work on regulatory policy;

DECIDES:

A. The Regulatory Policy Committee has the following mandate:

I. Objectives

- a) The objective of the Regulatory Policy Committee is to assist Members and non-Members in building and strengthening capacity for regulatory quality and regulatory reform.
- b) The intermediary objectives of the Committee include:
  - i) promoting an integrated, horizontal and multi-disciplinary approach to work on regulatory quality to increase public policy effectiveness and promote policy coherence;
  - ii) assessing the potential for regulatory reform to contribute to welfare, sustainable growth, innovation and equity, and developing effective ways to assess and manage risks, collaborating with, or drawing from work of other relevant Directorates in the process;
  - iii) examining the relationship between regulators and the regulated, and the institutional arrangements for the regulatory process in government to strengthen engagement with public and improve compliance with regulations;
  - iv) promoting evidence-based decision-making and regulatory transparency to create accessible, predictable and responsive regulations;
  - v) evaluating and improving regulatory management systems, tools and institutions designed to assure that regulations serve policy objectives efficiently and effectively and improve policy outcomes, including the use of ex ante impact analysis and ex post evaluation; and building and maintaining a body of qualitative and quantitative data and indicators;
  - vi) assessing and providing policy guidance on the components of regulatory quality that affect how regulations are designed, adopted and implemented, and on the functioning of regulatory institutions in Members and non-Members, through peer reviews, comparative studies and evidence of good practices, and promoting the wide diffusion of lessons and examples from them, including in guidelines and principles;
  - vii) identifying current and emerging regulatory policy challenges and developing strategies to address them by providing a forum for policy dialogue, co-operation and exchange among those responsible for regulatory policy in Members and non-Members, as well as with other relevant stakeholders including international organisations and institutions, the private sector, and civil society.

II. Co-operation arrangements

- a) The Committee shall co-operate with other OECD committees (including, but not restricted to, the Public Governance Committee, the Competition Committee, the

Trade Committee, and the Investment Committee) on matters related to regulatory quality and reform to promote a cross-sectoral perspective, and seek to ensure that the Organisation as a whole promotes sound regulatory policy and practices;

- b) The Committee will seek particularly close co-operation with the Public Governance Committee;
- c) The Committee shall keep itself informed of the activities related to regulatory policy and regulatory reform carried out in other international organisations including in the European Union, and it will develop, as practical, partnerships with these organisations to ensure effective complementarities;
- d) The Committee shall consider the views and input of BIAC, TUAC and other major stakeholders;
- e) The Committee shall encourage participation by non-Members in the Committee's work (including undertaking country reviews and contributing to thematic work) and their implementation of the Committee's recommendations and good practices.

B. The mandate of the Regulatory Policy Committee shall remain in force until 31 December 2014 unless the Council decides otherwise, including in the light of the review of the functioning of the new Committee by the Evaluation Committee to be carried out two years after its creation.”

2. The mandate of the Trade Committee shall remain in force until 31 December 2013, unless the Council decides otherwise."

## GLOBAL FORUM ON TRADE<sup>1</sup>

<b>Chair:</b>	No formally-appointed Chair
<b>Date of creation:</b>	1st January 2009
<b>Duration:</b> <sup>2</sup>	31st December 2013
<b>Approved by:</b>	The Trade Committee, 6 May 2008 [TAD/TC/M(2008)3/PROV]

### **Mission Statement:**

The OECD Global Forum on Trade plays an important role in forwarding the Trade Committee's strategic objective to "improve understanding of the benefits and the costs of further trade liberalisation, so as to increase support for an open, rules-based multilateral trading system"<sup>3</sup>. The Global Forum on Trade is the only regular venue sponsored by the Trade Committee to engage non-Member economies in support of this strategic objective. It is also an important venue for disseminating analytical work in support of free trade to policy makers in non-Member economies.

Where relevant, the Trade Committee will use the Global Forum on Trade as an opportunity to partner with other OECD Committees to promote trade-related policy dialogue across policy disciplines at the highest levels of government.

The Global Forum on Trade discusses issues that are critical to both Members and non-Members. The topics chosen for each Global Forum on Trade are precisely those global trade-related issues that cannot be solved by OECD Members alone. These topics are closely linked to the Trade Committee's Programme of Work and Budget, and the discussions that take place directly enhance the analytical work of the Trade Committee.

The Global Forum on Trade provides an important venue for forging ties with trade policy makers and other stakeholders in non-Member economies. The systematic nature of these high level interactions allows the OECD to build consensus around core trade issues. This meets an important need, as trade-related meetings held under the auspices of other organisations, such as the WTO, often focus on negotiations, implementation of multilateral agreements and dispute settlement.

The Global Forum on Trade also affords the Secretariat the opportunity to listen and learn, and thus helps the Trade Committee to identify important "next generation" trade issues that may require new analytical work. This allows the Trade Committee to stay "upstream" of emerging trade policy issues.

## ESTABLISHMENT OF A GROUP ON EXPORT CREDITS AND CREDIT GUARANTEES

### Draft terms of reference

"1. At its meeting on 5th and 6th November 1963, the Trade Committee considered the report of the special meeting on export credits and credit guarantees held on 23rd and 24th October 1963 [TC(63)42] and decided to set up a Group on Export Credits and Credit Guarantees, made up of senior government officials with a major responsibility in the formulation of policies in this field, accompanied by senior officials of the export credit and credit insurance institutions\*. The Working Party on Export Credits and Credit Guarantees should be open to Members and invited non-

\* The original composition was set out in paragraph 10 of TC(63)42; it was adjusted at the 150<sup>th</sup> Trade Committee held in May 2008 in the light of expanded membership since 1963 and the change of name in 1999 from "Group" to "Working Party".

members which have in existence facilities for financing or guaranteeing export credits which are controlled or assisted, directly or indirectly, by government or para-governmental bodies; representatives of the Commission of the European Economic Community may attend the meetings of the Working Party.

2. The Working Party on Export Credits and Credit Guarantees is charged with carrying forward the work of the OECD in this field. In particular, it is responsible for holding regular confrontations on the policies pursued by the Governments of Member countries, in the field of export credits and credit guarantees, with the general objectives of:

- Evaluating these policies;
- Determining the problems which arise;
- Resolving or mitigating these problems by multilateral discussion.

Further objectives should be to aim, on the basis of experience acquired from the confrontations, at:

- Working out common guiding principles;
- Considering all possibilities of improving co-operation between Member countries in this field by such means as prior consultation, prior notification and/or a question-and-answer procedure or by other suitable means.

Account should be taken of the competence of the Development Assistance Committee in the field of development aid, including the undertakings reached in that Committee, and appropriate liaison should be established between the work arising from confrontations envisaged and the work of the DAC.

3. As recommended in paragraph 4 of the report of the special meeting [TC(63)42], these confrontations should be concentrated, at least at the outset, on transactions exceeding five years' duration. The Working Party is requested to make all necessary arrangements for the provision of the information required, as outlined in paragraphs 5-7 of the report. It shall review this information system and make whatever improvements may be necessary, as recommended by the special meeting.

4. The Working Party shall have full latitude and discretion to pursue its work, to elect its officers, to establish the form of liaison it considers necessary with the DAC or other bodies of the Organisation, and to determine the frequency and manner of its reporting. In particular, it shall take whatever measures it considers desirable, in consultation with the Chairman of the DAC and the Secretariat, to ensure adequate co-ordination of its work with that of the Development Assistance Committee. When the reports of the Working Party call for action by the Organisation as such, they shall be forwarded *in toto* to the Council, with any comments the Trade Committee may wish to make.

### Resolution of the Council [C(2008)182 & CORR1 and C/M(2008)22, Item 326]

“THE COUNCIL,

Having regard to the Articles 1 and 2 of the Convention on the Organisation for Economic Co-operation and Development of 14 December 1960;

Having regard to the Rules of Procedure of the Organisation;

Having regard to paragraphs 21, 22, 23, 26 and 89 of the Report of the Preparatory Committee concerning the creation of a Committee for Agriculture;

Having regard to the Communiqués of the meetings of the Council at Ministerial level in 1982 and 1987;

Having regard to the Communiqués of the meetings of the Committee for Agriculture at Ministerial level in 1992 and 1998 and the Chair’s summary of the 2005 High level meeting of the Committee for Agriculture;

Having regard to the proposed revision of the mandate of the Committee for Agriculture C(2008)182;

Considering the need for further domestic agricultural policy reform and integration of the agriculture and food sector into the multilateral trading system; and

Considering the need for maintaining the productive capacity and effective use of natural resources to satisfy future demand for food and non-food products;

## DECIDES:

A. The Committee for Agriculture has the following mandate:

1. To provide a forum for the discussion of issues related to all aspects of agricultural, agro-food and agricultural trade developments and policies with a view to promoting mutual understanding of these developments and to improving the effectiveness of policies, at both the domestic and the international levels, as they affect agriculture and the agri-food sector, in ways consistent with the overall mission of the OECD.

Specifically,

- To define guidelines and promote best practices for a positive policy reform agenda with the purpose of helping governments to achieve their objectives for their agriculture and agri-food sectors in ways that are efficient, effective and no more trade distorting than necessary.
- To define and promote policy and market approaches that improve agriculture's contribution to sustainability in all its aspects, and improve its overall environmental performance against a background of global issues that will be important for the sector concerning resource use (particularly water) and climate change, in Member and non-Member countries.
- To provide forward looking policy information, analysis and advice, that considers the perspectives of both Member and non-Member countries, so as to facilitate growth and development and the integration of the agriculture and agri-food sectors into the international trading system.
- To monitor and analyse structural, economic and policy developments throughout the supply chain from farm to consumer, their implications for the farm sector and for farm sector policies.

2. Agricultural and agricultural trade developments and policies should be regularly monitored, using the best available qualitative and quantitative tools, and the impacts of structural change and policies on a range of sectoral performance criteria should be continuously evaluated.

In fulfilling this mandate the Committee for Agriculture will:

- Define the work to be undertaken during each programming period. Following the processes and schedules set for the Organisation as a whole, participate in all required reporting and evaluation mechanisms in place at OECD level, and manage the substantive and analytical work delegated to its subsidiary bodies.
- Work in close co-operation with other relevant committees, notably with the Trade Committee, the Environment Policy Committee, the Development Assistance Committee and the Territorial Development Policy Committee, striving for a full sharing of knowledge and expertise in pursuit of improved policy coherence.
- Engage with selected non-Member countries with a view to sharing experiences and expertise in policy development and evaluation and encouraging them to apply relevant OECD guidelines and recommendations. In this respect, Observers to the Committee will play a key role.
- Work in close co-operation with other international organisations notably the FAO, the World Bank and the WTO to share expertise, to provide mutual support, while avoiding overlap or duplication in the respective tasks undertaken.
- Develop close working relationships with international commodity organisations (ISO, IGC, IDF, IMS)<sup>1</sup> in monitoring international commodity markets and developments to ensure that we benefit from their expertise and that our work programmes are mutually reinforcing.

<sup>1</sup> ISO: International Sugar Organisation, IGC : International Grains Council, IDF : International Dairy Federation ; IMS : International Meat Secretariat.

- Involve non-governmental organisations in its work through consultation/advisory mechanisms such as BIAC, IFAP<sup>2</sup> and TUAC and by engaging with relevant civil society organisations representing a broad cross-section of relevant interests.
- Undertake communication activities in Member countries, in light of the needs and interests in capitals and the availability of substantive policy relevant outputs from its work programme.

B. The mandate of the Committee for Agriculture shall remain in force until 31 December 2013, unless the Council decides otherwise.”

## GLOBAL FORUM ON AGRICULTURE<sup>1</sup>

<b>Chair:</b>	Mr. Brad Gilmour	(Canada)
<b>Date of creation:</b>	1st January 2009	
<b>Duration:</b> <sup>2</sup>	31st December 2013	
<b>Approved by:</b>	The Committee for Agriculture, 28 May 2008 [TAD/CA/M(2008)1]	

### **Mission Statement:**

The purpose of the OECD Global Forum on Agriculture (GFA) is to support the Committee for Agriculture (COAG) in fulfilling its mandate of providing forward looking information, analysis and advice that considers the perspectives of member and non-member economies, as well as other stakeholders.<sup>3</sup>

The GFA is the main instrument for broad-based dialogue between OECD members and non-members, including Accession and Enhanced Engagement countries, and responds to the COAG's mandate to enhance its engagement with non-members in both groups.<sup>4</sup>

The GFA fosters an informed dialogue on agricultural policies, including trade and market policies, and particularly on agricultural policy and trade reform and the fight against poverty. The aim of that dialogue is to promote a global consensus on agricultural trade and policy issues.

In order to achieve such a consensus, it is necessary to involve a wide range of stakeholders, and to examine the issues of most pressing importance to developing countries. These issues include both developing country-specific matters and policy concerns that arise as a result of non-members' economic linkages with OECD countries.

The focus of the GFA will accordingly be on global agricultural policy issues, and topics of mutual interest to OECD countries and non-member economies. The GFA will provide the mechanism for discussion of the Monitoring and Evaluation of agricultural policies undertaken for non-member economies.

Where relevant, the COAG will use the GFA as an opportunity to work with other OECD committees to promote policy dialogue on important cross-cutting issues.

The GFA will also contribute to the Committee for Agriculture's work by providing it with a broader perspective on its output results and facilitating the dissemination of completed work

### Extract from document TAD/CA(2007)28

“The Working Party on Agricultural Policies and Markets will undertake the preparatory studies required for the work of the Committee for Agriculture in accordance with the priorities as defined in the programme of work and report to the Committee for Agriculture. Its functions will cover in particular the following areas:

- (i) Monitoring of agricultural policies, and of their effects on markets and trade including in the longer term, and of the implementation of the various principles and actions related to agriculture and to the agricultural policy reform process, as defined in the Ministerial communiqués.
- (ii) Discussion of all aspects of the development of analytical tools, including particularly support measurement and related analysis and modelling exercises, with a view to deepening the analysis, updating and improving these tools and ensuring that they keep pace with economic and policy developments.
- (iii) Prepare and review special studies related to the various means and instruments which could contribute to the achievement of the objectives of agricultural policy reform. Evaluate policy instruments in terms of their effectiveness, their efficiency, their distributional and social impacts, and their contribution to sustainability, in addition to their impacts on production and trade.
- (iv) Provide guidelines or recommendations on policy design, implementation and monitoring, in order to assist governments in defining and implementing the policies that allow them to achieve their evolving objectives in a changing environment. The WP will draw on theoretical, applied and comparative methods as appropriate.
- (v) Extend policy analysis upstream and downstream to assist governments in understanding and monitoring structural, technological, supply and demand side changes affecting the entire agrofood sector and in designing policy responses that are appropriate, integrated and coherent across the entire sector.

(iv) Discussion and co-ordination of the work and reports of the commodity groups (Cereals, Feeds and Sugar, Meat and Dairy Products), the purpose of which is to prepare and review baseline projections and first drafts of texts for the annual Agricultural Outlook report, to provide guidance for Aglink maintenance and development, and review commodity related agri-food policy issues before the related reports are forwarded for further discussion to the Working Party.

Where this enhances the analytical approach, the Working Party will work closely with other committees and working parties and with other international organisations such as the Food and Agriculture Organisation of the UN (FAO). Specifically, it will work in co-operation with the Joint Working Party Agriculture/Trade to the extent that issues related to agricultural trade are included in its activities and with the Joint Working Party on Agriculture and the Environment with respect to issues that touch on the environment. It will also work in co-operation with The Working Party on Territorial Policy in Rural Areas and The Territorial Development Policy Committee, when engaged in issues related to linkages between the agro-food sector and rural development.”

### **“Objectives**

The Joint Working Party on Agriculture and the Environment will provide a forum to exchange information, identify and analyse the implications for achieving environmentally sustainable agriculture of policies and market approaches in the context of technological change, agricultural policy reform and multilateral trade and environmental agreements, and communicate the results to the wider public.”

### **Terms of reference**

The Joint Working Party will:

Identify and analyse policy relevant domestic and trans-boundary issues at the interface between agriculture and the environment in both OECD and, where relevant, non-OECD countries; quantify the relationships between agriculture and the environment, including in a forward-looking perspective; monitor and evaluate policy measures and actions addressing environmental issues in agriculture; and provide guidance on an integrated and coherent approach for agricultural and environmental policies to help achieve sustainable agriculture.

Undertake the analysis of agricultural and environmental issues of relevance to policy makers; in particular to: co ordinate, undertake and review relevant work mandated by the two parent Committees; co-ordinate, receive reports and review relevant on going and proposed work carried out elsewhere in the OECD; advise and report to the parent Committees on new and emerging problems and major issues with respect to agri-environment relationships; identify successful policies and courses of action at national and international levels; and identify new initiatives for consideration by the appropriate bodies of the Organisation.

Co operate and liaise with other competent bodies in the OECD, and ensure appropriate co ordination with other relevant international organisations, in particular the Food and Agricultural Organisation of the United Nations, the United Nations

Environment Programme and the Commission on Sustainable Development and the Convention on Biological Diversity, and with relevant non-governmental organisations, representing the farming, agro-food industry, and environmental interests; strengthen efforts to present and communicate the work to relevant organisations, the media and wider public.

Resolution of the Council [C(2009)49 and C/M(2009)9, Item 110]

“THE COUNCIL,

Having regard to the Convention on the Organisation for Economic Co-operation and Development of 14th December 1960 and, in particular, Articles 2 a) and b) and 5 a);

Having regard to the Convention on the Organisation for Economic Co-operation and Development of 14 December 1960;

Having regard to the Rules of Procedure of the Organisation;

Having regard to the Decision of the Council on 21 December 1978 establishing the Co-operative Research Programme: Biological Resource Management for Sustainable Agricultural Systems [C/M(78)23] and having regard to the Decision of Council [C(2004)108];

Having regard to the decision of the Council to fund the Co-operative Research Programme: Biological Resource Management For Sustainable Agricultural Systems as a programme within the Part II of the Budget of the Organisation [C(2004)96];

Having regard to the recommendations of the In-depth Evaluation of the Co-operative Research Programme: Biological Resource Management For Sustainable Agricultural Systems [C(2008)96 and C/M(2008)18, Item 242];

Having regard to the proposed revision of the mandate of the Co-operative Research Programme: Biological Resource Management For Sustainable Agricultural Systems C(2009)49;

Having regard to the favourable opinion of the Committee for Agriculture;

DECIDES:

A. The Co-operative Research Programme: Biological Resource Management For Sustainable Agricultural Systems (hereinafter “the CRP”) has the following mandate:

**I. Objectives**

The objectives of the CRP are to strengthen scientific knowledge in its field of competence and to provide relevant scientific information and advice that will inform future policy decisions related to the sustainable use of natural resources, in the areas of food, agriculture, forests and fisheries.

**II. Definitions, Functions, Financing, Membership**

Article 1

DEFINITION OF THE CRP AND WORK PROGRAMME

- a) The Co-operative Research Programme: Biological Resource Management for Sustainable Agricultural Systems is established as part of the co-operative effort between Member countries in order to enhance the impact of co-operative agricultural (and fisheries) research.
- b) A work programme, drawn up within the framework of the CRP, shall be adopted by the Council and implemented by the Secretary-General. The work programme shall be drawn up in consultation with the Committee for Agriculture (hereinafter the “COAG”) and the Fisheries Committee (hereinafter the “COFI”) where appropriate.

Article 2

METHODS AND CO-ORDINATION

- a) In the implementation of its mandate, the CRP will use two instruments: International Conferences\*, and Fellowships. Conferences will provide “state of the art” knowledge and forward looking commentary for future direction in fields that can contribute to the mandate of COAG (and COFI, where appropriate) and Fellowships will facilitate and support the building of global networks in advanced research.
- b) To ensure relevance, the CRP will regularly consult with the COAG (and COFI, where appropriate) on its activities, direction and outcomes. The COAG (and COFI, where appropriate) will provide its observations and guidance to the CRP as necessary.

Article 3

COMPOSITION OF THE GOVERNING BODY

- a) The Governing Body of the CRP (hereinafter the “Governing Body”) shall be composed of one representative appointed by the Government of each participating country. Representatives should be chosen by virtue of their responsibilities in matters relating to agriculture or food research and research policy.
- b) The Government of each participating country may appoint an alternate to its representative on the Governing Body.
- c) The Governing Body shall designate each year from among its members a Chair and a Vice-Chair.

---

\* Conferences is used in this document to include conferences, workshops, congresses, symposia, etc.

- d) The Governing Body may invite Member countries not participating in the CRP to be represented by observers.

#### Article 4

##### FUNCTIONS OF THE GOVERNING BODY

- a) The Governing Body shall be competent to consider all questions related to the implementation and discharge of the functions of the CRP. It shall exercise its functions in accordance with the Decisions and Resolutions of the Council and shall, in particular, exercise the functions defined in this decision as well as such other functions as may be assigned to it by the Council.
- b) The Governing Body shall define the general orientations of the CRP, and on an annual basis, in consultation with the COAG and, where appropriate the COFI, identify the scope of policy interests, and shall, on the basis of the scientific recommendations of the Scientific Advisory Body, decide on the upcoming annual programme of fellowships and conferences and its related budget. In doing so the Governing Body shall ensure that the activities to be undertaken are of relevance to the scientific and policy communities in agriculture.
- c) The Governing Body shall submit a summary report of work each year to the Committee for Agriculture for information and advice.

#### Article 5

##### COMPOSITION OF THE SCIENTIFIC ADVISORY BODY

- a) The Scientific Advisory Body of the CRP (hereinafter called the "SAB") shall be composed of a maximum of six members designated by the Governing Body from a list of distinguished individuals proposed by Governments of participating countries. A regional balance will be maintained in the selection of SAB members, who shall be chosen by virtue of their scientific responsibilities in the topics covered by the CRP or shall have responsibilities at a high level in the administration of agricultural research. Members of the SAB shall be appointed for a period not exceeding five years.
- b) The SAB shall designate each year from amongst its members a Chair and a Vice-Chair.

#### Article 6

##### FUNCTIONS OF THE SCIENTIFIC ADVISORY BODY

- a) The members of the SAB shall be in charge of recommending to the Governing Body the activities that, from a scientific point of view, are worthy of sponsorship, taking into account the scope of policy interests identified by the Governing Body.
- b) The SAB shall submit to the Governing Body a recommendation for the annual sponsorship of conferences and fellowships.
- c) The SAB shall submit to the Governing Body a yearly report on the sponsored activities of the Programme.

#### Article 7

##### FINANCING OF EXPENDITURE

- a) The expenditure arising from the implementation of the CRP shall be defrayed from the appropriations authorised for it under Part II of the Budget of the Organisation.
- b) The CRP may include activities to be financed in whole or in part from grants by public or private institutions.

- c) The Governing Body shall submit to the Council for adoption the biennial estimates of expenditure and of income for the Programme.

#### Article 8

#### PARTICIPATING COUNTRIES

- a) The countries participating in the CRP are: Australia, Austria, Belgium, Canada, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Japan, Korea, Netherlands, New Zealand, Norway, Poland, Portugal, Spain, Slovak Republic, Sweden, Switzerland, United Kingdom and the United States.
- b) Any Member country of the Organisation which does not participate in the CRP or any country having observer status in the Committee for Agriculture may participate in it by addressing a notification to the Secretary-General to this effect.
- c) Invitations to and participation of non-Members in the Work of the CRP will be considered by the Governing Board in accordance with Council Resolution C(2004)132/FINAL. Such participation will become effective on the date of reception of the acceptance of that invitation by the Secretary-General. The Organisation may suspend or terminate that participation by giving one month's written notice of suspension or twelve months' written notice of termination to that country.

#### Article 9

#### DURATION

The mandate of the CRP shall enter into force on 1 January 2010 and expire on 31 December 2014; it will be reviewed by the Governing Body in December 2013.”

<b>Mandate:</b>	- Resolution of the Council concerning the mandate of the Fisheries Committee [C(2008)193/REV1] adopted at its 1185 <sup>th</sup> session on 4 December 2008 [C/M(2008)21, item 304]	

Resolution of the Council [C(2008)193/REV1 and C/M(2008)21, item 304]

“THE COUNCIL,

Having regard to the Convention on the Organisation for Economic Co-operation and Development of 14 December 1960;

Having regard to the Rules of Procedure of the Organisation;

Having regard to paragraphs 21, 24 and 89 of the Report of the Preparatory Committee creating the fisheries Committee as of 30<sup>th</sup> September 1961;

Having regard to Decision of Council regarding a Sunset Clause for all Committees [C/M(2004)5, item 75] which entered into force on 22 April 2004 [C/M(2004)10, Item 143, IV, c)];

Having regard to the recommendation of the In-depth Evaluation of the Fisheries Committee [C(2008)80 and CORR1], approved by the Council at its 1179<sup>th</sup> Session on 17<sup>th</sup> July 2008 [C/M(2008)15, item 172];

Having regard to the proposal to revise the mandate of the Fisheries Committee [C(2008)193/REV1];

DECIDES:

A. The mandate of the Fisheries is as follows:

I. Objectives

The overarching policy objective of the Fisheries Committee is to use the specific strengths of the OECD to help promote well-managed, efficient and resilient fisheries and aquaculture that contribute to healthy ecosystems, while supporting sustainable livelihoods and communities, as well as to contribute to responsible trade and consumption.

Specifically, the Committee is mandated to achieve this outcome through:

- Helping OECD countries to identify needs, options and implementation advice for improved domestic fisheries and aquaculture policy – through effective monitoring, analysis and discussion of policy gaps, options and tradeoffs, and lessons from best practice;
- Improving the analytical foundations of international fisheries and aquaculture policy debate and agenda-setting by providing policy analysis and advice, especially on emerging issues, especially with a view to help develop consensus on sound management practices; and;
- Enriching OECD priorities and debate on cross-cutting issues by adding perspectives of management challenges in a global, common-property and natural renewable resource to ensure that OECD wide policy advice is relevant to all economic sectors;

These objectives will be achieved through: collection, assessment and dissemination of key data; monitoring and analysis of structural, economic and policy developments throughout the supply chain (from fisher/producer to consumer), and of the implications for the fisheries and aquaculture sectors and policies; policy dialogue and the provision of advice and recommendations; and outreach activities to ensure that the Committee is both open to diverse points of view and to maximize the impact of its work (see Appendix).

II. Co-ordination

To fulfil its mandate the Committee will, as appropriate, coordinate its activities with other bodies within the Organisation, and with other international organisations (in particular the FAO, the WTO, the World Bank and regional organisations, as appropriate), and undertake dialogue with fisheries stakeholders, including industry and non-governmental organisations.

B. The mandate of the Fisheries Committee shall remain in force until 31 December 2013 unless the Council decides otherwise.

## APPENDIX

The Committee will ensure high-quality economic analysis, policy advice and an understanding of best practice, to enable wise management, good governance and sound commercial arrangements of fisheries. The Committee will provide a forum for the discussion of issues related to all aspects of fisheries and aquaculture developments and policies, with a view to promoting mutual understanding of these developments – the expected outcome of which is to enable wise management, good governance and sound commercial arrangements of fisheries and aquaculture, at both the domestic and the international level.

### Context

The activities of the Committee are guided by the following context, which describes the environment in which the mandate of the Committee is anchored:

- The strength of the OECD in economic analysis, and its emphasis on economic efficiency as an important benchmark for analysis of domestic and international policy questions and options, including to ensure fisheries sustainability;
- The importance of fisheries sustainability and healthy marine ecosystems to economic and social wellbeing, and the need to both ensure recovery of stocks that are already depleted or over fished and address emerging threats to sustainability;
- The interconnectedness of the fisheries sector with other sectors and the international economy (i.e., through trade, investment, services, labour, technology and environmental policies), and the implications of these linkages for managing opportunities and risks for fisheries;
- The importance of efficient and effective conservation and management policies and international cooperation to sustain a common property resource such as fisheries, complemented by the role of market-based approaches and responsible trade in aligning incentives coherently;
- Due regard to the mandate of other OECD committees whose work has implications for fisheries, cross-cutting OECD issues, and other international bodies addressing fishery-related issues, and the specific strength of the Committee in economic and policy analysis in complementing this work;
- The special and diverse challenges to fisheries posed by emerging issues such as globalisation and responsible trade. This includes the need for policy coherence in helping address the sustainable development needs and aspirations of non-OECD Members, especially developing countries;
- The dynamic nature of both the fisheries and OECD-wide policy agenda, and the need for the Committee to be alert, and able to respond, to new developments and policy priorities affecting its work.

## Activities

The Committee's mandate frames the development and delivery of a programme of work and budget consistent with OECD planning parameters which addresses current and emerging issues in the fisheries sector:

- Collection, integration, assessment and dissemination of key national and international fisheries statistics and policy analysis;
- Monitoring of current and emerging OECD and global trends, issues and policy developments relevant to the fisheries sector, with a view to identifying policy issues benefiting from in-depth analysis at the OECD;
- In-depth analysis of key current and emerging fisheries-related economic and policy issues, to better understand their nature and identify possible remedies at both the domestic and global level;
- Policy dialogue to explore benefits and costs of policy options, promote lessons learned from across OECD Members, seek agreement on policy principles and recommend ways forward to improve the sustainability and efficiency of the fisheries sector;
- Development and dissemination of policy advice, recommendations and best practice to help inform OECD Members and non-Members regarding domestic and international fisheries issues;

- Outreach activities that will demonstrate openness to diverse views in informing the Committee's activities, transparency about Committee activities, broaden the knowledge base for OECD Members and non-Members, and maximize the policy impact of the Committee's work; and
- A proactive communications strategy to ensure the widespread dissemination and maximum and long-lasting influence of the Committee's work among OECD Members, non-Members, within the OECD Secretariat, and in other relevant international bodies.

#### Monitoring

The Committee will periodically review its work, working methods and outcomes using, as appropriate, generic performance measures. These will be assessed in relation to its mandate and specific work deliverables, as enumerated in the Organisation's Programme of Work and Budget. The Committee will report to the Organisation, as required. The Committee will review its mandate on a regular basis in light of emerging developments and issues."

Resolution of the Council [C(2008)169 and C/M(2008)20, item 286 ii]

“THE COUNCIL

Having regard to the Convention on the Organisation for Economic Co-operation and Development of 14 December 1960 and, in particular, articles 1, 3, 5a) and 9 thereof;

Having regard to the Rules of Procedure of the Organisation and in particular Rule 18 a) iii);

Having regard to the Resolution of the Council C(2004)3 and CORR1;

Having regard to the proposal to revise the mandate C(2008)169;

DECIDES:

A. The Investment Committee (hereinafter “the Committee”) has the following mandate:

i) Objectives

- a. The mission of the Committee is to promote investment for growth and sustainable development worldwide by advancing international co-operation and policy reform;

- b. Its main objectives include:
- maintaining and expanding open and transparent policy frameworks for investment, capital movements and services;
  - promoting responsible business conduct in a globalising economy;
  - supporting the development and enhancing the outcomes of international investment agreements;
  - improving measurement and analysis of emerging investment trends.

ii) Method

In order to achieve these objectives, the Committee shall:

- a. act as a forum for peer surveillance of policy developments and multilateral dialogue on best practices in the fields of international investment and multinational enterprises, capital movements, and international financial and other services covered by the OECD investment instruments;
- b. actively engage with major emerging and other non-Member economies, in particular through non-Members' adherence to existing OECD investment instruments, close association in the design of new or revised instruments, policy dialogue and assistance from the Committee;
- c. carry out the tasks assigned to it by the OECD Codes of Liberalisation of Capital Movements and of Current Invisible Operations and Council Decisions related to the OECD Declaration on International Investment and Multinational Enterprises; tasks resulting from the OECD Recommendation on the OECD Benchmark Definition of Foreign Direct Investment and the OECD Recommendation on the OECD Principles for Private Sector Participation in Infrastructure; such other tasks as the Council may assign to it;
- d. be responsible for monitoring and promoting coherence of all work carried out within the Organisation, including contributions to horizontal projects, in the field of international investment and multinational enterprises, capital movements and international financial and other services as covered by the OECD Codes, and for presenting recommendations and proposals for this purpose to the Council or to other committees;
- e. focus its work on delivering policy and analytical outputs of high quality and with high impact and regularly evaluate how well the Committee is meeting its objectives.

iii) Co-operation

The Committee shall:

- a. co-operate with other OECD bodies, including those involved in the work on the Policy Framework for Investment, and in this context promote whole-of-government approaches to policies relating to investment;

- b. promote and develop strategic partnerships with the relevant international and regional organisations, in particular in the context of capacity building programmes with non-Members, to avoid duplication of work and maximise synergies;
- c. promote dialogue with, and consider input to its work from the business community, labour representatives, other major civil society stakeholders and leading academics.

B. The mandate of the Investment Committee shall remain in force until 31 December 2013, unless the Council decides otherwise.”

<b>Mandate:</b>	<ul style="list-style-type: none"><li>- Minutes of the meeting held 5 October 1994 of the IME Committee [IME/M(94)2/ANN]</li><li>- Revised Recommendation on Combating Bribery in International Business Transaction [C(97)123/FINAL]</li><li>- Decision of the Council concerning further work on Combating Bribery in International Business Transactions [C(97)240/FINAL]</li></ul>	

The Committee on International Investment and Multinational Enterprises, as a follow-up to the Recommendation on Bribery in International Business Transactions adopted by the Council in May 1994, established the Working Group on Bribery in International Business Transactions.

The mandate of the Working Group was amended by the 1997 Revised Recommendation.

### Extract from the Revised Recommendation [C(97)123/FINAL]

#### **“Follow-up and institutional arrangements**

VIII. **INSTRUCTS** the Committee on International Investment and Multinational Enterprises, through its Working Group on Bribery in International Business Transactions, to carry out a programme of systematic follow-up to monitor and promote the full implementation of this Recommendation, in co-operation with the Committee for Fiscal Affairs, the Development Assistance Committee and other OECD bodies, as appropriate. This follow-up will include, in particular:

---

\* Full participants, on a basis of equality with Member countries.

- i) receipt of notifications and other information submitted to it by the Member countries;
- ii) regular reviews of steps taken by Member countries to implement the Recommendation and to make proposals, as appropriate, to assist Member countries in its implementation; these reviews will be based on the following complementary systems:
  - a system of self-evaluation, where Member countries' responses on the basis of a questionnaire will provide a basis for assessing the implementation of the Recommendation;
  - a system of mutual evaluation, where each Member country will be examined in turn by the Working Group on Bribery, on the basis of a report which will provide an objective assessment of the progress of the Member country in implementing the Recommendation.
- iii) examination of specific issues relating to bribery in international business transactions;
- iv) examination of the feasibility of broadening the scope of the work of the OECD to combat international bribery to include private sector bribery and bribery of foreign officials for reasons other than to obtain or retain business;
- v) provision of regular information to the public on its work and activities and on implementation of the Recommendation.

...

X. **INSTRUCTS** the Committee on International Investment and Multinational Enterprises to review the implementation of Sections III and, in co-operation with the Committee on Fiscal Affairs, Section IV of this Recommendation and report to Ministers in Spring 1998, to report to the Council after the first regular review and as appropriate there after, and to review this Revised Recommendation within three years after its adoption.

#### **Co-operation with non members**

...

XII. **INSTRUCTS** the Committee on International Investment and Multinational Enterprises through its Working Group on Bribery, to provide a forum for consultations with countries which have not yet adhered, in order to promote wider participation in the Recommendation and its follow-up.

#### **Relations with international governmental and non-governmental organisations**

XIII. **INVITES** the Committee on International Investment and Multinational Enterprises through its Working Group on Bribery, to consult and co-operate with the international organisations and international financial institutions active in the combat against bribery in international business transactions and consult regularly with the non-governmental organisations and representatives of the business community active in this field."

#### Decision of the Council Concerning Further Work on Combatting Bribery in International Business Transactions [C(97)240/FINAL]

THE COUNCIL,

Having regard to Article 5 a) of the Convention on the Organisation for Economic Co-operation and Development of 14 December 1960;

Considering the Revised Recommendation of the Council on Combating Bribery in International Business Transactions adopted on 23 May 1997 [C(97)123/FINAL];

Noting the existing mandate of the Committee on International Investment and Multinational Enterprises, through its Working Group on Bribery in International Business Transactions, pursuant to Section VIII of the Revised Recommendation, "to carry out a programme of systematic follow-up to monitor and promote the full implementation of the Revised Recommendation, in co-operation with the Committee for Fiscal Affairs, the Development Assistance Committee and other OECD bodies, as appropriate", including "examination of specific issues relating to bribery in international business transactions";

Noting in particular that there will be an examination of the feasibility of broadening the scope of the work of the OECD to include private sector corruption in international business transactions;

Noting the view of the Negotiating Conference on a Convention on Combating Bribery of Foreign Public Officials in International Business Transactions, that further work was needed on a number of related corruption issues;

DECIDES that the Committee on International Investment and Multinational Enterprises, through its Working Group on Bribery in International Business Transactions, in the context of its work pursuant to the 1997 Revised Recommendation as well as, where appropriate, the monitoring and follow-up which will be carried out under article 12 of the Convention, and in co-operation with other OECD bodies and international organisations, shall examine on a priority basis the following issues with a view to reporting conclusions to the 1999 OECD Council meeting at Ministerial level:

- bribery acts in relation with foreign political parties;
- advantages promised or given to any person in anticipation of that person becoming a foreign public official;
- bribery of foreign public officials as a predicate offence for money laundering legislation;
- the role of foreign subsidiaries and of offshore centres in bribery transactions."

MULTINATIONAL ENTERPRISES**

<b>Members:</b>	Open to all Member countries
<b>Date of creation:</b>	18th June 2001 (First meeting)
<b>Duration:</b>	Unspecified
<b>Mandate:</b>	Decision of the Council adopted at its 982nd session on 26-27 June 2000 [C(2000)96/FINAL and C/M(2000)17/PROV]

Extract from document C(2000)96/FINAL

“THE COUNCIL,

Having regard to the Convention on the Organisation for Economic Co-operation and Development of 14th December 1960;

Having regard to the OECD Declaration on International Investment and Multinational Enterprises (the “Declaration”), in which the Governments of adhering countries (“adhering countries”) jointly recommend to multinational enterprises operating in or from their territories the observance of Guidelines for Multinational Enterprises (the “Guidelines”);

Recognising that, since operations of multinational enterprises extend throughout the world, international co-operation on issues relating to the Declaration should extend to all countries;

Having regard to the Terms of Reference of the Committee on International Investment and Multinational Enterprises, in particular with respect to its responsibilities for the Declaration [C(84)171(Final), renewed in C/M(95)21];

Considering the Report on the First Review of the 1976 Declaration [C(79)102(Final)], the Report on the Second Review of the Declaration [C/MIN(84)5(Final)], the Report on the 1991 Review of the Declaration [DAFFE/IME(91)23], and the Report on the 2000 Review of the Guidelines [C(2000)96];

Having regard to the Second Revised Decision of the Council of June 1984 [C(84)90], amended June 1991 [C/MIN(91)7/ANN1];

Considering it desirable to enhance procedures by which consultations may take place on matters covered by these Guidelines and to promote the effectiveness of the Guidelines;

On the proposal of the Committee on International Investment and Multinational Enterprises:

DECIDES:

To repeal the Second Revised Decision of the Council of June 1984 [C(84)90], amended June 1991 [C/MIN(91)7/ANN1], and replace it with the following:

I. National Contact Points

1. Adhering countries shall set up National Contact Points for undertaking promotional activities, handling inquiries and for discussions with the parties concerned on all matters covered by the Guidelines so that they can contribute to the solution of problems which may arise in this

connection, taking due account of the attached Procedural Guidance. The business community, employee organisations, and other interested parties shall be informed of the availability of such facilities.

2. National Contact Points in different countries shall co-operate if such need arises, on any matter covered by the Guidelines relevant to their activities. As a general procedure, discussions at the national level should be initiated before contacts with other National Contact Points are undertaken.

3. National Contact Points shall meet annually to share experiences and report to the Committee on International Investment and Multinational Enterprises.”

### Extract from document DAF/INV/WD(2008)11

1. The Advisory Group on Co-operation with non-Members (hereafter Advisory Group) shall assist the Investment Committee in carrying out its work with non-Member economies and in providing input as appropriate to other OECD activities with non-Members; it shall advise the Committee on work priorities, ensuring the integration of non-Member and other Committee's work, costs and funding, and evaluation of work performance.

2. The Advisory Group shall be guided in its activities and recommendations to the Committee by the following principles: i) work with non-members should be in line with the priorities of the Organisation and guidance of the Council, including the 2007 Resolution on Enhanced Engagement; ii) projects should be designed so as to enhance opportunities for government-to-government dialogue and be selected if the Organisation has a demonstrated comparative advantage relative to other organisations; iii) policy areas for dialogue should be based on on-going core work of the Committee and take maximum advantage of the Policy Framework for Investment as an organising principle for co-operation; iv) their selection should reflect country and region needs; v) projects based on sustained commitments for outreach should be preferred over one-off events; vi) projects should be designed to lead to measurable improvements by the target countries/regions in the policy areas they seek to address;

3. The Advisory Group shall be open to all interested delegations and non-Member observers in the Committee.

4. The Chair of the Advisory Group shall make regular reports on its activities to the Committee.

5. The mandate of the Advisory Group shall remain in force until 31 December 2013 unless the Investment Committee decides otherwise.

<b>Duration:</b>	31st July 2012	
<b>Mandate :</b>	Resolution concerning the mandate of the Insurance and Private Pensions Committee adopted by the Council at its 1159th session on 12 September 2007 [C(2007)86/REV1 and C/M(2007)12, item 160]	

Resolution of the Council [C(2007)86/REV1 and C/M(2007)12, item 160]

“THE COUNCIL

Having regard to the Convention on the Organisation for Economic Co-operation and Development of 14 December 1960;

Having regard to the Rules of the Procedure of the Organisation;

Having regard to the Recommendations of the Council on the In-Depth Evaluation of the Insurance and Private Pensions Committee [C/M(2007)3, Item 27];

DECIDES

1. The mandate of the Insurance and Private Pensions Committee is as follows:

i) Objectives

a) The overarching objective of the Insurance and Private Pensions Committee (hereinafter called “The Committee”) is to promote efficient, open and sound market-oriented insurance and private pensions systems, based on high levels of transparency, confidence, and integrity, and respecting recognised social objectives of these systems. The Committee shall assist policymakers in designing, adopting and implementing policies for achieving this objective.

- b) The main objectives of the Committee shall include:
- improving insurance and private pensions awareness and education;
  - strengthening private pensions systems to help them address the challenges of ageing;
  - enhancing the efficiency and effectiveness of insurance and private pensions regulation;
  - improving the financial management of large-scale risks.

ii) Methods

- a) In order to achieve these objectives, the Committee shall:
- enhance surveillance of insurance and private pensions markets developments and of their impact on economic growth and development;
  - focus its work on delivering outputs of high quality and with high policy impacts and shall regularly assess whether these targets are being met. It shall strive to achieve these targets through policy dialogue, the collection of information and statistics, the development of policy analysis, and the elaboration of policy options and of good practices, guidelines and principles for adequate policies and regulations, and mechanisms to foster their appropriate implementation,
  - monitor and co-ordinate work undertaken by the Organisation in the insurance and private pensions fields and, as appropriate, submit opinions, recommendations and proposals to the Council or to other Committees.

b) The Committee shall consider revisions to the mandate whenever appropriate, for instance following major policy developments in insurance and private pensions markets.

iii) Co-operation

a) The Committee shall co-operate with relevant OECD bodies, and especially the Committee on Financial Markets and the Working Party on Social Policy. It will also co-operate as necessary with the Investment Committee on work related to the insurance and pensions provisions of the OECD Codes of Liberalisation.

b) The Committee shall keep itself informed of the activities carried out in other international bodies in respect of insurance and private pensions, coordinate work and avoid duplication with these bodies, especially the IOPS<sup>1</sup> and the IAIS<sup>2</sup>, and shall provide a forum for consultations among Member countries to enable them to exchange views on issues raised in these bodies.

c) The Committee shall co-operate closely with the major stakeholders in insurance and private pensions field, including in particular industry and -- whenever feasible -- consumers.

d) The Committee shall, to the extent permitted by its resources, promote policy dialogue and cooperation with non-Member economies, encourage the implementation of best principles and practices, and provide related assistance. The work related to non-Member economies will be fully integrated into the programme of work of the Committee.

2. The mandate of the Insurance and Private Pensions Committee shall remain in force until 31 July 2012 unless the Council decides otherwise.”

## TASK FORCE ON PRIVATE HEALTH INSURANCE

<b>Members:</b>	Open to all Member countries
<b>Date of creation:</b>	22nd June 2001
<b>Duration:</b>	31st July 2012
<b>Mandate:</b>	Summary record of the 67th session of the Insurance Committee [DAFFE/AS/M(2001)2, Item 10] and document [DAFFE/AS/PHI/WD(2001)1, § 3]

### Extract from document DAFPE/AS/M(2001)2, Item 10

#### "10. Private Health Insurance

The Committee:  
[...]

-- supported the creation of a task force on private health insurance which would be open to public and private health sector representatives; the think tank's first two tasks would be to finalise the comparative report on private health insurance in the OECD countries and to monitor the collection and analysis of statistical data on private health insurance;"

### Extract from document DAFPE/AS/PHI/WD(2001)1, §3

"3. [...] The Insurance Committee (IC) established in June a Task Force on private health insurance, (...) whose short term main objective will be to assist in [the private health insurance] part of the [horizontal] project [on health] [...]. The Task Force may also discuss issues not directly covered by the project but of relevance for some of the topics discussed therein (for instance genetic testing, disability insurance and ageing)."

## WORKING PARTY OF GOVERNMENTAL EXPERTS ON INSURANCE

- Chair:** Mr. Claude Wirion (Luxembourg)
- Members:** Open to all Member countries
- Observers (International Organisations):** International Association of Insurance Supervisors (IAIS)  
International Monetary Fund (IMF)
- Date of creation:** November 1992
- Duration:** 31st July 2012
- Mandate:**
- Document [DAFFE/AS(92)23] approved by the Insurance Committee at its 50th session
  - Summary Record of the 69th Session of the Insurance Committee [DAFFE/AS/M(2002)2] and Document [DAFFE/AS(2002)3]
  - Change of name of the "Working Party of governmental experts on insurance solvency" to "Working Party of insurance governmental experts" [DAFFE/AS/M(2002)2]

### Extract from document DAF/AS(92)23

"The mandate of the "Group of governmental experts on insurance solvency" is as follows\*

- this technical and *ad hoc* Group of governmental experts will survey and analyse regulatory and supervisory systems and techniques existing in Member countries concerning the solvency of insurance companies, the main issues currently raised in this field and measures and practices used or that could be used to address them;
- the Group will regularly report to the Insurance committee on the developments of its work;
- the Group will submit to the Insurance Committee a final report for comments and approval."

### Extract from the Summary Record of the 69th Session of the Insurance Committee [DAFFE/AS/M(2002)2]

"9. The Committee:  
[...]

-- endorsed the change of name of the "Working Party of governmental experts on insurance solvency" to "Working Party of insurance governmental experts."

### Extract from document DAF/AS(2002)3

---

\* The concept of "solvency" used in this mandate must be understood in the broad sense of the financial health of insurance companies (and groups of such companies), including reinsurance aspects.

“84. The Working Party will be expected to develop several further activities in 2003-2004. These activities will first include all the issues to be discussed by the Insurance Committee between governmental experts only. The Group is indeed the only forum where the Committee could hold such restricted discussion and creation of new OECD groups are currently strictly discouraged. In 2003-2004, it may be expected that such issues will be numerous; they will include the contribution to the CMIT discussion and examination of the Member countries reservations to the new obligations of the Invisible Code, the implementation of the Reinsurance Decision, the monitoring of solvency and selected other regulatory developments as well as all the issues covered by this programme of work where prior governmental discussion would be required (being on terrorism risk management, financial integrity or private health insurance). This may especially concern issues to be developed in co-operation with the Committee on Financial Markets where delegates are governmental and central banks representatives only. All in all, the Group will thus basically deal with most of the activities of the Committee. Taking this increasing and larger role of the Group into consideration, it is also suggested to delete the word solvency in the name of the group, which would now read: the Working Party of insurance governmental experts.”

#### Terms of Reference

“The Working Party on private pensions has the following tasks and objectives:

- survey and monitoring of private pensions systems in OECD Member countries and analysis of related policy and technical issues;
- formulation of appropriate policy conclusions and/or recommendations on the different approaches related to regulation and supervision of private pension systems;
- keeping abreast of OECD activities related to private pensions; co-operation and co-ordination on these issues with other relevant OECD bodies as well as with other international bodies;
- promotion of policy dialogue with Non Member countries on private pensions issues.

The programme of work of the Working Party will specify the orientations and details of implementation of the current terms of reference. The Working Party will regularly report to the Insurance Committee [---]. The Delegations may include representatives of the industry (insurance and pension funds in particular) except for closed governmental sessions, to be held upon decision by the Chair of the Working Party.”

## ***TASK FORCE ON PERSONAL PENSION PLANS***

**Chair:** ...

**Members:** Open to all Member countries

**Date of creation:** June 2001

**Duration:** 31st July 2012

**Mandate:** - Summary Record of the 66th session of the Insurance Committee [DAFFE/AS/M(2001)1, Item 8] and document [DAFFE/AS(2000)7/REV1, § 31]

- Summary Record of the 67th session of the Insurance Committee [DAFFE/AS/M(2001)2, Item 12.1] and document [DAFFE/AS(2001)3, § 14]

The Insurance Committee will deal, in co-operation with its Working Party on Private Pensions, with issues involving the role of insurance companies in pension systems, and the development and regulation of retirement-related insurance products. Work on the latter will be initiated by a Task Force on Personal Pension Plans, which will be managed jointly by the Working Party and the Committee. This activity will be enlarged to comparison between insurance, pensions and savings instruments.

### Extract from document DAF/AS/PEN/WD(2002)8

"8. In order to address the overall project objective, three main priorities are identified as follows:

- to review country data coverage of pension statistics and make recommendations for improving the methodology of pension statistics gathering;
- to improve the international comparability of pension statistics;
- to provide users with up-to-date statistics and indicators on salient aspects of retirement systems across OECD and INPRS countries.

[...]

23. The mandate of the Task Force on Pension Statistics is; i) to develop a thorough knowledge of the methodology used in the compilation of private pension data throughout OECD countries, ii) to review strengths and weaknesses of existing data, initially through a data collection pilot project for selected OECD countries, iii) to examine ways and means to improve the comparability of international pension statistics and provide recommendation, iv) to carry out the data collection monitoring and finally, v) to explore related issues and make recommendations as the task force finds appropriate"

### Extract from document DAF/AS/M(2002)2, Item 5

"5.

#### TERRORISM RISKS

[...]

##### **b) Definition of terrorism risks**

The Committee:

- discussed the document DAF/AS/WD(2002)7 which suggests a framework for future work on the definition of terrorism risk (definition criteria, introduction to the concept of insurable terrorism risks and mega terrorism) to be mainly undertaken through the Task Force created at the occasion of the December 2001 meeting, and underlined the need of a flexible approach in order to encompass as much as possible country specificity.

[...]

##### **c) Policy options**

The Committee:

- noted the content of documents DAF/AS/WD(2002)9 - Communiqué of the Ministerial meeting requesting that the Secretariat should *develop policy analysis and recommendations on how to define and cover terrorism risks and to assess the respective roles of the insurance industry, financial markets and governments, including for the coverage of "mega-terrorism" risks* – discussed and endorsed the modalities for implementation of that mandate presented in document DAF/AS/WD(2002)8, taking into consideration that at this stage the Committee should adopt an open approach on options whose usefulness or feasibility will have to be carefully assessed (by the Task Force and the Committee)."

## JOINT TASK FORCE ON FINANCIAL LITERACY AND FINANCIAL INCLUSION STATISTICS

<b>Members:</b>	Open to all Member countries
<b>Date of creation:</b>	3rd December 2008
<b>Duration:</b>	31st July 2012
<b>Mandate:</b>	Committee on Financial Markets and Insurance and Private Pensions Committee Confirmation by the Executive Committee registered in the Summary Record of its 823 <sup>rd</sup> Session [CE/M(2008)33, item 219 and CE(2008)19]

### Extract from document CE(2008)19

“The joint task force will examine the potential and means to develop a survey methodology for generating a set of practical and internationally comparable data on the attitudes, awareness, knowledge and skills of financial consumers, and the degree to which they have access to financial services. Policymakers will use the findings of the Task Force to determine how they can best work together to generate data on financial literacy and inclusion. Data generated by the resulting methodology will be compiled and analysed by the OECD.

The methodology and resulting data would:

- Provide policy guidance and direction, allowing policy makers to identify priority areas for action on financial literacy, education, awareness and inclusion;
- Allow authorities to evaluate the impact of their public policy or national strategy on consumers’ behaviour and inclusion, and compare that impact with that of similar policies or strategies implemented by other governments.
- Allow the OECD undertake solid quantitative comparative analyses, identify good practices, and elaborate further financial education guidelines (as recommended by the Council in its 2005 Recommendation on Principles and Good Practices for Financial Education and Awareness and by the G8 Finance Ministers in 2006).
- Allow the OECD to strengthen its international leadership and role as international standard setter on financial education and literacy.”

## **TASK FORCE ON INSURANCE STATISTICS**

<b>Chair:</b>	Mr. José Pavão Nunes	(Portugal)
<b>Members:</b>	Open to all Member countries	
<b>Date of creation:</b>	3rd December 2008	
<b>Duration:</b>	31st July 2012	
<b>Mandate:</b>	Insurance and Private Pensions Committee Confirmation by the Executive Committee registered in the Summary Record of its 823 <sup>rd</sup> Session [CE/M(2008)33, item 220 and CE(2008)22]	

### Extract from document CE(2008)22

“The mandate of the Task Force on Insurance Statistics is to contribute to the elaboration, collection, and dissemination of sound and reliable comparable international insurance statistical information in order to contribute to more efficient and transparent insurance systems and promote the surveillance of insurance markets, and thereby promote economic growth and enhance the quality of government decision-making.

The main objectives are to:

- support the IPPC work on insurance statistics;
- assure the continuity of the insurance statistics exercise and further improve the overall quality of insurance statistical information according to OECD standards;
- examine ways and means to improve the relevance and comparability of international insurance statistics and provide recommendations as the exercise progresses;
- determine main priorities and contribute to development of appropriate statistics and indicators;
- achieve an enhanced analysis of trends in the insurance sector;
- provide inputs and directions for any global effort to improve insurance and any related financial statistics as the task force finds appropriate, and;
- enhance the global reach of the IPPC insurance statistics, notably by broadening its geographical scope.

In order to address the main objectives, its main priorities are to:

- improve the relevance of the exercise through the collection of more up-to-date insurance statistics and additional selected market variables;
- develop a thorough knowledge of the methodology used in the compilation of insurance data throughout OECD countries and selected non-OECD countries;
- review strengths and weaknesses of existing data, possibly through pilot exercises;
- examine ways and means to improve the comparability of international insurance statistics and provide recommendation where relevant;
- strengthen cooperation with other relevant bodies (e.g. EC, Eurostat, CEIOPS, IOPS); and,
- explore related issues and make recommendations as the Task Force finds appropriate.”

## **AD HOC TASK FORCE ON THE GOVERNANCE OF INSURERS**

- Members:** Open to all Member countries
- Date of creation:** 3rd December 2008
- Duration:** 31st December 2011
- Mandate:**
- Insurance and Private Pensions Committee Confirmation by the Executive Committee registered in the Summary Record of its 823<sup>rd</sup> Session [CE/M(2008)33/PROV, item 219 and CE(2008)21]
  - Mandate extended by Insurance and Private Pensions Committee on 3 December 2010 [DAF/AS/M(2010)2].

### Extract from document CE(2008)21

“The mandate of the ad hoc Task Force on Governance of Insurers is to assist the Insurance and Private Pensions Committee in its review of the OECD Guidelines on Insurers’ Governance and to conduct joint work with the International Association of insurance Supervisors (IAIS) on the corporate governance of insurers.

#### Notes:

The planned work of the ad hoc Task Force is narrow in scope. A joint IAIS-OECD questionnaire has already been circulated and a joint issues paper will be developed in cooperation with the IAIS in 2008 and in the first half of 2009. This joint work will avoid overlap and duplication in the activities of the OECD and IAIS in this area and should lead to a higher quality product. Indeed, the IPPC and the OECD Council have emphasised the need for enhanced international coordination.

The modalities for cooperation between the IAIS and OECD were approved by the ad hoc Task Force on 9 June 2008 and by the IAIS Subcommittee on Governance and Compliance on 19-20 June 2008. With this recent approval of the modalities for cooperation, the ad hoc Task Force will take on a more formal and active role for the IPPC and will provide a formal and direct linkage with the IAIS. A joint IAIS-OECD roundtable on the governance of insurers is planned for the morning of 5 December 2008 at the OECD, to be followed in the afternoon by a joint session of the IPPC Task Force and IAIS Subcommittee.

The duration of the ad hoc Task Force is to be limited. If there is no joint work beyond the issues paper in 2009, then the ad hoc Task Force will work to assist the IPPC in reviewing the OECD Guidelines by the end of 2009. If there is further cooperation between the IAIS and OECD, then possible joint guidance would be developed in 2009 and in the first half of 2010. This could lead to new international guidance on the corporate governance of insurers jointly developed between two international organisations.”

## GLOBAL FORUM ON FINANCE (GFF)<sup>1</sup>

**Date of creation:** 6th March 2009

**Duration:<sup>2</sup>** Unspecified

**Approved by:** - Committee on Financial Markets (CMF) [DAF/CMF(2008)35, written procedure];  
- Insurance and Private Pension Committee (IPPC) [DAF/AS/M(2009)1].

### **Mission statement:**

“The GFF mission will serve as the main forum for the development of CMF and IPPC international policy dialogue with non-Members and support the elements of the CMF and IPPC mandates concerned with relationship with non-Members. These include (i) *to promote efficient, open, stable and sound market-oriented financial, insurance and private pensions systems, based on high levels of transparency, confidence and integrity*, and (ii) *to encourage the implementation of best principles and practices, and provide related assistance* in non-Members on selected areas of expertise of the CMF and the IPPC.

In doing so, the GFF will enhance the visibility of global activities carried out by the CMF and IPPC. The GFF will focus on issues of critical importance to Members and non-Members alike, and where the contributions of non-Members will advance the discussions within the OECD and impact on OECD work, such as:

- Efficiency and effectiveness of regulation in the financial, insurance, and private pensions sectors;
- Financial education and awareness including in the risk, insurance, and private pensions sectors;
- Private pensions;
- Better responding to financial, insurance, and private pensions challenges associated with an ageing population and a riskier environment;
- Financial management of large-scale risks;
- Contribution of financial markets and institutions to savings and investment, to the financing of businesses and individuals and to growth;
- Liberalisation of international trade and market access in the financial, insurance, and private pensions services sector;
- Public debt management; and,
- Financial statistics, including, insurance and private pensions.

On this basis, the *Global Forum on Finance* will be organised on generic issues related to finance (including insurance and private pensions) or on specific issues. The title of each event will reflect these specificities: there could be a “Global Forum on Finance: Private Pensions”; a “Global Forum on Finance: Debt management”, or alternatively subtitles, *etc.*

---

<sup>1</sup> Information on this Global Forum is provided for the sake of completeness, but Global Forums are not, in accordance with C(2008)208/FINAL, official OECD bodies.

<sup>2</sup> The duration of Global Forums is a function of the duration of their parent Committee(s). By default, it would coincide with the duration of the Committee whose mandate expires first and be automatically renewed together with this Committee’s mandate. Earlier expiration dates would be possible.

The GFF will operate through a variety of conferences, workshops, and seminars, and international global networks of stakeholders, created around the specific topics of the GFF. For instance, this will include the *International Network on Financial Education* and the *International Network on the Financial Management of Large-Scale Catastrophes* and their respective Advisory Boards.”

**Members:** Open to all Member countries

**Designated participants:**

- Regular observers in the CMF and/or the IPPC, and/or one of their Working Parties: Brazil; Hong Kong, China; India; Russian Federation; South Africa; Singapore;
- Accession candidates and Enhanced Engaged countries that are not observers: China; Indonesia;
- International organisations: IMF, World Bank.

## DECIDES

1. The mandate of the Committee on Financial Markets is as follows:

### i) Objectives

a) The overarching objective of the Committee on Financial Markets is to promote efficient, open, stable and sound market-oriented financial systems, based on high levels of transparency, confidence and integrity. To achieve this objective, the Committee shall improve awareness and understanding of major financial policy issues and shall assist policymakers in designing, adopting and implementing relevant policies.

b) The main objectives of the Committee include:

- improving efficiency and effectiveness of the regulatory approach in the financial sector;
- improving the capacity of financial markets and individuals to respond to financial challenges, in particular those associated with an ageing population and a riskier environment;
- improving financial education and awareness;
- promoting the contribution of financial markets and institutions to savings and investment, to the financing of business and individuals and to growth;
- promoting the liberalisation of international trade and market access in the financial services sector.

c) Additional objectives to be addressed by the Working Parties of the Committee are:

- improving public debt management;
- improving financial statistics.

d) With regard to non-Members, the Committee shall promote policy dialogue and cooperation, encourage the implementation of best principles and practices, and provide related assistance.

### ii) Methods

a) In order to achieve these objectives, the Committee shall:

- develop in-depth and proactive surveillance of financial developments and of their impact on economic growth and stability;
- focus its work on delivering outputs of high quality and with high policy impacts and shall regularly assess whether these objectives are being met; it shall strive to achieve these objectives through policy dialogue, the collection of information and statistics, policy analysis, and the establishment of good practices and guidelines for adequate policies and regulations, and for mechanisms to facilitate their proper implementation;

- monitor and co-ordinate the work undertaken by the Organisation in the financial fields and, as appropriate, submit opinions, recommendations and proposals to the Council or to other Committees.

b) The Committee shall consider revisions to its mandate whenever appropriate, for instance following major policy developments in financial markets.

iii) Co-operation

a) The Committee shall co-operate with relevant OECD bodies, particularly the Insurance and Private Pensions Committee;

b) The Committee shall keep itself informed of the activities carried out in other international bodies in respect of financial issues, coordinate work and avoid duplication with these bodies, and shall provide a forum for consultations among Member countries to enable them to exchange views on issues raised in these bodies;

c) The Committee shall consider the views and input of major stakeholders in the financial field.

2. The mandate of the Committee on Financial Markets shall remain in force until 31 December 2013 unless the Council decides otherwise.”

#### "THE COUNCIL

- (36) a) noted the Report on the Improvement of Capital Markets by the Committee for Invisible Transactions [C(66)122] and the Comments thereon by the Payments Committee [C(67)13];
- b) approved the publication of the document [C(66)122] and of a Statistical Annex thereto after the Committee for Invisible Transactions had made any additions and corrections needed to perfect presentation and accuracy, and on the understanding that the document would indicate the constitution, composition and independent character of that Committee, and that it would be made clear that the report was the work of experts, which did not necessarily carry the endorsement of the Organisation in all respects and which did not bind the latter or individual Member States either generally or in any particular detail;
- c) agreed that a group of official statisticians be convened to examine how financial statistics in this field could be improved;"

"(iv) Future informal meetings of government debt management experts

#### THE COMMITTEE

- a) endorsed the proposal made at the Expert Group's final meeting held in March 1981 that government debt management experts should meet from time to time, perhaps at 12 to 18 month intervals, to discuss debt management problems of common interest; this was all the more desirable as government debt managers had so far no other opportunities to meet at international level;
- b) instructed the Secretariat to organise such meetings, it being understood, however, that any papers for discussion by the experts would have to be prepared by the experts themselves and that the Secretariat would only be responsible for the technical organisation of such meetings;
- c) welcomed the suggestion that the Committee should receive reports on the outcome of such meetings."

Resolution of the Council [C(2008)134 & CORR1 and C/M(2008)17, item 219]

“THE COUNCIL,

Having regard to the Convention on the Organisation for Economic Co-operation and Development of 14 December 1960;

Having regard to the Rules of Procedure of the Organisation;

Having regard to Resolution of the Council C(87)138/FINAL

Having regard to the recommendations of the In-depth Evaluation of the Competition Committee [C(2007)121];

DECIDES:

A. The Competition Committee has the following mandate:

I. Objectives

- a) The main objective of the Competition Committee is to protect and promote competition as an organising principle of modern economies, based on the knowledge that vigorous market competition boosts growth and employment and makes economies more flexible and innovative.
- b) The intermediary objectives of the Committee include:
  - i) reviewing developments in competition laws and policies both in individual countries and in international organisations;
  - ii) examining and commenting upon particular competition law and policy issues taking into account the interaction between competition and other government policies;
  - iii) Enhancing the effectiveness of competition law enforcement, through measures that include the development of best practices and the promotion of cooperation among competition authorities of Member countries;
  - iv) Enhancing the effectiveness of pro-competitive economic reform, including by reviewing competition issues in jurisdictions and particular sectors, and identifying options for addressing these issues and developing best practices;
  - v) Proposing effective strategies and methods to help governments promote domestic precompetitive reforms and overcome their transition costs;
  - vi) Strengthening synergies between competition policy and other framework policies in the work of the OECD;
  - vii) Supporting sound domestic competition policies and fostering policy convergence internationally to avoid inefficiencies and potential conflicts resulting from different competition standards;
  - viii) Promoting policy dialogue and cooperation with non-Members to encourage the implementation of competition best practices and principles, and providing related capacity building;
  - ix) Promoting understanding of the benefits of competition for business and consumers.

## II. Co-operation arrangements

- a) The Committee shall cooperate with other OECD committees on competition-related matters and seek to ensure that the Organisation as a whole promotes sound competition policy.
- b) The Committee shall keep itself informed of the competition related activities carried out in other international organisations, notably the International Competition Network. It will promote and develop, as practicable, partnerships with these organisations and seek to ensure effective complementarities while avoiding undue duplication with other international organisations where appropriate. The Committee shall provide a forum for consultations to enable delegates to exchange views on issues raised in these bodies.
- c) The Committee shall consider the views and input of BIAC and other major stakeholders in the competition field.
- d) The Committee shall encourage participation by non-OECD economies in the Committee's work and their implementation of the Committee's recommendations and best practices.

B. The mandate of the Competition Committee shall remain in force until 31 December 2013 unless the Council decides otherwise."

## GLOBAL FORUM ON COMPETITION<sup>1</sup>

<b>Chair:</b>	Mr. Frédéric Jenny	(France)
<b>Date of creation:</b>	1st January 2009	
<b>Duration:<sup>2</sup></b>	31st December 2013	
<b>Approved by:</b>	The Bureau of the Competition Committee on behalf of the Committee, 19 November 2008 [DAF/COMP/GF(2008)14].	

### **Mission Statement:**

The OECD Global Forum on Competition (GFC) has been established as an efficient mechanism to (i) disseminate OECD Members' experience and best practices, (ii) to obtain information about non-Members' conditions, experiences and views, (iii) to promote a greater understanding of why legitimate differences in approaches between developing and developed economies may continue to be warranted; (iv) to create larger networks of government officials that have the level of mutual understanding that comes from OECD-style dialogue; and (v) to promote policy dialogue, with an opportunity for contribution by the private sector and NGOs.

Other stated purposes have been described as "supporting effective law enforcement against worldwide cartels", and "increasing the efficiency of procedures to review transborder mergers". Worldwide cartels operate beyond the OECD area; hence, the anti-cartel programme which OECD Members endorsed in 2000 and actively pursued since then, cannot succeed without involvement of non-Members and their acquiring the tools and skills necessary to take effective remedial action. Similarly, ongoing work within the OECD aims at reducing the burden on global business of merger clearance rules by offering competition authorities the possibility to meet and develop options for reform will fall short of its full potential unless non-Members can be included in the dialogue.

The Forum also focuses on bringing competition principles to bear in regulatory reform. This underscores the fact that the scope of the GFC extends beyond competition law enforcement matters to include competition policy issues broadly defined. The GFC is also a forum in which non-Members can benefit from the type of peer review process that Members have available to them in the Committee.

The GFC promotes widespread association with OECD standards in the field of competition, including the 2005 Recommendation of the Council concerning merger review, the 2001 Recommendation on Structural Separation in Regulated Industries, the 1998 Recommendation against Hard-Core cartels and the 1995 Recommendation on Co-operation. In addition, the GFC provides a venue to add a development dimension to the OECD's work on competition policy.

Meetings of the Global Forum on Competition are chaired by the Chairman of the Competition Committee.

**Members:** Open to all Member countries

---

<sup>1</sup> Information on this Global Forum is provided for the sake of completeness. However, please note that in accordance with Council decision C(2008)208/FINAL, Global Forums are not official OECD bodies.

<sup>2</sup> The duration of Global Forums is a function of the duration of their parent Committee(s). By default, it would coincide with the duration of the Committee whose mandate expires first and be automatically renewed together with this Committee's mandate. Earlier expiration dates would be possible.

**Designated Participants:**

Observers to the Competition Committee: Brazil, Indonesia, Lithuania, Romania, Russian Federation, South Africa, Chinese Taipei

Non Observer Enhanced Engagement countries: China, India

“THE COUNCIL,

Having regard to the Convention on the Organisation for Economic Co-operation and Development of 14 December 1960;

Having regard to the Rules of Procedure of the Organisation;

Having regard to the mandate of the Steering Group on Corporate Governance, as set out in DAFFE/CA/CG/M(2000)1;

Having regard to the recommendations of the In-depth Evaluation of the Steering Group on Corporate Governance [C(2009)37 and its CORR1];

Having regard to the proposed revision of the mandate of the Steering Group on Corporate Governance and the proposal to rename it the Corporate Governance Committee [C(2010)17];

Considering the OECD's responsibility as standard setter and the importance of corporate governance for sustainable growth, sound financial markets and good corporate practices;

Recognising the importance of an ongoing policy dialogue, effective implementation of corporate governance initiatives in Members and the inherently cross-cutting nature of corporate governance issues.

DECIDES:

A. The Corporate Governance Committee has the following mandate:

**I. Objectives**

1. The overarching objective of the Corporate Governance Committee is to contribute to economic efficiency, sustainable growth and financial stability by improving corporate governance policies and supporting good corporate practices, in Members and non-Members. Further, the Corporate Governance Committee should aim to effectively fulfill its responsibilities as an international standard setter in corporate governance, especially with respect to the OECD Principles of Corporate Governance [C(2004)61], which is one of the Financial Stability Board's twelve key standards, and the Recommendation of the Council on OECD Guidelines on Corporate Governance of State-Owned Enterprises [C(2005)47].

2. Mid-level objectives include:

- To improve the capacity of policy makers, regulators and market participants to develop and implement efficient and cost effective corporate governance rules and policies;
- To improve the capacity of policy makers, regulators and market participants to identify and respond to market developments that may influence the effectiveness and relevance of existing corporate governance policies and practices;
- To improve corporate governance of state owned enterprises and practices for implementing privatisation policies.

**II. Methods to pursue these objectives include:**

- Provide an effective system to monitor implementation and effectiveness of agreed corporate governance standards and initiatives at national, regional and global level;
- Identify market developments that may influence the effectiveness and relevance of existing corporate governance policies and practices, and provide timely policy advice;
- Serve as a forum for a policy dialogue among policy makers, regulators, market participants and other stakeholders.

**III. Co-operation and Consultation**

- Promote co-ordination of all work carried out within the Organisation in the field of corporate governance, and present proposals for this purpose to other Committees or to Council;
- Collaborate with other relevant bodies of the OECD on cross-cutting issues related to corporate governance;
- Engage with non-Members and co-operate with the World Bank and other international organisations to support improvements in corporate governance globally;
- Consult and share information with BIAC and TUAC, as well as other stakeholders.

3. The mandate of the Corporate Governance Committee shall remain in force until 31 December 2014.”

## WORKING PARTY ON STATE OWNERSHIP AND PRIVATISATION PRACTICES

<b>Chair:</b>	Mr. Pekka Timonen	(Finland)

<b>Date of creation:</b>	March 2001	
<b>Duration:</b>	31st December 2014	
<b>Mandate:</b>	Documents: DAF/CA/CG(2001)6; DAF/CA/PRIV(2001)1/REV1; DAF/CA/PRIV(2010)5	

### Extract from document DAF/CA/PRIV(2010)5, paragraphs 8-10

"The proposed overarching objectives of the Working Party are to:

- i. Initiate and promote policy dialogue and information exchange among Members and non-Members with the purpose of improving corporate governance of state-owned enterprises and practices for implementing privatisation policies;
- ii. Encourage and assist the application of the OECD Principles of Corporate Governance to state-owned enterprises. In this context, to promote disclosure, transparency and a level playing field through the implementation of the OECD Guidelines on Corporate Governance of State-Owned Enterprises.

The proposed mid-level objectives to fulfil these duties are to:

1. Serve as a pool of expertise from which Members and non-Members can draw in the process of designing, adjusting or implementing policies bearing on the ownership and governance of state-owned enterprises;
2. Oversee the implementation of the OECD Guidelines on Corporate Governance of State-Owned Enterprises and, when necessary, review the relevance and adequacy of this instrument;
3. Serve as a pool of expertise from which member and non-member countries can draw concerning the implementation of privatisation policies;
4. Manage a process of dialogue with non-Members through the organisation and participation in global, regional and bilateral activities related to the ownership and governance of state-owned enterprises and the implementation of privatisation policies.

The methods used to pursue these objectives and the modalities for cooperation and consultation employed by the Working Party shall be the same as those established for the Corporate

Governance Committee [C(2010)17]. These imply, among other things, an openness to “horizontality” – i.e. a need to “collaborate with other relevant bodies of the OECD on cross-cutting issues related to corporate governance” (Annex 1, Section III).

#### Proposed duration

The Working Party’s mandate, like the mandate of the Corporate Governance Committee, will remain in force until 31 December 2014.”

Having regard to the proposal to revise the mandate C(2008)147;

## DECIDES

1. The mandate of the Committee on Fiscal Affairs as follows:

### i) Objectives

- a) The overarching objective of the Committee on Fiscal Affairs (hereinafter called "The Committee") is to contribute to the shaping of globalisation for the benefit of all through the promotion and development of effective and sound tax policies and guidance that will foster growth and allow governments to provide better services to their citizens. Its work is intended to enable OECD and non-OECD governments to improve the design and operation of their national tax systems, to promote co-operation and co-ordination among them in the area of taxation and to reduce tax barriers to international trade and investment.
- b) In light of this objective, the Committee shall:
  1. facilitate the negotiation of bilateral tax treaties and the design and administration of related domestic legislation,
  2. promote communication between countries and the adoption of appropriate policies to prevent international double taxation and to counteract tax avoidance and evasion,
  3. encourage the elimination of tax measures which distort international trade and investment flows;
  4. promote a climate that encourages mutual assistance between countries and establish procedures whereby potentially conflicting tax policies and administrative practices can be discussed and resolved;
  5. support domestic tax policy design through the development of high quality economic analysis of tax policy issues, comparative statistics and comparisons of country experiences in the design of tax systems;

6. improve the efficiency and effectiveness of tax administrations, both in terms of taxpayer services and enforcement.
7. support the integration of non-OECD economies into the international economy by strengthening policy dialogue with them to increase their awareness of and contribution to the Committee's standards, guidelines and best practices.

#### ii) Methods

In order to achieve these objectives, the Committee will focus its work on delivering outputs of high quality and with high policy impacts and shall regularly assess whether these targets are being met. In particular, the Committee shall:

- a) develop standards, guidelines and best practices in areas where international co-ordination is desirable and monitor the practical implementation of them and other recommendations;
- b) provide a forum for discussions by senior policymakers and tax administrators, and where appropriate the business community and other parts of civil society, of international and domestic tax policy and administration issues and emerging issues in a global economy which require a response from senior tax policy makers;
- c) supply OECD countries with internationally comparable tax statistics and comparisons of the major taxes used throughout the OECD area, and provide strategic analysis of important tax policy and administration issues for use in publications, briefs, and the like;

#### iii) Co-operation

- a) The Committee shall strengthen policy dialogue with non-OECD economies in order to increase their awareness and use of the Committee's standards, guidelines and to explore together the identification of good practices.
- b) The Committee shall monitor and contribute to relevant activities carried out in other international bodies. In particular, it will continue to participate in the UN Committee of Experts on International Cooperation in Tax Matters and will continue its co-operation with the Financial Action Task Force on issues of mutual interest.
- c) It will promote and develop strategic partnerships with regional tax and other international organisations and will continue to develop the International Tax Dialogue. The Committee will monitor and co-ordinate work undertaken by the Organisation in related fields and shall co-operate with relevant OECD bodies. In particular, it will continue to work jointly with other committees carrying out projects having tax policy aspects, in particular with the Economic and Development Review Committee, Economics; in the Environment Policy Committee; in the Employment, Labour and Social Affairs Committee; in the Development Assistance Committee; and in the Working Group on Bribery.
- d) The Committee shall continue to co-operate closely with BIAC and other major stakeholders.

2. The mandate of the Committee shall remain in force until 31 December 2013 unless the Council decides otherwise."

“ ...

- The Committee noted the Secretariat statement that on the 22<sup>nd</sup> January, the Steering Group for the Multilateral Training network would be asked to agree to convert itself into a “Consultative Group on Taxation and Tax Training”. The creation of this Group was agreed to by the Steering Group and its Mandate was to provide guidance on the training courses, to provide a forum for policy exchanges between the Economies in Transition and to facilitate the exchange of views on bilateral and multilateral assistance programmes.”

“ITEM VII – Conversion of the Steering Group into a Consultative Group on Taxation and Tax Training [...]

After an extended discussion, the Steering Group agreed to change its name to Consultative Group on Taxation and Tax Training (CGTTT), with the mandate as set out in Annex III.

---

\* 2009 members for information.

It was agreed that the main function of the CGTTT would be to review the operation of the tax training network. Th CGTTT would also encourage the development of a policy dialogue between the economies in Transition, on the one hand, and between these countries and the OECD countries, on the other hand. It was also noted that the new Group could help strengthen the link between the training courses and the bilateral and multilateral assistance programmes and would also provide a useful forum for exchanging views on these programmes.”

## **JOINT MEETINGS OF TAX AND ENVIRONMENT EXPERTS**

### **JOINT MEETINGS OF TAX AND ENVIRONMENT EXPERTS**

"1. The Committee on Fiscal Affairs (CFA) and the Environment Policy Committee (EPOC) agree to continue the Joint Meetings of Tax and Environment Experts, from the Working Party No2 on Tax Policy Analysis and Tax Statistics of the CFA, and the Working Party on Integrating Environmental and Economic Policies of EPOC.

2. Taking into account the OECD Green Growth Strategy, and the specific economic, fiscal and environmental conditions of OECD countries, the joint meeting of experts shall:

- a) monitor and analyse existing environmentally related taxes, fees and charges, including collecting and analysing data within a common statistical framework;
- b) assess the economic efficiency and environmental effectiveness of relevant taxes and tax reliefs as well as, where appropriate, related economic support measures, fees, charges and emission trading systems;
- c) examine further issues arising from the integration of environmental concerns into the design of tax systems and review practical implementation issues, drawing on country experience.

3. The joint meeting of experts will provide input into the OECD Green Growth Strategy and to follow-up work to this strategy involving consideration of tax and environment issues.

4. The joint meeting of experts will also monitor developments and contribute, where appropriate, to tax aspects of the follow-up to international climate change negotiations, including issues of achieving an effective and fair implementation.

5. The joint meeting of experts will report, on a regular basis, the findings of the Joint Meetings, including discussions of policy options and transmit these to the CFA and the EPOC.

6. The mandate shall remain in force until 31 December 2013, unless the CFA and the EPOC decide otherwise."

**Mandate:** The WP1-WP6 Joint Drafting Group on Attribution of Profits to Permanent Establishments (“JDG”) was created at the January 2005 meeting of the Committee on Fiscal Affairs and was given the following mandate:

The mandate of the WP1 and WP6 Joint Drafting Group is to draft, for the approval of both Working Parties and the CFA, how the guidance that the OECD will provide to reflect the conclusions of WP6 on the attribution of profits to permanent establishments could be incorporated in the OECD Model Tax Convention and/or Guidelines.

The JDG will make a progress report to CFA in June 2005 on the form the guidance could take, including on whether it should be in the Commentary on Article 7, on which other parts of the Commentary will be affected, on other issues identified by the JDG, including whether changes might need to be made to Article 7, and on the likely timetable for the completion of the work (no later than January 2007).

At its June 2006 meeting, however, the Committee on Fiscal Affairs revised the deadline for the completion of the work and reached the following decisions concerning the project on attribution of profits to permanent establishments.

### **Mandate**

#### Extract from document CTPA/CFA(2010)17

“Working Group 10 on the Definition of Permanent Establishment was set up on 26 February 2009 by Working Party 1 on Tax Conventions and Related Questions (a subsidiary body of the OECD Committee on Fiscal Affairs) to address a number of issues related to the interpretation of the definition of permanent establishment found in Article 5 of the OECD Model Tax Convention.

Since Working Party 1 decided that the focus of this work should be on solving practical problems arising in the application of existing treaties, the work of the Group will be restricted to interpretation issues arising from the current definition. The work will therefore be concerned with the analysis of the issues based on the existing provisions of Article 5. Whilst the Group may, in the course of that work, identify policy issues and describe them in its report, its mandate does not include the assessment of such issues and the development of proposals to address them.

In the course of that work, the Group will examine and prioritise the issues identified in the various annexes to note CTPA/CFA/WP1/NOE2(2008)21/REV1/CONF (Organisation of Future Work on the Definition of Permanent Establishment). Its work will not, however, be limited to those issues and it will be invited to examine any other interpretative issue brought to its attention. The Group should focus primarily on issues where practical guidance will assist tax administrations and taxpayers.

### **Expected output**

It is expected that the Working Group will produce a report to Working Party 1 clarifying a number of aspects of the permanent establishment definition and that the report will include proposals for changes to the Commentary on the OECD Model Tax Convention.”

The "Forum on Strategic Management" – now the Forum on Tax Administration - was created by the CFA in June 1997 to act as the focal point for CFA work on tax administration. The CFA recognised the need for a forum in which tax administrators could exchange experiences in addressing existing and future strategic challenges for tax administrations in a rapidly changing and globalising environment.

The aims of the FTA are:

- To share information & experiences on common tax administration issues, such as service and compliance approaches as well as non-tax specific administrative issues such as performance measurement & management.
- To share thoughts on emerging administrative challenges.

## GLOBAL FORUM ON TAX TREATIES AND TRANSFER PRICING<sup>1</sup>

**Date of creation:** 29th January 2009

**Duration:**<sup>2</sup> Unspecified

**Approved by:** The Committee of Fiscal Affairs, 27-28 January 2009  
CTPA/CFA/M(2009)1/CONF

### **Mission Statement:**

“The Global Forum is an important element of the OECD’s on-going dialogue with non OECD economies on international taxation.

- Its objective is to present ongoing work in the tax treaty and transfer pricing area,
- to engage non-OECD economies in discussions on that work,
- to receive their input before the work is finalised and to develop and broaden consensus on the application of international tax rules in order to ensure that the rules are applied correctly and consistently.”

**Designated Participants:** Open to all Member countries

Regular Observers (Non-Members): Chile, People’s Republic of China, Russian Federation, South Africa, India, Argentina

Ad hoc Observers: Brazil, Indonesia

And over 60 non-OECD economies invited to each meeting.

---

<sup>1</sup> Information on this Global Forum is provided for the sake of completeness. However, please note that in accordance with Council decision C(2008)208/FINAL, Global Forums are not official OECD bodies.

<sup>2</sup> The duration of Global Forums is a function of the duration of their parent Committee(s). By default, it would coincide with the duration of the Committee whose mandate expires first and be automatically renewed together with this Committee’s mandate. Earlier expiration dates would be possible.

#### Objectives:

- To provide strategic policy, legal, administrative and technical support to develop and improve the legal, practical and administrative framework to facilitate exchange of information and mutual administrative assistance with a view to improving tax compliance while ensuring that a proper balance is maintained with respect to the protection of taxpayers' rights.
- Strengthen international co-operation on exchange of information amongst tax administrations and tax policy makers.
- Enhance countries' ability to tackle tax avoidance and evasion and to counter aggressive tax planning.

#### Methods/Outputs

- Develop international standards, guidelines and best practices in the area of transparency and information exchange for tax purposes and to provide a forum to discuss, and, where appropriate, co-ordinate policies with respect to failures in the implementation of such international standards.
- Provide a forum for discussion on the transparency and information exchange issues arising from the work of the Global Forum on Transparency and Exchange of Information in Tax Matters, emerging in other international fora or identified by the business community or other parts of civil society.
- Interpret standards and develop guidance and training materials for the application of provisions on information exchange and more generally for officials dealing with information exchange in both OECD countries and non-Members with a particular focus on developing countries and countries new to the exchange of information.
- Provide a forum where delegates can raise and share experiences on any tax transparency, exchange of information or related issue whether policy, legal, administrative or technical.
- Further develop and promote the use of the Aggressive Tax Planning directory among member countries of the Aggressive Tax Planning Steering Group, prepare reports on

pertinent aggressive tax planning issues and support and act as a centre of expertise for the CFA and its subsidiary bodies on issues relating to aggressive tax planning.

- Organise meetings of tax inspectors or other tax specialists on subjects and at such times as agreed by the Working Party.
- The new Working Party will, where appropriate, liaise closely with the Forum on Tax Administration.

## **TASK FORCE ON TAX CRIMES AND OTHER CRIMES**

<b>Chair:</b>	Mr. Keith McCarthy	(United Kingdom)

"1. To improve co-operation between tax and law enforcement agencies including anti-corruption and anti-money laundering authorities to counter crime more effectively by:

- Surveying the arrangements for co-operation and identifying, developing and promoting standards, guidelines and good practices;
- Monitoring and promoting the OECD Recommendation on tax measures to further combat bribery, the Recommendation to facilitate co-operation between tax and other law enforcement authorities (including Financial Intelligence Units) to combat serious crimes and any other recommendations agreed by the CFA related to tax and other crimes;
- Developing, updating and promoting guidance materials such as the OECD Bribery and Money Laundering Awareness handbooks for tax examiners to improve the reporting of suspicions of crimes;
- Contributing to and co-operating with the FATF, the OECD Working Group on Bribery and other relevant areas in OECD and outside of the Organisation to ensure a holistic approach to development, good governance, anti-corruption and other strategic priorities.

2. To improve the ability of tax administrations to identify, audit, investigate and disrupt tax crime and other serious crimes including money laundering and bribery by:

- Sharing experiences, examining specific tax and crime risks, gathering comparative information and developing and disseminating typologies studies;
- Developing appropriate detection and response strategies for tax examiners/auditors and tax criminal investigators;
- Liaising closely with the Forum on Tax Administration so that the outputs of the work are reflected in the operations and processes of tax administrations.

3. To raise global awareness of the links between tax crime and other serious crimes by arranging events on tax and crime, involving also, where appropriate, the business community and other parts of civil society.

4. To cooperate with emerging economies and developing countries through seminars and other events on tax and crime (including corruption and money laundering) and develop related materials designed to meet their needs."

The Republic of Cyprus is recognised by all members of the United Nations with the exception of Turkey. The information on this page relates to the area under the effective control of the Government of the Republic of Cyprus.

## **Mandate**

The COUNCIL,

Having regard to the Convention on the Organisation for Economic and Cooperation Development of 14th December 1960 (hereinafter called "the Convention");

Having regard to the Rules of Procedure of the Organisation;

Having regard to the Financial Regulations of the Organisation;

---

\* The duration of Global Forums is a function of the duration of their parent Committee(s). By default, it would coincide with the duration of the Committee whose mandate expires first and be automatically renewed together with this Committee's mandate. Earlier expiration dates would be possible.

Having regard to the Recommendation of the Council on Counteracting Harmful Tax Competition adopted on 9 April 1998 [C(98)17],

Having regard to the OECD Model Agreement on Exchange of Information on Tax Matters and article 26 of the OECD and UN Model Tax Conventions;

Having regard to the Summary of Outcomes of the Global Forum on Transparency and Exchange of Information for Tax Purposes held in Mexico on 1-2 September 2009;

Having regard to the note by the Secretary-General concerning the establishment of the Global Forum on Transparency and Exchange of Information for Tax Purposes (hereinafter "the Global Forum") as a Part II program of the budget of the Organisation [C(2009)122/FINAL];

DECIDES

The Global Forum is hereby established with the following mandate:

### **Mission**

1. The Global Forum shall ensure a rapid and effective global implementation of the standards of transparency and exchange of information for tax purposes<sup>(1)</sup> through in depth monitoring and peer review.
2. The whole monitoring and peer review process will be an ongoing exercise. Evaluation reports will be published after adoption by the Global Forum. Jurisdictions will be expected to act on any recommendations in the review and to report back to the Global Forum on actions taken.

### **Participation**

3. The Global Forum membership is open to OECD countries (2), G20 countries and other jurisdictions covered by the report "Tax Co-operation 2009: towards a level playing field" (see full list in Appendix). All members will participate on an equal footing.
4. The Global Forum may invite other jurisdictions to participate in its work with the possibility to become members if they commit to implement the standards and accept to be reviewed.
5. The Global Forum may invite relevant international organisations as observers.

### **Governance**

6. The Plenary of the Global Forum is the decision making body of the Global Forum. The Global Forum may adopt its rules of procedure.
7. The Plenary is assisted by:
  - a Steering Group which will prepare and guide the Global Forum future work;
  - a Peer Review Group (PRG) which will develop the methodology and detailed terms of reference for a robust, transparent and accelerated peer review process. The PRG will also carry out such peer reviews;
  - any other body it may deem appropriate to establish.
8. The Plenary shall appoint the Chair and Vice Chairs of the Global Forum, who are also Chair and Vice Chairs of the Steering Group, the Chair and Vice Chairs of the PRG, who are also members of the Steering Group, and the other members of the Steering Group and the Peer Review Group.

9. The Global Forum will operate by consensus. However, as far as peer reviews are concerned, no one jurisdiction can block the adoption or publication of a review. Nevertheless, every effort should be made to arrive at a consensus and the views of the reviewed jurisdiction will be fully noted.

10. The Global Forum will be served by a dedicated self standing secretariat based in the Organisation's Centre for Tax Policy and Administration so as to benefit from the Organisation's experience in this area. Notwithstanding the provisions of Staff regulation 7 b) and the related instruction 107/1, the Secretary-General of the OECD shall be authorised to appoint, as OECD officials, nationals from any member of the Global Forum as long as they are located in the secretariat serving the Global Forum.

### **Budget**

11. The expenditures of the program shall be charged against the appropriations authorised under a Part II chapter of the budget of the Organisation.

12. The budget of the Global Forum shall be financed by its members to the amount agreed between them.

13. The scale of contributions shall be the following:

- a yearly fee of 15,000 euros for each member; such fee will be subject to an automatic annual increase equal to the annual increase in the Global Forum Budget;
- the remaining funding to be allocated in accordance with Annex II of document BC(2009)3(3). In order not to overburden the smallest jurisdictions, only those with a GNP above 35 billion USD will contribute to this part of the budget.

14. In order to allow members to contribute stable amounts to the Global Forum over successive years, appropriations, for which no commitment has been entered into before the end of the financial year for which they were appropriated, shall be automatically carried forward to the budget for the ensuing year by decision of the Secretary General, notwithstanding the provisions of the Financial Regulations of the Organisation.

### **Evaluation**

15. An evaluation exercise of the Global forum will be conducted prior to the end of the mandate period.

### **Duration**

16. The Global Forum is established until 31 December 2012.

17. The Global Forum on Transparency and Exchange of Information presently under direction of the Committee on Fiscal Affairs as part of its external relations activity is abolished as of the date of adoption of the present Decision.

(1) See Tax Cooperation, Towards a Level Playing field, Assessment by the Global Forum on Taxation, page 14, Summary of Part II.

(2) The Commission of the European Community takes part in the work of the Global Forum in accordance with article 13 of the OECD Convention and its Supplementary Protocol No. 1.

(3) Annex II of BC(2009)3 contains the revised 2004 Principles and rules for determining the scales of contributions by Member other than part I of the budget of the Organisation.

<b>Mandate:</b>	Resolution on the mandate of the Committee on Industry and Business Environment [C/M(2006)16, Item 209 and C(2006)132/REV1 and CORR1]	

### Resolution of the Council [C(2006)132/REV1 & CORR1 and C/M(2006)16, item 209]

“1. The overarching objective of the Committee on Industry, Innovation and Entrepreneurship shall be to assist member countries, and as appropriate, non-member countries, in designing, adapting and implementing policies that can foster sustainable productivity growth and competitiveness in the changing context for industry, innovation and entrepreneurship. This changing context is characterised by the globalisation of markets and value chains, rising importance of entrepreneurship, innovation and intellectual assets, increasing reliance of manufacturing on services, and profound changes in the countries’ industrial structures, driven by the activity of multinational firms as well as a vibrant population of SMEs.

2. In the context of the Committee’s overall objective, it will:

- a) Identify policies and regulatory frameworks, which help enterprises meet new challenges, encourage the progress of new industrial sectors and the modernisation of established ones, through:
  - i) The exploration of trends in the evolution of industry structures, including the changing nature of manufacturing and services in a global economy.
  - ii) The assessment of the impact of the globalisation of production across member countries, including the roles and interactions of SMEs and global value chains.
  - iii) The examination of the effects of microeconomic policies such as conditions for entrepreneurship and firm dynamics, human capital and regulatory reform on industrial economic performance.
- b) Promote the prospects for enhanced competitiveness and productivity growth through the fostering of a better understanding of the roles for innovation in firm/industry business plans and strategies.
- c) Foster value creation by accelerating the effective and efficient management of intellectual assets through analysis, exchange of ideas and dissemination of good practices.

3. In particular, the Committee on Industry, Innovation, and Entrepreneurship shall be responsible for analysing and developing policy recommendations, which require co-operation and consultation among member countries, with a view to achieving the above objectives.

4. The scope of the Committee's work will include both macro- and micro-level research and analysis of industry, clusters, sectors and firms encompassing both manufacturing and services, large firms and SMEs at national and global levels and will have the following dimensions:

- a) Economic and industry analysis, theme reviews and discussion forums.
- b) Policy analysis and evaluation to identify good practices that meet adjustment challenges.
- c) Active involvement in and links to the horizontal programmes of the Organisation.
- d) Dissemination of results through publication of studies and special conferences.

5. The Committee shall devote particular efforts to understanding and articulating better the contribution of SMEs to innovation, growth and employment in the new and emerging context for industry and entrepreneurship, and develop recommendations for policy reforms that are needed to address the specific needs of SMEs.

6. In pursuit of the objectives outlined in paragraphs 1 and 2, the Committee on Industry, Innovation and Entrepreneurship shall:

- a) Co-ordinate the work programmes of its subsidiary bodies\* and receive regular reports from them to ensure analysis and policy recommendations are fully integrated and evaluated.
- b) Recognise the central role of innovation as a catalyst for economic development and growth, work closely with the Committee for Scientific and Technological Policy, including providing the CSTP with an industrial and business innovation perspective and receiving from it reports on related studies, in order to allow strategic co-ordination between CIIE and CSTP as they pursue their respective objectives.
- c) Maintain close working relationships with other relevant bodies of the Organisation to complement and support analysis underway, discuss industrial aspects of questions raised and, where appropriate, undertake joint projects.

7. Subject to the Programme of Work and Budget of the Organisation, the Committee on Industry, Innovation and Entrepreneurship will organise ad hoc workshops and business and industry policy forums to explore timely issues with the private sector and to develop policy recommendations. When appropriate, the Committee will also consult with representatives of industry, business, trade unions and public interest groups.

8. Where possible, member countries shall appoint to the Committee on Industry, Innovation and Entrepreneurship high-ranking officials concerned with co-ordination of policies in the fields of industry in their own countries.

9. For the purpose of its activities in the fields of industry, the Organisation shall periodically collect all relevant statistics and other information; in principle, these data will be assembled by the Secretariat and published on the responsibility of the Secretary-General.

---

\* Currently, the Working Party on Industry Analysis (WPIA), the Working Party on Globalisation of Industry (WPGI) and the Working Party on SMEs and Entrepreneurship (WPSMEE).

10. The terms of reference of the Committee on Industry, Innovation and Entrepreneurship will take effect on 1 January 2007 and remain in force until 31 December 2011, unless the Council decides otherwise.”

#### **“Background**

SMEs are the dominant form of business organisation in all countries and create more than half of the jobs in most economies. The majority are foundation firms which provide the every day goods and services on which economies depend. A few SMEs are especially important because they drive innovations in knowledge-based and globalised economies: they play a key role in driving sustainable economic growth and in the creation of skilled jobs and training places for young workers.

In March 1993, the Committee on Industry and Business Environment (then Industry Committee) created the Working Party on SMEs to examine the nature and scale of issues and policies at the national and international levels pertaining to SMEs (including micro-enterprises) and entrepreneurship. In order to complement the work of the parent Committee, which is in charge, *inter alia*, of broader industry policy matters, the WPSMEE focuses on issues and challenges specific to SMEs and entrepreneurs.

At the first OECD Ministerial Conference on SMEs, Ministers, in the *Bologna Charter on SME Policies*, welcomed the work on SMEs by the OECD and encouraged continued multilateral exchange of policy experiences and best practices. In June 2004, at the Istanbul Ministerial Conference, Ministers recognised the important role played by the OECD in fostering the entrepreneurial agenda and SME competitiveness at the global level. They invited the Organisation to consider undertaking a number of activities in pursuit of these goals.

In recognition of the importance given to the OECD work on SMEs and entrepreneurship and of the growing need for an integrated policy approach, the OECD Secretary-General created, in July 2004, the Centre for Entrepreneurship, SMEs and Local Development (CFE). The CFE aims to strengthen horizontal co-operation and synergies within the OECD and to build on the close links between entrepreneurship, SMEs and local development.

### **Objective**

1. Under the general direction of the Committee on Industry, Innovation and Entrepreneurship (CIIE), the Working Party on SMEs and Entrepreneurship (WPSMEE) is responsible for promoting and taking forward OECD work on SMEs and entrepreneurship.

2. In this respect, the WPSMEE provides the information (including policy analysis, evaluation of policies and best practices, and recommendations) needed by member countries to develop policies that foster entrepreneurship, that facilitate sustainable growth, competitiveness, and the creation of skilled jobs, and that finally, help their SMEs to meet the challenge of globalisation.

### **Activities**

3. To meet this objective, the Working Party's core activities include:

- Improving and developing SME and firm-level statistics, as well as entrepreneurship policy and entrepreneurship-related indicators, and making analysis based on those statistics and indicators, in co-operation with other OECD bodies and the appropriate national and international bodies (*e.g.* the European Commission and APEC).
- Undertaking policy analysis and examining the effects of microeconomic policies on SME growth and entrepreneurship and developing policy recommendations in co-operation and consultation with member countries.
- Acting as a clearing house through which member countries can exchange information and experience on SME and entrepreneurship issues, policies and programmes in order to make assessments of these policies and distil best practices. Consistent with the CIIE outreach strategy and where WPSMEE deems appropriate, non-member economies will be invited to participate in these exchanges, including through the OECD Bologna Process on SME and Entrepreneurship Policies.
- Facilitating the development of networks among, and convening fora of, public, private and non-profit organisations and institutions involved in the development of SMEs and entrepreneurship.
- Reporting regularly to WPSMEE members, the CIIE and other relevant bodies on the progress it is making in achieving its objective and on trends and best practices in SME policies.

4. In line with its objectives, the issues covered by the WPSMEE include:

- **SMEs and Innovation:**
  - High-growth SMEs.
  - Innovation in the service sector (including improving customer relations).
  - Intellectual assets and value creation (IAVC).
- **Access to Markets:**
  - Perceived barriers to access to markets.
  - SMEs in global value chains.
  - SMEs and sustainable development.

- **SMEs and Employment**
- Creation of skilled jobs.
- Human resource and management skills.
- **Financing of SMEs**
- SME financing statistics and indicators.
- **Understanding the Entrepreneurial and SME Business Environment:**
- SME taxation.
- Enterprise policy analysis.
- Evaluation of SME & entrepreneurship policies and programmes.
- Entrepreneurship policy indicators.
- Entrepreneurship education: youth and higher education.
- Promotion of entrepreneurship.
- SME-related statistics.
- Partnerships, networks and clusters.
- Women's entrepreneurship.
- Utilisation of information and communication technologies (ICT), including electronic commerce.

5. The issues being worked on by the WPSMEE at any point in time will have been selected on the basis of the ranking described in its current programme of work. The WPSMEE will continue to work horizontally, where relevant, with OECD committees other than the CIIE and their subsidiary bodies and will ensure that work on SMEs and entrepreneurship is well-integrated and consistent with the work carried out within the OECD. The WPSMEE develops, for member countries, and when appropriate non-member economies, information and advice on SMEs and entrepreneurship and best practice examples of measures and policies for dealing with them.

6. To ensure efficiency and effectiveness in carrying out its activities, the WPSMEE will hold, as appropriate, joint bureau meetings, back-to-back meetings and/or joint seminars and similar events aimed at taking forward issues of mutual interest with the CIIE and its Working Parties as well as with other concerned bodies.

7. The WPSMEE co-operates with international institutions, regional economic bodies, the business community and the financial community, as necessary in order to pursue issues of interest to the WPSMEE.

8. The WPSMEE meets twice a year and at least once at the OECD Headquarters. A second meeting is generally hosted by a member country (or a non-member economy participating actively in the OECD Bologna Process on SME and Entrepreneurship Policies), thereby providing delegates with the opportunity to take a closer look at the host country's SME policies and to meet with local entrepreneurs.

9. The mandate of the Working Party on SMEs and Entrepreneurship (WPSMEE) shall expire on 31 December 2011. The WPSMEE or its parent Committee will review, and may decide to propose a revision of these terms of reference after a two-year period."

- “1. Under the general direction of the CIIE (Committee on Industry, Innovation and Entrepreneurship), the Working Party on Industry Analysis (WPIA) is responsible for developing indicators and quantitative analyses in the area of industrial performance.
2. More specifically, the Working Party will:
  - a) Contribute to the work of the CIIE by developing policy-oriented, quantitative analyses addressing:
    - The changing determinants of growth, productivity and industrial performance in knowledge-based firms and in industry at large; including the role of technological and non-technological innovation, intellectual property rights, the diffusion of new technology, sector specificities (notably in the services), human capital, and entrepreneurship.
    - The changing character of production and capital formation in the business sector as value chains become progressively globalised.
  - b) Facilitate the development and improvement of internationally comparable methodologies and the timely availability of statistical series and indicators to monitor structural change and to assess economic performance and policy outcomes.
  - c) Act as a forum for co-operative policy-oriented research with micro (firm-level) data, focusing on a better understanding of the links between business performance and its drivers, including innovation, entrepreneurship, human capital and organisational change.
3. The Working Party will seek to ensure synergies between its work and the statistical and

"[...]

1. Globalisation has been the major economic and political theme of the past three decades. The liberalisation of capital movements, the further opening of markets to trade and investment and the pivotal role played by the diffusion of information and communication technologies, have changed the framework economic conditions, increased the economic and financial interdependence of countries and facilitated the emergence of new actors in the global economy.
2. The OECD has a central role to play in the present phase of globalisation, by analysing all aspects of this process and proposing structural adjustment policies. In many respects, globalisation could be seen mainly as a microeconomic phenomenon, the mission of the OECD Working Party on Globalisation of Industry is to analyse the new strategies and behavior of firms in order to help governments adopt the appropriate reforms and maximise the benefits for globalisation.
3. Under the general direction of the CIIE (Committee on Industry, Innovation and Entrepreneurship), the Working Party on Globalisation of Industry (WPGI) is responsible for analysing the impact of the globalisation of industry in the economy of member countries through policy-oriented economic analyses and using international statistical surveys. Its objective is to contribute to the CIIE's policy discussions and to help the Committee respond to the numerous demands involving globalisation from both within and outside the OECD.
4. The Working Party on Globalisation of Industry shall assist the CIIE by developing policy-oriented quantitative analysis concerning the projects inscribed in its programme of work. More specifically, the Working Party shall:
  - a) On an analytical level:

---

\* Created in 1992. Formerly known as the "Special Session on Globalisation" of the Working Party on Statistics (SWIC).

- Measure the various forms of the globalisation of industry and their implications for the competitiveness and performance of enterprises.
  - Analyse trends for different forms of international diffusion of technology and measure the effects on the innovation potential of the countries involved.
  - In the framework of the global value chain, evaluate the impact of business operations on growth, productivity, employment, trade performance and the need for structural reforms.
  - In co-operation with the Working Party on SMEs and Entrepreneurship, measure and analyse the factors that influence smaller firms and suppliers to become part of global value chains, as well as identify the barriers they face in participating in these chains.
  - Analyse the impact of emerging economies on the industrial activity and performance of the OECD member countries.
  - In co-operation with relevant bodies, prepare the biennial publication of *OECD Economic Globalisation Indicators*.
  - Contribute to the publication of the *OECD Science, Technology and Industry Scoreboard*.
- b) On a methodological level, and in respect of database management:
- Collect and disseminate basic data and indicators from the member countries:
    - On the activity of multinational firms (affiliates under foreign control in host countries, parent companies and affiliates abroad controlled by compiling countries) in manufacturing and in services.
    - On technology receipts and payments (technology balance of payments), in order to measure technology transfers and assess the role of intellectual property in international transactions.
    - The Working Party will co-operate with WGIIIS (Working Group on International Investment Statistics) and contribute to the work on reconciliation of the statistics on the activities of multinational enterprises with FDI statistics, with a view to establish the basis for a sound analysis of the global economy, as defined by the research agenda of the *OECD Benchmark Definition of Foreign Direct Investment*.
  - Enhance the quality of the data and indicators collected and invite the member countries to adhere to the guidelines proposed in the *OECD Handbook on Economic Globalisation Indicators*; in addition, consider revising the *Handbook*, exploring topics that could not be included in the first edition.
  - Act as a forum to discuss conceptual and data collection issues related to global value chains.

5. The Working Party shall pursue co-operative efforts in its areas of expertise with other OECD bodies (particularly the CSTP and the Investment Committee) and with the main international organisations concerned (WTO, UNCTAD, World Bank, IMF).

6. Taking account of the CIIE's outreach strategy, and to do a better job of evaluating the roles in the world economy of the main OECD non-members, the Working Party shall forge contacts with non-member economies that play substantial roles in globalisation, inviting them, for example, to compile data in accordance with the definitions of the *OECD Handbook on Economic Globalisation Indicators*. Contacts will also be pursued with the business community.

7. To promote consistency with the CIIE framework and to ensure efficiency and effectiveness in carrying out its activities, the Working Party will provide regular reports to the CIIE on the progress it is making in achieving its objectives, and will hold, as appropriate, joint bureau meetings,

back-to-back meetings, and/or joint seminars and similar events aimed at taking forward issues of mutual interest with the CIE and its other Working Parties, as well as with other concerned OECD bodies.

8. The terms of reference of the Working Party on Globalisation of Industry shall expire on 31 December 2011.”

Resolution of the Council [C(2009)191 and C/M(2009)23, Item 311]

“THE COUNCIL,

Having regard to the Convention on the Organisation for Economic Co-operation and Development of 14 December 1960;

Having regard to the Rules of Procedure of the Organisation;

Having regard to the previous mandate of the CSTP, as set out in C(2004)120;

Having regard to the recommendations of the In-depth Evaluation of the Committee for Scientific and Technological Policy [C(2006)61];

Having regard to the proposed revision of the mandate of the Committee for Scientific and Technological Policy [C(2009)191];

Considering that science, technology and innovation policy need to be increasingly integrated with one another and with other aspects of government policy to deliver on economic and social welfare as well as growth;

Recognising that international co-operation in science, technology and innovation among Members and non-members needs further to be facilitated in order to meet major social and global challenges;

DECIDES:

A. The Committee for Scientific and Technological Policy has the following mandate:

**I. Objectives**

1. The Committee for Scientific and Technological Policy shall be responsible for encouraging co-operation among Members and, as appropriate, with non-members, in the field of science, technology and innovation policy, with a view to contributing to the achievement of economic, social and scientific aims, including growth and the creation of skilled jobs, sustainable development, improved well-being of their citizens and advancing the frontiers of knowledge. It shall pay particular attention to the integration of science, technology and innovation policy with other aspects of government policy, which is of increasing importance in the development of increasingly globalised knowledge economies.

2. The Committee for Scientific and Technological Policy shall, more particularly, be responsible for:

- a) Improving, through analytical work and the development of relevant internationally comparable indicators, the understanding of the process through which science, technology and innovation contribute to increased knowledge, productivity growth, economic performance, skilled job creation, sustainable development and social well-being.
- b) Promoting the exchange of information and discussion among Members on the objectives, instruments and financing of national, regional and global science, technology and innovation policy, in order to facilitate international comparison, to develop evaluation models and to identify relevant best policy practices, particularly as relates to the production, dissemination and exchange of knowledge and the strengthening of links between research, higher education and industry, including in the fields of human resource development, innovation policy, mobility and research infrastructure.
- c) Promoting the exchange of information and discussion among Members on policies designed to maintain a strong and creative base of scientific research endowed with adequate tangible and intangible infrastructure.
- d) Improving the understanding of Members both of foreseeable developments and impact of technologies, including emerging and/or converging technologies, and their likely national as well as international economic, social and environmental consequences, and the impact of globalisation on their national and regional research and innovation systems.
- e) Promoting the exchange of information and discussion among Members on measures to promote public understanding of science and technology, to make

science and technology studies and training more attractive; and to strengthen, within each Member country and on the broader level, dialogue and interaction with science, industry, higher education and civil society in formulating and implementing science, technology and innovation policies.

- f) Identifying policies and regulatory frameworks which facilitate international co-operation in science, technology and innovation to address global challenges as well as, as appropriate, co-ordination among Members, and among Members and non-members on the development of research objectives and priorities, funding and spending mechanisms, institutional and access arrangements and enhanced transfer and dissemination opportunities.
- g) Facilitating international co-operation in science, technology and innovation, as well as, as appropriate, policy co-ordination among Members, and among Members and non-members on the development of research, access to scientific information and the international mobility of researchers.
- h) Facilitating the efforts of the Members to strengthen the scientific, technological and innovative capabilities of developing countries.

## **II. Co-ordination arrangements**

3. In the pursuit of these objectives, the Committee for Scientific and Technological Policy shall determine the strategic orientations of its subsidiary bodies, and receive regular reports from them to ensure their co-ordination, policy integration and evaluation. It shall maintain close working relationships with other relevant bodies of the Organisation working on issues that affect the design and implementation of science, technology and innovation policies, in particular, overarching horizontal activities such as green growth. The Committee shall strengthen its co-operation with other international and regional organisations active in this policy field. It may consult with non-governmental bodies as and when necessary.

B. The mandate of the Committee on Scientific and Technological Policy shall remain in force until 31 December 2014.”

**“MANDATE OF THE WORKING PARTY OF NATIONAL EXPERTS ON SCIENCE AND TECHNOLOGY INDICATORS**

1. The Working Party will monitor, supervise, direct and co-ordinate statistical work and contribute to the development of indicators and quantitative analyses needed to meet the requirements and priorities of the Committee for Scientific and Technological Policy (CSTP). In particular, the Working Party will:

- i) Ensure the continued improvement of the methodologies for the collection of internationally comparable data for measuring the input, output, diffusion and impact of science, technology and innovation (including linkages to economic growth) as laid down in the series of manuals produced by the Working Party; encourage the use of these methodologies in member countries and non-member economies. This includes developing and maintaining manuals and standards for measurement in the areas of research and development, human resources, innovation, patents, globalisation and other science, technology and innovation related matters.

- ii) Ensure the timely availability of internationally comparable science, technology and innovation (STI) data and their analysis, as well as the further development of data collection and dissemination systems for other STI and knowledge indicators.
  - iii) Assist in developing and interpreting statistical indicators which aid formulation and evaluation of science and technology policies. This work should be undertaken in the light of policy priorities expressed by the CSTP, its subsidiary bodies and by member countries.
  - iv) As required, pursue any other work needed to assist the CSTP or its subsidiary bodies in the development of quantitative analyses of STI-related issues such as human capital and innovation, the international mobility of researchers, internationalisation of research efforts, steering and funding of research, evaluation and impact assessment of STI policies, and more generally the contribution of science, technology and innovation to economic growth.
2. The Working Party will promote efficient use of resources by seeking opportunities to work in collaboration with other groups with similar interests, both within the OECD and in other competent international fora. The Working Party will also provide technical expertise to other organisations (within and outside of the OECD) on science, technology and innovation indicators.
3. The Working Party will co-operate, in particular, with other OECD statistical subgroups and working parties in dealing with broader statistical issues connecting industrial, science and technology, information technology, and human resources activities, and will co-ordinate the development of a coherent set of science, technology and innovation indicators across the various areas.
4. Finally, the Working Party will act as a clearing house via which member countries and non-member economies can exchange information and experience on methods of collection, compilation, analysis and presentation of data which they use as science and technology indicators.
5. The Terms of Reference of the Working Party of National Experts on Science and Technology Indicators shall remain in force until 31 December 2014, unless the CSTP decides otherwise.”

### **“MANDATE OF THE WORKING PARTY ON BIOTECHNOLOGY**

1. The Working Party will advise upon emerging policy-relevant issues of science, technology, research and innovation related to biotechnology including, as appropriate, their social, ethical and economic implications. It will assist Member countries in understanding and managing the changing nature of research, development and innovation in the bio-related sciences due to trends such as globalisation, technology convergence, digitisation, increased complexity and systems approaches. The WPB will take into account the global context of R&D in biotechnology, including issues such as the progression of climatic and environmental changes and the globalisation of human activities.
2. The work of the Working Party will aim to promote research and research co-operation and to encourage the development, application and diffusion of innovative products, technologies, infrastructure and services which will contribute to sustainable economic growth and development, environmental sustainability and human welfare. The Working Party will advise on how research and innovation in the biosciences can contribute to addressing global challenges such as environmental protection; climate change; food, water and energy supply and security; and animal and human health globally.
3. This could be achieved by:
  - a) Identifying opportunities and impediments for realising the economic, environmental, health and social benefits of biotechnology;

- b) Conducting policy analyses, comparisons and exchanges on policy developments related to biotechnology among Member countries and non-member economies;
- c) Facilitating scientific and technological co-operation, intellectual and physical infrastructure development, capacity-building and exchange of knowledge and human resources;
- d) Facilitating the integration of different scientific and technological disciplines;
- e) Encouraging the international understanding and harmonisation and/or use of evidence-based policies, regulations, principles and concepts;
- f) Encouraging an appropriate environment for research, science and innovation, which allows networking; promoting knowledge networks and markets; technology transfer; intellectual property protection and licensing; and commercialisation of products and services related to biotechnology;
- g) Engaging with society by promoting education and public understanding of basic technological principles, opportunities, benefits, ethical issues, and putative risks associated with advances in biotechnology;
- h) Informing and assisting the work of policy makers and, where appropriate, other stakeholders in Member countries and non-member economies;
- i) Promoting the supply of biotechnology-related public goods and services, such as health and adequate food supplies.

4. The Working Party will report to the Committee for Scientific and Technological Policy (CSTP), and will keep other Committees or their subsidiary bodies informed on the progress of work relating to their interests. It will also seek to work co-operatively with such bodies, where deemed mutually beneficial. The Internal Co-ordination Group for Biotechnology will also be consulted and informed about the work of the Working Party, with a view to the avoidance of duplication and the promotion of synergy and joint activities, where appropriate. Communication and co-operation should also extend, where relevant, to other international organisations.

5. When and where appropriate, and having identified suitable activities, the Working Party shall seek through various forms of outreach activities to make known and extend the influence and impact of OECD work on biotechnology beyond Member countries, and so far as practicable take this wider context into account in the preparation and execution of its work.

6. In pursuance of its aims, the Working Party will endeavour to set strategic future directions for successive Programmes of Work from which to set clear, defined and costed objectives for work in which OECD activity adds value.

7. The mandate shall run from 1 January 2010 to 31 December 2014, subject to modification by decision of the CSTP; with a mid-term review to assess the value, impact and effectiveness of the work of the Working Party."

#### **"MANDATE OF THE TASK FORCE ON INDUSTRIAL BIOTECHNOLOGY**

The Task Force on Industrial Biotechnology (TFIB) will advise the Working Party on Biotechnology (WPB) on eco-innovation and on opportunities for sustainable economic growth within the context of a developing bioeconomy.

It will advise on policy issues related to industrial biotechnology, including: science and technology, including their adoption; provision of supportive environments for efficient delivery of innovation and access to such innovation; policy responses to novel developments in science and technology, including convergence with other technologies; and the impact of such developments on policy, as well as the sustainability and eco-efficiency of industry.

In so doing, the TFIB will:

- i. Collect data and conduct analysis, addressing the above points.
- ii. Develop recommendations for policy, including, as appropriate, common approaches, best practices, principles and other instruments.
- iii. Determine priorities and contribute to development of statistics indicators and analysis of trends for the bioeconomy.

- iv. Involve (through Council-approved procedures) non-member countries and other international organisations in relevant aspects of their activities.

The group will report to the Working Party on Biotechnology (WPB) and will keep other Committees or their subsidiary bodies informed on the progress of work relating to their interests. It will seek to work co-operatively with such bodies, where deemed mutually beneficial. The Internal Co ordination Group for Biotechnology will be consulted and informed about the work of the group.

The mandate of the Task Force on Industrial Biotechnology will run from 14 February 2008 to 31 December 2010, subject to modification by the Working Party on Biotechnology (WPB). A mid-term review of progress and the effectiveness of the Task Force's programme of work will be carried out by the WPB."

Mandate of the Global Science Forum

“The OECD Global Science Forum is a venue for consultations among senior science policy officials of the OECD Member countries, leading to findings and recommendations for action on high-priority science policy issues that require international consultations and/or co-operation, and, whenever possible, identifying opportunities for collaboration on major scientific undertakings. The OECD Global Science Forum shall build on its accomplishments and procedures since 1999, and on those of the Megascience Forum from 1992 to 1998, with flexible working mechanisms and a scope that includes issues at the intersection of science and other public policy domains. Substantive work will be performed by representatives of governments and invited experts, with the OECD Secretariat playing a facilitating and co-ordinating role.

Through its deliberations and activities, the OECD Global Science Forum shall assist Members in the formulation and implementation of their science policies by:

- Exploring opportunities for new or enhanced international co-operation in selected scientific areas.
- Defining international frameworks for vital national or regional science policy decisions.
- Addressing the scientific dimensions of issues of global concern.

The Forum’s principal customers will be the government science policy officials who will bring issues forward for consultation. The Forum shall regularly report to the Committee on the progress of its work, its findings, and new topics and activities that are being considered for incorporation into its work programme. At the request of the Committee, it may undertake work on specific issues, for example, reviews and analyses of current policies, practices and emerging challenges. It shall maintain close working relationships with relevant bodies of the OECD and other international organisations. The OECD Global Science Forum shall define its operating procedures as needed. To ensure that the Forum’s work attracts the broad support of delegations, and complements that of the Committee, the following criteria should be met before any new activity is undertaken:

- Specificity -- A specific challenge, problem, opportunity or programme area must be identified -- one that concerns international scientific co-operation, and requires a structured international consultation with the involvement of governmental officials.
- Relevance -- There must exist significant near- or mid-term decisions and actions by governments that would be facilitated by the activity.
- Workload -- A fixed time interval, as well as the type of activity should be specified (workshop, working group, study, structured discussion by the Forum, etc.). The resources required from the OECD Secretariat and the Member delegations should be described.
- Commitment -- There must be a high level of interest among Member countries, including broad geographic representation among the OECD membership. One or more lead countries must be willing to provide the needed leadership and resources. There must be a prospect for participation by the appropriate governmental representatives, and scientific experts.
- Inclusiveness -- Potential involvement of non-OECD countries, international bodies, and other OECD committees must be considered to maximise opportunities for productive interactions, and to avoid unnecessary duplication of effort.

The Mandate of the OECD Global Science Forum shall remain in force until 31 January 2014, subject to the renewal of the mandate of the Committee by the Council, unless the Committee decides otherwise. An evaluation exercise will be conducted prior to the end of the mandate period.”

### **“MANDATE OF THE WORKING PARTY ON INNOVATION AND TECHNOLOGY POLICY**

1. Taking into account the priorities established by the Committee for Scientific and Technological Policy (CSTP), the Working Party on Innovation and Technology Policy (TIP) will advise upon innovation and technology policies that enhance productivity; facilitate the creation, diffusion and application of knowledge for both societal and economic goals; and foster sustainable growth and the creation of highly skilled employment and new firm creation.
2. In particular, the Working Party will:
  - a) Promote the exchange of information on new developments in the design, implementation and evaluation of innovation and technology policies, the management of science-innovation interfaces and the functioning of formal and informal markets for knowledge exchange to inform development and implementation of innovation policy and promote effective governance of national innovation systems.
  - b) Review specific policies and the mixes of policies put in place to foster the effective, efficient and complementary use of public and private resources devoted to innovation, notably through the strengthening of industry-science linkages, and identify new models and good practices in this area.

- c) Assess the implications of increased globalisation of scientific, technological and economic activities, in particular those related to R&D, innovation and intellectual assets on innovation performance and national policies.
- d) Consider ways of encouraging international co-operation in the analysis, formulation and implementation of innovation policy, including between member and non-member economies and other international organisations, such as by contributing to the reviews of science, technology and innovation policy that may be entrusted to the Secretariat by member countries or regular observers to the CSTP.

3. In developing its activities, the Working Party will:

- a) Draw upon and, in the light of globalisation, extend the National Innovation Systems framework it has contributed to develop.
- b) Ensure an adequate balance between sectoral and economy-wide approaches to innovation and consider the regional (infra- or supra-national) aspects of innovation policy, including multilateral governance issues.
- c) Make use of a range of methodologies in its policy assessment work, including surveys, case studies, workshops, policy round-tables, peer reviews and qualitative and quantitative analysis.
- d) Identify new requirements for policy-relevant indicators.
- e) Explore new approaches to innovation and technology policy and the need for improving multilateral instruments.

4. The Working Party will undertake its work in close co-operation with other relevant bodies of the Organisation and other international organisations as well as societal stakeholders in order to increase the benefits of their respective activities and to avoid duplication of effort. The Working Party should also strive to use the most effective information technology tools to carry out its work.

5. The Working Party will regularly report to the Committee for Scientific and Technological Policy and keep close relationships with other subsidiary bodies of that Committee, as well as with other bodies of the Organisation whose activities may address innovation and technology policy issues.

The terms of reference of the Working Party on Innovation and Technology Policy shall remain in force until 31 December 2014 unless the CSTP decides otherwise."

### **“MANDATE OF THE WORKING PARTY ON RESEARCH INSTITUTIONS AND HUMAN RESOURCES (RIHR)**

1. The main objectives of the Working Party will be to exchange information on and to review the main institutional, regulatory, and management issues facing governments as they strive to strengthen the knowledge base for innovation and the research capabilities of their public research institutions (i.e. public research laboratories, universities and other higher education institutions involved in research) to contribute to sustainable economic growth and social well-being, and to secure the public benefits that flow from research and human capital. Specific issues to be addressed include:

- a) the evolving transformation and patterns of governing and financing research institutions, and universities, including issues related to their strategies and priority selection, public or private ownership and the use of policy instruments to enhance desired outcomes of the science systems, institutions or grant schemes as well as the emergence of new types of “semi-public” research performing institutions;
- b) policies and best practices for evaluation and the use of evaluations in steering and funding of public research institutions and universities to monitor and improve their performance in the context of the research and innovation system (including industry);

- c) enhancing the skills base for research and innovation (such as skills for service industries and non-technological innovation, re-training), and fostering linkages and knowledge exchange within the research and innovation system (including collaboration and the internationalisation of research); and
- d) the analysis of specific issues related to human resources for science and technology (HRST), such as career paths, policies to support their development including financial support, mobility and recruitment strategies across sectors, institutions and borders – especially international mobility - as well as to contribute to the improvement of HRST data.

2. The Working Party will implement its activities through the provision and exchange of information on member countries' and non-member economies' practices and policy initiatives with a view to identifying good practices and possible reforms.

3. The Working Party will undertake its work in close co-operation with other relevant Working Parties of CSTP (TIP, Global Science Forum, NESTI) and other OECD areas (e.g. Education and Migration) in order to increase the benefits to their respective activities and to avoid duplication of effort. It will also liaise with other relevant international organisations (e.g. UNESCO, European Commission) as appropriate.

4. The Working Party will report regularly to the CSTP so that the value, impact and effectiveness of its work can be reviewed and assessed. The terms of reference of the Working Party on Research Institutions and Human Resources shall remain in force until 31 December 2014, unless the CSTP decides otherwise.”

- “1. The Working Party on Nanotechnology is a subsidiary body of the Committee for Scientific and Technological Policy. For the purposes of this document, the term “nanotechnology” encompasses nanoscale science, engineering, and technology. Moreover, it refers to the use of nanotechnology in various applications and sectors. The Working Party has the following terms of reference:
2. The Working Party will advise upon emerging policy issues of science, technology and innovation related to the responsible development of nanotechnology. It will elaborate and implement a programme of work, with the aim of promoting international co-operation that facilitates research, development, and responsible commercialisation of nanotechnology in member countries and certain non-member economies.
3. Its work will focus on the following areas:
  - Identifying opportunities and impediments for realising the economic, environmental and social benefits of nanotechnology;
  - Fostering science, research and capacity building in support of advanced nanoscience and nanotechnology research and development;
  - Encouraging an appropriate environment for commercialisation, technology transfer and innovation related to nanotechnology;

- Fostering approaches to formal and informal education related to nanoscience and nanotechnology;
  - Facilitating the development of internationally comparable statistics and indicators that can track research, development and commercialisation of nanotechnology;
  - Assessing and taking account of public perceptions related to advances in nanotechnology and its convergence with other technologies, taking account of legal, social and ethical issues;
  - Assessing methods for communication with the public related to advances in nanotechnology and its convergence with other technologies;
  - Fostering a collaborative exchange on policy developments related to nanotechnology among member countries and certain non-member economies.
4. The Working Party will advise the CSTP on priorities among the above issues which need to be addressed in the short, medium and long term within the context of the CSTP Programme of Work.
  5. In carrying out the work, the Working Party will take a proactive approach in regard to co-operation and will recommend the best means of undertaking the various projects, for example, through a lead country approach or through small task groups or workshops. Where appropriate, the Working Party may also refer issues to other CSTP bodies for their views.
  6. The Working Party will report to the Committee for Scientific and Technological Policy (CSTP), and will keep other Committees or their subsidiary bodies informed on the progress of work relating to their interests. It will also seek to work co-operatively with such bodies, notably the Working Party on Manufactured Nanomaterials of the Chemicals Committee, where such work is deemed mutually beneficial and complementary. Working Parties may seek inputs from one another and/or take forward work falling within their respective terms of reference that originate in the other body. The OECD's Internal Co-ordination Group for Biotechnology will be consulted and informed about the activities of the Working Party, with a view to avoiding duplication and in order to promote synergy and joint activities.
  7. The Working Party will co-ordinate its work with that of other relevant intergovernmental organisations (*e.g.* UNESCO) and standardisation organisations (*e.g.* ISO), with the aim of avoiding duplication and ensuring complementarity with their activities. It will recognise and take cognisance of the important role and work of non-governmental organisations in this area.
  8. When and where appropriate, and having identified appropriate activities, the Working Party shall seek through various forms of outreach activities to make known and extend the influence and impact of OECD work on nanotechnology beyond member countries, and in so far as practicable take this wider context into account in the preparation and execution of its work.
  9. The Working Party values openness and transparency in its activities. Accordingly, the participation of stakeholders will be decided by the Working Party, in line with the policy of the CSTP.
  10. The Working Party will elect a Chair and Vice-Chairs for a period of one year.
- The terms of reference of the Working Party on Nanotechnology shall remain in force until 31 December 2014 unless the CSTP decides otherwise."

**“MANDATE OF THE STEERING GROUP ON GOVERNANCE OF INTERNATIONAL  
CO-OPERATION ON SCIENCE, TECHNOLOGY AND INNOVATION FOR GLOBAL  
CHALLENGES**

The Steering Group will provide, on behalf of the Committee and under its authority, leadership, oversight on and steering of the CSTP project on *Governance of International Co-operation on Science, Technology and Innovation for Global Challenges*, which is one of the priority projects for the CSTP in 2010 and throughout the 2011-12 PWB.

The project feeds into the Expected Outcomes of Output Area 1.3.2, with respect to “Increased international co-operation in science and technology to address global challenges, and implementation of policies that will enable countries to draw greater benefits from the globalisation of science and technology”.

The envisaged outputs from this project will take the form of the following output categories:

- Analytical/Outlook Reports
- Good Practice Reports, Benchmarking Studies
- Policy recommendations,
- Guidelines, Declarations (Soft Law)

The Steering Group will:

- Act as the interlocutor with the CSTP and take, on behalf of CSTP, key project management decisions to ensure the alignment of the orientation and the substantive work undertaken by the project with the Committee's priorities and with the dynamics of

policy developments in Members and key non-Members, in particular as they relate to enhancing the contribution of S&T and innovation to address key global challenges through multilateral co-operation; and

- Take responsibility for the formulation of draft Principles and for overseeing the preparation of other final deliverables of the project and ensuring these deliverables will be produced in the most appropriate format and in a timely manner to meet the needs of the OECD and the broader international community to deliver on the agenda to address global challenges through international co-operation in STI.
- Report to the CSTP as appropriate.

#### Expected Outcomes

- Enhanced management oversight over a priority project of the CSTP, while reducing the time required for detailed discussion and for decision making by the whole CSTP Committee during its regular meetings.
- Enhanced co-operation between Members and non-Members by creating a platform for them to collaborate on a project for which the engagement of key non-Members is crucial to success.
- Assurance of strong leadership and co-ordination across the political, policy-making and intellectual levels in the drafting and negotiation processes of the Principles/instruments that the project aims to deliver.

#### Working method and timing

- To the extent possible, the Steering Group will rely on virtual communication and work methods, i.e. e-mail and Internet. However, the Steering Group can in principle be expected to have one physical meeting a year. The Steering Group may also decide to meet on other occasions, as appropriate and necessary.
- The Steering Group will be mindful of relevant work undertaken within the OECD and in other relevant intergovernmental organisations (e.g. UN, EU, etc.) to avoid unnecessary overlap and duplication. It will recognise and take cognisance of the important role and work of non-governmental and private sector organisations in this area.
- The mandate of the Steering Group will take effect from its creation until 31 December 2012, when it will cease to exist.

#### Participants

- Participation in the Steering Group is open to all Members and is voluntary. Countries are asked to nominate their delegates to join the Steering Group. In certain cases, current delegates to the CSTP may be appropriate, in other cases countries may want to nominate delegates who have expertise or responsibilities related to the core issues of multilateral co-operation in STI to address global challenges. Experts involved in the analytical work will be invited to attend the Steering Group meetings in accordance with the OECD legal framework.
- The Steering Group, following the applicable OECD legal framework, will be open to participation by other stakeholders and it is recommended, consistent with the OECD Global Relations Strategy, that the Steering Group invite representatives from non-Members with special attention to the five Enhanced Engagement and other G20 countries.”

Resolution of the Council [C(2008)209]

“THE COUNCIL,

Having regard to Articles 1 and 2 of the Convention of the Organisation for Economic Co-operation and Development of 14th December 1960;

Having regard to the Rules of Procedure of the Organisation;

Having regard to the Resolution of the Council of 10<sup>th</sup> March 2005 concerning the Terms of Reference of the Committee for Information, Computer and Communications Policy [C(2005)26; C/M(2005)6];

Having regard to the proposed revision of the mandate of the Committee for Information, Computer and Communications Policy [C(2008)209];

Having regard to the role of the Internet Economy in stimulating global sustainable economic growth and prosperity and to the ever-increasing need for a consultative mechanism within the OECD whereby information, computer and communications policy problems of a national and international nature can be examined by Member countries, in co-operation with non-Members,

international organisations and non-governmental stakeholders, as appropriate, and reported to the Council;

Having regard to the 2008 Seoul Ministerial Declaration for the Future of the Internet Economy [SG(2008)99/FINAL] and to the OECD Report on Shaping Policies for the Future of the Internet Economy which was welcomed by Ministers, and to the leading role to be played by the Committee for Information, Computer and Communications Policy in the follow up to the Seoul Ministerial meeting;

DECIDES:

The Committee for Information, Computer and Communications Policy has the following mandate:

1. The Committee for Information, Computer and Communications Policy shall be responsible for promoting the policy and regulatory environments needed for the expansion of the Internet and information and communications technologies (ICTs) as a driver of innovation, productivity, growth, sustainable development, and social well-being. It will also be responsible for strengthening co-operation in this field between the Member countries and, as appropriate, between Member countries and non-Members.
2. The Committee shall, in particular, examine policy issues arising from the development and increasing use of the Internet and ICTs, and develop policies to:
  - a) Support innovation, investment, and competition in ICTs and related areas across the economy and society, and encourage creativity in the development and use of the Internet and ICT goods and services as a leading area of innovation;
  - b) Facilitate convergence of digital networks, devices, applications and services, and promote ubiquitous access to ICT networks and services, calling the attention of Member governments to the major implications of such developments;
  - c) Contribute to strengthening the resilience and security of information systems and networks as well as the protection of privacy to enhance trust in the use of Internet and ICT goods and services;
  - d) Foster co-operation among Member countries and facilitate the development, and, as appropriate, the co-ordination of their policies at the national and international levels;
  - e) Promote exchange of experience among Member countries in the information, computer and communication policy areas, including the development of indicators to measure the information society.
3. The Committee shall determine the strategic orientations of its subsidiary bodies, and receive regular reports from them to ensure the co-ordination of their activities in furthering these orientations.
4. The Committee shall maintain close working relationships with other relevant bodies within the OECD to ensure complementarity of efforts and effective use of resources. In the conduct of its work, the Committee will also, as appropriate, draw on the views and expertise of non-Members, international organisations and non-governmental stakeholders, and work with business, trade unions, civil society, and the Internet technical community within a framework of co-operation that promotes mutual understanding and participation.
5. The mandate of the Committee for Information, Computer and Communications Policy shall remain in force until 31 December 2013."

### **Working Party on Indicators for the Information Society (WPIIS)**

#### **Terms of Reference**

"The mandate of the Working Party on Indicators for the Information Society (WPIIS) shall be:

1. The Working Party will monitor, supervise, direct and co-ordinate the statistical work and contribute to the development of indicators and quantitative analyses needed to meet the requirements of the Committee for Information, Computer and Communications Policy and its subsidiary bodies. More specifically, the Working Party will:

- i) Ensure the continued improvement of the methodology for the collection of internationally comparable data for measuring the supply and demand for, and impacts of, information and communication technologies (ICTs). This will include developing and maintaining standards for measurement of the ICT sector, ICT goods and services, electronic business including electronic commerce, IT security, digital content and Internet access and use by citizens, businesses and institutions.
- ii) Compile ICT statistics according to the standards described in the preceding paragraph and assist in developing and interpreting statistical indicators which aid formulation of ICT and related policies, and monitoring progress. This work should be undertaken in the light of policy priorities expressed by the ICCP Committee and by member countries.
- iii) Undertake the evaluation of the impact of ICTs on economic performance, notably on growth, productivity and innovation, and social well-being, particularly through improved access to education, health and government services.

2. The Working Party will, when required, assist the other subsidiary bodies of the ICCP Committee in the development of analytical and quantitative analyses on ICT-related issues such as the impact of ICTs on productivity and jobs, effectiveness of policy measures such as regulatory reform, obstacles to diffusion and use of ICTs, and IT security and privacy.

3. The Working Party will promote efficient use of resources by seeking opportunities to work in co-operation with other relevant bodies within and outside the OECD, including non-member economies, other international organisations and non-governmental stakeholders, thus effectively sharing the knowledge of the group with a wider audience.

4. The Working Party will co-operate, in particular, with other OECD statistical sub-groups and working parties in dealing with broader statistical issues connecting industrial, science and technology activities.

5. The Working Party will act as a clearing house through which member and non-member economies can exchange information and experience on methods of collection, compilation, analysis and presentation of data which they use as indicators for the information society.

The mandate of the Working Party on Indicators for the Information Society shall remain in force until 31 December 2013, unless the ICCP Committee decides otherwise.”

Considering the economic and social importance of a broad-based consumer policy in Member countries and the latter's close relationship with general economic and trade policies;

Considering the need to minimise economic costs to consumers and to facilitate the integration of consumer policy considerations into economic and other policy areas;

Considering the need to improve the functioning of markets, encourage the development of a global marketplace for consumers, including through the use of new electronic media, and to provide effective protection to consumers;

Considering the importance of collaborating with other relevant subsidiary bodies of the OECD;

Considering that the implementation of such a policy would be encouraged by exchanges of information and experience, discussions, and law enforcement and policy co-operation between Member countries, as well as co-operation with other international organisations and non-Members;

DECIDES:

I. Mandate

The mandate of the Committee on Consumer Policy is:

1. To examine questions relating to consumer policy and law in Member countries and within international and regional organisations and to contribute to the further development and strengthening of co-operation between Member countries in policy development and law enforcement.
2. To examine and help develop, in particular, consumer trust in the global digital economy, to participate in and encourage the development of the principles which should govern an efficient, transparent and fair global marketplace for consumers, and to develop mechanisms for the implementation of these principles and for the effective enforcement of consumer laws on line and across borders.
3. To examine issues of consumer policy and safety, particularly those concerning international trade or the development of a global marketplace for consumers.
4. To collaborate closely with other relevant subsidiary bodies of the OECD.

5. To consult with the advisory bodies to OECD, BIAC and TUAC, consumer organisations such as Consumers International, the private sector, academia and other international organisations, including the International Consumer Protection and Enforcement Network (ICPEN).

6. To encourage the development and use of relevant quantitative information in consumer policy deliberations, to facilitate overall policy coherence through the inclusion of consumer policy considerations in other policy areas, and to engage in outreach to non-Members.

II. Expiry of the mandate

The mandate of the Committee on Consumer Policy shall expire on 31 December 2014.”

### **“MANDATE OF THE WORKING PARTY ON CONSUMER PRODUCT SAFETY**

The mandate of the Working Party on Consumer Product Safety shall be to promote the safety of consumer products in global markets by:

- Promoting the exchange of information on product safety within and between economies;
- Supporting research on product safety issues;
- Promoting the development of systematic methods for monitoring and assessing developments in consumer product safety, including developments in policy and enforcement;
- Promoting co-operation between Members and non-Members on product safety issues of mutual interest;
- Promoting harmonisation of product safety requirements and information collection.

The work shall be carried out in the light of the recommendations contained in the OECD Report on Enhancing Information Sharing on Consumer Product Safety [DSTI/CP(2010)3/FINAL]. The scope of the consumer products covered by the Working Party shall not include food or drugs.

In carrying out its mandate, the Working Party should collaborate and cooperate with other international bodies that are carrying out related work on product safety, such as the International Consumer Product Safety Caucus, the Organization of American States and the Asian-Pacific Economic Co-operation forum. Co-operation and collaboration should also be actively pursued with key non-Members.

The Working Party shall report to and consult with the Committee on Consumer Policy concerning its activities on a regular basis.”

Resolution of the Council [C(2008)163 and C/M(2008)19, item 260]

“THE COUNCIL,

Having regard to the Convention on the Organisation for Economic Co-operation and Development of 14th December 1960 (hereinafter referred to as the ‘Convention’) and, in particular, Articles 5 a), 6, 12, 13 and 20 thereof;

---

<sup>1</sup>

Ukraine: awaiting ratification.

Having regard to the Rules of Procedure of the Organisation;

Having regard to the Communiqué approved by the Council meeting at Ministerial Level on 15th June 1978 and, in particular, Annex II thereof [C(78)96(Final)];

Considering that the Ad Hoc Working Group on the Steel Industry has reached the conclusion that a Steel Committee should be established within the framework of the Organisation under Part II of the Budget and that a number of Member countries as well as the European Community have expressed their intention to participate therein;

Noting that the Member countries participating in the proposed Committee and the European Community agree as initial commitment to the guidelines set out in the Annex hereto;

Having regard to the Resolution of the Council establishing a Steel Committee [C(78)171(Final)], as amended by documents C/M(79)22(Final), Item 231 (b) and C/M(83)6(Final), Item 51 (b);

Having regard to the proposal to renew the mandate of the Steel Committee [C(2008)163];

DECIDES:

#### Article 1

In order to seek solutions to the problems experienced by the Steel Industry and achieve the objectives set out in the Annex to the present Resolution, the Steel Committee (hereinafter referred to as the 'Committee') shall have the functions set out in this Annex.

#### Article 2

Current participants include Austria, Belgium, Brazil, Canada, Czech Republic, Denmark, the European Community, Finland, France, Germany, Greece, Hungary, Italy, Japan, Korea, Luxembourg, Mexico, the Netherlands, Norway, Poland, Portugal, Romania, Russian Federation, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Turkey, the United Kingdom, and the United States.

Any other Member country of the Organisation can decide to participate in the Committee.

The Committee shall, if the OECD Member countries participating therein so decide, propose to the Council that a non-Member with substantial steel interests may be invited to become a participant in the Committee. In making such a proposal the Committee must be satisfied that the non-Member has agreed and is able to undertake the same commitments, as appropriate, with regard to the Committee's work as the OECD Member countries which participate therein and that its participation in the Committee would contribute to achieving the objectives of the Committee. Such proposal shall specify the relevant provisions in respect of the non-Members' participation in the Committee's work.

#### Article 3

Expenditure required for the functioning of the Committee shall be defrayed from the appropriations authorised for that purpose under Part II of the Budget of the Organisation. The Committee shall prepare every two years a Programme of Work and this with the corresponding budgetary proposals shall be submitted by the Secretary-General to the Council.

#### Article 4

The Committee may make proposals to the Council on any matter within its mandate and, at the request of the Council or on its own initiative, the Committee may submit other communications to the Council.

## Article 5

- a) The provisions of the Rules of Procedure of the Organisation shall apply to the Committee to the extent that this Resolution does not derogate therefrom.
- b) The Committee may make recommendations to participants within the scope of its mandate.

## Article 6

The mandate of the Steel Committee shall remain in force until 31 December 2013 unless the Council decides otherwise.

## Annex

### Policy Environment

The world's steel industry started a period of vigorous expansion in 2002, driven by strong growth in demand, particularly in emerging economies. At the same time the process of restructuring the sector has become broader and some global players have emerged. Nevertheless, the sector remains vulnerable to cyclical forces, increasing raw materials prices and environmental challenges, in particular related to its inherent CO<sub>2</sub>-emission performance. This can affect trade patterns and lead to trade frictions.

In some countries, governments intervene in steel supply which may create excess capacity and distort conditions of competition at the global level.

Government intervention in the trade of steel and raw materials can aggravate problems for the steel industry and can have implications for related industries, including steel-consuming industries.

In virtually all major steel-producing nations, steel occupies a central place in the national economy. In some areas, the magnitude of structural problems confronting the steel sector and resultant social and economic implications of the necessary structural adjustments are substantial.

### Objectives

In view of these difficulties, participants of the Steel Committee need to work closely together in order to:

- Ensure that trade in steel will remain as unrestricted and free of distortion as possible. Restrictive actions should be avoided and, where necessary, strictly limited in scope and time, and in conformity with WTO rules;<sup>2</sup>
- Reduce barriers to trade;
- Act promptly to cope with crisis situations in close consultation with interested trading partners and in conformity with agreed principles;
- Facilitate needed structural adaptations that will diminish pressures for trade actions and promote rational allocation of productive resources with the aim of achieving fully competitive enterprises;
- Ensure that measures affecting the steel industry are consistent to the extent possible with general economic policies and take into account implications for related industries, including steel-consuming industries;

---

<sup>2</sup> It is noted that references to WTO rules and provisions in this Annex do not alter the rights and obligations under the WTO of individual participants which are contracting parties to the WTO nor confer by implication equivalent rights or obligations on participants which are not contracting parties to the WTO.

- Avoid encouraging economically unjustified investments which recognising legitimate development needs;
- Facilitate multilateral co-operation consistent with the need to maintain competition, to anticipate and, to the extent possible, prevent problems.

#### Committee Functions

The Steel Committee will meet regularly and additionally as required to:

1. Continuously follow national, regional and world supply and demand conditions in steel and closely related industries, including steel-consuming industries and raw material industries, with a view to identifying potential problems and implications and making assessments and forecasts available to all interested parties;
2. Continuously follow the evolution of national, regional and world steel industries with regard to employment, profits, investments, capacity, input costs, environmental performance and compliance costs, productivity, and other aspects of viability and competitiveness;
3. Develop common perspectives regarding emerging problems or concerns in the steel sector and establish, where appropriate, multilateral objectives or guidelines for government policies;
4. Regularly review and assess government policies and actions in the steel sector in the light of the current situation, agreed multilateral objectives and guidelines and the WTO and other relevant international agreements;
5. Identify deficiencies and gaps in existing data needed by the Committee with a view to improving national inputs to the Committee and cross-national comparability of data.

#### Commitments

Participants in the Steel Committee agree to the following guidelines:

- a) To abstain from destructive competition in official support of export credit; they agree that their policies in the field of export credits for steel plant and equipment will be fully consistent with the Arrangement on Guidelines for Officially Supported Export Credits and contribute to the avoidance of competitive subsidisation of such exports.
- b) Domestic policies to sustain steel firms during crisis periods should not shift the burden of adjustment to other countries and thus increase the likelihood of restrictive trade actions by other countries (e.g. by artificially stimulating exports or by artificially displacing imports). Further, as a general rule, domestic measures should not prevent marginal facilities from closing in those instances where the facilities cannot become commercially viable within a reasonable period of time.
- c) To make every effort to provide effective programmes for steel worker readaptation away from facilities affected by structural adjustments into alternative employment. To this end, they will periodically exchange information on the effectiveness of policies and programmes to assist steel workers and communities.
- d) To report promptly any action to restrict trade in steel-making materials and allow for consultation with affected parties.”

  - Mandate of the Working Party on Shipbuilding adopted by the Council at its 1180<sup>th</sup> session on 18 September 2008 [C(2008)121 and C/M(2008)16, item 194]

Resolution of the Council [C(2008)121 and C/M(2008)16, item 194]

“THE COUNCIL,

Having regard to the Convention on the Organisation for Economic Co-operation and Development of 14 December 1960;

Having regard to the Rules of Procedures of the Organisation;

Having regard to the creation of the Council Working Party on Shipbuilding (WP6) by Council Resolution [C(66)57], as amended;

Noting that the shipbuilding industry may continue the pattern of the past of severe cyclical downturns, and that unfair practices (subsidies and other support measures provided by governments to their industries, and other market distorting practices) prevent the market from functioning normally;

Recognising that the Council Working Party on Shipbuilding remains the sole international forum which can bring OECD and non-OECD economies, as well as business/industry and trade union stakeholders, together to exchange views on economic and policy developments in the shipbuilding sector and act on these as appropriate;

Noting the progress made in increasing transparency in the shipbuilding industry, the engagement in the work of the WP6 by non-OECD economies with significant shipbuilding industries and the paused negotiations on a multilateral agreement on shipbuilding;

Noting that the participants to the Sector Understanding on Export Credits for Ships (which has been incorporated as an Annex to the OECD's "Arrangement on Officially Supported Export Credits") retain responsibility, through the WP6, for that Understanding, in co-operation with the Participants to the Arrangement on Officially Supported Export Credits;

DECIDES:

A The Council Working Party on Shipbuilding (WP6) has the following mandate:

I. Objectives

- To work towards the identification and progressive reduction of the factors that distort normal competitive conditions in the shipbuilding industry.
- The Working Party will seek to meet this objective by:
  - keeping the shipbuilding industry under review in order to increase transparency and improve the understanding of the shipbuilding market, including supply and demand;
  - taking into account the economic, social and other relevant conditions in shipbuilding economies that impact on the industry;
  - increasing the engagement – in accordance with the rules of the Organisation – of non-OECD economies with significant shipbuilding sectors, the shipbuilding industry and trade union stakeholders.

II. Co-ordination arrangements

- As appropriate, the Council Working Party on Shipbuilding shall work in conjunction with:
  - other OECD bodies as appropriate, BIAC and TUAC;
  - in accordance with the rules of the Organisation, non-OECD economies with significant shipbuilding sectors;
  - other relevant international organisations such as the World Trade Organization (WTO) and the International Maritime Organization (IMO);
  - the shipbuilding industry, including national and regional shipbuilder associations; and
  - appropriate trade union stakeholders.

B. The mandate of the Council Working Party on Shipbuilding shall remain in force until 31 December 2013, unless the Council decides otherwise."

Resolution of the Council [C(2006)175 and C/M(2006)20, item 264]

“THE COUNCIL,

Having regard to Article 1 of the Convention of the OECD of 14th December 1960 under which the Organisation shall promote policies designed:

- To achieve sustainable economic growth and employment, and rising standards of living in Member countries while maintaining financial stability, so contributing to the development of the world economy; and
- To assist sound economic expansion in Member countries and other countries in the process of economic development;

Recognising that good health is necessary for people to flourish as citizens, family members, workers and consumers, that improvements in health contribute to higher economic growth and improved welfare and that high-performing health systems are key to achieving better population health;

Acknowledging that while the health sector represents a large and growing share of OECD economies, health systems will face important challenges in the future, in particular in view of ageing populations and technical change;

Having regard to the Resolution of the Council renaming the Ad Hoc Group on Health as the Group on Health and revising its mandate [C(2004)172/REV2];

On the proposal of the Secretary-General;

DECIDES:

1. A Health Committee is hereby established.
2. The overarching objective of the Health Committee shall be to foster improvements in the performance of Member countries', and as appropriate, non-Member countries' health systems in the following key areas:
  - financial sustainability and efficiency of their health and long-term care systems;
  - the provision of high-quality health care to all.
3. This shall be accomplished by the provision of Output Results that assist policymakers in designing, adapting and implementing policies for achieving high-performing health systems.
4. In this context, the Health Committee will provide a forum for Member countries to share views and experiences on, and consider responses to, current and emerging health issues and challenges, by building a body of health data, by filling gaps in health data and analysis at the international level, and by undertaking international comparisons and economic analysis of health systems, bearing in mind the competences and mission of the OECD, and the fact there is no one, ideal health system. More specifically, its activities will consist of:
  - a) Encouraging co-operation among Member countries in developing health accounts on a consistent basis, and in other relevant health data and information sharing.
  - b) Developing and promulgating health care indicators, and standardised, comparable sets of data and statistics, as a basis for research and analysis assessing the performance of OECD health systems.
  - c) Assessing options for sustainable financing of efficient health systems.
  - d) Assessing the performances of Member countries' health systems.
  - e) Undertaking policy analysis and evaluation to identify effective, efficient and high-quality practices.
  - f) Promoting the sharing with non-Members of the health data systems and the expertise, information and experience which reside in Member countries.
  - g) Actively disseminating results through publication of studies and participation in conferences and meetings with policy-makers and stakeholders.
5. In order to efficiently implement the aforementioned activities, the Group shall:
  - a) Maintain close working relationships with other relevant bodies of the Organisation, seeking to (i) be actively engaged in, and where appropriate lead, joint work and ensure that it is undertaken in a co-ordinated manner; (ii) complement and support work that other bodies are leading; and (iii) ensure that other work of the OECD considers the impacts on health systems.
  - b) Maintain, as appropriate, and in conformity with the OECD Convention and Rules of Procedures, relations with other entities, particularly the WHO, seeking to achieve non-duplicative, coordinated and complementary work programmes in areas of shared interest and mutual benefit, conducting joint projects where appropriate and ensuring that the

experience and expertise of other bodies is appropriately incorporated into the Group's health work.

- c) Ensure that the views and expertise of non-government institutions are drawn upon in the conduct of OECD's health work, utilising, inter alia, the Business and Industry Advisory Committee to the OECD (BIAC), the Trade Union Advisory Committee to the OECD (TUAC) and contacts with relevant non-governmental organisations, including organisations representing patients and health professionals and outside experts. Subject to its Programme of Work and Budget, the Health Committee will organise, as appropriate, ad hoc workshops and expert meetings that involve all relevant actors to explore issues within its mandate.
  - d) Steer and review the progress of work and its financial status, and co-ordinate the work programmes of its subsidiary bodies and receive regular reports from them to ensure analysis and policy recommendations are fully integrated and evaluated.
6. Where possible, Member countries shall appoint to the Health Committee high-ranking officials concerned with development, implementation or administration of health policies in their own countries.
7. For the purpose of its activities in the health sector, the Organisation shall periodically collect all relevant statistics and other information; in principle, these data will be assembled by the Secretariat and published on the responsibility of the Secretary-General.
8. The Health Committee will advise the Council on appropriate priorities for work on health and long-term care.
9. The terms of reference of the Health Committee will take effect on 1 January 2007 and remain in force until 31 December 2011, unless the Council decides otherwise."

Having regard to the recommendations of the In-depth Evaluation [C(2010)92];

Having regard to the proposed revision of the mandate of the Employment, Labour and Social Affairs Committee [C(2010)93/REV1];

## DECIDES

1. The Employment, Labour and Social Affairs Committee has the following mandate:
  - i) The overarching objective of the Employment, Labour and Social Affairs Committee is to foster comprehensive, cost-effective and innovative employment and social policies to promote strong, sustainable economic growth, high employment rates and enhance social inclusion in Members and, as appropriate, non-Members.
  - ii) This shall be accomplished by the provision of Output Results that assist policymakers in designing, adapting and implementing policies that generate good jobs, develop skills, assist Members to manage better international migration, enhance social cohesion, reduce inequality and poverty, improve the position of vulnerable groups on the labour market, and promote equality of opportunities for all.
  - iii) Within the framework of the 2006 *Reassessed Jobs Strategy* and following the orientations for future work set out by the OECD Employment and Labour Ministerial in September 2009, identify cost-effective policy options to promote the creation of more and better jobs. The Committee will help Members identify policy measures to reduce unemployment and strengthen labour supply e.g. by improving active labour market measures and skill building based on identified needs. Moreover, the outputs of the Committee will assist Members to identify and implement good practices to promote an efficient allocation of labour towards more productive and rewarding uses while also promoting equality of job opportunity for all and addressing key concerns associated with workers' well-being, including low pay and segmentation of the workforce between jobs with different working conditions and career prospects.
  - iv) Assist Members to establish responsive, cost-effective and transparent migration and integration policies with a view to enable Members to better manage labour migration to support economic growth and to improve integration of immigrants and their families into the labour market within the parameters of domestic regulation.
  - v) Review social policies which promote an inclusive, responsive and efficient economy by helping people to contribute fully to society through work or other means, thereby enabling economic growth to be higher and shared more equitably. The outputs of the Committee will serve to identify and promote good practices in the areas of family and child policies, pensions and care policies, policies to foster social inclusion, such as employment-oriented social policies and measures to combat poverty, as well as other issues designated as priorities by periodic meetings of Social Policy ministers and outlined in the Committee's work programme.

2. In this context, the Employment, Labour and Social Affairs Committee will:
- i) Provide a forum for Members and, as appropriate, non-Members to share views and experience on current and emerging issues and challenges in generating sustainable employment-oriented economic growth rising from ageing, changing labour and product markets and family structures, and their social consequences; in this it will be pro-active, responding to changing circumstances and the priorities of the Organisation.
  - ii) Serve as a forum for Members and, as appropriate, non-Members to exchange information on national policies and practices related to employment and training, international migration and social policies.
  - iii) Maintain and develop comparable sets of data and indicators, as a basis for research and analyses in these areas.
  - iv) Commission research and analysis on emerging issues within the given constraints of the Committee's resource capacity.
  - v) Disseminate results through publication of studies and participation in conferences and meetings with policy-makers and stakeholders.
  - vi) Promote the sharing of information and experiences in the development of labour market, social and international migration policies with non-Members, particularly in the emerging G20 framework and other relevant fora, and share policy dialogue with them to increase their awareness of, and contribution to, the work of the Committee.
3. In order to efficiently implement the aforementioned activities, the Committee shall:
- i) Maintain close working relationships with other relevant bodies of the Organisation, seeking to (a) be actively engaged in, and where appropriate lead, joint work and ensure that it is undertaken in a co-ordinated manner; (b) complement and support work that other bodies are leading; and (c) ensure that other work of the OECD considers the impacts on labour, social and international migration policies.
  - ii) Maintain, as appropriate, and in conformity with the OECD Convention and Rules of Procedures, relations with other entities, particularly the ILO and other observers, seeking to achieve co-ordinated and complementary work programmes in areas of shared interest and mutual benefit, conducting joint projects where appropriate and ensuring that the experience and expertise of other bodies is appropriately incorporated into the Committee's work.
  - iii) Expand its co-operation with the ILO, EU Commission, IMF, World Bank and other relevant international organisations in support of the G20 process.
  - iv) Ensure that the views and expertise of non-government institutions are drawn upon in the conduct of the Committee's work, utilising, *inter alia*, the Business and Industry Advisory Committee to the OECD (BIAC), the Trade Union Advisory Committee to the OECD (TUAC) and contacts with relevant non-governmental organisations.

4. The mandate of the Employment, Labour and Social Affairs Committee will remain in force until 31 December 2014.”

#### “Terms of reference of the Working Party on Migration

1. The Working Party on Migration shall:
  - a) serve as a forum for OECD Member countries to exchange information on national policies and practices and discuss matters related to migration, with emphasis on labour market and other economic and social aspects;
  - b) systematically collect, review and disseminate information, using the Continuous Reporting System on Migration (SOPEMI), on migratory trends as well as statistical data and policies and practices of Member countries and, to the extent feasible, of relevant non-Member countries;
  - c) initiate work on the economic, demographic, and social causes and consequences of migration in sending and receiving countries and discuss the results of this work and its wide-ranging policy implications;
  - d) evaluate and develop, on the basis of analytical work, policy options which would facilitate decisions by OECD Member countries to respond to the challenges and opportunities of international migration, including the integration and insertion of migrants and their children in the economy and society at large;
  - e) encourage and facilitate co-operation among sending and receiving countries by providing information and policy analysis that will assist them in assessing and managing migration flows to their mutual benefit;

- f) promote co-operation among the bodies of the Organisation dealing with work related to migration, and maintain regular contacts and co-operation with other International Organisations, as appropriate.

2. The procedure adopted by the Council in 1979 and confirmed in 1988 [C(88)32] according to which the Working Party is instructed "to report to the Council... at regular intervals, as required, such reports to be transmitted through the [*Manpower and Social Affairs Committee*] Employment, Labour and Social Affairs Committee, which may formulate comments thereon as appropriate" [C/M(79)5, Item 65] remains unchanged."

It will work on the development of indicators, assess policy trends and measures and identify good practices in the areas of labour market policy, institutions and training policies. In particular, within the framework of the 2006 OECD *Reassessed Jobs Strategy* and in line with the mandates received from the OECD Employment and Labour Ministers when they met in Paris in September 2009 and the labour market policy issues allocated to the Employment, Labour and Social Affairs Committee in the Programme of Work and Budget of the Organisation, the Working Party will:

- i) Supervise, on behalf of the Employment, Labour and Social Affairs Committee, the preparation of the *Employment Outlook*. This task involves: i) identifying the topics for each annual edition of the Outlook, in line with the mandate of the Labour and Employment Ministers and the policy priorities in Member countries; ii) providing technically-oriented peer review of the draft chapters for the Outlook; and iii) verifying to the Committee that the main policy findings emerging from the Outlook are grounded in rigorous research and analysis.
- ii) Provide guidance on the development of suitable indicators and analytical tools for the analysis of labour market developments and the impact of policy measures on labour market outcomes.
- iii) Contribute to, and comment on, labour market thematic reviews undertaken for the Employment, Labour and Social Affairs Committee. In view of the specialised expertise from Member countries, the Working Party may authorise the Secretariat to convene *ad hoc* meetings of national experts from time to time on specialised topics for the consideration of the Working Party and the Committee.
- iv) Provide guidance on how to address labour market policy issues arising in non-Member countries with which the Organisation has an enhanced engagement process.
- v) Collaborate with other Committees and Working Parties of the Organization through horizontal projects and exchanges of views on labour market and training policy issues.

2. The Working Party will report its analyses, evaluations and conclusions to the Employment, Labour and Social Affairs Committee on a periodic basis as required.”

THE COUNCIL,

Having regard to the Convention on the Organisation for Economic Co-operation and Development of 14 December 1960, and, in particular, Articles 5 a), 9 and 12 thereof;

Having regard to the Rules of Procedure of the Organisation;

Having regard to the Financial Regulations and the Financial Rules of the Organisation;

Having regard to the Resolution of the Council concerning the participation of non-Members in the work of subsidiary bodies of the Organisation [C(2004)/132/FINAL] and the Resolution of the Council Concerning Fees for Non-Member Participation in Subsidiary Bodies of the Organisation [C(1996)223/REV3/FINAL];

Having regard to the Resolution of the Council on a New Governance Structure for the Organisation [C(2006)78/FINAL];

Having regard to the Main Principles Guiding the Governance Structure of the OECD Education Bodies [EDU(2006)8/ANN3/REV1], in particular, relative to the global coherence of OECD work on education, and the mandates of the other education bodies;

Having regard to the mandate of the Employment, Labour and Social Affairs Committee and the Education Policy Committee;

Having regard to the proposals set out in the Note by the Secretary-General concerning the creation of a Part II Programme and a Board of Participating Countries for the Programme for the International Assessment of Adult Competencies (PIAAC) [C(2007)62/REV3];

DECIDES:

The Programme for the International Assessment of Adult Competencies (PIAAC) is hereby created with the following mandate:

### **Mission**

1. The Council shall, for the period of 1 January 2008 to 31 December 2011, create a Programme for the International Assessment of Adult Competencies (PIAAC). The work of PIAAC reflects and complements the priorities of the OECD as a whole, in improving living standards and promoting sustainable development and social cohesion through good governance. It contributes to fulfilling the Directorate for Education and the Directorate for Employment, Labour and Social Affairs missions of facilitating high-quality lifelong learning for all that contributes to personal development and sustainable economic growth, as well as fostering the conditions leading to more and better jobs and a more socially inclusive society. It is carried out within the framework of the Main Principles Guiding the Governance Structure of the OECD Education Bodies [EDU(2006)8/ANN3/REV1], and with due regard to the mandates of the other education bodies and the mandate of the Employment, Labour and Social Affairs Committee.

2. A multi-cycle programme of assessment, PIAAC will survey a representative sample of the adult population in each participating country in the assessment in a household context, in order to assess key competencies and their utilisation in the work place. The assessment will focus on literacy, which previous national and international assessments have shown to be essential for participation in modern societies, as well as on other generic work skills. PIAAC will extend the traditional concept of literacy by adapting it to competency requirements in the information age and will also break new ground by assessing other key generic skills required in the workplace. PIAAC will also survey other important social and labour-market outcomes and collect contextual data with the aim of facilitating policy-relevant analyses. The objectives of PIAAC are four-fold:

- Identify and measure differences between individuals and across countries in key competencies believed to both underlie personal success and respond to labour market requirements.
- Assess the impact of competencies on a range of economic and social outcomes.
- Assess the performance of education and training systems, workplace practices as well as labour market policies, in generating competencies at the levels required by social and economic demands.
- Help identify policy levers to reduce "deficiencies" in key competencies.

### **Participation**

3. Participation in PIAAC is open to Member countries. Invitations to and participation of non-Members in the work of PIAAC will be considered by the Board of Participating Countries in accordance with Council Resolutions C(2004)132/FINAL and C(2006)78/FINAL.

## **Board of Participating Countries**

4. In support of the mandates of the Education Policy Committee and the Employment, Labour and Social Affairs Committee, the Board of Participating Countries shall oversee PIAAC. The Board of Participating Countries shall, in particular:

- Recommend the policy priorities for PIAAC to the Education Policy Committee and the Employment, Labour and Social Affairs Committee and oversee adherence to these priorities during implementation. This includes the setting of priorities and standards for data development, analysis and reporting as well as the determination of the scope of work that will then form the basis for the implementation of PIAAC.
- Develop a draft work programme and budget and cost elements of a scale of contributions.
- Prioritise its activities and outputs in consultation with the Employment, Labour and Social Affairs Committee and the Education Policy Committee.
- Monitor the quality and timeliness of output results, activities and projects.
- Disseminate policy advice, analysis, research and data to a wide range of stakeholders in Member and non-Member countries.
- Evaluate the outcomes of the work.

5. The Board is open to countries participating in the assessment. The European Commission shall participate in accordance with the provisions of Article 13 of the Convention and Supplementary Protocol No. 1 to the Convention. The International Labour Office, the World Bank and UNESCO may attend meetings of the Board as observers. Representatives of the Business and Industry Advisory Committee (BIAC) and the Trade Union Advisory Committee (TUAC) may attend meetings of the Board as experts.

6. Governments should, whenever possible, appoint representatives to the Board of Participating Countries who are knowledgeable about large-scale survey assessments and their interface with educational and employment policy and practice.

7. The Board of Participating Countries may organise its meetings outside OECD Headquarters on the basis of a reasoned request from a Permanent Representative on behalf of a member of the Board. The host will accept responsibility for additional direct and indirect expenditures related to the meeting so that it is no more expensive for the Organisation than it would have been if held at OECD Headquarters.

### **Working methods and relationship with the Education Policy Committee and the Employment, Labour and Social Affairs Committee**

8. The Board of Participating Countries will seek strategic guidance on policy priorities, the programme of work and budget from the Education Policy Committee and the Employment, Labour and Social Affairs Committee.

9. The Board shall provide regular reports to the Education Policy Committee and the Employment, Labour and Social Affairs Committee on the implementation of its programme of work.

10. All decisions relating to the modalities for the participation in the assessment exercise, the operations of the Board of Participating Countries, the elements to be included in calculating the floor contribution for the scale of contributions, changes to project design and structure as well as the frequency of successive PIAAC surveys will be adopted by consensus of the members of the Board of Participating Countries. For other decisions, not specifically provided for in this mandate, the Board will tailor its working methods to its own needs, as provided by Council Resolution C(2006)78/FINAL.

## **Budget of the Programme**

11. The programme of work, scale of contributions and budget of the Programme shall be agreed by the Budget Committee before transmission to Council for final approval.

12. The expenditure of the Programme shall be charged against the appropriations authorised for it under a Part II Chapter of the Budget of the Organisation.

13. The scale of contributions will be composed of:

- the distribution of the costs of the core of the assessment, consisting of a floor contribution, to be determined by the Board of Participating Countries, and the remainder of costs to be assigned to members and full participants on the basis of the OECD principles and rules for determining the scales of contributions by Members other than for Part I of the Budget of the Organisation\*, using as input statistics the national income data and exchange rates used in the calculation of scales for the previous year, and
- the distribution of the costs of each option to be shared only by those members and full participants who participate in that particular option, on the basis of the OECD principles and rules for determining the scales of contributions by Members other than for Part I of the Budget of the Organisation,\* using as input statistics the national income data and exchange rates used in the calculation of scales for the previous year.<sup>7</sup>

14. In order to allow participating countries to contribute stable amounts for PIAAC over successive years, appropriations, for which no commitment has been entered into before the end of the Financial Year for which they were appropriated shall be automatically carried forward to the budget for the ensuing year by decision of the Secretary-General, notwithstanding the provisions of Articles 14 and 15 of the Financial Regulations of the Organisation.

### **Relationship with other bodies**

15. The Board of Participating Countries shall also maintain close working relationships with other relevant bodies of the Organisation working on issues related to assessment, educational, training and employment outcomes, as well productivity and economic growth, in particular the Governing Board of the Centre for Educational Research and Innovation and the Committee for Industry, Innovation and Entrepreneurship. The Board of Participating Countries shall co-operate with other international and regional organisations active in its field of competencies. It may consult with non-governmental bodies after receiving advice from the Education Policy Committee and the Employment, Labour and Social Affairs Committee.

### **Evaluation**

16. As part of the OECD in-depth evaluation process, an evaluation exercise will be conducted prior to the end of the mandate period by the Education Policy Committee and the Employment, Labour and Social Affairs Committee.

### **Duration**

17. This mandate shall enter into force on 1 January 2008 and shall expire on 31 December 2011, unless the Council decides otherwise.”

---

\* In the event of a withdrawal of a participating country from PIAAC, the limit on the year on year increase of member contributions will not apply in the year in which that country is first removed from the calculation of the scale of contributions.

Decision of the Council [C(2010)39, Annex]

“THE COUNCIL,

Having regard to the Convention on the Organisation for Economic Co-operation and Development of 14 December 1960 and, in particular, Articles 1 a), 5 a), 9 and 20 thereof;

Having regard to the Rules of Procedure of the Organisation;

Having regard to the Financial Regulations of the Organisation;

Having regard to the Decision of the Council of 24 February 2005 concerning the Co-operative Action Programme on Local Economic and Employment Development [C(2004)151/REV1; C/M(2005)5];

Having regard to the proposed revision of the mandate of the Co-operative Action Programme on Local Economic and Employment Development and the opinion of the Directing Committee of the Programme [C(2010)39];

Considering that the Governments of Australia, Austria, Belgium, Canada, Chile, the Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Japan, Korea, Latvia, Lithuania, Luxembourg, Mexico, Netherlands, New Zealand, Norway, Poland, Portugal, Romania, the Slovak Republic, Slovenia, South Africa, Spain, Sweden, Switzerland, Turkey, the United Kingdom, the United States, as well as the European Commission and the Andean Development Corporation (hereinafter referred to as the “Participants”) have formally expressed their willingness to participate in a Co-operative Action Programme on Local Economic and Employment Development;

On the proposal of the Secretary-General;

DECIDES:

**Article 1**

**DEFINITION OF THE PROGRAMME**

- a) Mission Statement: The mission of the Co-operative Action Programme on Local Economic and Employment Development is to contribute to the creation of more and better quality jobs through more effective policy implementation, innovative practices, stronger capacities and integrated strategies at the local level.
- b) Economic prosperity and social cohesion depend on the ability of our economies to generate sufficient, productive and sustainable employment, with possibilities for progression and accessibility for all. This requires a constant effort to seize opportunities offered by the global economy while capitalising on local assets. An integrated approach to local economic and employment development will be crucial, bringing together government, business and civil society. To strengthen this process, evidence-based guidance is needed, stemming from an international comparison of policies and practices across local areas in a wide range of policy and institutional contexts.

Accordingly, the main objectives of the Programme are as follows:

- To improve the quality of public policy, implemented at the local level, through continuous monitoring and assessment of current practices;
- To enhance knowledge on innovation in local economic and employment development and the renewal of local economies by developing indicators which allow for comparisons; and
- To build capacity in the design, implementation and evaluation of local economic and employment development strategies in Members and non-Members.

## **Article 2**

### **COMPOSITION OF THE DIRECTING COMMITTEE**

- a) Each Participant shall appoint at least one representative to the Directing Committee. Representatives to the Directing Committee of the Programme (hereinafter referred to as the "Directing Committee") should be chosen by virtue of their responsibilities in matters relating to Local Economic and Employment Development.
- b) Participants may appoint experts to assist their representatives and the Directing Committee.
- c) The Directing Committee shall appoint from among its members, a Bureau consisting of at least the Chair and two Vice-chairs.

## **Article 3**

### **FUNCTIONS OF THE DIRECTING COMMITTEE**

- a) Each biennium, the Directing Committee shall submit to the Council for adoption the draft programme of work and budget.
- b) Each year, the Directing Committee shall submit an activity report and a financial statement to the Council.
- c) The Directing Committee shall be competent to consider all questions related to the carrying out of the programme of work and budget.

## **Article 4**

### **FINANCING OF EXPENDITURE**

- a) The expenditure arising from the implementation of the programme of work shall be charged against the appropriations authorised for it under Part II of the Budget of the Organisation.
- b) The above-mentioned appropriations shall be financed by statutory contributions paid by the Participants and voluntary contributions.

## **Article 5**

### **RELATIONS WITH OTHER INSTITUTIONS**

In order to further the objectives of the Programme the Secretary-General may establish appropriate working relations, in agreement with a Member government, with a national institution concerned with local economic and employment development. The same arrangements may be applicable to other international organisations with a view to strengthening international co-operation in relation to local economic and employment development. Furthermore, collaboration will be pursued in areas of synergy between the Programme and other Directorates and Committees of the Organisation.

## **Article 6**

### **PARTICIPANTS**

- a) The Participants shall be the Members, invited non-Members and invited international organisations listed in the Preamble.
- b) Any Member of the Organisation the government of which does not participate in the present Programme may join it by addressing a notification to this effect to the Secretary-General.
- c) Subject to approval by the Council and the Directing Committee, non-Members and international organisations may be invited to participate in the Programme as full participants.

## **Article 7**

### **DURATION**

The mandate of the Co-operative Action Programme on Local Economic and Employment Development shall remain in force until 31 December 2015.”

<b>Date of creation:</b>	30th September 1961	
<b>Duration:</b>	31st December 2011	
<b>Mandate:</b>	Resolution of the Council [C(2006)182] approved at its 1146th session held on 14 December 2006 [C/M(2006)20, item 266]	

Resolution of the Council [C(2006)182 and C/M(2006)20, item 266]

“THE COUNCIL,

Having regard to the Convention on the Organisation for Economic Co-operation and Development of 14 December 1960;

Having regard to the Rules of Procedure of the Organisation;

Having regard to paragraph 33 of the Report of the Preparatory Committee;

Having regard to the recommendations of the In-depth Evaluation of the Tourism Committee [C/M(2006)11, Item 142];

Considering that tourism is a significant contributor of wealth and employment to economies;

On the proposal of the Secretary-General;

DECIDES:

1. The Tourism Committee will assist Member countries and, as appropriate, non-member economies to:

- a) maximise the economic, social and environmental benefits of tourism through medium and long-term strategic development, soundly-developed tourism policy and greater coherence between tourism and other policies (e.g. transport, environment, security, trade, taxation or migration);
  - b) promote, in a globalisation and decentralisation context, sustainable tourism development as a source of economic growth, job creation and poverty alleviation in both major centres and regional areas;
  - c) improve the infrastructure and image of destinations to make them more attractive to the local population and visitors and more competitive to investors for the benefit of the whole economy;
  - d) contribute to the advancement of international co-operation in the tourism sector.
2. To achieve these objectives, the Tourism Committee will be responsible for analysing and developing tourism-related policy recommendations.
3. In the context of this mission, the Tourism Committee will:
- a) prepare tourism policy analysis and evaluation, identify good policy and business practices to meet major challenges, provide policy advice and be a clearing house for information on tourism policy;
  - b) share knowledge and experiences to identify best practices on tourism-related policies and strategies, particularly in the areas of competitiveness, taxation, entrepreneurship and innovation, labour, environment, safety and security, culture, and infrastructure development;
  - c) carry out in-depth tourism industry and market analysis to help Member countries, the travel and tourism industry and, as appropriate, non-Member economies, realise the overall economic benefit of tourism;
  - d) improve the measurement of tourism services in OECD economies by addressing government and industry information needs and promoting the tourism satellite account, contribute to the dissemination of data on tourism economics and to a more effective use of such data for business and policy analysis and decision-making processes, and work in complementarity with other international organisations;
  - e) provide a forum for dialogue and disseminate results through publications and thematic conferences.
4. The actions undertaken by the Tourism Committee should be guided by the following operating principles. The Tourism Committee will:
- a) develop, as appropriate, active links to the Organisation's horizontal programmes, maintain close working relations with other relevant bodies in the Organisation to complement and support analysis and discuss tourism aspects of questions raised and, where appropriate, undertake joint projects;
  - b) develop partnerships with the private sector and other stakeholders to build a shared vision of strategic developments and, where appropriate, organise forums to explore timely issues and develop policy recommendations;
  - c) engage Non-Member Economies in accordance with its Global Relations Strategy, share the results of its work with Non-Member Economies and co-operate closely with other international organisations active in the tourism field.
5. The Mandate of the Tourism Committee will take effect on 1 January 2007 and remain in force until 31 December 2011, unless Council decides otherwise."

## INTERNATIONAL FORUM ON TOURISM STATISTICS

<b>Members:</b>	Open to all Member countries
<b>Date of creation:</b>	1994
<b>Duration:</b>	31st December 2011

### **Mandate :**

### **Background and objectives**

1. The *International Forum on Tourism Statistics*, set up in 1994 by the OECD and Eurostat, provides a unique platform for the regular exchange of views and experiences on developments in tourism statistics and application for policy and business, both within the European Union (EU), in other OECD countries and in selected non-member countries.

2. The *International Forum on Tourism Statistics* meets once every two years at the invitation of a hosting country.

3. The aim of the forum is to discuss major issues concerning the establishment of harmonised tourism statistics in an environment that strengthens co-operation between governments, the private sector, researchers, academics, OECD/EU Member and non-member countries and international organisations.

4. The objectives are:

- Broad-based participation by experts and researchers from EU/OECD Member countries, some non-member countries, all sectors of the tourism industries and universities;
- Presentation and discussion of selected case studies dealing with the implementation of statistical methodologies, definitions and classifications as well as with the development of new statistical tools;
- Sharing of ideas, experiences, concepts as a basis for developing harmonised tourism statistics and concrete proposals to improve the definition and the measurement of tourism in the economy;
- Identification of alternative sources of information and promotion of new information technologies as a way to diminish the burden on tourism enterprises and to improve the dissemination of statistics to all partners;
- Development of integrated systems of tourism statistics and socio-economic indicators to present a global picture of the tourism industries, particularly to governments and to establish links with the rest of the economy.

<b>Mandate:</b>	Resolution of the Council approved at its 1046th Session held on 14 December 2006 [C/M(2006)20, item 265 and C(2006)173]	

Resolution of the Council [C(2006)173 and C/M(2006)20, item 265]

“THE COUNCIL,

Having regard to Articles 1 and 2 of the Convention on the Organisation for Economic Co-operation and Development of 14 December 1960;

Having regard to the Rules of Procedure of the Organisation and, in particular, to the Annex thereto;

Having regard to the Resolution of the Council of 22 July 1970 establishing an Education Committee [C(70)134], as last renewed by Council on 26 July 2001 [C/M(2001)16/FINAL];

Having regard to the proposals set out in the Note by the Secretary-General concerning the renewal of the mandates of the Education Policy Committee, the Centre for Educational Research and Innovation (CERI), the Programme on Institutional Management of Higher Education (IMHE), the Programme on Educational Building (PEB) and the Programme on International Student Assessment (PISA) [C(2006)173];

DECIDES:

The Education Committee, hereby renamed Education Policy Committee, is renewed with the following mandate:

Mission

The work of Education Policy Committee reflects and complements the priorities of the OECD as a whole, in providing employment opportunities for all, improving human capital and social

cohesion. It contributes to fulfilling the Directorate for Education's mission of assisting OECD member countries and non-members to achieve high quality lifelong learning for all, which contributes to personal development, sustainable economic growth and social cohesion. It is carried out with the framework of the *Main Principles Guiding the Governance Structure of the OECD Education Bodies* [EDU(2006)8/ANN3/REV1] and with due regard to the mandates of the other education bodies.

The Education Policy Committee is responsible for:

1. Assisting governments to develop effective and efficient policies for education and learning to meet individual, social, cultural and economic objectives through the development of specific policy recommendations, policy reviews, analyses and data collection.
2. Overseeing the strategic direction, coherence, quality and communication of OECD work on education carried out by the education bodies.
3. Exchanging information and promoting international co-operation among OECD member countries and, where relevant, with non-members on the objectives identified under 1) above.
4. Disseminating its policy advice, data and policy analysis to a wide range of stakeholders in OECD member countries and non-member economies.

#### Participation

Governments should, whenever possible, appoint to the Education Policy Committee senior officials with direct responsibility for advising their governments on general education policy and the allocation of educational resources.

Non-members may attend meetings of the Committee as regular observers, in line with the global relations strategy of the Committee and as approved by Council. The Council of Europe attends meetings of the Committee as an observer.

The Chairs or a Vice-Chair of the Governing Boards of the Centre for Educational Research and Innovation, the Programme on Institutional Management in Higher Education, the Programme on Educational Building and the Programme for International Student Assessment may attend meetings of the Committee *ex officio*.

#### Relationship with other bodies

The Education Policy Committee shall maintain close working relationships with other relevant bodies of the Organisation working on issues that affect the development and implementation of education policy and have implications for other policy areas. The Committee shall co-operate with other international and regional organisations active in this policy field. It may consult with non-governmental bodies as and when necessary.

#### Co-ordination of the OECD's Work on Education

The Committee will develop a medium-term strategy for work in the field of education, review the global coherence of the overall programme of work of the Directorate for Education and evaluate this work at the strategic level.

For work delegated to its subsidiary bodies, it shall establish integrated mechanisms for the development of orientations, prioritisation and evaluation. It shall receive regular reports from them to ensure their co-ordination, policy integration, timeliness and evaluation.

#### Duration

This mandate shall enter into force on 1 January 2007 and shall expire on 31 December 2011, unless the Council decides otherwise."

## **GLOBAL FORUM ON EDUCATION**<sup>1</sup>

<b>Chair:</b>	No formally-appointed Chair
<b>Date of creation:</b>	1st January 2009
<b>Duration:</b> <sup>2</sup>	31st December 2011
<b>Approved by:</b>	<ul style="list-style-type: none"><li>- Education Policy Committee, 27-28 November 2008 [EDU/EDPC/M(2008)3]</li><li>- Governing Board of the Centre for Educational Research and Innovation, 24 25 November 2008 [EDU/CERI/CD/M(2008)5]</li></ul>

### **Mission Statement:**

The OECD Global Forum on Education aims to validate the relevance of OECD work in education from a global perspective through a regular co-operation with a community of designated participants and stakeholders, in particular by:

- Strengthening and expanding the existing expert and policy-level networks between OECD members and non-member economies;
- Discussing and sharing outcomes in areas dependant on interaction and peer learning with relevant non-members in order to satisfy the growing global demand for OECD expertise in education;
- Fostering a global policy dialogue in education to enhance the non-members's capacity to benefit from the OECD work, thus contributing to the reputation of the Organisation as a world leader in promoting education policies responsive to economic and social changes.

**Members:** Open to all Member countries

**Designated Participants:** Full Participants and regular observers (accession countries) to the EDPC and the CERl Governing Board, and enhanced engagement countries (Brazil, China, India, Indonesia and South Africa);

Albania, Argentina, Belarus, Bosnia and Herzegovina, Bulgaria, Cameroon, Croatia, Dominican Republic, Egypt, Georgia, Kazakhstan, Kyrgyzstan, Latvia, Lithuania, FYROM, Moldova, Montenegro, Oman, Pakistan, Romania, Serbia, Sri Lanka, Tajikistan, Trinidad and Tobago, Ukraine, Uzbekistan, the United Arab Emirates and Vietnam

International Organisations: UNESCO, UNICEF, the World Bank, Inter- American Development Bank, African Development Bank, Asian Development Bank, Regional Co-operation Council of South Eastern Europe, International Association of Universities, International Student Associations

---

<sup>1</sup> Information on this Global Forum is provided for the sake of completeness. However, please note that in accordance with Council decision C(2008)208/FINAL, Global Forums are not official OECD bodies.

<sup>2</sup> The duration of Global Forums is a function of the duration of their parent Committee(s). By default, it would coincide with the duration of the Committee whose mandate expires first and be automatically renewed together with this Committee's mandate. Earlier expiration dates would be possible.

#### **“MANDATE FOR THE NETWORK ON EARLY CHILDHOOD EDUCATION AND CARE**

##### **Mission**

The Network supports the mandate of the Education Policy Committee to assist countries to develop effective and efficient policies for education and learning to meet individual, social, cultural and economic objectives. The Network aims to support the development of effective and efficient approaches and good practice in the field of early childhood education and care (ECEC) policy in participating countries by:

- Developing, sharing and disseminating information on experience, research and good practice of country experiences in the field.
- Serving as a clearing house of new policy research in the field and identifying new areas for fruitful policy research and analysis.
- Identifying data development needs and contributing to the development of methodology for developing such data.
- Organising workshops on selected policy themes.
- Facilitating contacts among researchers, policy-makers and practitioners and among other international networks in related fields.

##### **Membership**

The Network is open to OECD member countries, observers to the Education Policy Committee and other non-member economies in line with the global relations strategy of the Committee as approved by the Council.

### **Working Methods**

The Network will be hosted by a member country who will appoint an international coordinator to actively engage, sustain and develop communication among a network of national coordinators. The Network shall provide regular reports to the Education Policy Committee for monitoring the progress, quality and timeliness of outputs.

### **Evaluation**

An evaluation exercise will be conducted prior to the end of the mandate period by the Education Policy Committee. The extent and format of the evaluation will be decided by the Education Policy Committee. The evaluation will be conducted within the framework of the recommendations of the Council Evaluation Sub-Group.

### **Duration**

This mandate shall enter into force on 1 January 2007 and shall expire on 31 December 2011, unless the Education Policy Committee decides to terminate it earlier.”

**“MANDATE FOR THE BOARD OF PARTICIPATING COUNTRIES OF THE TEACHING AND  
LEARNING INTERNATIONAL SURVEY (TALIS)**

**Mission**

In support of the mandate of the Education Policy Committee, the Board of Participating Countries will manage the teaching and learning international survey.

Its functions will cover, in particular, the following areas:

- Work with the OECD Secretariat to ensure compliance with the policy objectives of the survey and establish the specific priorities for indicators, analysis and instrument development in each wave of the survey.
- Ensuring compliance with these design parameters at key milestones during the implementation of the project.
- Insofar as the survey implementation will be covered entirely by voluntary contributions and grants, drawing up the budget and recommending budgetary allocations for participants.

- Operationalising the scope of the work to be covered by the main international contractor.
- Guiding the preparation of the reports and analysis of the survey results.

The Board will bring policy advice, reports and analysis to the attention of the Education Policy Committee.

### **Membership**

The Board is open to OECD member countries, observers to the Education Policy Committee and other non-member economies participating in the survey in line with the respective global relations strategies of the Education Policy Committee as approved by the OECD Council. UNESCO may also attend meetings of the Group as an observer.

The Group may recommend the participation of additional observers in its work to the Education Policy Committee, which will submit these requests, if approved and as appropriate, to the OECD Council.

Member governments and non-member economies should wherever possible appoint experts in teacher, teaching and learning policy and practice.

### **Working methods**

The Board will devise appropriate working methods.

Decisions concerning the drawing up of the draft budget, the proposed budgetary allocation between the survey participants and the operationalisation of the scope of work will be made by survey participants within the framework of the overall programme of work and budget prepared by the Education Policy Committee.

With the agreement of the Education Policy Committee, the Group may organise meetings outside OECD Headquarters at the request of an OECD member country on the basis of a reasoned request from its Permanent Representative. The host country will accept responsibility for additional direct and indirect expenditures related to the meeting so that it is no more expensive for the Organisation than it would have been if held at OECD Headquarters.

The Group shall provide regular reports to the Education Policy Committee for monitoring the progress and quality of outputs.

### **Relationship with other bodies**

The Group shall maintain close working relationships with other relevant bodies of the Organisation. The Group shall co-operate with other international and regional organisations active in this field. It may consult with non-governmental bodies as and when necessary.

### **Evaluation**

An evaluation exercise will be conducted prior to the end of the mandate period by the Education Policy Committee to monitor the progress and quality of outputs. The extent and format of the evaluation will be decided by the Education Policy Committee. The evaluation will be conducted within the framework of the recommendations of the Council Evaluation Sub-Group.

### **Duration**

This mandate shall enter into force immediately and shall expire on 31 December 2011, unless the Education Policy Committee decides otherwise.”

#### **“Mission**

In support of the mandate of the Education Policy Committee, the INES Working Party will monitor, oversee and coordinate statistical work as well as the development of indicators and quantitative analyses needed to meet the requirements and priorities of the Education Policy Committee. The INES Working Party will be in charge of all statistical and indicators-related work except those areas that are managed by the Boards of Participating Countries listed below. More specifically, in developing its work programme the INES Working Party will:

- Work with the OECD Secretariat to ensure compliance with the policy objectives and design parameters of the respective data collection programmes as established by the Education Policy Committee.
- Manage the implementation of data collections necessary to support the consolidation and development of indicators, notably the UNESCO/OECD/EU data collection on education systems (in collaboration with UNESCO and Eurostat).
- Set priorities and standards for data development, analysis and reporting and, in particular, establish common data standards and methodologies and advice on all technical matters regarding indicator methodologies, and consolidate indicator methodologies and review proposals for new indicators in areas agreed by the Education Policy Committee.
- Assure the quality and timeliness of output results, activities and projects and assess data and indicator comparability and establish plans for achieving improvements through the expert groups where necessary.

---

\* Replaces the INES National Co-ordinators and the INES Technical Group.

- Disseminate its policy advice, analysis, research and data to a wide range of stakeholders in member and non-member economies and, in particular, review indicator material in preparation for its publication in *Education at a Glance* and sign off on national data publications and the use of national data in *Education at a Glance*.

## **Membership**

The Working Party is open to OECD member countries. Observers to the Education Policy Committee may be observers to the Working Party.

Other non-member economies may be invited as observers, in line with the global relations strategies of the Education Policy Committee as approved by the OECD Council. Invitations to and participation of non-Members in the work of the Working Party will be considered by the Education Policy Committee in accordance with Council Resolutions C(2004)132/FINAL and C(2006)78/FINAL.

UNESCO may also attend meetings of the Group as an observer.

Member governments and non-member economies should wherever possible appoint experts in the development and analysis of internationally comparable educational data and indicators.

## **Working methods**

The Working Party will elect its chair and vice chairs, whose annual term of office may be renewed up to six times, and will devise appropriate working methods.

The Working Party may, within its agreed resource envelope as part of the PWB process, create sub-groups to assist it in its tasks.

The Working Party shall provide regular reports to the Education Policy Committee to allow the latter to monitor the progress, quality and timeliness of outputs.

## **Relationship with other bodies**

The Working Party shall maintain close working relationships with other relevant bodies of the Organisation, in particular, the other education bodies, the Employment, Labour and Social Affairs Committee and the Group of National Experts on Science and Technology Indicators. The Working Party shall co-operate with other international and regional organisations active in this field. It may consult with non-governmental bodies as and when necessary.

## **Evaluation**

An evaluation exercise will be conducted prior to the end of the mandate period by the Education Policy Committee. The extent and format of the evaluation will be decided by the Education Policy Committee. The evaluation will be conducted within the framework of the recommendations of the Council Evaluation Sub-Group.

## **Duration**

This mandate shall remain in force until 31 December 2011, unless the Education Policy Committee decides otherwise."

**“Mission:**

In support of the mandate of the Education Policy Committee, and reporting to the INES Working Party, the INES Network on System Level Indicators should seek to deliver the system-level information on the functioning of education systems that are required by the Education Policy Committee (and other education bodies). More specifically, the INES Network on System Level Indicators will:

- In agreement with the INES Working Party, establish its Programme of Work to deliver the information requirements identified by the Education Policy Committee.
- Use the research and development capacity of the Network to explore relevant areas for indicator development in keeping with the wider education programme of work.
- Design data collection instruments and guidance that can deliver the information needs specified in agreement with the INES Working Party. These should be annual, cyclical or, on occasion, specific ad-hoc data collections that could become cyclical with further development. Data collections would be designed having regard to existing comparative information available from other sources and giving consideration to how variation in the data at the sub-national level should be handled in the data collection and presentation of the results.
- Operationalise the agreed data collections, putting in place quality assurance mechanisms and data cleaning procedures necessary to deliver internationally comparable data and indicators.
- Collate, review and summarise the results from the cross-country comparisons, identifying trends and patterns among countries.

The Network will operationalise a Programme of Work to develop internationally comparable indicators of system levels features, policies and practices which addresses the areas agreed with the INES Working Party. The Network will provide annual reports to the INES Working party to facilitate their managerial and technical oversight.

### **Operationalising the Network's Programme of Work**

It is important to recognise the research and development function of the Network. The Programme of Work and the resourcing of the Network should therefore adequately reflect this.

Having regard to this research and development capacity, the Network will operationalise a Programme of Work to develop internationally comparable indicators of system levels features, policies and practices which addresses the areas agreed with the INES Working Party. The areas for which system level data and indicators should be developed may either be commissioned from other Education bodies (in particular the BPCs of TALIS and PIAAC and the PISA Governing Board but possibly also in support of other Education programme of work activities) or, equally they could be proposed by the Network itself in line with the overall programme of work and budget for education.

In either case, the INES Working Party would have the responsibility for agreeing that the proposed activities are in keeping with the agreed overall programme of work. In the case of commissions from other bodies, these should be channelled via the INES Working Party to ensure coherence with the other INES data collections and to prevent the Network's activities becoming overloaded.

The INES Working Party will have technical oversight of all of the Network's statistical and indicator-related work, from data specification, through data collection, data cleaning and analysis and reporting. The INES Working Party will therefore need to be satisfied that the methods and definitions are robust and coherent with other INES data. The Network will provide such reports to the INES Working Party that facilitate this technical oversight.

### **Coordination of the Network data collection**

Depending on how the Network Secretariat work is organised, the Network data collection could either be managed and implemented by the Network Secretariat or by the OECD Secretariat. This would include preparing the annual questionnaires, distributing them to countries, data cleaning, and then preparing the data in presentable forms.

Organising this through the Network Secretariat would have the advantage of greater ownership among countries and has proved valuable in the past. On the other hand, if the OECD Secretariat took this role, this would assist in maintaining quality control and common standards across INES data collections. Given that the OECD Secretariat produces Education at a Glance, efficiency gains could also be realised with greater synergies between data collection, quality control procedures and the on-going development and production of Education at a Glance.

Under either scenario, the OECD Secretariat would also work with the Network Secretariat to ensure effective quality control procedures are implemented to continually improve the data collections of the Network.

The OECD Secretariat would also assist in the operations of the Network. This would include an active participation in Network meetings to assist the Network in the quality-control of existing and new data collections and in its liaisons with the INES Working Party.

### **Country participation**

The success of INES has relied on active country participation and this will be true of the new Network also. Corresponding to the activities, scope and ways of working of the Network, it is envisaged that country participation in the Network would entail:

- completing the annual Network questionnaires in the required timeline;

- reviewing quality-control issues of the data collection for discussion within the Network;
- active participation at Network meetings that could include the contribution of occasional papers;
- participation in specific sub-groups to help develop new system level indicators; and
- participation in pilot studies for new indicator development.

In return, participating countries will have their questionnaire data processed and indicators compiled for publication in *Education at a Glance*, subject to their review.

All OECD member countries may attend Network meetings but decisions concerning the operationalisation of the Network's activities and the expenditure of the budget will be made by those countries making voluntary contributions in support of the Network.

### **Frequency of meetings**

The frequency of meetings would be decided by the Network. The INES Network C has traditionally met on a biannual basis but the creation of the new Network provides an opportunity to review this, giving consideration to the cost-benefit of holding full meetings of the Network. A single two-and-a-half day meeting per year, probably in June would permit the Network to review the previous year's data collection and to prepare for the next data collection, giving sufficient time for the development of material for new indicators. A typical sequence might be:

- In keeping with the agreed programme of work, a proposal for a new indicator would be prepared for discussion at the meeting in June.
- Following these discussions, further work would be undertaken to prepare and undertake a pilot data collection.
- Drawing on the outcomes of the pilot, a revised proposal would be prepared for the next June meeting with intention of including it in the September data collection of that year.

In between the annual meetings, sub-groups of experts who are tasked to take forward the development work could either meet in person or communicate electronically, as necessary.

### **Country representation**

Given the potential breadth of the issues that system-level indicators might cover, it will be difficult for countries to field a single expert capable of covering all of these. Instead, what could be envisaged is each country nominating a permanent representative of the Network who could act as coordinator for the Network for their country as well as bringing their own area of expertise to the group. It would be their responsibility to identify appropriate national experts to help in the data and indicator development at the national and international level, according to the Network's Programme of Work. Such experts could attend the Network meetings as required by the agendas of the meetings."

**“Mission:**

In support of the mandate of the Education Policy Committee, and reporting to the INES Working Party, the INES Network on labour market and social outcomes of education should develop and deliver information on labour market and social outcomes of education that are required by the Education Policy Committee. More specifically, the INES Network on labour-market and social outcomes will:

- In agreement with the INES Working Party, establish its Programme of Work to deliver the information requirements identified by the Education Policy Committee.
- Monitoring existing data collections by ensuring reliability and integrity of the data collected. Develop new data collections and improve upon existing data collections to enhance the quality and policy relevance of the networks data gathering efforts. These should be annual, cyclical or, on occasion, specific ad-hoc data collections that could become annual collections with further development.
- Conduct research and feasibility studies for potential new data collections and perform pilot studies and design data collection instruments that can deliver the information needs specified in agreement with the INES Working Party. Operationalise agreed data collections, putting in place quality assurance mechanisms and data cleaning procedures necessary to deliver internationally comparable data and indicators.
- Collate, review, analyse, and summarise the results from the cross-country comparisons, identifying trends and patterns among countries. Based on this analytical work, suggest specific indicators for inclusion in Education at a Glance and occasionally write more substantive reports on certain policy relevant topics within the Network’s domain.

- Support developments related to the Programme for International Assessment of Adult Competencies (PIAAC), assist PIAAC through the Network's own data collections, and support PIAAC by providing input to the analytical work of the data collected in this survey.

### **Operationalising the Network's Programme of Work**

It is important to recognise the research and development function of the Network and the large scale nature of the Network's data collections. The Programme of Work and the resourcing of the Network should therefore adequately reflect this.

Having regard to this research and development capacity, the Network will compose a Programme of Work to develop internationally comparable indicators on labour market and social outcomes which addresses the areas agreed with the INES Working Party. The areas for which research and indicators should be developed may either be proposed by INES Working Party, by other Education bodies (most notably the PIAAC Board of Participating Countries and CERI Governing Board) or, equally they could be proposed by the Network itself.

The INES Working Party will have technical oversight over all of the Network's statistical and indicator-related work. The INES Working Party will therefore need to be satisfied that the methods and definitions are robust and coherent with other INES data. The Network will provide such reports to the INES Working Party that facilitate this technical oversight.

### **Coordination of the Network's data collections**

The current vehicles for supplying Education at a Glance with information are the NEAC (National Education Attainment Classification) data collection which provides data on attainment levels and labour market outcome indicators, the TRANS data collection which provides information to the youth transition indicator and the earnings data collections which supply data to the economic outcomes indicators. These data collections provide data to Education at a Glance on an annual basis. The NEAC and TRANS data collections are currently managed through the OECD secretariat and the earnings data collection is managed by Statistics Sweden and financed by Swedish funds through the Network B secretariat. Under the new proposal of the Working Party, these annual data collections will be funded through the core INES work programme.

Data collections on adult learning are generally conducted with longer time intervals. The Network frequently engages in policy relevant one-off data collections. The more ad hoc data collections are foreseen to continue to be an important component in the Network's future work as it provides a good testing ground for collections that could become annual collections with further development. The common denominator of the Network's data collections are the basic source of the information, the national labour or household surveys.

Depending on how the Network Secretariat work is organised, the Network's data collection could either be managed and implemented by the Network Secretariat, by an external contractor or by the OECD Secretariat. This would include preparing the annual questionnaires, distributing them to countries, data cleaning, and then preparing the data in presentable forms.

Organising this through the Network Secretariat would have the advantage of greater ownership among countries and has proved valuable in the past. On the other hand, if the OECD Secretariat took this role, this would assist in maintaining quality control and common standards across INES data collections. Given that the OECD Secretariat produces Education at a Glance, efficiency gains could also be realised with greater synergies between data collection, quality control procedures and the on-going development and production of Education at a Glance.

There might also be a middle way in which certain data collections are managed by the OECD Secretariat and other data collections by the Network Secretariat as is currently the case. A potential division of labour that could prove efficient would be to manage the more established annual data collections through the OECD Secretariat and less frequent, ad-hoc, and data collections on a more developmental stage through the Network Secretariat. Under either scenarios,

the OECD Secretariat would also work with the Network Secretariat to ensure effective quality control procedures are implemented to continually improve the data collections of the Network.

The OECD Secretariat would also assist in the operations of the Network. This would include an active participation in Network meetings, providing input to new developments and analyses, assisting the Network in the quality-control of existing and new data collections and in its liaisons with the INES Working Party.

### **Country participation**

The success of INES has relied on active country participation and this is a key to the success in the future. It is thus important that individuals in the Network both have knowledge of national data sources and an interest and engagement in the Network's work. The INES Network B has traditionally met twice a year with discussions on developmental work in the spring and discussions on implementation of surveys and long-term strategies in the autumn. Corresponding to the activities, scope and ways of working of the Network, it is envisaged that country participation in the Network would entail:

- completing the annual Network questionnaires in the required timeline;
- reviewing quality-control issues of the data collection for discussion within the Network;
- active participation at Network meetings that could include the contribution of occasional papers;
- participation in specific working groups to help develop new indicators; and
- participation in cyclical and ad-hoc questionnaires, and pilot studies for new indicator development.

In return, participating countries will have their questionnaire data processed and indicators compiled for publication in *Education at a Glance*, subject to their review.

All OECD member countries may attend Network meetings but decisions concerning the operationalisation of the Network's activities and the expenditure of the budget will be made by those countries making voluntary contributions in support of the Network.

### **Membership**

The Network is open to all OECD member countries.

Observers to the Education Policy Committee may be observers to the Network. UNESCO may also attend meetings of the Network as an observer. The Network may recommend the participation of additional observers in its work, in line with the respective global relations strategies of the Education Policy Committee as approved by the OECD Council, via the INES Working Party to the Education Policy Committee, which will submit these requests, if approved and as appropriate, to the OECD Council."

### **“Task**

Within the framework of the priorities set for the development of statistics by the OECD Council and the strategic priorities set by the Education Policy Committee, the INES Advisory Group will advise the Education Policy Committee on work on OECD data and indicators of education with a view to informing and assisting its decision-making processes in this field.

The Group will prepare the deliberations of the Education Policy Committee on INES. Specific responsibilities of the Group include: monitoring the outputs, structures and working arrangements of INES as a basis for the formulation of advice to ensure that the INES programme of work is well managed and effectively prioritised within the resources available; providing advice to the Education Policy Committee with respect to the acceptability of proposals advanced by the

INES Working Party and Boards of Participating Countries; and providing means of horizontal co-ordination of the INES-related work between the INES bodies and other education bodies.

### **Membership**

The Advisory Board will be composed of:

- Four members designated by the Education Policy Committee from among its members, for a period of two years, renewable up to three terms,
- Two members designated by the CERI Governing Board from among its members, for a period of two years, renewable up to three terms
- One member designated by the Employment, Labour and Social Affairs Committee from among its members,
- One member designated by the PISA Governing Board from among its members and one by each of the Boards of Participating Countries for large education surveys from among their members,
- One member designated by the Working Party of National Experts on Science and Technology Indicators (NESTI), and
- One member designated by the INES Working Party.

Delegates to the Education Policy Committee may attend meetings of the Advisory Group.

The Group may invite experts to its meetings to give advice on technical matters.

### **Working methods**

The Education Policy Committee will devise appropriate working methods for the Group, which shall provide regular reports to the Education Policy Committee, the CERI Governing Board and the PISA Governing Board.

### **Relationship with other bodies**

The Group shall maintain close working relationships with other relevant bodies of the Organisation, in particular, the Employment, Labour and Social Affairs Committee and the Group of National Experts on Science and Technology Indicators. They will ensure that appropriate linkages are made between the indicators and data programme of work of the Education Policy Committee and the Programme for International Student Assessment (PISA).

### **Evaluation**

An evaluation exercise will be conducted prior to the end of the mandate period by the Education Policy Committee. The extent and format of the evaluation will be decided by the Education Policy Committee. The evaluation will be conducted within the framework of the recommendations of the Council Evaluation Sub-Group.

### **Duration**

This mandate shall remain in force until 31 December 2011, unless the Education Policy Committee decides otherwise."

THE COUNCIL,

Having regard to the Convention on the Organisation for Economic Co-operation and Development of 14 December 1960, and, in particular, Articles 5 a), 9 and 12 thereof;

Having regard to the Rules of Procedure of the Organisation;

Having regard to the Financial Regulations and the Financial Rules of the Organisation;

Having regard to the Resolution of the Council on a New Governance Structure for the Organisation [C(2006)78/FINAL];

Having regard to the Main Principles Guiding the Governance Structure of the OECD Education Bodies [EDU(2006)8/ANN3/REV1], in particular, relative to the global coherence of OECD work on education, and the mandates of the other education bodies;

Having regard to the mandate of the Employment, Labour and Social Affairs Committee and the Education Policy Committee;

Having regard to the proposals set out in the Note by the Secretary-General concerning the creation of a Part II Programme and a Board of Participating Countries for the Programme for the International Assessment of Adult Competencies (PIAAC) [C(2007)62/REV3];

DECIDES:

The Programme for the International Assessment of Adult Competencies (PIAAC) is hereby created with the following mandate:

### **Mission**

1. The Council shall, for the period of 1 January 2008 to 31 December 2011, create a Programme for the International Assessment of Adult Competencies (PIAAC). The work of PIAAC reflects and complements the priorities of the OECD as a whole, in improving living standards and promoting sustainable development and social cohesion through good governance. It contributes to fulfilling the Directorate for Education and the Directorate for Employment, Labour and Social Affairs missions of facilitating high-quality lifelong learning for all that contributes to personal development and sustainable economic growth, as well as fostering the conditions leading to more and better jobs and a more socially inclusive society. It is carried out within the framework of the Main Principles Guiding the Governance Structure of the OECD Education Bodies [EDU(2006)8/ANN3/REV1], and with due regard to the mandates of the other education bodies and the mandate of the Employment, Labour and Social Affairs Committee.

2. A multi-cycle programme of assessment, PIAAC will survey a representative sample of the adult population in each participating country in the assessment in a household context, in order to assess key competencies and their utilisation in the work place. The assessment will focus on literacy, which previous national and international assessments have shown to be essential for participation in modern societies, as well as on other generic work skills. PIAAC will extend the traditional concept of literacy by adapting it to competency requirements in the information age and will also break new ground by assessing other key generic skills required in the workplace. PIAAC will also survey other important social and labour-market outcomes and collect contextual data with the aim of facilitating policy-relevant analyses. The objectives of PIAAC are four-fold:

- Identify and measure differences between individuals and across countries in key competencies believed to both underlie personal success and respond to labour market requirements.
- Assess the impact of competencies on a range of economic and social outcomes.
- Assess the performance of education and training systems, workplace practices as well as labour market policies, in generating competencies at the levels required by social and economic demands.
- Help identify policy levers to reduce "deficiencies" in key competencies.

### **Participation**

3. Participation in PIAAC is open to Member countries. Invitations to and participation of non-Members in the work of PIAAC will be considered by the Board of Participating Countries in accordance with Council Resolutions C(2004)132/FINAL and C(2006)78/FINAL.

## **Board of Participating Countries**

4. In support of the mandates of the Education Policy Committee and the Employment, Labour and Social Affairs Committee, the Board of Participating Countries shall oversee PIAAC. The Board of Participating Countries shall, in particular:

- Recommend the policy priorities for PIAAC to the Education Policy Committee and the Employment, Labour and Social Affairs Committee and oversee adherence to these priorities during implementation. This includes the setting of priorities and standards for data development, analysis and reporting as well as the determination of the scope of work that will then form the basis for the implementation of PIAAC.
- Develop a draft work programme and budget and cost elements of a scale of contributions.
- Prioritise its activities and outputs in consultation with the Employment, Labour and Social Affairs Committee and the Education Policy Committee.
- Monitor the quality and timeliness of output results, activities and projects.
- Disseminate policy advice, analysis, research and data to a wide range of stakeholders in Member and non-Member countries.
- Evaluate the outcomes of the work.

5. The Board is open to countries participating in the assessment. The European Commission shall participate in accordance with the provisions of Article 13 of the Convention and Supplementary Protocol No. 1 to the Convention. The International Labour Office, the World Bank and UNESCO may attend meetings of the Board as observers. Representatives of the Business and Industry Advisory Committee (BIAC) and the Trade Union Advisory Committee (TUAC) may attend meetings of the Board as experts.

6. Governments should, whenever possible, appoint representatives to the Board of Participating Countries who are knowledgeable about large-scale survey assessments and their interface with educational and employment policy and practice.

7. The Board of Participating Countries may organise its meetings outside OECD Headquarters on the basis of a reasoned request from a Permanent Representative on behalf of a member of the Board. The host will accept responsibility for additional direct and indirect expenditures related to the meeting so that it is no more expensive for the Organisation than it would have been if held at OECD Headquarters.

### **Working methods and relationship with the Education Policy Committee and the Employment, Labour and Social Affairs Committee**

8. The Board of Participating Countries will seek strategic guidance on policy priorities, the programme of work and budget from the Education Policy Committee and the Employment, Labour and Social Affairs Committee.

9. The Board shall provide regular reports to the Education Policy Committee and the Employment, Labour and Social Affairs Committee on the implementation of its programme of work.

10. All decisions relating to the modalities for the participation in the assessment exercise, the operations of the Board of Participating Countries, the elements to be included in calculating the floor contribution for the scale of contributions, changes to project design and structure as well as the frequency of successive PIAAC surveys will be adopted by consensus of the members of the Board of Participating Countries. For other decisions, not specifically provided for in this mandate, the Board will tailor its working methods to its own needs, as provided by Council Resolution C(2006)78/FINAL.

## **Budget of the Programme**

11. The programme of work, scale of contributions and budget of the Programme shall be agreed by the Budget Committee before transmission to Council for final approval.

12. The expenditure of the Programme shall be charged against the appropriations authorised for it under a Part II Chapter of the Budget of the Organisation.

13. The scale of contributions will be composed of:

- the distribution of the costs of the core of the assessment, consisting of a floor contribution, to be determined by the Board of Participating Countries, and the remainder of costs to be assigned to members and full participants on the basis of the OECD principles and rules for determining the scales of contributions by Members other than for Part I of the Budget of the Organisation\*, using as input statistics the national income data and exchange rates used in the calculation of scales for the previous year, and
- the distribution of the costs of each option to be shared only by those members and full participants who participate in that particular option, on the basis of the OECD principles and rules for determining the scales of contributions by Members other than for Part I of the Budget of the Organisation,\* using as input statistics the national income data and exchange rates used in the calculation of scales for the previous year.'

14. In order to allow participating countries to contribute stable amounts for PIAAC over successive years, appropriations, for which no commitment has been entered into before the end of the Financial Year for which they were appropriated shall be automatically carried forward to the budget for the ensuing year by decision of the Secretary-General, notwithstanding the provisions of Articles 14 and 15 of the Financial Regulations of the Organisation.

### **Relationship with other bodies**

15. The Board of Participating Countries shall also maintain close working relationships with other relevant bodies of the Organisation working on issues related to assessment, educational, training and employment outcomes, as well productivity and economic growth, in particular the Governing Board of the Centre for Educational Research and Innovation and the Committee for Industry, Innovation and Entrepreneurship. The Board of Participating Countries shall co-operate with other international and regional organisations active in its field of competencies. It may consult with non-governmental bodies after receiving advice from the Education Policy Committee and the Employment, Labour and Social Affairs Committee.

### **Evaluation**

16. As part of the OECD in-depth evaluation process, an evaluation exercise will be conducted prior to the end of the mandate period by the Education Policy Committee and the Employment, Labour and Social Affairs Committee.

### **Duration**

17. This mandate shall enter into force on 1 January 2008 and shall expire on 31 December 2011, unless the Council decides otherwise."

---

\* In the event of a withdrawal of a participating country from PIAAC, the limit on the year on year increase of member contributions will not apply in the year in which that country is first removed from the calculation of the scale of contributions.

### Resolution of the Council [C(2008)204 and C/M(2009)1, item 6]

“THE COUNCIL,

Having regard to the Convention on the Organisation for Economic Co-operation and Development of 14 December 1960, and, in particular, Articles 5 a), 9 and 12 thereof;

Having regard to the Rules of Procedure of the Organisation;

Having regard to the Financial Regulations of the Organisation;

Having regard to the Decision of the Council of 12 July 1984 on Management of Activities in the Field of Educational Building [C(84)61(Final)], now referred to as the Programme on Education Building (PEB), as last renewed by Council on 14 December 2006 [C(2006)173 and C/M(2006)20, Item 265];

Having regard to the mandates of other governing bodies in the field of Education, in particular of the Education Policy Committee, and to the **Main Principles Guiding the Governance Structure of the OECD Education Bodies** [EDU(2006)8/ANN3/REV1];

Having regard to the Proposal to transform the Programme on Educational Building (PEB) into a Centre for Effective Learning Environments (CELE) [C(2008)204];

Considering that members and associate members participating in the Programme on Educational Building have agreed to pursue their co-operation;

---

\* This body replaces the Programme for Educational Facilities Governing Board.

## DECIDES:

The Programme on Educational Building (PEB) is transformed into the Centre for Effective Learning Environments (hereinafter “the CELE”) with the following mandate:

### **Mission**

The CELE will assist its members to improve the educational and operational effectiveness of educational infrastructure, for all education levels and programmes. Specifically, it seeks to inform and advise countries on how to maximise the benefit of their investment in educational facilities and equipment through effective planning, design, construction, management and evaluation.

### **Participation**

Participation in CELE is open to Member countries and non-Member economies, as recommended by its Board of Participants. In addition, government agencies, sub-national authorities, research agencies, non-government organisations and professional associations with an interest in educational facility issues are eligible to join CELE as Associate Participants.

### **Budget of CELE**

The expenditure of CELE shall be charged against the appropriations authorised for it under a Part II Chapter of the Budget of the Organisation.

Notwithstanding the provisions of Regulation 10 of the Financial Regulations of the Organisation, appropriations, for which no commitment has been entered into before the end of the Financial Year for which they were appropriated, and surplus income shall be automatically carried forward to the budget for the ensuing year by decision of the Secretary General.

### **Board of Participants**

In support of the mandate of the Education Policy Committee (EDPC) and as a subsidiary body to that Committee, the Board of Participants (BP) shall be concerned with all matters in the field of competence of CELE.

Associate Participants may take part in the Board of Participants as observers in accordance with criteria established by the BP.

The BP:

- Develops and approves CELE's draft programme of work, scale of contributions and budget, taking into account the Directorate for Education's medium-term strategy;
- Prioritises its activities and outputs in consultation with other governing and subsidiary Education bodies;
- Monitors the quality and timeliness of output results, activities and projects;
- Disseminates its policy advice, analysis, research and data to a wide range of stakeholders in Member countries and non-Member economies;
- Evaluates the outcomes of the work;
- Seeks the guidance of relevant governing and subsidiary Education bodies, and the approval of the EDPC, for recommendations with major policy implications and for decisions to launch major new activities with significant financial implications for OECD Members.

**Working methods**

The BP will seek strategic guidance on policy priorities, the programme of work and budget from the EDPC.

The BP shall report to the EDPC.

**Relationship with other bodies**

In line with the OECD Horizontal Work Programme, the BP shall maintain close working relationships with other bodies in the Organisation working on issues relevant to its work. The BP shall co-operate with bodies outside the OECD, when necessary.

**Duration**

This Resolution shall enter into force on 1 January 2009 and shall expire on 31 December 2011.”

Resolution of the Council [C(2006)173, Annex III]

RESOLUTION OF THE COUNCIL CONCERNING THE MANDATE OF THE CENTRE FOR  
EDUCATIONAL RESEARCH AND INNOVATION

“THE COUNCIL,

Having regard to the Convention on the Organisation for Economic Co-operation and Development of 14 December 1960, and, in particular, Articles 2b), 5a), 9 and 12 thereof;

Having regard to the Rules of Procedure of the Organisation;

Having regard to the Financial Regulations and the Financial Rules of the Organisation;

Having regard to the Decision of the Council of 24 July 1981 concerning a Programme on Educational Research and innovation [C(81)53(Final)] as last renewed by Council on 26 July 2001 [C/M(2001)16/FINAL];

Having regard to the proposals set out in the Note by the Secretary-General concerning the renewal of the mandates of the Education Policy Committee, the Centre for Educational Research and Innovation (CERI), the Programme on Institutional Management of Higher Education (IMHE), the Programme on Educational Building (PEB) and the Programme on International Student Assessment (PISA) [C(2006)173];

DECIDES:

The Centre for Educational Research and Innovation is hereby renewed with the following mandate:

**Mission**

The Council shall, for a period of five years as from 1st January 2007, renew the mandate of the Centre for Educational Research and Innovation (hereinafter referred to as “the Centre”) within the framework of the OECD programme of work and budget. The work of the Centre reflects and complements the priorities of OECD member countries as a whole in providing education and training opportunities for all. It contributes to fulfilling the Directorate for Education’s mission of assisting members and partner countries to achieve high quality lifelong learning for all that contributes to personal development, sustainable economic growth and social cohesion. It is carried out within the framework of the Main Principles Guiding the Governance Structure of the OECD Education Bodies [EDU(2006)8/ANN3/REV1] and with due regard to the mandates of the other education bodies.

The main objectives of the Centre shall be to:

- Provide and promote international comparative research, innovation and key indicators on current and emerging education and learning issues, and their links to other sectors of policy.
- Explore forward-looking and coherent approaches to education and learning in the context of national and international cultural, social and economic change.
- Facilitate practical co-operation among member countries and, where relevant, with non-member economies, in order to seek solutions and exchange views on educational problems of common interest.

**Membership**

Participation in CERI will be open to all OECD member countries. Non-member economies may become full participants or regular observers if recommended by the Governing Board in the framework of its global relations strategy and approved by the OECD Council.

**The Governing Board of the Centre**

The Governing Board shall be concerned with all matters in the field of competence of the Centre including those of any subsidiary bodies. Having regard to the mandate of the Education

Policy Committee and the Main Principles Guiding the Governance Structure of the OECD Education Bodies, the Governing Board:

- Develops its work programme and budget taking into account the medium-term strategy developed by the Education Policy Committee.
- Prioritises its activities and outputs in consultation with the Education Policy Committee.
- Monitors the quality and timeliness of output results, activities and projects.
- Disseminates its policy advice and analysis, research and data to a wide range of stakeholders in member and non-member economies.
- Evaluates the outcomes of the Centre's work.
- Seeks the guidance of the Education Policy Committee for recommendations with major policy implications and for decisions to launch major new activities with significant financial implications for OECD members.

The Governing Board shall be composed of one national expert in the field of competence of the Centre from each of the Centre's participants. Experts shall be proposed by the participants, and should have senior standing and expertise in the field of educational research or innovation, with appropriate policy links. The Secretary General shall forward proposals for membership of the Governing Board to the Council for approval. The Council shall appoint the members for the duration of the Governing Board mandate or until the participant proposes an alternative expert for nomination in accordance with the foregoing procedure.

Participants in which the competence on education matters are shared between different levels of authority, may propose one additional national expert. These nominations will be reviewed by the Chair and Vice-Chairs and, if approved, will be submitted to Council in accordance with the foregoing procedure.

Representatives of OECD member countries may attend meetings of the Governing Board. The Chair or a Vice-Chair of the Education Policy Committee and the Governing Boards of the Programme on Institutional Management in Higher Education, the Programme on Educational Building and the Programme for International Student Assessment may attend meetings of the Governing Board *ex officio*. The Governing Board may invite experts on an *ad hoc* basis to attend its meetings as appropriate.

### **Budget of the Centre**

The expenditure of the Centre shall be charged against the appropriations authorised for it under Part II of the Budget of the Organisation.

Notwithstanding the provisions of Articles 14 and 15 of the Financial Regulations of the Organisation, appropriations, for which no commitment has been entered into before the end of the Financial Year for which they were appropriated and surplus publications income shall be automatically carried forward to the budget for the ensuing year by decision of the Secretary General.

### **Relationship with other bodies**

The Governing Board shall maintain close working relationships with other relevant bodies of the Organisation working on issues that affect the development and implementation of educational research and innovation and have implications for other policy areas. The Governing Board shall co-operate with other international and regional organisations active in its field of competence. It may consult with non-governmental bodies as and when necessary.

### **Duration**

This mandate shall enter into force on 1 January 2007 and shall expire on 31 December 2011, unless the Council decides otherwise."

Resolution of the Council [C(2008)198/REV1; C/M(2008)21 item 306 & C(2008)198/REV1]

“THE COUNCIL,

Having regard to the Convention on the Organisation for Economic Co-operation and Development of 14 December 1960, and, in particular, Articles 5 a), 9 and 12 thereof;

Having regard to the Rules of Procedure of the Organisation;

Having regard to the Financial Regulations and the Financial Rules of the Organisation;

Having regard to the Decision of the Council of 20 July 1976 concerning a Decentralised Project on Institutional Management in Higher Education [C(76)75(Final)], as last renewed by Council on 26 July 2001 [C/M(2001)16/FINAL];

Considering that members participating in the Institutional Management in Higher Education have agreed to pursue their co-operation

DECIDES:

The Programme on Institutional Management in Higher Education is hereby renewed with the following mandate:

### **Mission**

The Council shall, for a period of three years as from 1st January 2009, renew the Programme on Institutional Management in Higher Education (IMHE). The work of IMHE reflects and complements the priorities of the OECD as a whole, in promoting sustainable development and social cohesion through good governance. It contributes to fulfilling the Directorate for Education's mission of assisting members and partners to achieve high quality lifelong learning for all that contributes to personal development, sustainable economic growth and social cohesion. It is carried out within the framework of the *Main Principles Guiding the Governance Structure of the OECD Education Bodies* [EDU(2006)8/ANN3/REV1] and with due regard to the mandates of the other education bodies.

The specific objectives of IMHE are:

- To contribute to the improvement of higher education through the strengthening of institutional governance and management. It does this by assisting its participants - including higher education institutions, ministries and agencies - collectively and individually, to understand the social and political environment in which they operate and to meet more effectively their organisational objectives - including high quality research, effective teaching, and contributing to social and economic development.
- To analyse the governance and strategic management of higher education institutions and the development of their role in society. This includes the analysis of policy development and institutional practice and makes use of OECD data and indicators as well as case-studies and the experience of participants.

### **Participation in the Programme**

Participation in the Programme is open to government departments, higher education institutions and other organisations involved in higher education in member countries and non-member economies in line with the global relations strategy of the Programme. Requests for participation from non-member economies, higher education institutions and other organisations are approved by the Governing Board in accordance with criteria established by it.

### **Governing Board**

Participants in each member country will, together, elect one or two representatives to the Governing Board subject to a procedure approved by the Governing Board. Participants from

non-member economies may participate in the Governing Board, either as full participants or observers, as decided by the Governing Board.\*

The Governing Board shall be concerned with all matters in the field of competence of the Programme, including those of any subsidiary bodies. Having regard to the mandate of the Education Policy Committee and the **Main Principles Guiding the Governance Structure of the OECD Education Bodies**, the Governing Board:

- Develops and approves its draft work programme, its draft budget, and the annual amount to be contributed by participants taking into account the medium-term strategy developed by the Education Policy Committee;
- Prioritises its activities and outputs in consultation with the Education Policy Committee;
- Monitors the quality and timeliness of output results, activities and projects;
- Disseminates its policy advice, policy analysis, and research and data to a wide range of stakeholders in member and non-member economies;
- Evaluates the outcomes of the work;
- Seeks the guidance of the Education Policy Committee for recommendations with major policy implications and for decisions to launch major new activities with significant financial implications for OECD members.

The Governing Board may organise its meetings outside OECD Headquarters on the basis of a reasoned request of a participant to the Programme. The host will accept responsibility for additional direct and indirect expenditures related to the meeting so that it is no more expensive for the Organisation than it would have been if held at OECD Headquarters.

### **Budget of the Programme**

The programme of work and the budget of the Programme shall be examined by the Budget Committee, which shall address its comments to the Governing Board and shall refer to the Council any question that cannot be settled by agreement with the Governing Board. The budget shall be deemed to be adopted at the end of this procedure.

The expenditure of the Programme shall be charged against the appropriations authorised for it under a Part II Chapter of the Budget of the Organisation.

The Governing Board sets the annual amount to be contributed by each Programme participant.

Notwithstanding the provisions of the Financial Regulations of the Organisation, appropriations for which no commitment has been entered into before the end of the Financial Year for which they were appropriated and surplus income shall be automatically carried forward to the budget for the ensuing year by decision of the Secretary-General.

### **Relationship with other bodies**

The Governing Board and other relevant bodies of the Organisation shall maintain close working relationships on issues related to the improvement of higher education through the strengthening of institutional governance and management. The Governing Board shall co-operate with other international and regional organisations active in its field of competence. It may consult with non-governmental bodies as and when necessary.

### Resolution of the Council [C(2006)173, Annex VI, as amended by C(2009)175]

#### RESOLUTION OF THE COUNCIL CONCERNING THE MANDATE OF THE PROGRAMME FOR INTERNATIONAL STUDENT ASSESSMENT "THE COUNCIL,

Having regard to the Convention on the Organisation for Economic Co-operation and Development of 14 December 1960, and, in particular, Articles 5 a), 9 and 12 thereof;

Having regard to the Rules of Procedure of the Organisation;

Having regard to the Financial Regulations and the Financial Rules of the Organisation;

Having regard to the Decision of the Council of 26 September 1997 to establish a Decentralised Programme for Producing Indicators on Student Achievement on a Regular Basis [C(97)176/FINAL], now referred to as the Programme for International Student Assessment (PISA), as last renewed by Council on 26 July 2001 [C/M(2001)16/FINAL];

Having regard to the Resolution of the Council of 9 April 2004 on Harmonisation of Names of Part II Subsidiary Bodies Supported by the Directorate for Education [C(2004)72; C/M(2004)13];

Having regard to the proposals set out in the Note by the Secretary-General concerning the renewal of the mandates of the Education Policy Committee, the Centre for Educational Research and Innovation (CERI), the Programme on Institutional Management of Higher Education (IMHE), the Programme on Educational Building (PEB) and the Programme on International Student Assessment (PISA) [C(2006)173];

Considering that Member countries and Non-Member Economies participating in the Programme for International Student Assessment wish to pursue their co-operation;

DECIDES:

The Programme for International Student Assessment is hereby renewed with the following mandate:

## **The Programme for International Student Assessment**

The Council shall for a period of five years from 1 January 2007, renew the Programme for International Student Assessment (PISA). The work of PISA reflects and complements the priorities of the OECD as a whole, in promoting sustainable development and social cohesion through good governance. It contributes to fulfilling the Directorate for Education's mission of assisting members and partners to achieve high quality lifelong learning for all that contributes to personal development, sustainable economic growth and social cohesion. It is carried out with the framework of the *Main Principles Guiding the Governance Structure of the OECD Education Bodies* [EDU(2006)8/ANN3/REV1] and with due regard to the mandates of the other education bodies.

### **Mission**

Every three years, until the end of the current mandate, PISA implements and analyses internationally standardised assessments of student learning outcomes up to the end of compulsory education that extend to educational content in curricular and cross-curricular areas, as well as to learning processes, behaviours and attitudes. Within the overall OECD education work programme, PISA seeks to progressively enhance comparative policy insights on how to improve: the quality of learning outcomes; equity in learning opportunities; the effectiveness and efficiency of educational processes; and the impact of learning outcomes. The three-yearly implementation of the surveys also provides trend indicators that allow participants to monitor improvements in educational outcomes.

### **Membership**

Membership of PISA is open to member countries and non-member economies in line with the global relations strategy of the Programme.

### **Governing Board**

The Governing Board shall be concerned with all matters in the field of competence of the Programme including those of any subsidiary bodies. Having regard to the mandate of the Education Policy Committee and the *Main Principles Guiding the Governance Structure of the OECD Education Bodies*, the Governing Board, in particular,

- Determines the policy priorities for PISA and oversees adherence to these priorities during implementation. This includes the setting of priorities and standards for data development, analysis and reporting as well as the determination of the scope of work that will then form the basis for the implementation of PISA.
- Works with the OECD Secretariat to ensure compliance with the policy objectives and design parameters at milestones during implementation.
- Develops and approves its work programme and budget and cost elements of the scale of contributions, taking into account the medium-term strategy developed by the Education Policy Committee.
- Prioritises its activities and outputs in consultation with the Education Policy Committee.
- Monitors the quality and timeliness of output results, activities and projects.
- Disseminates its policy advice, analysis, research and data to a wide range of stakeholders in member and non-member countries.
- Evaluates the outcomes of the work.
- Seeks the guidance of the Education Policy Committee for recommendations with major policy implications and for decisions to launch major new activities with significant financial implications for OECD members.

Members of the Governing Board are deemed to speak on behalf of the government that they represent. Governments should, whenever possible, appoint representatives to the Governing Board who are knowledgeable about large-scale student assessments and their interface with educational policy and practice.

The Chair and Vice-Chairs of the Governing Board will be elected for a period of three years.

The Governing Board may invite non-members as full participants or observers to its meetings.

The Chair or a Vice-Chair of the Education Policy Committee and the Governing Boards of the Centre for Educational Research and Innovation, the Programme on Institutional Management of Higher Education and the Programme on Educational Building may attend meetings of the Governing Board, *ex officio*.

The Governing Board may organise its meetings or meeting of its subsidiary bodies outside OECD Headquarters on the basis of a reasoned request from a Permanent Representative on behalf of a member. The host will accept responsibility for additional direct and indirect expenditures related to the meeting so that it is no more expensive for the Organisation than it would have been if held at OECD Headquarters.

## **Decision-Making**

The PISA Governing Board shall seek the consensus in its deliberations and decisions. If unable to reach consensus, the matter will be brought to a vote and will be decided by a two-thirds majority of the Governing Board members. Notwithstanding this provision, decisions relating to the operation of the Governing Board, the elements to be included in calculating the floor contribution for the scale of contributions, changes to project design and structure as well as the frequency of successive PISA surveys will be adopted by consensus.

### **Budget of the Programme**

The programme of work, scale of contributions and budget of the Programme shall be examined by the Budget Committee which shall address its comments to the Governing Board and shall refer to the Council any question which cannot be settled by agreement with the Governing Board. The budget shall be deemed to be adopted at the end of this procedure.

The expenditure of the Programme shall be charged against the appropriations authorised for it under a Part II Chapter of the Budget of the Organisation. The Programme budget is not included in the OECD consolidated budget envelope.

The scale of contributions will be composed of a floor contribution, to be determined by the Governing Board, and the remainder of costs to be assigned to members and full participants on the basis of the OECD principles and rules for determining the scales of contributions by Members other than for Part I of the Budget of the Organisation\*, using as input statistics the national income data and exchange rates used in the calculation of scales for the previous year, subject to the following:

- Each member and full participant's contribution will be determined by the previous year's contribution in real terms plus an adjusted difference representing the difference between their contribution for the current year as calculated in accordance with the previous paragraph and the previous year's inflation adjusted contribution, adjusted so that :
  - no member's/full participant's contribution increases/decreases by reference to their contribution in the previous year by more than 5% in real terms, and

---

\* In the event of a withdrawal of a participating country from PISA, the limit on the year on year increase of member contributions will not apply in the year in which that country is first removed from the calculation of the scale of contributions.

- all members/full participants share the same percentage in the difference between their contribution for the current year as calculated in accordance with the previous paragraph and the previous year's contribution in real terms.

Notwithstanding the provisions of Articles 14 and 15 of the Financial Regulations of the Organisation, appropriations, for which no commitment has been entered into before the end of the Financial Year for which they were appropriated and surplus publications income shall be automatically carried forward to the budget for the ensuing year by decision of the Secretary-General.

#### **Relationship with other bodies**

The Governing Board shall maintain close working relationships with other relevant bodies of the Organisation working on issues related to educational assessment and outcomes. The Governing Board shall co-operate with other international and regional organisations active in its field of competence. It may consult with non-governmental bodies as and when necessary.

#### **Duration**

This mandate shall enter into force on 1 January 2007 and shall expire on 31 December 2011, unless the Council decides otherwise.”

Resolution of the Council [C(2008)126/REV1 and C/M(2008)18, item 245]

“THE COUNCIL

Having regard to the Convention on the Organisation for Economic Co-operation and Development of 14<sup>th</sup> December 1960, and, in particular, articles 1, 3, 5a) and 9 thereof;

Having regard to the Rules of Procedure of the Organisation and in particular Rule 18 a) iii);

Having regard to the Financial Rules of the Organisation;

Having regard to the Council's conclusions of 25 July 2002 on the *Structures of Committees and Multidisciplinarity: Recommendations* [C/M(2002)17];

Having regard to the recommendation contained in document C(2003)176, *Implementation of the Nicholson Report Recommendations* to convert the Meeting of Chief Statisticians into a Committee on Statistics;

Having regard to document C(2003)217 and its CORR1 on the Establishment of an OECD Committee on Statistics;

Having regard to document C(2008)126/REV1 on the renewal of the mandate of the Committee on Statistics;

Recognising that the creation of a Committee on Statistics would reinforce the overall coherence of OECD activities in this field;

Noting that, in this respect, a Committee on Statistics would be a key instrument to improve the overall quality of OECD statistics, reinforcing the co-operation both among countries, and between them and the Secretariat; to reinforce the role of the OECD in influencing the development of reliable and comparable statistics, both at national and international levels and to improve the dialogue between policy makers, analysts and data providers;

On the proposal of the Secretary General;

DECIDES:

#### **Article 1**

The Committee shall oversee the broad range of statistics and statistical policy issues relevant to the Organisation.

In carrying out its responsibilities it shall:

1. be responsible to Council for the statistical policy of the OECD, both within the Organisation and vis-à-vis the rest of the world;
2. ensure that OECD statistics are produced according to high quality standards;
3. oversee the Programme of Work and Budget of the Statistics Directorate;
4. give advice to other OECD committees and to OECD Directorates about their plans, highlighting gaps and challenges, and contributing to the development of an effective and well co-ordinated OECD Statistical Work Programme;
5. officially approve methodological recommendations elaborated on specific subjects, co-operating with other committees in charge of policy issues related to the latter, and promote their implementation;
6. approve common standards for data and metadata exchange between the OECD and national data providers;
7. take appropriate action on any other topics submitted by the OECD Chief Statistician and relevant for conducting his/her tasks.

**Article 2**

The Committee shall maintain a close working relationship with other relevant bodies of the Organisation, seeking to ensure that statistics within the OECD are dealt with in a well-coordinated and horizontal manner.

The Committee shall maintain, as appropriate, and in conformity with the OECD rules, relations with other international organisations, seeking to achieve co-ordinated and complementary work programmes in areas of shared interest and mutual benefit.

**Article 3**

The mandate shall expire on 31 December 2013, unless the Council decides otherwise.”

<b>Mandate:</b>	- Resolution of the Council establishing subsidiary bodies of the Committee on Statistics [C(2005)138 and C(2005)138/CORR1] approved at its 112 <sup>nd</sup> session on 27 October 2005 [C/M(2005)21, Item 276]	

### **Resolution of the Council C(2005)138 and C(2005)138/CORR1**

“THE COMMITTEE ON STATISTICS,

Having regard to Articles 1, 2, 5a) and 12 of the Convention on the Organisation for Economic Co-operation and Development of 14 December 1960;

Having regard to the resolution of the Council creating the Committee on Statistics and granting it the responsibility to “ensure that OECD statistics are produced according to high quality standards” and “officially approve methodological recommendations elaborated on specific subjects” [C(2003)217 and C(2003)217/CORR1];

Having regard to the Rules of Procedure of the Organisation;

Considering that comparable quantitative information on national accounts across OECD Member countries is indispensable for carrying out national and international economic analysis;

Emphasising the importance of the System of National Accounts as a guide for the development of all economic statistics;

Recognising the historical role played by the OECD in the development of standards to compile national accounts data worldwide;

DECIDES:

1. The Working Party on National Accounts is established.
2. The Working Party will undertake work to improve the quality of national accounts data in accordance with priorities established by the OECD Committee on Statistics.
3. In particular the Working Party will:

- facilitate the development and improvement of internationally comparable methodologies in order to allow users to better compare the growth and the levels of national accounts variables between OECD countries, including satellite accounts;
- monitor, in coordination with the Inter-Secretariat Working Group on National Accounts (ISWGNA), the changes and clarification needed in the Manual of the System of National Accounts to increase the relevance and the international comparability of national accounts statistics;
- monitor by regular studies the comparability of the data in all domains of national accounts;
- pay particular attention to the relevance and comparability in the area of general government accounts, considering the increasing use of national accounts data in the domain of government finance statistics;
- encourage the implementation of international guidelines and recommendations by Member countries, including those regarding compilation methods and accurate measurement of key phenomena;
- encourage the timely availability of statistical series and monitor their prompt transmission to the OECD in order to better serve international users of national accounts data.

4. The Working Party will seek the maximum practicable conformity of its own work with relevant statistical work undertaken by other parts of the OECD, and in particular the Working Party on Financial Statistics (WPFS) which covers financial accounts; and also with related work on national accounts undertaken by other competent international and supranational organisations. To avoid duplication of efforts, a particular attention has to be paid to the co-ordination of the activity of the Working Party with that carried out by other working groups active at international level.

5. The Working Party will act as a forum in which Member countries will be able to exchange information and experience on new concepts, best practices of compilation of national accounts and on new experiences on the use of national accounts data.

6. The present mandate shall expire on 31 December 2013. The Committee on Statistics will review the results obtained every year before the end of the mandate.”

#### “OECD EXPERT GROUP ON STATISTICAL DATA AND METADATA EXCHANGE

##### 1. Purpose

OECD works closely with Member countries, non-Member countries, and other international organisations in sharing internationally comparable statistics, creating an information base for analysis and decision making. The processes of exchanging, processing and disseminating statistical information and metadata are undergoing profound change as a consequence of new technological opportunities and evolving standards.

Several international meetings are regularly organised to compare recent ICT developments and share experiences in the field of statistical data and metadata collection, management and dissemination. On the other hand, the implementation of new models and approaches is left to individual countries, according to their needs and plans. Therefore, nowadays there is no international forum available for discussing and agreeing on common strategies and concrete actions to minimise the duplication of work carried out by countries and international organisations, promoting a “multilateral vision” of the exchange of statistical data and metadata between countries and international organisations. The Group is being set up to form a network of involved ICT experts who will discuss strategic issues related to the development and the practical implementation of new procedures for statistical data exchange and sharing between the OECD, its Member countries, and other international organisations. Ultimately, this will contribute to a more efficient international statistical system. The Group will be closely co-ordinated with other international bodies dealing with similar topics (Eurostat IT Steering Group and the joint ECE/Eurostat/OECD meetings on Management of Statistical Information Systems, MSIS). The Group will report to the OECD High Level Group on Statistics, providing recommendations for developing statistical information systems and improving the efficiency and the effectiveness of statistical data and metadata exchange.

##### 2. Content of Work

The primary focus of the Group’s work will be on data exchange and data sharing within the OECD network, i.e. between OECD and its Member countries. In order to reduce or eliminate duplication of work, the Group will also promote technical cooperation between OECD and other international organisations involved in data and metadata exchange with OECD. The Group will, in particular, work towards developing and implementing new solutions regarding:

- Standards and procedures for exchange of statistical data and metadata;
- Standards and procedures for sharing statistical data and metadata.

The Group will have close links to the SDMX initiative (see [www.sdmx.org](http://www.sdmx.org)) which is leading development activity in these domains, and will rely on the conclusions achieved by the ECE/Eurostat/OBCD meetings on Management of Statistical Information Systems and other international groups (e.g. METIS). The Group will provide a forum in which national statistical offices, other national data providers and the OBCD can discuss strategies and practical issues for implementing solutions, and move in a coordinated and mutually beneficial way towards their implementation. It is expected that the Group will prepare recommendations for future actions to be undertaken by the Secretariat and Member countries.

### 3. Organisation

The Group will advise the OECD (both the Secretariat and Member countries) as to future practices and standards for the collection, exchange and sharing of statistical data and metadata. It will submit an annual report to the OECD High Level Group Meeting. Chair and secretariat will be provided by OECD in co-operation between the Statistics Directorate (STD) and the Information Technology and Networks Service (ITN).

### 4. Members

The Group will consist of ICT experts from Member countries closely involved with statistical activities, especially concerning data and metadata exchange and sharing. Therefore, experts from national statistical offices (NSOs) and other institutions in charge of statistical activities (e.g. ministries) of Member countries and from international organisations interacting with OECD will be invited to join the Group. The participation of experts from certain non-Member countries could be envisaged, in the context of the OECD's "outreach" activities.

### 5. Meetings

It is foreseen that meetings will normally take place at OECD headquarter in Paris. As the Group's members are expected to be drawn from institutions around the globe, it would be beneficial to set up meetings in conjunction with other international meetings already gathering some members in one place."

“The Committee on Statistics,

Having regard to Articles 1, 2, 5a) and 12 of the Convention on the Organisation for Economic Co-operation and Development of 14 December 1960;

Having regard to the resolution of the Council creating the Committee on Statistics and granting it the responsibility to “ensure that OECD statistics are produced according to high quality standards” and “officially approve methodological recommendations elaborated on specific subjects” [C(2003)217 and C(2003)217/CORR1];

Having regard to the Rules of Procedure of the Organisation;

Considering that comparable quantitative information on international trade flows in goods and in services across OECD Member countries is indispensable for carrying out national and international economic analysis and to inform trade negotiations;

Emphasising the importance of established methodological standards, and their continuous development, for a better appreciation of statistics in trade in goods and trade in services as important elements in the measurement of the economic and environmental impact of increasing globalisation;

Recognising the important role played by the OECD in cooperation with partner international organisations in the development of standards to compile and analyse international trade flows worldwide;

DECIDES:

1. The Working Party on International Trade in Goods and Trade in Services Statistics is established;
2. The Working Party will undertake work to improve the quality of international trade statistics and carry out related analysis in accordance with priorities established by the OECD Committee on Statistics;

3. Recognising the different methodological frameworks and manuals applying to merchandise trade and trade in services, the Working Party will continue the successful modus operandi of past meetings with a session devoted to merchandise trade statistics, another session devoted to trade in services statistics and a combined session dealing with trade in goods and services and related analytical issues. In particular, the Working Party will:

- facilitate the development and improvement of internationally comparable methodologies in order to promote comparable, sound, consistent and coherent trade in goods statistics, trade in services statistics and trade and trade-related globalisation indicators;
- monitor and encourage implementation, in coordination with the two Inter-Secretariat Task Forces on International Merchandise Trade Statistics and on International Trade in Services Statistics, of sound conceptual frameworks, guidelines and manuals to increase the relevance and the international comparability of international trade statistics and trade and globalisation-related indicators;
- research and analyse new trends in trade to address the needs of economic and trade analysis and inform trade negotiations;
- discuss statistical issues of relevance and concern to trade statisticians and analysts and generally act as forum of exchange and springboard for methodological developments;
- oversee the collection and dissemination of relevant statistics on international trade in goods and international trade in services;
- oversee the Secretariat's work on balance of payments statistics (excluding the specialised work on detailed investment statistics);
- oversee the Secretariat's work on linking trade and business statistics as part of globalisation;
- ensure closest possible coordination and co-operation with national statistical authorities and with other International Organisations active in this field, taking on and continuing existing cooperation agreements as necessary. In particular, the Working Party will strive and continue its practice of organizing meetings jointly with Eurostat so as to avoid duplication of efforts.

The Working Party will seek synergies and practicable conformity of its own work with relevant analytical and statistical work undertaken by other parts of the OECD, in particular the Trade Committee, the Committee for Innovation, Industry and Entrepreneurship, the Working Party on Industry Analysis and its Expert Group on the Globalisation of Industry, and the Environment Committee. The same applies also to related work on Business Statistics, Foreign Direct Investment and international activities by Multinationals, as also to relevant work undertaken by other competent international and supranational organisations.

The Working Party will act as a forum in which Member countries will be able to exchange information and experience on new concepts, best compilation practices of trade statistics and indicators and new statistical challenges.

The present mandate shall expire on 31 December 2013. The Committee on Statistics will review the results obtained every year before the end of the mandate.”

## **RESOLUTION OF THE COUNCIL CONCERNING THE REVISION AND RENEWAL OF THE CENTRE'S MANDATE**

“THE COUNCIL

Having regard to the Convention on the Organisation for Economic Co-operation and Development of 14th December 1960 and, in particular, articles 2 b), 5a), 9 and 20 thereof;

Having regard to the Financial Rules of the Organisation;

Having regard to Rule 18 a) iii) of the Rules of Procedure of the Organisation;

Having regard to the Recommendation of the Council of the OEEC on the establishment of a European Conference of Ministers of Transport (ECMT) of 24th July 1953 [C/M (53)22(Final)] and to the Decision of the Council concerning relations between the Organisation and the ECMT of 30th September 1961 [C/M(61)1(Final)];

Mindful of the resolutions of the Council of 28 March and 25 July 2002 concerning the creation of new subsidiary bodies [C/M(2002)6 and C/M(2002)17];

Recalling that the Council of Ministers of the ECMT (ECMT Council of Ministers) agreed on 24-25 April 2003 'to create a joint ECMT-OECD Transport Research Centre, in which members of the two organisations will have full and equal rights' [CEMT/CM(2003)12/FINAL];

Recalling that the OECD Council adopted a Resolution [C(2003)128/FINAL] on 26 June 2003 establishing the Joint OECD/ECMT Transport Research Centre from 1 January 2004 for a period of three years;

Recalling that, following consideration of a report on 'Progress with the Joint OECD/ECMT Transport Research Centre' [CEMT/CM(2005)8] at the ECMT Ministerial meeting in Moscow, in May 2005, Transport Ministers of OECD and ECMT countries requested a further evaluation report be provided for consideration at the meeting in May 2006, in Dublin;

Noting that a further Evaluation / Report on progress with the Centre [CEMT/CM(2006)9/FINAL] was considered by Transport Ministers of OECD and ECMT countries in Dublin, in May 2006;

Being aware that a new three year Programme of Work (2007-2009) for the Centre [CEMT/CM(2006)8/FINAL] was adopted by Transport Ministers of OECD and ECMT countries in May 2006, at their meeting in Dublin;

Noting that the ECMT Council of Ministers decided in May 2006 to transform the ECMT into an International Transport Forum [CEMT/CM(2006)2/FINAL];

On the proposal of the Secretary-General;

DECIDES:

### **Article 1**

The 'Joint OECD/ECMT Transport Research Centre' (hereafter the Centre or JTRC) is hereby continued for a further period of five years.

### **Article 2**

The Centre shall promote economic development and contribute to structural improvements of its members, through co-operative transport research programmes addressing inland and other transport modes and their intermodal linkages in a wider economic, social, environmental and institutional context.

### **Article 3**

The Centre shall be open to all OECD and ECMT Member countries and to any other country or economy whose participation has been agreed to by the governing bodies of the OECD and ECMT (together: JTRC Members).

OECD Members shall automatically participate in the Centre, subject to a notification to the contrary to the Secretary-General of the OECD.

#### **Article 4**

The Centre will be governed by a 'Joint OECD/ECMT Transport Research Committee' (hereafter the Committee) whose members are nominated by the governments of JTRC Members.

#### **Article 5**

The Committee shall:

- a) establish a programme of work that reflects the interests of JTRC Members, consistent with a budget dedicated to this transport research programme;
- b) ensure that the programme of work is carried out through co-operative approaches, including research working groups, round tables, seminars and other working methods that the Committee considers appropriate;
- c) invite international organisations, institutions dealing with matters related to inland and other transport modes as well as industry and representative associations as appropriate to participate in selected aspects of the work of the Centre;
- d) monitor the execution of its programme of work;
- e) report on its activities to the International Transport Forum's Transport Management Board and finally to the Transport Ministers of JTRC Members at the annual International Transport Forum session meetings;
- f) report on its activities annually to the OECD Council;
- g) perform any other function that the governing bodies of both Organisations may jointly decide.

#### **Article 6**

The expenditure arising from the implementation of the work of the Centre shall be financed on an equal basis by countries participating in the OECD and ECMT and shall be charged against the appropriations authorised under the non-consolidated Part II of the Budget of the Organisation.

The expenditure for special programmes could be financed through voluntary contributions by private and public institutions.

The budget of the Centre shall be used exclusively to implement the programme of work established by the Committee, including support as appropriate to the International Transport Forum.

Except as otherwise agreed by the governing bodies of both Organisations, all the Centre staff-related costs including costs linked to the end of appointments shall be borne by the Centre.

#### **Article 7**

The Centre is to be served by officials working exclusively on transport research issues. Officials, who are administratively integrated into the OECD, shall be appointed in accordance with the OECD's recruitment procedures. Notwithstanding the provisions of Staff Regulation 7 b) and the related instruction 107/1, the Secretary-General of the OECD shall be authorised to recruit nationals from any non-OECD country member of the ECMT, as officials for the Centre.

The Head of the Centre, who will be in charge of the day-to-day management of the Centre, will be appointed on a joint decision of the Secretary-General of the OECD and the Secretary-General of the ECMT.

The Secretary-General of the ECMT exercises operational guidance over the officials of the Centre with regard to the day to day implementation of the work programme and budget. In doing so he/she will ensure the necessary consultations with the OECD Secretariat.

Unless otherwise decided by the governing bodies of both Organisations, the Secretary-General of the OECD and the Secretary-General of the ECMT shall be jointly responsible for the administration of the programme of work and the budget of the Centre.

**Article 8**

The Resolution comes into force on 1st January 2007. It will expire on 31 December 2011 unless the Council decides otherwise.”

"THE GOVERNING BOARD

- a) Agreed that until further decision its meetings would be deemed to be joint meetings of the Governing Board and the Management Committee of the Agency."

Extract from Decision of the Council [C(74)203(Final)]

"THE COUNCIL,

Development of 14th December 1960 (hereinafter called the "Convention") and, in particular, Articles 5 a), 6, 9, 12, 13 and 20 of the Convention;

Having regard to the Financial Regulations of the Organisation and, in particular, to Articles 5, 10, 14 b) and 16 b) thereof;

Having regard to the Regulations, Rules and Instructions for Council Experts and Consultants of the Organisation;

Noting that the Governments of certain Member countries have declared their intention to enter into a separate Agreement on an International Energy Program which is attached to document [C(74)204] of 6th November 1974, and Corrigendum 1 thereto, which is circulated for reference and is hereinafter referred to as the 'Agreement';

Having regard to the Recommendation of the Council of 29th June 1971 on Oil Stockpiling [C(71)113(Final)];

Having regard to the Decision of the Council of 14th November 1972 on Emergency Plans and Measures and Apportionment of Oil Supplies in an Emergency in the OECD European Area [C(72)201(Final)];

Having regard to the Recommendation of the Council of 10th January 1974 on the Supply of Bunker Fuels for Shipping and Fishing [C(73)257(Final)];

Having regard to the Recommendation of the Council of 10th January 1974 on the Supply of Fuel for Civil Aircraft [C(73)258(Final)];

Having regard to the Note by the Secretary General of 6th November 1974 concerning the International Energy Program [C(74)203 and Corrigendum 1];

DECIDES:

#### Article 1

An International Energy Agency (hereinafter called the 'Agency') is hereby established as an autonomous body within the framework of the Organisation. ...

#### Article 4

A Governing Board composed of all the Participating Countries of the Agency shall be the body from which all acts of the Agency derive, and shall have the power to make recommendations and to take decisions which shall, except as otherwise provided, be binding upon Participating Countries, and to delegate its powers to other organs of the Agency. The Governing Board shall adopt its own rules of procedure and voting rules.

#### Article 5

The Governing Board shall establish such organs and procedures as may be required for the proper functioning of the Agency.

#### Article 6

- a) The Governing Board shall decide upon and carry out an International Energy Program for co operation in the field of energy, the aims of which are:
  - i) Development of a common level of emergency self sufficiency in oil supplies;
  - ii) Establishment of common demand restraint measures in an emergency;
  - iii) Establishment and implementation of measures for the allocation of available oil in time of emergency;
  - iv) Development of a system of information on the international oil market and a framework for consultation with international oil companies;
  - v) Development and implementation of a long term co operation programme to reduce dependence on imported oil, including: conservation of energy, development of alternative sources of energy, energy research and development, and supply of natural and enriched uranium;
  - vi) Promotion of co operative relations with oil producing countries and with other oil consuming countries, particularly those of the developing world.

The Governing Board may adopt other measures of co operation in the energy field which it may deem necessary and otherwise amend the Program by unanimity, taking into account the constitutional procedures of the Participating Countries.

- b) Upon the proposal of the Governing Board of the Agency, the Council may confer additional responsibilities upon the Agency.

#### Article 7

- a) The organs of the Agency shall be assisted by an Executive Director and such staff as is necessary who shall form part of the Secretariat of the Organisation and who shall, in performing their duties under the International Energy Program, be responsible to and report to the organs of the Agency.
- b) The Executive Director shall be appointed by the Governing Board on the proposal or with concurrence of the Secretary General.
- c) Consultants to the Agency may be appointed for a period exceeding that provided in Regulation 2 b) of the Regulations and Rules for Council Experts and Consultants of the Organisation.

#### Article 8

The Governing Board shall report annually to the Council on the activities of the Agency. The Governing Board shall submit, upon the request of the Council or upon its own initiative, other communications to the Council.

#### Article 9

The Agency shall co operate with other competent bodies of the Organisation in areas of common interest. These bodies and the Agency shall consult with one another regarding their respective activities.

#### Article 10

- a) The budget of the Agency shall form part of the Budget of the Organisation and expenditure of the Agency shall be charged against the appropriations authorised for it under Part II of the Budget which shall include appropriate Budget estimates and provisions for all expenditure necessary for the operation of the Agency. Each Participating Country's share in financing such expenditure shall be fixed by the Governing Board. Special expenses incurred by the Agency in connection with activities referred to in Article 11 shall be shared by the Participating Countries in such proportions as shall be determined by unanimous agreement of those countries. The Governing Board shall designate an organ of the Agency to advise the Governing Board as required on the financial administration of the Agency and to give its opinion on the annual and other budget proposals submitted to the Governing Board.
- b) The Governing Board shall submit the annual and other budget proposals of the Agency to the Council for adoption by agreement of those Participating Countries of the Agency which voted in the Governing Board to submit the proposals to the Council.
- c) Notwithstanding the provisions of Article 14 b) of the Financial Regulations, the Governing Board may accept voluntary contributions and grants as well as payments for services rendered by the Agency.
- d) Notwithstanding the provisions of Article 16 b) of the Financial Regulations of the Organisation, appropriations in respect of the special activities referred to in Article 11 of this Decision, for which no commitment has been entered into before the end of the Financial Year for which they were appropriated, shall be automatically carried forward to the budget for the ensuing year.

#### Article 11

Any two or more Participating Countries may decide to carry out within the scope of the Program special activities, other than activities which are required to be carried out by all Participating Countries under the Agreement. Participating Countries who do not wish to take part in such activities shall abstain from taking part in such decisions and shall not be bound by them. Participating Countries carrying out such activities shall keep the Governing Board informed thereof.

#### Article 12

In order to achieve the objectives of the Program, the Agency may establish relationships with countries which are not Participating Countries, international organisations, whether Governmental or non Governmental, other entities and individuals.

#### Article 13

- a) A Participating Country for which the Agreement shall have ceased to be in force or to apply provisionally shall be deemed to have withdrawn from the Agency.
- b) Notwithstanding the provisions of paragraph a), a Country whose Government shall have signed the Agreement may, upon written notice to the Governing Board and to the Government of Belgium to the effect that the adoption of the Program by the Governing Board is binding on it pursuant to this Decision, remain a Participating Country of the Agency after the Agreement shall have ceased to apply for it, unless the Governing Board decides otherwise. Such a Country shall have the same obligations and the same rights as a Participating Country of the Agency for which the Agreement shall have entered definitively into force.

#### Article 14

The present Decision shall enter into force on 15th November 1974.”

#### Extract from the Agreement on an International Energy Program [C(74)203(Final), Annex II]

#### "Article 49

1. The Agency shall have the following organs:
  - A Governing Board
  - A Management Committee
  - Standing Groups on:
    - Emergency Questions
    - Oil Market
    - Long term Co operation
    - Relations with Producer and Other Consumer Countries.
2. The Governing Board or the Management Committee may, acting by majority, establish any other organ necessary for the implementation of the Program.
3. The Agency shall have a Secretariat to assist the organs mentioned in paragraphs 1 and 2.

#### GOVERNING BOARD

#### Article 50

1. The Governing Board shall be composed of one or more ministers or their delegates from each Participating Country.
2. The Governing Board, acting by majority, shall adopt its own rules of procedure. Unless otherwise decided in the rules of procedure, these rules shall also apply to the Management Committee and the Standing Groups.
3. The Governing Board, acting by majority, shall elect its Chairman and Vice Chairmen.

#### Article 51

1. The Governing Board shall adopt decisions and make recommendations which are necessary for the proper functioning of the Program.
2. The Governing Board shall review periodically and take appropriate action concerning developments in the international energy situation, including problems relating to the oil supplies of any Participating Country or Countries, and the economic and monetary implications of these developments. In its activities concerning the economic and monetary implications of developments

in the international energy situation, the Governing Board shall take into account the competence and activities of international institutions responsible for overall economic and monetary questions.

3. The Governing Board, acting by majority, may delegate any of its functions to any other organ of the Agency.

#### Article 52

1. Subject to Article 61, paragraph 2 and Article 65, decisions adopted pursuant to this Agreement by the Governing Board or by any other organ by delegation from the Board shall be binding on the Participating Countries.

2. Recommendations shall not be binding.

Explanatory Note:

The general mandate of the Governing Board is contained in the texts quoted above. In addition, more detailed provisions concerning the Governing Board's mandate are found throughout the I.E.P. Agreement."

<b>Duration:</b>	Unspecified	
<b>Mandate:</b>	- Summary record of the 1st meeting of the Standing Group on Long-Term Co-operation on 3rd-4th December 1974 [IEA/SLT/M(74)1] - Provisional terms of reference [IEA/SLT(74)3 (2nd Revision)]	

### Extract from document IEA/SLT/M(74)1 - Item 3

"The Standing Group on Long-Term Co-operation

- A. Established a sub-group on conservation to meet 13th-14th January 1975.
- B. Agreed that the IEA Secretariat, drawing on comments from all delegations, would draft a set of guiding principles for the work of this sub-group and would circulate them to all delegations prior to the next SLT meeting.
- C. Agreed that the SLT at its 18th December meeting plan to adopt these guiding principles and to elect a sub-group chairman."

### Document IEA/SLT(74)3(2nd Revision)

"After noting their intention to reduce their dependence on imported oil, as expressed in Article 41 of the Agreement on an International Energy Programme, the members of the Standing Group on Long-Term Co-operation of the International Energy Agency agreed at their meeting on 3rd and 4th December 1974, to establish a sub-group on conservation. This sub-group would operate under the general provisions of Article 42 of the Agreement and should hold its first meeting on 13th and 14th January 1975. This sub-group should undertake the following tasks:

- I. It should collate and review planned and existing conservation programmes in Member countries, in order to address the question of the feasibility or desirability of setting dynamic targets or objectives by the SLT for the group's reduction in energy consumption growth rates as related to a reduction in dependence on imported oil. In this regard the sub-group may find it helpful to divide its work into specific time frames of a medium and longer-term nature.

---

\* The Standing Group on Long-Term Co-operation, at its meeting on 21st-22nd October 1997 agreed to the change in name from the Sub Group on Energy Conservation to the Working Party on Energy Efficiency.

II. With regard to the set of dynamic, long-term targets or objectives, the sub-group should consider whether these objectives should be strictly the sum of individual members' measures or if they should be set so as to take into account any additional conservation effect for the group as a whole which the IEA considers desirable and feasible.

III. The sub-group should define what is meant by conservation and consider the impact which various conservation measures might have on overall economic activities, keeping in mind that while it is important to minimise the adverse economic effects it should recognise that changes in patterns of energy consumption and economies in general are unavoidable. The sub-group might consider the desirability of convening a separate group of economic experts to address the question of economic impact of conservation measures and make recommendations to the SLT on this point.

IV. The sub-group should develop the criteria required to evaluate the relative effort of Member countries needed to realise the objectives established, keeping in mind that the effort should be distributed among members on an equitable basis. The criteria should be developed in the light of each country's pattern of energy supply, patterns of energy use (energy consumption per capita, energy consumption per unit of output, etc.) and economic structure.

V. The sub-group should propose ways and means to the SLT for development of a periodic systematic review programme to evaluate and compare individual countries' conservation measures and progress, noting that such a review on an international level might assist member governments i) in making difficult political decisions requiring changes in patterns of energy utilisation and ii) in avoiding any distorting consequences on other member economies.

VI. The sub-group should consider the desirability and feasibility of constituting binding commitments on member countries to implement a certain set of conservation measures taking into account their differing situations.

VII. The sub-group should also continue the work of the *ad hoc* Sub-Group on Immediate Energy Saving by:

- a) Establishing a system to monitor the results and impact of the 1975 conservation efforts now under discussion;
- b) Establishing a system to update continuously the information collected on the conservation measures of member countries;
- c) Submitting to the SLT not later than 31st March 1975 an initial report on the results of the tasks in a) and b) above as well as any proposals whose application may result in reinforcement of national conservation efforts for 1975.

In carrying out these tasks the sub-group should bear in mind the principles and considerations as set out in paragraphs I to VI. The sub-group should also keep in mind that the measures to eliminate the waste of energy might have immediate effects while the measures to increase the efficiency of energy require investment use and will have, therefore (in most cases) a longer term effect."

#### "7. ORGANISATION OF ENERGY R&D

##### THE GOVERNING BOARD

- a) Adopted the Decision on the Establishment of the Committee on Energy Research and Development as set forth in Annex II hereto.
- b) Instructed the Committee on Energy Research and Development to discontinue working parties and subsidiary bodies set up to examine co-operative programme possibilities if, within a reasonable time, there appeared to be little possibility of co-operative programmes being achieved.

##### Annex II

##### Decision of the Governing Board on the Establishment of the Committee on Energy Research and Development

##### THE GOVERNING BOARD

Desiring to establish a body of adequate status to be responsible for energy research and development;

---

\* At the 123rd Meeting of the IEA Governing Board on 20th March 1992, the name of this Committee was changed from the Committee on Energy Research and Development to Committee on Energy Research and Technology (CERT).

Mindful of Article 57 of the I.E.P. Agreement, providing that the Standing Group on Long-Term Co-operation may report on any matter within the scope of Chapter VII of the Agreement;

Decided to establish a Committee on Energy Research and Development with the following terms of reference:

- a) To submit to the Governing Board a strategy for energy research and development and to oversee the implementation of this strategy;
- b) to ensure, through regular consultation and collaboration with the Standing Group on Long-Term Co-operation, a close co-ordination between the energy research and development strategy and other aspects of the Programme for Long-Term Co-operation of the Agency.
- c) In the light of the preparation and surveillance of such a strategy, to review periodically national programmes of energy research and development.
- d) Within such a strategy, and utilising the reviews of national programmes, to identify opportunities for collaboration between participating Countries, and to promote such collaboration.
- e) To continue the promotion and implementation of co-operation on energy research and development as decided by the Governing Board on 21st November 1975.
- f) To report to the Governing Board as appropriate, but not less frequently than once a year, on the above subjects in conjunction with the Standing Group on Long-Term Co-operation.
- g) To carry out such other functions as may from time to time be delegated to it by the Governing Board."

"1. Objective

The Working Party on Energy End-Use Technologies (EUWP) shall provide advice to the IEA Committee on Energy Research and Technology (CERT) and other IEA bodies on trends and policies relating to energy end-use technologies; guided by the IEA's Shared Goals of energy security, environmental sustainability and economic growth, it shall also support and facilitate co-operation among Member countries in research, development, demonstration and deployment of energy end-use technologies and, as appropriate, shall seek to expand collaboration with non-Member countries.

2. Functions

The functions of the EUWP are to:

- (1) Identify high-priority areas in which to develop or expand international collaboration in research, development, demonstration and deployment;

- (2) Periodically review and assess the effectiveness of such collaboration with a view to identifying gaps and overlaps in existing coverage, renewing existing programmes and stimulating new collaborative activities, discontinuing or expanding activities, and encouraging closer collaboration with industry; and
- (3) Identify those technologies, processes and systems in end-use sectors that can effectively help to achieve energy security, environmental and economic goals of Member countries and, where appropriate, contribute to international collaboration in the development and market deployment of such technologies.

"1. Objective

The Working Party on Fossil Fuels (WPF) shall, within the framework of the IEA Shared Goals, provide advice to the IEA on:

- fossil fuel technology-related policies, trends, projects, programmes;
- strategies which address priority environmental protection and energy security interests, including adequate, flexible, and reliable supply of power and electrical service of Member countries; and
- carry out activities to meet those needs through international co-operation and collaboration facilitated by the IEA.

2. Functions

The functions of the WPF are:

- (1) Identification of the fossil fuel technology-related priority interests, including electric power production technologies, common to IEA Member countries, including their integration with non-fossil fuel technologies;
- (2) Promotion of collaborative RD&D and technology deployment, as well as electric power production by arranging studies and technology information exchange on topics of common interest, conferences, workshops and other activities;
- (3) Technology co-operation with non-Member countries;
- (4) Initiation, evaluation and review on a periodic basis of Implementing Agreements and other international collaborative activities;
- (5) Co-ordination with other sectoral bodies of the IEA which conduct fossil fuel-related studies, information exchanges and meetings relevant to the goals of the WPPF;

#### "1. Objective

The Working Party on Renewable Energy Technologies, also known as Renewable Energy Working Party (REWP), shall provide advice to the IEA Committee on Energy Research and Technology (CERT) and other IEA bodies on renewable energy sources and technologies, related policies, trends, projects, programmes and strategies which address energy security, diversity and environmental interests of Member countries and on activities to meet those needs through international co-operation and collaboration facilitated by the IEA process.

#### 2. Functions

The overarching aim of REWP activities is to enhance the quality and impact of IEA's work on renewables, both in IEA Member and non-Member countries.

Having regard to:

- the Shared Goals, adopted by IEA Ministers in 1993;
- co-operation in long-term research, demonstration and deployment of renewable energy technologies;
- the IEA Ministers request at the May 2007 meeting “[...] to accelerate the development and deployment of new technologies [...], encourage the strengthening of our R&D efforts to reduce the costs of new technologies [...]”, and to “enhance our energy technology collaboration with major emerging economies, bilaterally and through the IEA’s technology network;
- the IEA Ministers’ recognition in October 2009 that “[...] renewable energy must and will increase dramatically so that it plays a leading role in mitigating climate change and enhancing energy security” and their commitment “to maximise efforts to promote the deployment of renewable technologies domestically as well as internationally, as appropriate for local conditions”;
- The 2009-2011 Action Plan of CERT; and
- Most recent IEA scenarios and analytical work carried out also in support of the on-going IEA G8 programme initiated following the G8 leaders’ request at their 2005 Summit in Gleneagles;

The Working Party shall:

- add value to the IEA Secretariat’s work on renewables, in particular by providing guidance and support to the Programme of Work of the Renewable Energy Division;
- share analysis and best-practices in renewable energy technologies and policies, including renewable energy technology roadmaps, in IEA Member countries;
- continue strong oversight of and support for the REWP Implementing Agreements to help ensure the effectiveness of their programmes for developing and deploying renewable energy technologies; and
- contribute to the IEA’s outreach strategy, by liaising with selected non-Member countries, and other institutions and entities whose functions address the area of renewable energy technology, with a view to promote and structure international collaboration.

### 3. Membership, Structure and Procedures

All IEA Member countries and the European Commission are members of the REWP. Members shall be represented by delegates whose responsibilities are related to all or most of the renewable sources of energy including solar, wind, hydropower, biomass, geothermal, and ocean, plus hydrogen, with respect to technology RD&D, market deployment and integration in national energy systems.

- Each national representative shall report regularly on ongoing activities in his/her country shall act as a conduit of information from and to the IEA Secretariat, shall provide contacts within the national region in relation to specific requests for participation or support of activities by the Working Party or Secretariat, and shall review and assess studies and reports as requested by the Working Party. Other national or international entities may be consulted as appropriate.
- The Working Party is given a renewable mandate of three years by the CERT. The revision and renewal of the mandate will be undertaken at the CERT meeting prior to the expiration of each three-year term. The Working Party will elaborate a Strategic Plan to be updated every three years and to be presented for endorsement by the CERT.
- The REWP elects a Chair and one or more Vice-Chairs for a three-year period to lead its efforts. The Chair and Vice-Chairs meet between full REWP meetings in REWP Cabinet meetings with the Head of Renewable Energy Division, to provide continuity and direction to the REWP’s ongoing activities. They report regularly to the CERT and also attend periodically the CERT meetings and Working Party and CERT Chairs joint meetings.
- The REWP operates in strict coordination with the Renewable Energy Division (RED) of the IEA Secretariat. The RED proposes activities to support the REWP’s Strategy and works according

to an Operational Programme of Work that is reviewed and steered by the REWP, and submitted to the relevant IEA committees for approval. In its capacity, the RED collects data and provides analysis and reporting on renewable energy technologies, markets and policies, integration of renewables in energy systems, as well as on other relevant cross-cutting issues. Moreover, it oversees the collaboration with the Renewable Energy Implementing Agreements, provides links to other IEA Divisions and Directorates, ensures the liaison with other international organisations and networks, including the International Renewable Energy Agency (IRENA), and supports dissemination of information.

- The REWP shall carry out its functions without the disclosure of confidential or proprietary information of any entity.”

"1. Objective

The overall objective of the IEA Fusion Power Co-ordinating Committee (FPCC) is to enhance fusion research, development and deployment (RD&D) activities with a strategic approach to realising fusion energy in both IEA Member countries and in non-Member countries. The FPCC accomplishes this objective by promoting, initiating and coordinating international co-operation on fusion under the auspices of the IEA and within the IEA Framework for International Energy Technology Collaboration.

In pursuing this objective, the FPCC is guided by the IEA shared goals: enhancing energy security, environmental protection and economic growth. The FPCC reports and provides advice on fusion technology to the IEA Committee on Energy Research and Technology (CERT), the IEA Governing Board and other IEA bodies.

2. Functions

- (a) Identify high-priority R&D areas and technology applications of fusion power where international co-operation is particularly worthwhile and cost-effective;

- (b) Promote, initiate and support collaboration activities in such areas through the IEA Implementing Agreements and other mechanisms for international co-operation and information exchange;
- (c) Co-ordinate, promote and review the activities carried out by the Implementing Agreements, provide guidance to their Executive Committees, encourage the establishment of new Implementing Agreements as appropriate, and encourage and promote the rationalisation and efficiency of the existing Implementing Agreements;
- (d) Provide the CERT with reviews of the activities of the Implementing Agreements, technical and policy advice, information on advances in international fusion RD&D programmes and roadmaps towards fusion energy realisation;
- (e) Exchange information and organise meetings with other IEA bodies with particular emphasis on topics concerning long-term energy scenarios and technology projection studies;
- (f) Co-operate and exchange information with other international organisations which are active in fusion RD&D, namely the International Atomic Energy Agency (IAEA), the International Tokamaks Physics Activity (ITPA), and the OECD Nuclear Energy Agency (NEA);
- (g) Encourage, promote and provide guidance for more efficient contribution to ITER and the Broader Approach activities.”

## ***EXPERTS' GROUP ON SCIENCE FOR ENERGY\****

**Chair:** Mr. Jim Skea (United Kingdom)

**Date of creation:** 28th October 2004

**Duration:** Unspecified

- Mandate:**
- Summary Record of the 23rd meeting of the Committee on Energy Research and Development 12-13 October 1981 [IEA/CRD/M(81)11 and IEA/CRD(81)13]; re endorsed at the 31st, 43rd and 53rd meetings 19-20 June 1984, 21 22 June 1988 and 26-27 November 1991 [IEA/CRD/M(84)10 -- IEA/CRD/M(88)5 -- IEA/CRD/M(91)9]

Mandate of the Experts' Group on Science and Energy Research

### **"Scope and Activities**

The Experts' Group will serve as a forum for collaboration and the exchange of information that contribute to strengthening the role of science and the connections between basic science and applied energy programmes. The results of the efforts of this autonomous Experts' Group will feed directly into the CERT and the IEA Secretariat's work, providing a more global perspective on the international activities and successes in these areas.

Specifically, the Group will:

- i) advise decision makers and inform IEA analytical efforts on the opportunities for science to contribute to energy technologies;
- ii) undertake and promote an ongoing dialogue among IEA Member countries to promote strategic international collaborations in science;

---

\* The Committee on Energy Technology and Research, at its meeting on 11 and 12 February 2009, agreed to the change in name from the "Experts' Group on Science and Energy Research" to the "Experts' Group on Science for Energy" [IEA/CERT/M(2009)1].

- iii) offer support to Implementing Agreements for strategic discussions; and
- iv) identify model programmes, and develop and share approaches and tools to link the science and energy technology communities.

Specific activities could include:

- i) conducting comprehensive surveys on key areas covered by the Group, which can cover a range of activities including “mining” science advances that can have energy applications, as well as policies and programmes that foster greater collaboration between basic science and applied energy R&D ministries/stakeholders;
- ii) undertaking seminars and workshops, which can cover a range of activities, including advances in cross-cutting scientific fields and a more in-depth analysis and assessment of country approaches and activities; and
- iii) serving as an advisory body to the CERT on key issues and concerns requiring expert discussion and review.

### **Duration**

These activities will provide information and advice to the CERT for a three-year period. One year prior to the end of this period, and any other renewal cycle, an assessment of the effectiveness of the group will be undertaken, and the results submitted to the CERT. This review and any renewal of the mandate will be addressed at the CERT meeting prior to the expiration of each term. The current Chairman of AHGSET will serve as the initial Chairman of the Experts’ Group for a three-year term, with a Chairman thereafter to be elected by the members no later than every three years. A Vice Chairman may also be elected by Group members on an as-needed basis.

### **Membership**

The Experts’ Group is an informal advisory and consultative body. Membership in the Group is open-ended with no fixed limit. IEA Member countries, or their designated expert representatives, are eligible for membership in the Group. Countries may nominate more than one representative but not more than three. CERT delegates are encouraged to solicit senior-level, expert participation by governments and research organisations involved in scientific research programmes, science assessment, and technology potential. Group members may propose new participation and modify the objectives for the Group with notification to the CERT for its approval.

### **Working Practice**

The Experts’ Group will hold regular meetings, with the Chairman being responsible for the timing of the meetings and their agendas. The meetings will be workshop in nature and focus on key themes and issues that merit open discussion and analysis. The Group shall carry out its functions without disclosure of confidential or proprietary information of any entity. The Group shall provide the CERT with advice and prepare for the CERT an annual report on current activities and proposed actions.

### **Funding**

The Experts’ Group would be funded through in-kind contributions of time and events, as well as possible voluntary contributions.”

#### Mandate of the Experts' Group on Energy Technology Assessment and Methodologies for R&D Priority setting and Evaluation

[...]

## **“2. Scope and Activities**

The Experts’ Group will serve as a forum for collaboration and the exchange of information on specific issues in the areas of energy technology analysis, approaches to R&D priority setting, and the assessment of overall benefits from R&D activities. The results of the efforts of this Experts’ Group will feed directly into CERT, providing a more global perspective on the international activities and successes in these areas.

Specifically the Group will:

- i) undertake and promote an ongoing dialogue between experts from Member countries on key issues related to the methodologies of energy technology assessment;
- ii) undertake and promote continued exchange of information on the approaches and on the understanding and applications of methodologies for energy R&D priority setting; the linkage with government policy objectives; and
- iii) undertake and promote an ongoing dialogue between Member countries in methods and approaches to evaluate and quantify the impacts and benefits of energy technology implementation and energy R&D programmes.

Specific activities could include:

- conducting comprehensive surveys on key areas covered by the Group, e.g. how countries identify and analyse technology priorities; how countries undertake energy R&D portfolio analysis, and the various approaches to R&D priority setting;
- undertaking seminars and workshops dealing with a more in-depth analysis and assessment of country approaches and activities, such as the methodologies and approaches being used to evaluate and identify the benefits and impacts of energy technologies and energy R&D programmes;
- serving as an advisory body to CERT on key issues and concerns requiring expert discussion and review.

### **Duration**

These activities will provide information and advice to the CERT for a three-year period. One year prior to the end of this, and any other renewal cycle, an assessment of the effectiveness of the group will be undertaken, and the results submitted to the CERT. ### **Membership**

The Experts’ Group is an informal advisory and consultative body. Membership in the Group is open-ended with no fixed limit. IEA Member countries, or their designated expert representatives, are eligible for membership in the Group. CERT delegates are encouraged to solicit senior-level, expert participation by governments and research organisations involved in technology assessment, R&D priority setting processes, and energy R&D technology and programme evaluation and assessment. Group members may propose new participation and modify the objectives for the Group with notification to the CERT for its approval.

**Working Practice**

The Experts' Group will hold regular meetings, with the Chairman being responsible for the timing of the meeting and its agendas. The meetings will be workshop in nature and focus on key themes and issues that merit open discussion and analysis. The Group shall carry out its functions without disclosure of confidential or proprietary information of any entity. ## **COLLABORATIVE PLATFORM FOR OIL AND GAS TECHNOLOGIES\***

**Chair:** Jostein Dahl Karlsen Norway

**Vice-Chairs:**

**Members:** All IEA Member countries

**Date of creation:** 27 August 1998

**Duration:** 31 December 2015

**Mandate:**

- Preliminary meeting of the IEA Advisory Group on Oil and Gas Technologies on 27 August 1998, approved by the Committee on Energy Research and Development on 2-3 December 1998 [IEA/CERT/M(1998)3 and IEA/CERT(1998)46]
- Extension of the mandate for the Advisory Group on Oil and Gas Technologies, approved by the Committee on Energy Research and Development at its 37<sup>th</sup> meeting of 2-3 March 2004 (IEA/CERT(2004)10 and IEA/CERT/M(2004)1)
- Replacement of the CERT Advisory Group on Oil and Gas Technologies by the IEA Collaborative Platform for Oil and Gas Technologies, approved by the Committee on Energy Research and Development at its 57<sup>th</sup> meeting on 3-4 November 2010 [IEA/CERT/C(2010)1 and IEA/CERT(2010)29];

### Extract from document IEA/CERT(2010)29

"The **objective** of the IEA Collaborative Platform for Oil and Gas Technologies (the "Platform") is to provide IEA Member country governments with strategic insight into the nature of technological progress in the oil and gas sector. It will do so through strengthened global dialogue and collaboration on topics of strategic interest to Member countries, relating to energy security, energy sustainability and energy efficiency.

The main **focus** of Platform activities will be on to the role of government and industry RD&D in addressing:

1. Challenges and responses to maximise 'licence-to-operate' performance of oil and gas supply by mitigation of environmental risks and environmental impacts;
2. Options and pathways for the decarbonisation of energy supply;
3. Enhanced energy security through the improved availability of supply.

Collaborative activities of the Platform will be performed through the following **functions**:

1. Assessments of strategic issues relating to relevant oil and gas technology policies and technology developments;
2. Information exchange on lessons learned from RD&D and from best practice;
3. Dialogue on related RD&D policies, trends and best practice.

\*

The Committee on Energy Technology and Research, at its meeting on 3 and 4 November 2010, agreed to the change in name from the "CERT Advisory Group on Oil and Gas Technologies" to "IEA Collaborative Platform for Oil and Gas Technologies" [IEA/CERT/C(2010)1].

Collaborative functions of the Platform are furthermore envisaged to:

1. Encourage technology co-operation with non-Member Countries;
2. Engage the active involvement of the private sector in Platform activities.

#### **Performance of technology specific work**

It is envisaged that the more detailed work of the Platform will be performed via technology-specific projects, subject to an agreed programme of work and milestones. Where appropriate, work in projects will involve collaboration with work of related Implementing Agreements.

In meeting these objectives, the Platform will:

1. Report to and support the aims of the CERT, and supplement and strengthen the activities of the Working Party on Fossil Fuels;
2. Co-ordinate with the Working Party on Fossil Fuels on evaluation and review of Implementing Agreements;
3. Address key technology RD&D policies, challenges, trends and measures contributing to more efficient, more environmentally sound and safe practices within oil and gas exploration, production and transport.

#### **Duration**

The Platform is established for an initial period of five years.

#### **Membership**

Membership is open to IEA Member countries, or their designated representatives. Participation from IEA non-Member countries may be sought by invitation, in accordance with IEA Secretariat procedures.

#### 4.5.4 Industry Advisory Board (IAB)

The IAB has been established by the IEA to provide advice and consultation on emergency response issues and oil supply/demand questions related to them. In the event of the activation of the IEP emergency measures, the IAB will be responsible, primarily through its *ad hoc* group ISAG, for advising on the practical execution of the emergency measures under the direct supervision of the IEA.

The IAB membership is drawn from the group of Reporting Companies. The IAB meets periodically or when convened by the IEA.

The IAB has been established to:

- be available permanently for consultation on issues of emergency response;
- develop and staff ISAG which would be available to work within the IEA in an emergency or a test;

- be available for consultation with the IEA, if an emergency appears possible, on the evolving supply situation, and assist in determining the extent of any "shortfall" in supplies;
- advise the IEA on general steps necessary to minimise the disruptive effects of an interruption in oil supplies;
- provide expertise in oil supply and logistics as required;
- advise the IEA on technical procedures to be followed in measuring individual countries' stocks;
- advise on information systems and sources of data;
- advise the IEA on timetables and procedures to test emergency response systems;
- be available for consultation with and to advise the IEA on any other issues related to the emergency procedures.

The IAB participates in or establishes working groups to study and make recommendations to the IEA on specific questions on which IAB advice would assist IEA emergency response procedures.

The IAB will keep the Reporting Companies generally informed on its discussions with the IEA."

	Mr. Xolani Mkhwanazi	(BHP Billiton South Africa Ltd, South Africa)
	Mr. Michael Sutherland	(Joy Global Inc., United States)
<b>Members:</b>	Those above, plus approximately 45 individuals of high standing from coal-related enterprises.	
<b>Date of creation:</b>	11th July 1979	
<b>Duration:</b>	Unspecified	
<b>Mandate:</b>	Conclusions of the 44th meeting of the Governing Board held on 11 July 1979 [IEA/GB(79)49] as amended on 3 April 2003 [IEA/GB/C(2003)3] and 7-8 March 2007 [IEA/GB/C(2007)1].	

### "THE GOVERNING BOARD

- i) Noting the continuing importance of coal now and in the future as a secure and low-cost source of energy in IEA Member countries and throughout the world;
- ii) Noting its support for the IEA Coal Industry Advisory Board ("the CIAB") as a source of advice to IEA Member country governments, particularly in relation to the continued use of coal as a secure source of energy and on measures to mitigate the environmental impacts of its use; and
- iii) Noting changed circumstances in energy markets reflected in energy policies of IEA Member countries since the establishment of the CIAB in July 1979;

### DECIDES:

1. The CIAB, composed of individuals of high standing and active in coal-related enterprises, shall be a source of advice and suggestions to the Governing Board and to the Secretariat on matters related to coal production, transport, trade and utilisation. With the agreement of the Executive Director, the CIAB shall report to the Governing Board on developments

and trends in coal production, transport, trade, and utilisation, and on any other matters requested by the Governing Board or the Executive Director.

2. The CIAB may consult with any other bodies and individuals considered appropriate by the CIAB and the Executive Director.

3. The CIAB shall carry out its functions on a broad, industry-wide basis without the disclosure of confidential or proprietary data of any company or other entity.

4. The CIAB shall consist of members from IEA Member and IEA Non-member countries approved by the Governing Board on the recommendation of the Executive Director. Members may be proposed by national governments for recommendation to the Governing Board if they notify the Executive Director of their intention within one month of being advised by the Secretariat of a new position or a vacancy. If the national government does not indicate its intention within one month, then the Executive Director may recommend a nomination to the Governing Board. Members shall be encouraged to appoint associates to assist them in their work but associates may not represent members at meetings of the CIAB except with the approval of the Executive Director.

5. The terms of membership shall be up to three years with a common expiry date and may be renewed by the Executive Director every third year thereafter. The first expiry date shall be 30 April 2010. In consultation with the appropriate national government, the Executive Director also may cancel a term of membership, taking into account the contribution of the member to the work of the CIAB.

6. The CIAB may elect a Chairman and other officers as it sees fit.

7. The CIAB may organise its activities as it considers appropriate, subject to the approval of the Executive Director. The CIAB and the Executive Director may agree to publish and otherwise disseminate the views of the CIAB."

Having regard to the draft proposals concerning the modernisation of the Statute of the said Agency which were approved by the Steering Committee for Nuclear Energy on 26 October 1977 [NE(77)17, NE/M(77)2].

DECIDES:

I. The following amendments shall be made to the Statute of the OECD Nuclear Energy Agency.

[...]

III. Paragraph 16 of the Annex to the Rules of Procedure of the Organisation shall be amended to read as follows:

'OECD Nuclear Energy Agency: Its terms of reference are defined in the Decision of the Council C(57)255, with the amendment set out in paragraph 95 of the Report of the Preparatory Committee and in the Decision of the Council C(77)183(Final).'

Annex I

Statute of the OECD Nuclear Energy Agency

As amended by the Decisions of the Council [C(77)183(Final), C(92)220 and C(95)157/FINAL]

"PART I

Article 1

a) There is hereby established within the framework of the Organisation an OECD Nuclear Energy Agency (hereinafter referred to as the 'Agency').

b) Taking due account of the public interest and mindful of the need to prevent the proliferation of nuclear explosive devices, the purpose of the Agency shall be to further the development of the production and uses of nuclear energy, including applications of ionizing radiations, for peaceful purposes by the participating countries, through co operation between those countries and a harmonization of measures taken at the national level.

Article 2

The tasks assigned to the Agency shall be carried out, under the authority of the Council, by the Steering Committee for Nuclear Energy (hereinafter referred to as the 'Steering Committee'), by the bodies which the latter has established in conformity with the provisions set forth below to assist it in its work or perform tasks of common interest to a group of countries, and by the Secretariat of the Agency which shall form part of the Secretariat of the Organisation.

### Article 3

The Steering Committee shall be competent to deal with any question relevant to the purpose of the Agency under conditions resulting from the provisions set forth below and from other applicable decisions of the Council.

### Article 4

a) The Agency shall promote technical and economic studies and undertake consultations on the programme and projects of participating countries relating to the development of research and industry in the field of the production and uses of nuclear energy for peaceful purposes, in collaboration with other bodies of the Organisation in matters falling within their competence.

b) To this end, the programmes and projects shall be examined by the Steering Committee according to a procedure to be laid down by it.

### Article 5

a) The Agency shall, where appropriate, promote the formation of joint undertakings for the production and uses of nuclear energy for peaceful purposes, endeavouring to secure the participation of the greatest possible number of countries.

b) If a group of participating countries declares its intention to set up a joint undertaking, the countries concerned may agree to undertake the necessary work for this purpose among themselves within the Organisation at their own cost, whatever the position adopted by other participating countries. The Working Parties or Study Groups set up in accordance with this paragraph shall keep the Steering Committee informed of their progress and report to it on their conclusions.

c) When joint undertakings have been established on the initiative or with the assistance of the Agency.

- i) The Steering Committee - or a Restricted Group of the Steering Committee composed of representatives of the countries which take part in the undertaking - shall exercise the functions assigned to it by the agreements concluded for the establishment of the undertakings concerned;
- ii) The joint undertakings shall report each year to the Steering Committee and, where appropriate, to a Restricted Group of the Steering Committee on the state of their affairs and their development;
- iii) The Steering Committee shall consider such problems of general interest as may be raised by the operation of joint undertakings, with a view to proposing any necessary measures to the Governments;
- iv) The agreements concluded for the creation of joint undertakings should contain provisions under which participating countries or groups of participating countries not taking part in joint undertakings might subsequently accede to them or benefit from the results of their activities.

### Article 6

a) Given the need to prevent the proliferation of nuclear explosive devices, a security control shall be established with a view to ensuring that the operation of joint undertakings and the materials, equipment and services made available by the Agency or under its supervision shall be used solely for peaceful purposes.

b) The security control may be applied, at the request of the parties, to any bilateral or multilateral agreement, or, at the request of a participating country, to any of that country's activities in the field of nuclear energy.

c) The organisation of this control and the functions of the Agency relating to its exercise shall be the subject of a special Convention on security control.

#### Article 7

a) The Agency shall encourage the development of research into the production and uses of nuclear energy for peaceful purposes in participating countries.

b) To this end, it shall, where appropriate, promote the conclusion of agreements for the joint use of research installations built by participating countries and, in accordance with the conditions set forth in Article 5 above, the creation of joint research establishments.

c) Agency shall encourage the exchange of scientific and technical information related to its purposes between participating countries.

#### Article 8

a) The Agency shall:

- i) Contribute to the promotion, by the responsible national authorities, of the protection of workers and the public against the hazards of ionizing radiations and of the preservation of the environment;
- ii) Contribute to the promotion of the safety of nuclear installations and materials by the responsible national authorities;
- iii) Contribute to the promotion of a system for third party liability and insurance with respect to nuclear damage;
- iv) Encourage measures to ensure the most efficient use of patented inventions in the field of nuclear energy;
- v) So far as may be consistent with Article 1 b) above, contribute to the elimination of obstacles to international trade or to development of the nuclear industry;
- vi) Contribute to the dissemination of information which may be freely distributed on the peaceful uses of nuclear energy, in particular on the safety and regulation of nuclear activities as well as on the physical protection of nuclear installations and materials.

b) For the purpose of the above mentioned objectives, the Steering Committee shall:

- i) Submit to the participating countries recommendations or common rules to serve as a basis for harmonizing national laws and regulations;
- ii) Encourage the establishment between participating countries of joint services necessary, in particular, for the protection of public health and the prevention of accidents in the nuclear industry.

c) The Agency shall undertake its activities referred to in paragraphs a) and b) above, as far as possible in collaboration with the International Atomic Energy Agency and the Commission of the European Communities.

### PART II

#### Article 9

The Steering Committee shall be composed of representatives of all Governments which participate in the present Decision.

#### Article 10

a) The Steering Committee shall designate each year a Chairman and Vice Chairmen from among its members. It shall adopt its own Rules of Procedure.

b) The Steering Committee may give its advice, in particular, in the form of recommendations, to participating countries on any question within its competence.

c) Whenever it is necessary to take decisions which are binding on Governments and which exceed the powers specially conferred on the Steering Committee, the latter shall submit proposals to the Council to this end.

d) The Steering Committee shall report each year to the Council on the execution of its duties and on the situation and prospects of the nuclear industry in participating countries.

#### Article 11

a) The reports and proposals prepared by the Steering Committee shall, when appropriate, call attention to the different attitudes adopted by the members.

b) The decisions, opinions or recommendations of the Steering Committee shall be adopted by mutual agreement of those of its members present and voting.

c) However, decisions of the Steering Committee which relate to the adoption of the agenda, the undertaking of studies, the establishment of Working Parties and the submission of questionnaires to participating countries, shall be adopted by a majority of the members of the Steering Committee present.

d) Decisions which are binding on Governments and which are taken by the Steering Committee within the powers conferred upon it shall commit only those countries which have accepted them.

#### Article 12

a) The Steering Committee may establish such Commissions and Working Parties as it may consider necessary to assist it in the performance of its duties and entrust them with the execution of any task relevant to the purpose of the Agency.

b) Restricted bodies may be established to study questions or execute functions of interest to a group of participating countries, in accordance with the conditions set forth in Article 5 above or in a decision of the Council. Special expenditure assignable to the work of these bodies, such as the cost of studies or the remuneration of experts, shall be chargeable to the countries concerned.

#### Article 13

a) The Steering Committee shall perform its duties in collaboration with the competent bodies of the Organisation.

b) The Steering Committee shall consult these bodies on questions which come within their competence. These bodies shall consult the Steering Committee on all questions relating to the production and uses of nuclear energy for peaceful purposes.

#### Article 14

a) The Steering Committee and its subsidiary bodies shall be assisted by the Secretariat of the Agency.

b) Expenditures relating to the working of the Agency shall be covered by the Budget of the Organisation. To this end, the Steering Committee shall prepare annual estimates of expenditure, which shall be submitted to the Council for approval.

c) Expenditure of the Agency which is subject to special financial rules shall be covered by separate budgetary provisions and countries which make no financial contributions to such expenses shall abstain when the relevant item in the Budget is approved.

#### Article 15

a) In the performance of its duties, the Steering Committee shall take account of the work done by other international Organisations concerned and may, subject to paragraphs b) and c) below, co operate with them.

b) The Steering Committee shall, in agreement with the Council, establish relations with international governmental Organisations concerned with nuclear energy questions.

c) The Steering Committee may establish contact with international non governmental Organisations concerned, within the framework of decisions or arrangements approved by the Council.

#### Article 16

a) The provisions of the present Decision do not affect rights and obligations resulting from treaties previously entered into by Governments participating in the present Decision.

b) Since the present Decision does not affect the exercise of competences granted to the European Atomic Energy Community (EURATOM) by the Treaty entered into at Rome on 25th March 1957, the Agency shall establish with the said Community a close collaboration, details of which shall be determined by common agreement.

#### Article 17

a) Participating countries shall be countries the Governments of which participate in the present Decision.

b) Any Member country of the Organisation, the Government of which does not participate in the present Decision, may notify the Secretary General of its wish to do so and shall become a participant in the Decision upon approval of the Council on the recommendation of the Steering Committee.

c) Any other Government invited by the Organisation to participate in the present Decision may do so by addressing to the Secretary General an acceptance of that invitation. The Organisation may suspend or terminate that participation by giving one month's written notice of suspension or twelve months' written notice of termination to that Government.

d) Any Government participating in the present decision may terminate the application thereof to itself by giving twelve months' notice to that effect to the Secretary General.

#### Article 18

The provisions of Supplementary Protocol No. 1 to the Convention on the Organisation for Economic Co operation and Development shall apply to the representation of the European Atomic Energy Community (Euratom) in the Agency and in its Steering Committee as well as to the participation of the Commission of the European Communities in the work of the Agency and of its Steering Committee.

#### Article 19

The present Decision shall enter into force on 1<sup>st</sup> February 1958."

## HIGH-LEVEL GROUP ON THE SECURITY OF SUPPLY OF MEDICAL RADIOISOTOPES

<b>Chair:</b>	Mr. Serge Dupont	(Canada)
<b>Members:</b>	Australia Belgium Canada France Germany Italy	Japan Korea Netherlands United States South Africa
<b>Regular Observer (Non-Member):</b>	European Commission <i>Under the NEA Statute</i>	
<b>Observer (International Organisation):</b>	International Atomic Energy Agency (IAEA) <i>By agreement</i>	
<b>Date of creation:</b>	29 April 2009

### Extract from document NEA/NE/M(2009)1

"[...]

The Steering Committee members supported the Canadian proposal to establish, within the NEA framework, a high-level group to carry forward the agenda of the January workshop on the security of supply of medical radioisotopes. The work should, however, be carried out in close co-operation with the IAEA. The high-level group would be small in size and cover a broad jurisdiction of major producers and consumers in a dialogue with regulators, professional associations and nuclear medicine societies. The work of the group would require specific financing since it is not currently included in the NEA Programme of Work, and some countries indicated their willingness to provide financial support. It was suggested that the group conduct a worldwide survey among end-users to determine future medical radioisotope needs, as well as to involve regulators, industry, academic and nuclear medicine societies. It was expected that the group would suggest sustainable solutions for long-term security of supply. Urgent, short-term management of supply questions also needed to be resolved.

The Steering Committee:

- i) **noted** that the NEA organised, at short notice, a workshop on the security of supply of molybdenum 99 and technetium 99m, which was supported financially by the government of Canada;
- ii) **noted** that this workshop was warmly received by the participants, but was only the start of any process to improve security of supply, and that one key outcome of the workshop was a request that the NEA continue work in this area;
- iii) **agreed** that the NEA should conduct further work to help resolve these issues, and that this work should be conducted in close co-operation with the IAEA;

- iv) **agreed** to the Canadian proposal for a high-level group to carry forward the agenda of the workshop and to identify additional practical measures that should be taken.”

### **Mandate:**

The Committee on the Safety of Nuclear Installations (CSNI) shall be responsible for the activities of the Agency that support maintaining and advancing the scientific and technical knowledge base of the safety of nuclear installations, with the aim of implementing the NEA Strategic Plan for 2011-2016 and the Joint CSNI/CNRA Strategic Plan and Mandates for 2011-2016 in its field of competence.

The Committee shall constitute a forum for the exchange of technical information and for collaboration between organisations, which can contribute, from their respective backgrounds in research, development and engineering, to its activities. It shall have regard to the exchange of information between member countries and safety R&D programmes of various sizes in order to keep all member countries involved in and abreast of developments in technical safety matters.

The Committee shall review the state of knowledge on important topics of nuclear safety science and techniques and of safety assessments, and ensure that operating experience is appropriately accounted for in its activities. It shall initiate and conduct programmes identified by these reviews and assessments in order to overcome discrepancies, develop improvements and reach consensus on technical issues of common interest. It shall promote the co-ordination of work in different member countries that serve to maintain and enhance competence in nuclear safety matters, including the establishment of joint undertakings, and shall assist in the feedback of the results to participating organisations. The Committee shall ensure that valuable end-products of the technical reviews and analyses are produced and available to members in a timely manner.

The Committee shall focus primarily on the safety aspects of existing power reactors, other nuclear installations and the construction of new power reactors; it shall also consider the safety implications of scientific and technical developments of future reactor designs.

The Committee shall organise its own activities. Furthermore, it shall examine any other matters referred to it by the Steering Committee. It may sponsor specialist meetings and technical working groups to further its objectives. In implementing its programme the Committee shall establish co-operative mechanisms with the Committee on Nuclear Regulatory Activities in order to work with that Committee on matters of common interest, avoiding unnecessary duplications.

The Committee shall also co-operate with the Committee on Radiation Protection and Public Health, the Radioactive Waste Management Committee, the Committee for Technical and Economic Studies on Nuclear Energy Development and the Fuel Cycle and the Nuclear Science Committee on matters of common interest.”

“The Programme Review Group is to perform a programme quality review function within CSNI and to provide scientific assistance to the decision-making process of CSNI. The PRG should also support the Bureau in preparing the CSNI meetings and in proposing actions concerning the achievement of CSNI objectives.

The main functions of the Programme Review Group are the following:

- Assist the CSNI Bureau in updating the list of Safety Issues and Topics (SIT).
- Review the Integrated Work Plan of each WG with respect to overall work-load and priorities. WG chairpersons are encouraged to attend the PRG meetings.
- Evaluate new activity proposals from the WGs: check consistency with the SIT and the Integrated Plan, assess the resource and time requirements, issue a recommendation to CSNI.
- Review new project proposals aiming to improve the technical content and complementarity with WG work scope.
- For cross-cutting issues, assist the CSNI Bureau in appointing a specific WG to take the lead.
- Monitor the progress of ongoing activities in context of the Integrated Plan and recommend corrective actions as needed.
- Review, and if necessary, draft Technical Opinion Papers and Collective Opinion Statements.
- Review major CSNI Reports (i.e., state-of-the-art reports and documents of similar significance) and provide guidance and advice on technical subjects to the CSNI.
- Report on its activities and recommendations at each Committee meeting.”

Extract from document NEA/SEN/SIN(2007)1 – CSNI Operating Plan (2006-2009)

“Scope

The Working Group shall support improved uses of Probabilistic Safety Assessment (PSA) in risk-informed regulation and safety management through the analysis of results and the development of perspectives regarding potentially important risk contributors and associated risk-reduction strategies. The Working Group shall address PSA methods, tools, and data needed to provide this information.

Objectives

The main objective of the Working Group on Risk Assessment (WGRisk) is to advance the PSA understanding and to enhance its utilisation for improving the safety of nuclear installations, for improving the operation and the design of nuclear installations and for increasing the regulatory effectiveness through risk-informed approaches. In order to achieve this objective, the group shall:

1. Report to the Committee on the Safety of Nuclear Installations (CSNI) and assist that Committee with its work. The Working Group shall prepare an integrated plan for its activities consistent with the mandate as well as proposed CSNI safety issues, updated at regular intervals and CSNI directives.
2. Constitute a forum for exchange of information and experience related to risk assessment in Member countries. This exchange is not only limited to technical discussions on questions regarding risk analysis approaches, results, insights, applications and interactions with other disciplines and analysis techniques, but it shall also include identifying and prioritising important issues requiring additional research.
3. Prepare technical reviews (such as state-of-the-art reports, technical opinion papers, compilations of ongoing efforts, comparison studies etc. as appropriate) of work in all phases of risk assessment to assist further developments and the application of PSA in risk-informed decision making. This work will be done in task groups, whose work will be organized in a project-like manner with outcomes and milestones.
4. Sponsor specialist meetings and workshops to further its objectives.
5. Collaborate with or assist other CSNI Working Groups, CNRA and other NEA committees on request. The group will also co-operate with other international organisations, aiming among others to avoid duplication of effort.”

### Extract from document NEA/SEN/SIN(2007)1 – CSNI Operating Plan (2006-2009)

#### “Scope

The Working Group on the Analysis and Management of Accidents (WGAMA) shall be responsible for activities related to potential accidental situations in nuclear power plants, including the following technical areas: reactor coolant system thermal-hydraulics; design-basis accident including ECCS strainer clogging; pre-core melt conditions and progression of accident and in-vessel phenomena; coolability of over-heated cores; ex-vessel corium interaction with concrete and coolant; in-containment combustible gas control; physical-chemical behavior of radioactive species in the containment; fire safety. The activities will mainly focus on existing reactors, but will have application also for some advanced reactor designs. Priority setting will be based on established CSNI criteria and in particular on safety significance and risk and uncertainty considerations.

#### Objective

The WGAMA objective is to assess and where necessary strengthen the technical basis needed for the prevention, mitigation and management of potential accidents in nuclear power plants, and to facilitate international convergence on safety issues and accident management analyses and strategies.

In order to fulfil this objective, the working group shall:

- Exchange technical experience and information relevant for resolving current or emerging safety issues.
- Promote the development of phenomena-based models and codes used for the safety analysis, including the performance of benchmarking exercises.
- Assess the state of knowledge in areas relevant for the accident analysis and, where needed.
- Promote research activities aimed to improve such understanding, while supporting the maintenance of expertise and infrastructure in nuclear safety research.

The Working Group shall report to the Committee on the Safety of Nuclear Installations (CSNI) and assist that Committee with its work. The programme will be carried out by small task groups, each set up for performing a specific programme activity under the WGAMA supervision. The output of the working group will consist of state-of-the-art reports and other technical reports, workshops and related proceedings, benchmarking exercises and joint research proposals.

The working group will aim to provide answers as requested by CNRA, CSNI and member countries and will co-ordinate its work with other working groups, notably with WGRisk for priority setting, WGOE for emerging issues and WGIAGE for ageing and structure integrity evaluation. WGAMA will also work in co-ordination with the NEA NSC on scientific items such as advanced neutronic and thermal-hydraulic methods. Interaction with joint projects will be strengthened as recommended in the CSNI Operating Plan.”

## **WORKING GROUP ON INTEGRITY OF COMPONENTS AND STRUCTURES (IAGE)**

<b>Chair:</b>	Mr. Andrei Blahoianu	(Canada)

### Extract from document NEA/CSNI/R(2007)7 – CSNI Operating Plan (2006-2009)

“The main mission of the Working Group on Integrity and Ageing of Components and Structures is to advance the current understanding of those aspects relevant to ensuring the integrity of structures, systems and components, to provide for guidance in choosing the optimal ways of dealing with challenges to the integrity of operating as well as new nuclear power plants, and to make use of an integrated approach to design, safety and plant life management.

The Working Group shall report to the Committee on the Safety of Nuclear Installations (CSNI) and assist the Committee with its work. With prior approval of CSNI, the Working Group shall collaborate with or respond to requests from the CSNI Programme Review Group and Working Groups and other NEA committees or other international organizations.

The Working Group will have three subgroups dealing with a) integrity and ageing of metal structures and components, b) integrity and ageing of concrete structures and c) seismic behaviour of components and structures.

The specific mandate should be as follows:

1. The Working Group shall constitute a forum to exchange views, information and experience on generic technical aspects of integrity and ageing of components and structures, and review, as necessary, national and international programmes concentrating on research, operational aspects and regulation.
2. The Working Group shall stimulate, in relevant technical areas, new research and recommend possible international co-operative projects.

3. The Working Group shall develop common technical positions on specific integrity issues of operating and new nuclear power plants, and identify areas where further work is needed.
4. The Working Group shall discuss the potential impact of ageing and other challenges to integrity on the safety, regulation, and operability of operating and new nuclear power plants.”

the nuclear industry in order to support the continued safety performance of nuclear installations, and improve the effectiveness of regulatory practices, in Member countries.

The Working Group shall report to the Committee on the Safety of Nuclear Installations (CSNI) and assist that Committee with its work. The Working Group shall prepare an integrated plan for its activities consistent with the mandate as well as proposed CSNI safety issues, and shall update this at regular intervals. The Group will also collaborate with, and respond to requests from, the Committee for Nuclear Regulatory Activities (CNRA) and other Working Groups of the CSNI. The WGHOFF programme of work will be approved by CSNI.

In delivering its mission, WGHOFF will seek to address the challenges identified in the joint CSNI/CNRA Strategic Plan and to implement the CSNI Operating Plan. WGHOFF will:

1. Constitute a forum for exchange of information and experience about safety-relevant human and organisational issues in Member countries, thereby promoting co-operation and maintaining an effective and efficient network of experts.
2. Identify and prioritise current and emerging human and organisational safety issues.
3. Identify human and organizational factors methodologies and practices where further work and research are needed.
4. Identify those issues which appear most suitable to be addressed by WGHOFF in a co-ordinated way across the international community.
5. Facilitate international convergence on safety issues related to human and organisational factors and, where practicable, seek to develop a shared understanding and common positions on important issues.
6. Compare, and where possible benchmark, practices and methodologies currently applied by Member countries in the assessment of safety-relevant human and organisational issues.
7. Prepare technical reviews of human and organisational factors work where such reports are needed for further development and to assist the application of human and organisational factors methods in member countries.
8. Collaborate with, and support cross-cutting initiatives proposed by, other CSNI/CNRA groups. Ensure that CSNI, CNRA and other organizations are consulted as appropriate when potential cross-cutting work on human and organisational factors is proposed by WGHOFF.
9. Sponsor specialist meetings, workshops and other means of fostering international collaboration with nuclear and other industries, where appropriate, to further its objectives."

“The main mission of this Special Experts Group is to advance the current understanding and address safety issues related to fuel safety.

The specific mandate is as follows:

---

\* Formerly “Special Expert Group on Fuel Safety Margins”. See document [NEA/NE(2006)8].

1. The Group will report to the Committee on the Safety of Nuclear Installations (CSNI), assist the Committee with its work and carry out the programme of work approved by the CSNI.
2. Assess the technical basis for current safety criteria and their applicability to high burn-up (above 50 MWd/kg) and to new fuel designs and materials. The assessment will focus on anticipated transients and postulated accident conditions. Information relevant to fuel performance under normal operating conditions will be considered only to the extent necessary to assess the safety behaviour.
3. Determine needs and priorities for future research programmes in the area of fuel safety behaviour, with the aim of understanding and adequately modelling key phenomena and of quantifying safety margins.
4. Review from the safety point of view, the adequacy of fuel codes and methodologies used for different core assessments as related to high burn-up fuel. Cores with different fuel assembly designs and with MOX fuel are to be considered. Neutronic, thermal-hydraulic and materials aspects are considered as they relate to core safety assessment.
5. Provide a forum where safety relevant fuel issues emerging from operating experience and research work can be addressed and resolved in an effective manner.

The group will aim at facilitating international convergence in fuel safety issues, including experimental approaches, interpretation and use of the experimental data or of other relevant information.

The group will perform its activities mainly through organizing topical meetings on specific subjects or through small task forces dedicated to covering specific programme items.”

“The discussion addressed mainly the list of Safety Issues and Topics and in particular the way to present it as related to the CSNI/CNRA challenges. Aspects of the programme monitoring and closure were also discussed. A remark was made on the classification of the CSNI reports and criteria for such classification. The discussion is summarized as follows:

- The CSNI structure as presented in the draft Operating Plan, including the conversion of SEGHOFF, SEGFSM and FCS in working groups, was approved.”

“Scope

---

\* Formerly “CSNI Fuel Cycle Safety Subgroup”. See document [NEA/NE(2006)8].

The nuclear fuel cycle comprises a number of interrelated activities including; uranium mining and milling; uranium refining and conversion to uranium hexafluoride; uranium enrichment; fuel fabrication and storage (including MOX fuel); spent fuel storage; spent fuel reprocessing; decommissioning of nuclear facilities; radioactive waste management and disposal options (including for spent fuel) and the research and demonstration facilities that support these activities. Reactor operation is conventionally not included in the so-called nuclear fuel cycle. Similarly, the long-term management of radioactive waste is a very broad field, widely covered in several other NEA Committees, and is therefore not addressed, although the safety aspects associated with processing and storing waste in the short term on the site of fuel cycle facilities are treated by the group.

## Objectives

The objective of the Working Group on Fuel Cycle Safety (WGFCS) is to advance the understanding for both regulators and operators of relevant aspects of nuclear fuel cycle safety in member countries.

In order to accomplish this objective the working group shall:

- Meet periodically to exchange information on relevant matters including licensing systems, safety philosophy and safety standards to improve mutual understanding, and to review the information from the Fuel Incident and Notification and Analyses System (FINAS) and other data bases.
- Indicate where further research is needed, review and prioritise safety issues, prepare state-of-the-art reports, hold workshops as appropriate and collaborate with other groups as necessary.

To achieve this mandate the FCS Working Group shall:

1. Report to the Committee on the Safety of Nuclear Installations (CSNI) and assist that Committee with its work. The programme of work of WGFCS will be approved by CSNI.
2. Constitute a forum for exchange of information and experience of activities related to nuclear fuel cycle safety in Member countries. Accumulation of operational experience should be used to improve safety technology. Mutual understanding of licensing systems, safety philosophy and safety standards should be common goal between members.
3. Maintain FINAS as a database which collects and disseminates safety related information concerning incidents at nuclear fuel cycle facilities. The main objective of FINAS is to serve as a tool for sharing lessons-learned from significant events that can be used to improve safety.
4. Indicate where further research and analysis is needed and denote priorities actions to be undertaken. It should prepare technical reviews of work in all phases of the nuclear fuel cycle where such reports are needed for further development. In doing so, care will be taken to avoid duplication of effort or scope with other CSNI Working Groups, or with other international bodies.
5. With prior approval of CSNI, collaborate with or assist the other WGs, NEA committees or other international organisations."

### **“Mandate:**

The Committee on Nuclear Regulatory Activities (CNRA) shall be responsible for the programme of the Agency concerning the regulation, licensing and inspection of nuclear installations with regard to safety. The Committee shall constitute a forum for the effective exchange of safety-relevant information and experience among regulatory organisations. To the extent appropriate, the Committee shall review developments which could affect regulatory requirements with the objective of providing members with an understanding of the motivation for new regulatory requirements under consideration and an opportunity to offer suggestions that might improve them and assist in the development of a common understanding among member countries. In particular it shall review current management strategies and safety management practices and operating experiences at nuclear facilities with a view to disseminating lessons learnt. In accordance with the

NEA Strategic Plan for 2011-2016 and the Joint CSNI/CNRA Strategic Plan and Mandates for 2011-2016, the Committee shall promote co-operation among member countries to use the feedback from experience to develop measures to ensure high standards of safety, to further enhance efficiency and effectiveness in the regulatory process and to maintain adequate infrastructure and competence in the nuclear safety field.

The Committee shall promote transparency of nuclear safety work and open public communication. The Committee shall maintain an oversight of all NEA work that may impinge on the development of effective and efficient regulation.

The Committee shall focus primarily on the regulatory aspects of existing power reactors, other nuclear installations and the construction of new power reactors; it may also consider the regulatory implications of new designs of power reactors and other types of nuclear installations. Furthermore it shall examine any other matters referred to it by the Steering Committee. The Committee shall collaborate with, and assist, as appropriate, other international organisations for co-operation among regulators and consider, upon request, issues raised by these organisations. The Committee shall organise its own activities. It may sponsor specialist meetings and working groups to further its objectives.

In implementing its programme the Committee shall establish co-operative mechanisms with the Committee on the Safety of Nuclear Installations in order to work with that Committee on matters of common interest, avoiding unnecessary duplications. The Committee shall also co-operate with the Committee on Radiation Protection and Public Health and the Radioactive Waste Management Committee on matters of common interest.”

“Working Group on Inspection Practices (WGIP) – CNRA Members approved the revised mandate (based on final editing by WGIP Chair) and the proposal to begin a new task on Inspection of Fire Protection Systems.”

### Extract from document NEA/CNRA/R(2006)3

#### **“Scope**

The scope of work of the WGIP is to examine regulatory inspection practices within the following context:

- Inspection is any examination, observation, measurement, or test to assess structures, systems, components, materials, operational activities, processes, procedures, and personnel and organisational competence. Regulatory inspection is inspection by or on behalf of a regulatory body.
- One important responsibility of a regulatory body is to verify by inspection that licensees operate safely, that their activities fully comply with all applicable regulations, and that safety is given the highest priority. Regulatory inspection must therefore be supplemented by reviews and by other regulatory controls to yield an

integrated assessment of safety and provide a basis for enforcement, which is an essential part of the regulatory oversight process.

### **Main Objectives**

The working group shall constitute an international forum for exchanging information and experience and with the agreement of CNRA will plan its work to ensure improvements in nuclear safety through more effective and efficient regulation.

To this end, the working group shall:

- promote co-operation and learning to mutually enhance regulatory effectiveness and efficiency by reviewing the effectiveness of existing regulatory inspection practices, prepare reports and disseminate lessons learnt, and by sponsoring and holding international workshops on regulatory inspection practices;
- consider what inspection and practices are appropriate to address the future regulatory challenges as identified by CNRA;
- consider the lessons learnt from regulators and regulatory inspections and practices from operational experience.

### **Methods of Working**

Annually the WGIP will prepare a revised plan of work for the next 2 years for agreement by the CNRA.

The working group will closely interact with the Working Group on Operating Experience (WGOE), as the analysis of operating and inspection experiences are both highly important to the oversight of operational safety.

With CNRA's agreement the working group will collaborate with, and assist other NEA committees and other international regulatory organisations."

**“Objectives**

The objective of the WGPC is to provide support to improve communication of Nuclear Regulatory Organisations (NRO) through exchange of information and experience by identifying good practices with focus on enabling practical implementation in each organization/country as appropriate and to maintain a network among working group members facilitating consistent and proportionate NRO public communication between member countries related to any event or regulatory matter with potential public interest;

In order to achieve this objective:

1. The Working Group will share information, news, documents, data, views, ideas, and experiences in the field of public communication and stakeholder interaction. It will keep abreast of activities of a similar or related nature undertaken by other parts of the NEA.
2. The Working Group will review developments, progress, techniques, tools, procedures and achievements in the area of nuclear regulatory communication with the public and stakeholders. It will highlight lessons learned and good practices.

3. The Working Group will provide assistance to CNRA members, through technical notes and workshops, by addressing specific issues and practices.
4. The Working Group will co-operate, internally and externally, with other organisations in regulatory public communication and stakeholder interaction matters, in line with NEA policy.

### **Methods of working**

- constitute a forum of NRO communicators to share information and plan/coordinate/manage activities through organisation of annual meetings;
- collaborative writing of consensus documents (e.g., technical notes, guidelines or aide-memoire) useful to improve NRO communication;
- use of the “flashnews” system to exchange in real time relevant information about safety relevant events of media interest; and
- organisation of workshops in relation with public information and communication.”

### Extract from document NEA/CNRA/R(2006)3

#### **“Objectives**

The main objective of WGOE is to share experience and knowledge, analyse and provide expert insights from operating experience to reach timely conclusions on trends, lessons learnt and effective responses in the short to medium term, and to promote proposals for re-assessment of safety, additional research, new or revised regulatory inspection practices, improvements in managing operations, and other actions to maintain and improve safety in the longer term.

In order to accomplish this prime objective the working group shall:

- Meet periodically to share from their member states incident and event information covering trends, significant important events, responses and measures taken, and lessons learnt.
- Meet periodically to review the information from the IRS and other data bases. Have oversight of the Incident Reporting System (IRS) established for collection and dissemination of operating experience. The Working Group should also ensure the quality of the IRS reports and that the corrective actions are presented in such a manner that they allow others to consider whether similar measures should be implemented, thus facilitating CNRA to discuss and decide on respective actions.
- Promote the development and sharing of improved techniques and methods for the collection, assimilation, review and analysis of incidents.
- Provide expert insight and analysis capabilities to event and inspection experience, and effectiveness of actions taken.

### **Methods of Working**

- Constitute a forum of experts for the analysis of operating experience from regulatory authorities, technical support organisations and industry representatives.
- Closely co-ordinate with and provide input to the Working Group on Inspection Practices (WGIP), as the analysis of operating experience and analysis of inspection experience are both of high importance for regulatory oversight of operational safety.
- Report to the Committee on Nuclear Regulatory Activities (CNRA) and assist that Committee with its work. The programme of work of WGOE will be approved by CNRA. It shall also sponsor specialist meetings and workshops to further its objectives.
- Provide and receive regular reports to and from the Committee on the Safety of Nuclear Installations (CSNI), from which the CSNI may consider initiating specific tasks in existing working groups, establish new research programmes or provide input on the current state-of-the-art. The Working Group shall collaborate with or assist the CSNI Working Groups and NEA Projects.
- Co-ordinate its work with other NEA committees and international organisations (e.g., IAEA, EC, WANO, etc.).
- Provide regular reports to the CNRA on trends, significant important events, responses and measures taken, lessons learnt nationally and internationally.”

### **Appendix C**

MANDATE - Working Group on the Regulation of New Reactors (WGRNR)

#### **Scope**

The Working Group on Regulation of New Reactors (WGRNR) shall be responsible for the programme of work in the CNRA dealing with regulatory activities in the primary program areas of siting, licensing and oversight for new commercial nuclear power reactors (Generation III+ and Generation IV reactors). The working group shall constitute an international forum for exchanging information and experience and with the agreement of CNRA and will plan its work to ensure improvements in nuclear safety through more effective and efficient regulation. In order to accomplish this prime objective the working group shall:

- WGRNR shall constitute a forum of experts for the licensing of new commercial nuclear power reactors and should facilitate a cooperative approach to identify key new regulatory issues and promote a common resolution.
- WGRNR should co-ordinate its work with the work performed by the Multinational Design Evaluation Programme (MDEP) such that: it utilises its outputs and does not

duplicate its efforts; extends the results of MDEP to other CNRA members and in coordination with MDEP plans for the transition of MDEP into CNRA.

- WGRNR should ensure that construction inspection issues and construction experience is shared through existing CNRA working groups or new working groups as appropriate.
- WGRNR should plan for the transition of new reactors into the operational phase and established CNRA programs.
- WGRNR should identify support needed from CSNI.

#### **Methods of working**

- Report to the Committee on Nuclear Regulatory Activities (CNRA) and assist that Committee with its work. The programme of work of WGRNR will be approved by CNRA.
- Closely co-ordinate its work with the CNRA Working Group on Inspection Practices and the Working Group on Operating Experience and the CSNI Working Group on Risk Assessment such that each of the respective groups use the expertise of the individual groups and do not duplicate efforts.
- Provide and receive regular reports to and from the Committee on the Safety of Nuclear Installations (CSNI), from which the CSNI may consider initiating specific tasks in existing working groups, establish new research programmes or provide input on the current state-of-the-art. The Working Group shall collaborate with or assist the CSNI Working Groups and NEA Projects.
- Co-ordinate its work with other NEA committees and international organisations (e.g., IAEA, EC, WANO, etc.).”

### **Mandate:**

The NEA has an acknowledged role in developing a global strategy for considering aspects of sustainability concerning the use of nuclear power and nuclear materials. According to the NEA Strategic Plan for 2011-2016, the Agency's general objective in the field of radioactive waste management is to assist member countries in the development of safe, sustainable and broadly acceptable strategies for the long-term management of all types of radioactive waste, particularly long-lived waste, and spent fuel considered as waste. In this context, the mandate of the Radioactive Waste Management Committee (RWMC) shall be:

- To provide a forum of senior representatives from national agencies, regulatory authorities, policy-making bodies, research and development institutions with responsibilities in the management of radioactive waste and materials, as well as other government-nominated specialists, for the exchange of information and experience on radioactive waste management policies and practices in NEA member countries, and for advancing the state of the art on technical and societal aspects in this area.
- To contribute to the dissemination of information in this field through the organisation of specialist meetings and the publication of reports and consensus statements summarising the results of joint activities for the benefit of the international scientific community, competent authorities at national level and other audiences generally interested in the subject.
- To develop a common understanding of the basic issues involved, and to promote the adoption of common philosophies of approach based on the discussion of the various possible strategies, by keeping under review the state of the art in managing radioactive waste and material at the technical, scientific, regulatory and societal levels, and in public acceptance matters.
- To offer, upon request, a framework for the conduct of international peer reviews of national activities in the field, such as R&D programmes, safety assessments and specific regulations.
- To promote co-operative efforts such as the setting-up of joint R&D projects or the development of databases, and to promote initiatives to maintain relevant competencies and knowledge.

For developing its work programme, and in its *modus operandi*, the RWMC will rely on discipline-oriented working parties in the areas of disposal, decommissioning and associated societal issues. RWMC members delegated from regulatory authorities will also meet in the RWMC Regulators' Forum (RWMC-RF) to exchange specific information on issues of specific regulatory significance. The RWMC-RF will maintain appropriate links with the CNRA.

In the fulfilment of its responsibilities, the RWMC will interact with relevant NEA committees, OECD directorates, scientific bodies and international organisations.”

“ ...

- facilitates multilateral communication and information exchange among RWMC regulators and promotes a frank interchange in open dialogue among peers;
- defines and addresses future regulatory challenges and issues in the area of waste management and disposal; decommissioning and dismantling are also relevant issues;
- promotes discussion and exchange with other groups involved with regulations both within the NEA, i.e., the CNRA and the CRPPH committees, and outside the NEA, such as the IAEA, the EC, and the ICRP. Emphasis is on two-way exchange to benefit from related experience;
- takes initiative within the RWMC in the area of regulation and licensing. This includes promoting discussions within the RWMC, proposing specific products to be developed, recommending relevant initiatives by other RWMC groups, and preparing concerted initiatives by the RWMC and other NEA committees.”

#### **"Mission**

The IGSC provides advice to the RWMC on major and emerging issues in order to facilitate the elaboration of waste management strategies at national and international levels and to enable the management of radioactive waste and materials to benefit from progress of scientific and technical knowledge.

The IGSC is the main technical advisory body to the RWMC regarding methodologies and strategies for characterising and evaluating disposal sites and for repository design as well as for developing and documenting safety assessment and safety cases for geological repositories to accommodate various waste types. In principle, the scope of its activities is the whole range of elements to be addressed in a safety case. In particular, the IGSC:

- Advises the RWMC on major and emerging issues in the strategic areas of the process of repository development and of their related system analyses and technological advances;
- Promotes the exchange of information on such issues;
- Strives to achieve shared approaches and tools, where appropriate.

---

\* Formely "Integration Group for the Safety Case of Radioactive Waste Repositories".

[...]

The IGSC mandate covers not only site characterisation, design development and safety assessment, but also addresses other elements of the safety case. The activities and priorities of IGSC fall into the following main themes regarding safety cases:

- What do we know? (the scientific basis for engineering design, process understanding and site understanding)
- How do we use what we know to demonstrate safety? (assessment strategy and tools)
- How do we achieve safety in practice? (design, implementation, technology and feasibility)
- How do we synthesise information and build confidence in safety? (integration, organisational issues and management)

[...]

Activities of the IGSC have traditionally focused on long-term safety. However, as some national programmes approach licensing, a higher degree of integration is required, not only for all elements related to long-term safety, but also of engineering and operational considerations. [...] It is, therefore, recognised that to achieve confidence in (and acceptance of) a repository, it must be shown not only that the system will be safe over the long term, but also that it can be built and operated safely.

In undertaking its mission the IGSC will:

1. Define, oversee and carry out a work programme of technical activities related to the development, evaluation, and communication of safety cases as a basis for confidence and decision-making within the development of repositories for long-lived radioactive waste. Emphasis is on the identification and pursuit of issues and on the development of technical tools for which there is pan-national interest, and on publishing the group's findings where this is found appropriate.
2. Facilitate multilateral communication and information exchange among IGSC members, and promote a frank interchange in an open dialogue among peers. In particular, the IGSC provides a neutral forum for dialogue with a view to identify emerging issues and trends, review the state of the art, and promote further understanding and common views, including the development of tools.
3. Promote the exchange of information and strive for common understanding, shared approaches and methods for the development and documentation of repository technical safety cases. Emphasis is on strategic and methodological issues."

1. To define, oversee and carry out work programme activities in the strategic area of public perception and stakeholders’ confidence as assigned by the RWMC.
2. To advise the RWMC on major and emerging issues in the area of public perception and stakeholders’ confidence related to waste management.
3. To act as a forum to share experience in achieving stakeholders’ confidence and, in particular, in how to obtain the trust of local communities, and their representatives and intermediaries with the technical decision makers. Public input to decision making, while maintaining a workable decision-making process, needs to be more fully explored, especially in relation to the role of the regulator.
4. To analyse today’s processes for embedding waste management programmes into a socio-political decision-making context.
5. To identify opportunities for harmonised views of member countries, regarding:
  - Successful and unsuccessful experiences in interacting with stakeholders (e.g., compiling and reviewing factual information and experiences related both to outreach programmes and to public inquiries, drawing out and examining generic elements that are required to ensure and maintain credibility of waste management organisations);
  - Technical concerns of stakeholders;
  - Effective means of communicating with technical and non-technical audiences.”

The remit of the WPDD is as follows:

1. To define, oversee and carry out work programme activities as assigned by the RWMC, in order to increase the outreach and efficiency of both the RWMC and NEA in the field of Decommissioning as described in the NEA Strategic Plan 2005-2009.
2. To identify and analyse main issues regarding policies and strategies for the Decommissioning of phased-out nuclear facilities, including funding related issues, and the attending issues of recycling, reuse and/or disposal of materials and the release of buildings and sites.

3. To observe, on a world-wide level, the development of the state of the art of management and technique of decommissioning projects, and make it better available to other NEA bodies engaged in this crosscutting field, in particular building on the experience from the technical information exchange performed within the CPD.
4. To facilitate multilateral communication and information exchange among the WPDD members, and to promote an open dialogue among peers, in particular the regulatory authorities, R&D institutions and the decommissioning industry both private and public,
5. To keep the WPDD members and the RWMC aware of progress and activities in other international fora and their implications, and help the RWMC participate in international initiatives. Co-ordination with EC and IAEA initiatives is important.
6. In close co-operation with the FSC examine and further develop the link between decommissioning, decision-making and public confidence and acceptance, keeping in mind the long time scales for planning and carrying out decommissioning projects.
7. To set up, manage, and make broadly available a database of information on decommissioning in NEA Member countries.
8. To be of service to the other NEA committees with the goal to strengthen overall visibility of decommissioning as a NEA crosscutting activity.”

**Mandate:**

As stated in the NEA Strategic Plan for 2011-2016, the general objective of the Agency in the field of radiological protection is to assist member countries in the regulation and implementation and further development of the system of radiological protection by identifying and effectively addressing conceptual, scientific, policy, regulatory, operational and societal issues. The CRPPH will contribute to the adoption and the maintenance of high standards of protection for workers, members of the public and the environment in all activities involving the use of ionising radiation, and particularly in the field of nuclear energy. In this context, the mandate of the Committee on Radiation Protection and Public Health (CRPPH) shall be:

- to provide a forum for the exchange of information and the transfer of experience between national radiological protection and public health authorities on radiological protection policies, regulatory issues and approaches, and their implementation in the various practices and situations involving exposures to radiation;
- to seek international understanding and guidance, in support of national authorities, on questions of common concern regarding the interpretation and implementation of the International Commission on Radiological Protection (ICRP) recommendations and other international standards in various fields of application of radiological protection, and to contribute to the development of harmonised positions in this field;
- to keep under review and contribute to the advancement of the state of the art in the field of radiological protection at the scientific and technical levels and to promote the preparation of authoritative advice and reference documents, for use by national authorities, policy makers and practitioners, on emerging policy, regulatory and operational issues, and in those areas where international consensus on radiological protection concepts, regulatory issues and practices is required;
- to advance concepts and policies which make the system of radiological protection more simple, transparent and adaptable to the broader social dimensions of decision making in complex radiological situations;
- to promote and initiate international co-operative activities on specific radiological protection and related public health topics of interest to the NEA member countries in the framework of the NEA Strategic Plan.

In the fulfilment of its mandate, the CRPPH will work in close co-operation with other NEA committees as appropriate, particularly the Committee on Nuclear Regulatory Activities (CNRA) and the Radioactive Waste Management Committee (RWMC), as well as with the competent bodies within relevant OECD directorates and other international organisations active in the field."

“The mission of the CRPPH Working Party on Nuclear Emergency Matters (WPNEM) is to improve nuclear emergency management systems within member states, and to share its knowledge and experience widely. In this context, emergency matters refer to all aspects of planning, preparedness and response for the “early” and “intermediate” phases of a nuclear/radiological emergency (including accidents and consequence management for malicious acts), with a view towards preparation of recovery actions.

Within this framework, the WPNEM develops its programme of work by identifying and analysing areas for improvement in emergency management systems. The programme of work is developed in coordination with member states and other relevant organisations.

Participants are emergency management experts from OECD/NEA countries with recognised knowledge, skills and abilities in the nuclear field. The Working Party employs a flexible approach to address issues across the entire spectrum of nuclear and radiological emergency management, from preparedness to transition to recovery. Participants share information, data, knowledge, and experience to test all aspects of emergency management systems and theories, identify gaps and provide recommended strategies to improve nuclear emergency management worldwide.

The Working Party on Nuclear Emergency Matters successfully fulfilled the tasks laid down in its previous Terms of Reference for the period 2006-2009 (NEA/CRPPH/INEX(2006)2) and extension to 2010 (NEA/CRPPH(2009)2), approved by the CRPPH at its 64<sup>th</sup> meeting (May 2006) and 67<sup>th</sup> meeting (May 2009), respectively.

The WPNEM Terms of Reference for Jan 2011 – Dec 2013 are as follows:

- Continue development of INEX series exercises to address best practices and identify areas for improvement in nuclear/radiological emergency management systems;
- Continue INEX series post-exercise evaluations, including the follow-up to the INEX 4 exercise, conduct international evaluation workshops and other relevant activities, and publish reports to enable improvements to nuclear/radiological emergency management systems;
- Provide a framework for validation of relevant products or activities coordinated in advance with the WPNEM. Such products may include those developed by or in coordination with other international and/or inter-governmental organisations or bodies;
- Identify and investigate as appropriate further advancements in all aspects of emergency planning, preparedness and response for nuclear/radiological emergencies (including accidents and consequence management for malicious acts), for example:
  - Implementation of ICRP recommendations and the international Basic Safety Standards for emergency situations;
  - Management of early countermeasures (implementation, withdrawal, modification);
  - Consequence management and the transition to recovery;
  - International harmonisation;

- Sustainable approaches;
  - Knowledge of best practices;
  - Approaches to stakeholder involvement;
  - Strategies for implementation of lessons identified;
  - Third party liability issues;
  - Public information
- As needed, review and update WPNEM documents and reports;
  - Provide input as appropriate for the development of international standards and recommendations on emergency management, such as ICRP and IAEA documents;
  - Develop, co-ordinate and evaluate WPNEM objectives for inclusion in international exercises such as those coordinated through the Inter-Agency Committee on Radiological and Nuclear Emergencies (IACRNE);
  - Periodically report programme progress to the CRPPH.

These Terms of Reference will be used as the basis for the yearly programme of work.”

### **Mandate:**

The general objective of the NEA in the field of nuclear science is to help member countries identify, collate, develop and disseminate the basic scientific and technical knowledge required to ensure the safe, reliable and economic operation of current and next-generation nuclear systems.

Research capability and technical expertise in basic disciplines, such as reactor physics, thermal hydraulics, neutronics, fuel physics and chemistry, radiation physics and material science, are needed to develop nuclear programmes, and to maintain and enhance a high level of performance and safety. Advancing this body of knowledge is central to addressing issues of importance for the current generation of nuclear facilities, but is just as essential to the design, construction and operation of new reactors and fuel cycles. Future nuclear technologies will also greatly benefit from the systematic accumulation of knowledge in these areas. Fostering the active

preservation and development of this knowledge in an international framework and enhancing the dissemination of the scientific results are vital to the effective performance of nuclear activities.

To achieve this objective, the Committee will:

- help advance the existing scientific knowledge needed to enhance the performance and safety of current nuclear systems;
- contribute to building a solid scientific and technical basis for the development of future-generation nuclear systems and spin-off technologies;
- support the preservation of essential knowledge in the field of nuclear science.

The areas of activity will cover, but not be limited to:

- nuclear physics, nuclear data measurements and evaluations;
- computational science and mathematical modelling methods;
- reactor physics, neutronics and coupling with thermal-hydraulics, and fuel behaviour;
- criticality safety issues related to the front- and back-end of the fuel cycle;
- fuel cycle physics and chemistry;
- partitioning and transmutation;
- fuel cycle scenarios;
- multi-scale material and fuel modelling and experiments;
- radiation shielding and dosimetry;
- accelerator development for nuclear applications;
- preservation and renewal of expertise in nuclear science.

In the fulfilment of its mandate, the Committee will interact with other standing technical committees of the Agency in matters of common interest and with other bodies within the Organisation, as well as with other international organisations, as appropriate.

#### COMMITTEE OFFICERS

The Committee shall designate a bureau with one Chair and four Vice-chairs for a one-year term. One of the Vice-chairs will act as chair of the NSC Executive Group (Data Bank Management Committee). The bureau undertakes tasks delegated to it by the Committee, and participates in the preparation of Committee meetings and in the follow-up of Committee decisions, in close co-operation with the Secretariat.”

### **Scope and Membership**

The goal of the Working Party is to improve the quality and completeness of evaluated nuclear data available for use in science and technology and to promote the efficient use of available resources through international collaboration.

The Working Party will consist of four representatives of each of the following three nuclear data evaluation projects: ENDF (United States), JEFF (Data Bank member countries), JENDL (Japan), as well as four representatives of non-OECD nuclear data evaluation projects, such as BROND and CENDL. The participation from projects in non-OECD Member countries will be channelled through the Nuclear Data Section of the International Atomic Energy Agency (IAEA). At least one member of each group will be a representative of the nuclear data measurement community.

A Working Party chairman shall be elected for a two-year period, with possible yearly extensions; the guiding principal being an alternating chairmanship between the ENDF, JEFF and JENDL projects. Eligible candidates are representatives of the evaluation projects in OECD member countries.

### **Objectives**

The Working Party will promote the exchange of information on nuclear data evaluations, measurements, nuclear model calculations, validation, and related topics, and provide a framework for co-operative activities between the participating projects. The Working Party will assess needs for nuclear data improvements and address those needs by initiating joint evaluation

and/or measurement efforts. The improvements will be reflected in all major evaluated data files and will gradually help to eliminate discrepancies in these files.

Within the period of the mandate, the Working Party plans to address the following issues:

- The needs for further improvements of evaluated nuclear data for both current and advanced reactor concepts in response to indications from integral data validation activities.
- A continued effort to develop methods for the inclusion of uncertainty (covariance) information in the evaluated data files and to guide the data evaluators in providing such information to the user community.
- Investigate methods and issues for the combined use of integral experiments and covariance data in the assimilation (adjustment) process for further improvements of evaluated nuclear data libraries.
- Updating the “High Priority Request List for Nuclear Data” (HPRL) and coordination of associated nuclear data measurement activities.
- Any other emerging important nuclear data needs.

The Working Party will liaise closely with other NSC activities to ensure that the data needs, identified in these work programmes, are properly addressed.

#### **Deliverables**

- an updated version of the “High Priority Request List for Nuclear Data”, accessible through the NEA Internet Web pages;
- a report addressing the methods and issues for the combined use of integral experiments and covariance data in nuclear data assimilation (adjustment) procedures;
- a report on meeting nuclear data needs for advanced reactor systems;
- a report on a co-ordinated re-evaluation and validation of  $^{239}\text{Pu}$  data in the resonance region;
- a report on improved evaluation methods for scattering angular distributions in the fast energy range;
- a report on the use and preservation in EXFOR of experimental uncertainty (covariance) for the evaluation of the resolved resonance region and the processing into evaluated nuclear data files.”

### **Scope**

Under the guidance of the Nuclear Science Committee the Working Party will deal with, reactor physics, radiation transport & dosimetry and fuel performance for present and future nuclear power systems. As such, it will study the modelling of reactor systems and the uncertainties associated with such analyses.

### **Objectives**

- To provide the Member Countries with up-to-date information to preserve knowledge on and develop consensus regarding reactor physics, thermal hydraulics, radiation transport & dosimetry, fuel behaviour and dynamics associated with nuclear power systems, aimed at providing technical underpinning of the assessment of system performance and safety.
- To provide advice to the nuclear community on the developments needed to meet the requirements (data and methods, validation experiments, scenario studies) for the assessment of different reactor systems.
- To provide information on the uncertainties in modelling of reactor system performance and safety, including multi-physics analyses.

Reactor physics aspects considered will include:

- Reactivity characteristics.

- Core power/flux distributions.
- Core kinetics and reactivity control.
- Fuel Inventories.
- Reactivity coefficients.
- Safety/system dynamics.

Radiation transport and dosimetry will cover aspects relevant to reactor vessels and internals, and irradiation facilities.

Reactor types considered include, but are not limited to the following:

- Present generation LWRs with advanced and innovative fuels, evolutionary and innovative LWRs and HWRs.
- Novel reactor systems (e.g. Gen IV Systems).
- Accelerator driven (sub-critical) and critical systems for waste transmutation.

The Working Party will liaise closely with other relevant NEA working parties, especially those operating under the guidance of the NDC and CSNI, to ensure the respective work programmes are complementary and to provide advice and support where required and undertake common work where appropriate. Particularly close working relationships will be maintained with the NSC Working Party on the scientific issues in Fuel Cycle (WPFC).

## **Deliverables**

- Summary reports on current status of WPRS Experiments Databases IFPE, IRPhE & SINBAD, including priority 'wish-list' for future evaluations and review of possible requirements for database tools (2012).

#### **Scope**

Under the guidance of the Nuclear Science Committee, the Working Party will deal with technical and scientific issues relevant to criticality safety. Specific areas in interest include, but are not limited to investigations concerning static and transient configurations encountered in the nuclear fuel cycle such as fuel fabrication, transport, separation processing and storage. Areas of activities include:

- Evaluation of available experimental data.
- Assessment of experimental needs.
- Code and data inter-comparison.
- Development of codes and models, assessment of uncertainties.
- Development of criticality methodologies and data.
- Establishment of technical basis for the application of burn-up credit.

#### **Objectives**

- Exchange of information on national programs in the area of criticality safety.
- Guide, promote and co-ordinate high priority activities of common interest to the international criticality safety community, establish co-operations.
- Monitor the progress of all activities and report to the NSC.
- Publish databases, handbooks, and reports.
- Facilitate communications within the international criticality safety community through relevant internet sites;

- Co-ordinate the ongoing series of international conferences on nuclear criticality safety (ICNC), to be held every four years.
- Co-ordinate WPNCs activities with other working parties within the NEA and in other international frameworks to avoid duplication of activities.
- Provide a technical basis for other international activities (e.g. ISO, IAEA).

### **Deliverables**

- New editions of the International Handbook of Criticality Safety Benchmark Evaluation Project (2010, 2011 and 2012).
- Update to DICE database tool for ICSBEP.
- Report summarising the findings of the Expert Group on the study of source convergence issues (2010).
- Report summarising findings of the Expert Group on the modelling of criticality transient experiments – Phase II (2011).
- Report on the analysis and benchmarking of ISTC 2670 project (Assay data for VVER440 fuel) (2010).
- New evaluations of BWR and PWR PIE data for SFCOMPO accounting for conclusions of Spent Fuel Assay Expert Group review of evaluation requirements with respect to data requirements and sensitivities. (2010, 2011).
- Report on Phase IIE (PWR axial profile study) of Burnup Credit Benchmarks.
- Report summarising the findings of the Expert Group on Burn-up Credit and lessons learned (2011).
- Web-based information resources on burn-up credit, criticality excursions, source convergence issues and PIE data.
- Benchmark report on uncertainties due to fuel assembly manufacturing tolerances (2011).
- Benchmark report on testing of codes used to generate sensitivity coefficients for uncertainty analyses (2012).
- State-of-the-art reports summarising new Monte Carlo techniques of importance to criticality safety practitioners (2011, possible update 2013).
- International coordination of ICNC2011. Delivery of technical reviews of abstracts and papers (2011)."

#### **Scope**

Under the guidance of the Nuclear Science Committee, the Working Party will deal with scientific issues in various existing and advanced nuclear fuel cycles, including fuel cycle scenarios, physics, separation chemistry and flowsheets, waste forms, fuels and materials, and spallation target.

#### **Objectives**

- To provide the member countries with up-to-date information on and develop consensus regarding:
  - Fuel cycle scenarios:
    - Assessment of advanced fuel cycles scenarios, including resource utilisation and waste management.
    - Fuel cycle tools and data bases.
  - Chemical partitioning:
    - Keep updated information on separation technologies, including advanced aqueous and pyrochemical processing issues for different fuel cycle scenarios.
    - Evaluation of advanced processing concepts, including design bases for future reprocessing plants.
  - Fuels and materials:
    - Keep updated information on fuels and materials for implementing advanced nuclear fuel cycles.

- Update the handbook on heavy liquid metal (HLM) technology as new information becomes available.
    - Evaluation of innovative fuels and materials technologies, including fabrication processes and performances.
  - Technology and components of accelerator driven systems:
    - Accelerator and neutron source.
    - Sub-critical system design and relationship to nuclear fuel cycles.
- To liaise closely with other relevant NSC Working Parties and NEA Standing Technical Committees, especially the Nuclear Development Committee (NDC) and the Radioactive Waste Management Committee (RWMC), to ensure the respective work programmes are complementary and to provide advice and support where required and undertake common work where appropriate. Particularly close working relationships will be maintained with the Working Party on scientific issues of Reactor Systems (WPRS) and the Working Party on Multi-scale Modelling of Fuels and Structural Materials for Nuclear Systems (WPMM), as well as with the Generation IV International Forum (GIF).
- To provide advice to the nuclear community on the developments needed to meet the requirements for implementing advanced long-term sustainable nuclear fuel cycles, including partitioning and transmutation.

#### **List of deliverables**

- Report on curium separation and management (2010).
- Status report on innovative structure materials (2010).
- Proceedings of first workshop on technology and components of accelerator driven systems (2010).
- Benchmark on thermal-hydraulic loop models for Lead-Alloy Cooled Advanced Nuclear Energy Systems – Phase I (2010).
- Status report on innovative fuels (2011).
- Global nuclear fuel cycle transition scenario studies (2011).
- Heavy Liquid Metal (HLM) handbook – edition 2011.
- Comparative study on homogeneous vs. heterogeneous recycle of TRU in fast reactors (2011).
- Potential benefits of advanced fuel cycles with partitioning and transmutation and impact studies (2011).
- Proceedings of 11<sup>th</sup> information exchange meeting on actinide and fission product partitioning and transmutation (2011).
- Proceedings of second workshop on structural materials for innovative nuclear systems (2011).
- Report on progress of separation chemistry, minor actinides separation and perspective of future R&D (2012).
- Benchmark on thermal-hydraulic loop models for Lead-Alloy Cooled Advanced Nuclear Energy Systems – Phase II (2012)."

### **Scope**

Under the guidance of the Nuclear Science Committee, the Working Party will deal with materials science aspects of nuclear fuels and structural materials, aiming at establishing their multi-scale modelling and simulation as a validated predictive tool for assessment and/or design purposes.

### **Objectives**

To form the basis for international cooperation between member countries for issues such as:

- Ab-initio modelling and simulation of fuels for advanced nuclear systems, specifically including aspects related to first principles description of the actinide bearing phases;
- Atomistically informed modelling and simulation of nuclear fuels and structural materials at progressively longer time and length scales, paying attention to radiation damage effects and to the methodologies needed to achieve inter-scale integration;
- Validation of simulations and model predictions by benchmarking exercises and identification of experimental data that would be most urgent or important for this validation;
- Identification of fundamental problems encountered in the development of fuels and structural materials and amenable to analysis by both modelling/simulation and experiment to reduce the time and resources needed to develop new fuels and structural materials;

- Harmonisation of experimental and testing practices; establishment of reference experimental and simulation datasets and databases, aiming at improving the joint utilisation of modelling/simulation and experimental techniques;
- Development of new applied mathematics and software tools, particularly those of common interest for fuels and structural materials;
- Integration of results from multi-scale modelling and simulation into performance codes and materials qualification processes, as well as into multi-physics environments, such as the coupling of materials and neutronics”.

### **Methods of work**

To carry out its objectives, the Working Party will provide a framework for joint undertakings to further develop issues under its scope, such as:

- Contribute to the exchange of information between the fuel and structural materials communities on progress and key issues in the multi-scale modelling and simulation approach;
- Report progress at the annual meetings of the NEA Nuclear Science Committee
- Publish state-of-the-art reports and others stemming from the Working Party activities;
- Sponsor or co-sponsor information exchange meetings and other outreach activities.

The Working Party will liaise closely with other relevant NEA working parties, especially with the NSC Working Party on the scientific issues in Fuel Cycle (WPFC).

### **Deliverables:**

The Working Party will publish state-of-the-art reports of each expert group activity as follows:

- Expert Group on Multi-scale Modelling Methods (2012).
- Expert Group on Multi-scale Modelling of Fuels (2012).
- Expert Group on Structural Materials Modelling (2012).
- Expert Group on Validation and Benchmarks of Methods (2012).
- Expert Group on Primary Radiation damage (2012).”

**Mandate:**

The Nuclear Science Committee (NSC) shall also supervise the work of the Data Bank, which acts as an international centre of reference for its member countries with respect to basic nuclear tools, such as computer codes and nuclear data, used for the analysis and prediction of phenomena in the nuclear field, and which provides a direct service to its users by developing, improving and validating these tools and making them available as requested.

To this end, the NSC shall establish an Executive Group with the task of establishing proposals for the work programme and budget for the Data Bank services, to be considered by the NSC with a view to making recommendations to the Steering Committee. The Executive Group shall consist of members of the NSC from each participating country of the Data Bank; representatives from non-participating countries may take part as appropriate.

In particular, the Data Bank will:

- assume responsibility for the development, compilation, validation and dissemination within its participating countries of bibliographic and numerical nuclear and chemical thermodynamic data (including experimental, evaluated and integral data) and computer programs for nuclear technology;
- collaborate in the above work with other data and software centres outside the group of participating countries, notably in the United States and the International Atomic Energy Agency;
- maintain the necessary expertise in computing and scientific information;
- carry out work in other fields of science as determined by the NSC, either to the benefit of the participating countries or to that of the Agency's full membership, subject to resources allocated by the participating countries."

### **Scope and Objectives**

The objective of the Joint Evaluated Fusion and Fission (JEFF) file Project is to develop and promote the use of high quality evaluated nuclear data sets in standard formats for a wide range of scientific and technical applications.

The Project assesses the needs for nuclear data improvements and addresses those needs by initiating the necessary measurements, evaluation and benchmarking efforts.

### **Participation**

The JEFF Project is a collaborative effort between NEA Data Bank Member countries, and in practice consists mainly of European countries and in particular Austria, France, Germany, Italy, the Netherlands, the United Kingdom, and the European Commission.

The Project provides a framework for co-operative activities between participating countries while seeking to make the most rational and efficient use of the available resources.

As with other NEA activities, the participation is on a voluntary basis, where each participating organisation is responsible for covering the cost of its own contributions.

The Project will maintain close links with other similar international efforts or projects aimed at producing evaluated nuclear data, for example through active participation in the NEA Working Party on International Nuclear Data Evaluation Co-operation (WPEC).

The Project will also maintain close links with the International Nuclear Data Committee (INDC) of the IAEA, with nuclear data activities carried out by the Joint Research Centre (JRC) of the European Commission, and with Euratom funded activities, such as F4E and FP7 nuclear data projects.

## **Organisation**

The Project is established under the auspices of the Executive Group of the Nuclear Science Committee (NSC).

The Project management is assured by a Scientific Co-ordination Group (SCG) composed of up to two representatives for each participating country. The NSC Executive Group nominates the representatives.

The JEFF Project Chair and vice-Chair are elected by the SCG for a three-year renewable term.

The Chair and the Secretariat may invite a limited number of specialists to participate as observers in SCG meetings.

The SCG elects its representatives to the NEA Working Party on International Nuclear Data Evaluation Co-operation (WPEC).

The Secretariat of the Project is the Nuclear Energy Agency (NEA) Data Bank. The Secretariat is responsible for maintaining the official records of the Project and for organising its meetings in consultation with the Chairman. The Secretariat is also responsible for the publication and distribution of the JEFF documents, as well as for the updating and maintenance of the JEFF files.

## **Method of Work**

The SCG forms appropriate sub-groups to perform technical activities. Sub-group leaders are nominated by the SCG and report to the SCG. Sub-group leaders are systematically invited to SCG meetings.

The technical activities cover the following themes: experiments, model codes, data evaluations, assessment of uncertainties, verification & compilation of the data under strict quality assurance procedures, file processing and benchmarking.

The SCG is responsible for reviewing its mandate and the progress of the different sub-groups, providing directions for further developments or new initiatives, and scheduling the official release of the JEFF files.

The JEFF meeting is generally held twice per year, while the sub-groups and Scientific Co-ordination Group meet at least once a year. Official summary records of each SCG meeting are produced.

## **Deliverables**

JEFF libraries are distributed by the Secretariat in the form of computer files. All past JEF(F) libraries are considered frozen. The Project will provide assistance and recommendations to users of the JEFF library and of subsequent official releases of the JEFF files according to the attached policy.

A specific development plan is produced for each mandate period of the Project. The data files and the results of the Project activities are available without restrictions to authorised users in participating countries. Information developed within the Project is distributed via the Secretariat."

**Mandate:**

Under the authority of the Steering Committee for Nuclear Energy, to conduct technical, resource, economic, strategic and policy studies and publish documented, authoritative reports on nuclear energy development, its fuel cycle and related issues in support of member countries' national energy or nuclear energy policies. Specifically, the Committee should initiate studies that will:

- analyse the economics of nuclear power across the full nuclear fuel cycle in the context of changes in electricity markets, social acceptance and technological advances and assist member countries in evaluating the role of nuclear energy in their energy policies;

- promote international co-operation on the development of innovative nuclear energy systems;
- review the role of nuclear power in the broader perspective of climate change and sustainable development;
- assess the availability of nuclear fuel, technology and infrastructure (including human and institutional) required for the deployment of existing and future nuclear power and identify the eventual gaps;
- assist member countries, upon request, in addressing emerging concerns related to nuclear technology and radioactive materials, including medical radioisotopes, within the constraints of financial limitations and as augmented by voluntary contributions;
- establish a communication network within and outside the OECD framework aiming at providing factual information on nuclear issues;
- review the role of research and development in new nuclear technologies and their impact in energy generation and non-power applications.

Furthermore the Committee should address the preceding topics by:

- contributing to the dissemination of information in the areas listed above;
- establishing a liaison with other NEA committees and other parts of the OECD, as appropriate, to analyse and comment on aspects within its competence contained in any report relating to the mission of the NEA or specifically submitted to the Steering Committee;
- reviewing related work in national and other international governmental organisations, especially the International Atomic Energy Agency and advising the Steering Committee on the co-ordination of NDC work with that of others;
- maintaining an understanding of the role and work of all organisations relevant to the area of interest of the Committee, such as industry, trade organisations, regulators, interest groups or professional associations;
- reporting every year to the Steering Committee, reviewing NEA activities in this field and making proposals for the future programme of work.”

“The Steering Committee:

- i) *considered* the proposal to reconstitute a joint NEA/IAEA Group to prepare studies on uranium resources, with a mandate as specified in the terms of reference presented in Annex 1 of document NEA/NE(96)6; and
- ii) *agreed* to reconstitute the joint NEA/IAEA Uranium Group as proposed, with the understanding that its mandate would be interpreted to include exchanges of

information on environmental effects and environmental protection technologies associated with mining and ore processing.”

Extract from document NEA/NE(96)6, Annex 1

“General Objectives

To co-ordinate the preparation of the periodic assessments of the world’s supply of natural uranium; to examine the relationship of these supply capabilities to projection of natural uranium demand; to foster the exchange of technical information in the fields of uranium resources, exploration and production technology in co-operation with members, and with other international organisations as appropriate; and to recommend to the NEA and IAEA actions that might be taken to assure an adequate long-term supply of uranium for nuclear power development.

Mandate

1. To plan, direct and co-ordinate the preparation of periodic assessments of the world’s uranium supply capabilities (i.e. levels of uranium exploration activity, estimates of resources and production capability) in co-operation with members, and with other international organisations as appropriate.
2. To examine the world’s uranium supply capabilities in relationship to projections of natural uranium demand, and to recommend to the NEA and IAEA actions that might be taken to assure an adequate long-term supply of uranium for nuclear power development.
3. To foster the exchange of technical information in the fields of uranium geology, resources, exploration, mining and ore processing technology, in co-operation with members, and with other international organisations as appropriate, with a view to promoting collaborative R&D efforts in areas that may be identified through these exchanges.
4. To promote the expansion of the geological coverage of information on uranium activities throughout the world, with particular emphasis on developing countries.”

### **Mandate of the Working Party on Nuclear Energy Economics (WPNE) Revised September 2010**

“[...]

#### **General Objectives**

To collect and compile information and conduct analyses and assessments on all economic aspects of nuclear energy.

#### **Mandate**

To provide a forum for exchange of information between experts on all economic aspects of nuclear energy systems.

To carry out, on a periodic basis, studies on the total costs – including investment, operation and maintenance and fuel cycle – of generating nuclear electricity and non-electricity products.

In co-operation with appropriate others (e.g. IAEA, IEA) examine the competitiveness of nuclear energy systems as compared with alternatives for electricity generation and non-electricity products, e.g. hydrogen and desalinated water.

To examine, on an *ad hoc* basis, specific economic issues, such as capital costs of nuclear facilities and their financing, management and financing of liabilities (e.g. decommissioning, waste disposal), identification and valuation of externalities.

To develop methods and models for assessing the costs of nuclear energy systems including innovative reactors and fuel cycles.

## **Relation with the NDC**

The NDC will identify activities to be conducted by the WPNE but will also expect the WPNE to provide its own proposals for potential topics to be included in the biennial programme of work.

All reports, publications and products of the WPNE will be reviewed and approved by the NDC before being released.

The WPNE will report to the NDC on its progress and activities as requested, and at least on an annual basis.

## **Working methods and deliverables**

The WPNE will meet periodically, usually twice a year, and organise workshops or symposia on economic aspects of nuclear energy on an *ad hoc* basis.

The tasks undertaken under the umbrella of the WPNE will lead to reports and studies on issues such as the economics of the fuel cycle, the financing of nuclear power plants and all other aspects that concern nuclear energy in a market environment.

## **Duration of mandate**

The mandate of the WPNE will be for 2 years and 1 month, from 1 December 2010 to 31 December 2012 in order to bring it in line with the rhythm of the programme of work of the NDC. The mandate of the WPNE is renewable subject to the agreement of the NEA Steering Committee and the NDC.”

#### **Mandate:**

In accordance with the NEA Strategic Plan for 2011-2016, the Nuclear Law Committee will work to encourage provisions for equitable compensation of damage in the event of a nuclear incident. In particular, the Committee is mandated to deal with issues relating to civil liability for damage caused by a nuclear incident and to financial security mechanisms designed to ensure that funds will be available to compensate such damage. It addresses these issues in the context of member countries' nuclear legislation and of international nuclear liability instruments, including 1) the 1960 Paris Convention on Third Party Liability in the Field of Nuclear Energy and the 1963 Brussels Convention Supplementary to the Paris Convention, as amended, 2) the 1963 Vienna

Convention on Civil Liability for Nuclear Damage and the 1997 Protocol to Amend the Vienna Convention, 3) the 1988 Joint Protocol Relating to the Application of the Vienna Convention and the Paris Convention, and 4) the 1997 Convention on Supplementary Compensation for Nuclear Damage. The Nuclear Law Committee will also strive to eliminate or minimise any legal impediments to the safe use of nuclear energy.

More specifically, the Committee has a mandate to:

- examine issues relating to the interpretation and application of international nuclear liability instruments, especially with respect to their harmonious application under member countries' national laws, and encourage broader adherence to those instruments with a view to fostering further progress towards a global regime of liability and compensation for nuclear damage;
- promote the harmonisation of national policies and legislation in the nuclear liability and compensation field amongst its member countries;
- encourage the development of national legislation governing the peaceful uses of nuclear energy based upon internationally accepted principles, particularly in the area of liability and compensation;
- develop recommendations concerning the Paris Convention and the Brussels Supplementary Convention, as amended, for submission, if appropriate, to the Steering Committee for Nuclear Energy;
- promote the exchange of information and the sharing of experience between member countries on these issues;
- advise the Secretariat on collecting, analysing and disseminating information on major developments in the nuclear law field at both national and international levels.

The Nuclear Law Committee is also mandated to undertake all other work involving legal issues that may be entrusted to it by the NEA Steering Committee.

The Nuclear Law Committee will co-operate with other NEA standing technical committees. It may set up subsidiary bodies to facilitate the achievement of its goals, invite experts in other fields to attend its meetings, and sponsor meetings of specialists. It may also establish contacts with its counterparts in the European Atomic Energy Community, the International Atomic Energy Agency and other international organisations on matters of common interest.”

- Regulation concerning the Co-ordination System
  - Appendix to the OECD Council Decision adopted at its 690th session [C(88)117/FINAL]
  - Revised by the OECD Council Decision [C(2004)6 and CORR1] adopted at its 1081st session, on 30 March 2004 [C/M(2004)7, Item 107]

### Decision of the Council [C(2004)6 and CORR1]

#### “THE COUNCIL

- a) noted documents C(2004)6 & CORR1, and the 154th Report on the Co-ordinating Committee on Remuneration [CCR/R(2004)2];
- b) reaffirmed the final authority of Member States of the Co-ordinating Committee on Remuneration to issue recommendations on remuneration issues, including those on the remuneration adjustment method;
- c) requested that the CCR examines, as a matter of urgency, alternatives to the current remuneration adjustment method, in order to more closely reflect the real trends in salaries in the national civil services of the reference countries;
- d) adopted the revised Regulations concerning the co-ordination system set out in Annex 1 of the 154th Report. These Regulations shall come into force when adopted in identical terms by the Councils of the six Co-ordinated Organisations;
- e) subjected its adoption of these Regulations to the reservation that the mandate of the concertation group established pursuant to Article 7, paragraph a) shall cease to be in effect on 31 December 2007 unless the Council agrees to its continuation in force;
- f) invited the Secretary-General to communicate this decision to the other Co-ordinated Organisations, as well as to the Committees of the system of co-ordination, with the understanding that the Revised Regulations would have only provisional effect pending acceptance of the reservation set out in paragraph e) by the other Co-ordinated Organisations, either expressly or tacitly within twelve months from notification, and

that, in the event any other co-ordinated Organisation objected to the reservation within that period, the Regulations dated 1 July 1991 would once again be in effect.”

## **ANNEX I**

### **REGULATIONS CONCERNING THE CO-ORDINATION SYSTEM**

“The following Regulations update those which came into effect on 1 July 1991.

For several decades, a co-ordinated system of remuneration has been maintained by a group of international organisations [North Atlantic Treaty Organisation (NATO), European Space Agency (ESA), Organisation for Economic Co-operation and Development (OECD), Council of Europe, Western European Union (WEU) and the European Centre for Medium Range Weather Forecasts (ECMWF)]. These Co-ordinated Organisations at present have more than 50 member States, 11 000 staff members, and 4 000 pensioners. The Co-ordinating Committee on Remuneration (CCR) was established with a role of making recommendations on remuneration, allowances and pensions to the Councils of the Co-ordinated Organisations. The CCR works in conjunction with the Committee of Representatives of the Secretaries/Directors-General (CRSG) and the Committee of Staff Representatives (CRP). The legal and organisational basis for co-ordination is set out in the Regulations below.

#### **Article 1**

##### **Scope of Co-ordination**

(a) The object of the co-ordination system is to provide recommendations to the Governing bodies of the Co-ordinated Organisations, in accordance with the provisions of these Regulations, concerning:

- (i) Basic salary scales, and the method of their adjustment, for all categories of staff and for all countries where there are active staff or recipients of a pension;
- (ii) Pension Scheme Rules;
- (iii) The object, the amount and the method of adjustment of:
  - expatriation allowance
  - household allowance
  - installation allowance
  - dependent person’s allowance
  - daily subsistence allowance
  - kilometric allowance
  - expatriated child’s allowance
  - education allowance
  - handicapped child’s allowance.

(b) According to the procedure referred to in Article 6, recommendations to the Governing bodies are made by the Co-ordinating Committee on Remuneration (CCR), to the extent possible in conjunction with the Committee of Representatives of Secretaries/Directors-General (CRSG) and after consultation with the Committee of Staff Representatives (CRP). Where divergent conditions exist in different Co-ordinated Organisations, recommendations on allowances may take the form of frameworks applicable to all the Organisations, within which each Organisation shall have the flexibility to adopt implementing provisions to meet its specific needs. The CCR shall be kept informed of these provisions.

(c) According to the procedure referred to in Article 6, the CCR shall give its advisory opinion on any question falling within its mandate asked by the Governing body of any Co-ordinated Organisation.

## **Article 2**

### **Co-ordinating Committee on Remuneration (CCR)**

- (a) Each member State of one of the Co-ordinated Organisations may nominate one representative to the CCR who may be assisted by alternate delegates and advisers.
- (b) The CCR shall elect its Chairperson by consensus for a three year mandate extendible on a yearly basis, after consultation with the CRSG and after being informed of the views of the CRP.
- (c) The Chairperson of the CCR shall act as the impartial Chairperson of the whole co-ordination process and shall look after its harmonious, rapid and efficient functioning.
- (d) The Chairperson shall be assisted by one Vice-Chairperson elected annually by the CCR.
- (e) The CCR may designate one of its members to act as its spokesperson.

## **Article 3**

### **Committee of Representatives of the Secretaries/Directors-General (CRSG)**

- (a) The Secretary/Director-General of each Co-ordinated Organisation shall appoint one representative to the CRSG who may be assisted by alternate delegates and advisers.
- (b) The Chairperson and Vice-Chairperson of the CRSG shall be designated according to the procedures established by the CRSG.
- (c) The Chairperson of the CRSG shall act as its spokesperson.
- (d) The Secretaries/Directors-General may meet as the Committee of Secretaries/Directors-General (CSG).
- (e) The CRP shall be given the prior possibility to outline to the CRSG any subjects related to remuneration policy which they consider should be raised at the sessions of the CSG.

## **Article 4**

### **The Committee of Staff Representatives (CRP)**

- (a) The representative statutory body of the staff of each Co-ordinated Organisation and the Association of Pensioned Staff of the Co-ordinated Organisations and of their Dependants (AAPOCAD) may appoint one delegate to the CRP as well as the alternate delegates and advisers who may accompany him/her.
- (b) The Chairperson of the CRP shall act as its spokesperson. He/she may be assisted by a Vice-Chairperson.

## **Article 5**

### **Proposals and work programme**

- (a) The CCR shall adopt a detailed work programme, the draft of which is drawn up by its Chairperson in consultation with the CRSG and the CRP, of all items to be discussed in the next calendar year. This approved work programme shall include the timetable for considering all items mentioned therein. The Secretaries/Directors-General shall submit, each with his/her own comments if appropriate, the CCR work programme to the Governing body of each Co-ordinated Organisation for information and possible suggestions.

(b) The CRSG, after consultation with the CRP, may make proposals relating to matters which fall within the competence of the CCR as defined in Article 1 above, and present them to the CCR accompanied by any comments and views of the CRP.

(c) Any member of the CCR may make proposals to the CCR. After appropriate consultations, the Chairperson of the CCR shall decide which proposals have broad support amongst member States and therefore shall be brought forward for discussion in the joint meetings.

## **Article 6**

### **Recommendations and advisory opinions**

(a) Recommendations, in the form of reports, shall be made by the CCR by consensus and, to the extent possible, in conjunction with the CRSG. The CRP shall be consulted on the draft reports with a view to considering its position.

(b) If no agreement can be reached between the CCR and the CRSG after two meetings following the submission of the proposal, the CCR will issue a report which will reflect the reasons for disagreement and set out dissenting opinions of the CRSG and comments of the CRP. However, discussions concerning the remuneration adjustment method may take longer and could require three meetings.

(c) If no agreement can be reached among the CCR delegates after two meetings following the submission of the proposal, the Chairperson of the CCR shall draft a report in which he/she shall set out the positions that have the largest support of the CCR. Dissenting opinions of CCR delegates as well as the opinion of the CRSG and comments of the CRP shall be set out in the body of the report.

(d) Proposals by the CRSG which are considered non-controversial by the Chairperson of the CCR may be submitted to the CCR through a written procedure. In this case, recommendations shall be considered as accepted by the CCR if no objection has been brought to the attention of the Chairperson of the CCR. Normally any such objection should be brought to his/her attention within three weeks of the notification of the recommendations to the members of the CCR, or before such other deadline as may be set by the Chairperson of the CCR which should be not less than five working days.

(e) Advisory opinions of the CCR shall be made by consensus after consultation of the CRSG and the CRP representatives from the Organisation(s) concerned. In case the subject in question is specifically related to one or more Organisations, the CCR delegations whose country is not a member of the Organisation(s) concerned will exercise due restraint in discussions on the adoption of the opinion. If no agreement can be reached among the CCR delegations after two meetings following submission of the request for an opinion, the Chairperson of the CCR shall draft a report in which he/she shall set out the advisory opinion which has the largest support in the CCR. Dissenting opinions provided in writing shall be annexed to the report.

## **Article 7**

### **Concertation group and formal and informal sessions**

(a) The CCR, CRSG and CRP shall establish a concertation group which will be held as needed, in a flexible manner, either as a preparatory step to open discussion, or as a final attempt to achieve a meeting of minds among the Committees. The concertation group shall be limited to two representatives of each Committee. It shall be chaired by the Chairperson of the CCR. The representatives of the Committees will be expected to take into due account the positions of all their members during discussions in the concertation group.

(b) The CCR, the CRSG and the CRP may meet together, separately or any two together in formal or informal sessions. The Chairperson of the CCR shall act as Chairperson whenever the CCR meets with the CRSG or with the CRP.

## **Article 8**

### Notification and implementation

(a) The Chairperson of the CCR shall notify the Secretaries/Directors-General of all reports, recommendations and advisory opinions. The Secretaries/Directors-General shall transmit these reports, recommendations or advisory opinions, to the Governing body of their Organisations, as soon as possible.

(b) The Governing body of each Co-ordinated Organisation shall decide on the reports, recommendations and advisory opinions made to it by the CCR.

(c) The Secretary/Director-General of each Organisation shall be responsible for the implementation of the decisions.

### Article 9

#### Members and Observers

(a) The Governing bodies of the Co-ordinated Organisations may, after having sought the advice of the CCR, accept unanimously that other international organisations participate in the system of co-ordination as members or observers.

(b) An international organisation may only become a member of the co-ordination system upon approval by its Governing body of the decisions concerning co-ordination then in force.

(c) When an international organisation has been admitted to participate in the system of co-ordination as an observer, the agenda, minutes and documents of the CCR, CRSG and CRP shall be provided respectively to its member countries, Secretary or Director-General and representative statutory body of its staff. Their representatives shall attend as observers the meetings of the CCR, CRSG and CRP.

(d) The Governing body of any Co-ordinated Organisation may decide to terminate the application of these Regulations to that Organisation by giving one calendar year's notice to that effect. It will transmit such a decision to the other Co-ordinated Organisations. In such instance, these Regulations will remain applicable as far as the other Co-ordinated Organisations are concerned.

### Article 10

#### Entry into force

These Regulations shall enter into force when approved by the Governing bodies of the six Co-ordinated Organisations. On such date, the Regulations concerning the co-ordination system dated 1 July 1991 shall be replaced by the present Regulations. After three years of operation of the system, these Regulations may be reviewed by the Governing bodies of the Co-ordinated Organisations."

## **ORGANISATION FOR ECONOMIC CO-OPERATION AND DEVELOPMENT**

The OECD is a unique forum where governments work together to address the economic, social and environmental challenges of globalisation. The OECD is also at the forefront of efforts to understand and to help governments respond to new developments and concerns, such as corporate governance, the information economy and the challenges of an ageing population. The Organisation provides a setting where governments can compare policy experiences, seek answers to common problems, identify good practice and work to co-ordinate domestic and international policies.

The OECD member countries are: Australia, Austria, Belgium, Canada, Chile, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Israel, Italy, Japan, Korea, Luxembourg, Mexico, the Netherlands, New Zealand, Norway, Poland, Portugal, the Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Turkey, the United Kingdom and the United States. The European Union takes part in the work of the OECD.

OECD Publishing disseminates widely the results of the Organisation's statistics gathering and research on economic, social and environmental issues, as well as the conventions, guidelines and standards agreed by its members.
