ANNEX A

Note: Marketing year: See Glossary of Terms for definitions.

Average 2012-14est: Data for 2014 are estimated.

The sources for tariffs and Tariff Rate Quotas are the national questionnaire reply, UNCTAD and WTO.

Disclaimer: <http://oe.cd/disclaimer>

1. Estimated net amounts for all direct payments. Possible reductions of the payments due to the degressivity as well as potential transfers between direct aids and rural development envelopes are not accounted for.
2. Till 2014, EU farmers can be granted the Single payment scheme (SPS) or the Single area payment scheme (SAPS), which provides flat-rate payments independent from current production decisions and market developments. From 2015, it becomes the Basic payment scheme (BPS) and it shall account for 68% maximum of the national direct payment envelopes. On top of this, from 2015 onwards, new compulsory policy instruments are introduced: the Green Payment (30%) and young farmer scheme (2%).
3. Indian input subsidies consist of those for electricity, fertiliser and irrigation.
